MILITARY DEPARTMENT.

Fort William, the 2nd January, 1885.

APPOINTMENTS.

No. 1.—MEDICAL DEPARTMENT—

The undermentioned medical officers transferred to the Bengal Presidency are brought on the strength of the Bengal Medical Establishment from the 7th November, 1884, the date of their arrival at Bombay. Their commissions as such bearing date the 1st April, 1884, the day of their joining at the Army Medical School.

They will be permitted to count as service for full pay pension the period of their residence at the Army Medical School from the 1st April, 1884, to the 4th August, 1884, inclusive :—

Surgeons Hormasjie Edaljie Banatvala and William George Patrick Alpin, from Bombay.

Surgeon George Herbert Fink, from Madras.

No. 2.—HYDERABAD CONTINGENT—

1st Cavalry.

Lieutenant-Colonel H. S. Stewart, Squadron Commander and 2nd-in-Command, 3rd Cavalry, to be Commandant, *vice* Lieutenant-Colonel G. B. Farrington, who has resigned the appointment.

3rd Cavalry.

Captain C. E. Gubbins, Squadron Officer, to be Squadron Commander and 2nd-in-Command, *vice* Lieutenant-Colonel Stewart.

Lieutenant E. F. H. McSwiney, Wing Officer, 6th Infantry, and Officiating Squadron Officer and Adjutant, to be Squadron Officer, *vice* Captain Gubbins.

Lieutenant F. Wyllie, Officiating Wing Officer, 3rd Infantry, to be Officiating Squadron Officer, *vice* Lieutenant McSwiney.

FURLOUGH AND LEAVE.

No. 3.—The undermentioned officers are granted furlough out of India, with the necessary subsidiary leave :—

Colonel H. C. Smith, Bengal S.C., Superintendent, Reserve Depot, Saharunpore, Army Remount Department, (p. a.) for one year and 51 days, under rule IX of the regulations of 1868. (This cancels the furlough granted him in G. G. O. No. 562 of 1884.)

Colonel W. C. S. Clarke, Bengal S.C., Deputy Commissioner, 2nd grade, officiating 1st grade, Assam, (p. a.) for one year and 182 days, under rule IX of the regulations of 1868.

Lieutenant-Colonel A. Bloomfield, Bengal S.C., Deputy Commissioner, 2nd class, Central Provinces, (p. a.) for 273 days, under rule IX of the regulations of 1868.

Major T. Shepherd, Bengal S.C., Squadron Commander, 1st Punjab Cavalry, (p. a.) for one year, under rule IX of the regulations of 1868.

Major A. B. Clare, General List, Infantry, Wing Commander and 2nd-in-Command, 16th Pengal Infantry, (m. c.) under rule XIV, clause 1, of the regulations of 1868.

Surgeon-Major E. Sanders, (p. a.) for 245 days, under rule VIII, clause 2, and rule IX of the regulations of 1868.

Conductor A. B. Cross, Commissariat Department, (m. c.) for one year, under the regulations of 1868.

No. 4.—Brigade Surgeon J. Browne, M.D., is granted leave in India, (p. a.) for 182 days, under rule XXV of the regulations of 1868.

No. 5.—Captain W. H. White, R.E., has been granted an extension of furlough, (p. a.) by the Secretary of State for India, for 25 days.

LONDON GAZETTE.

No. 6.—The following extracts are published for general information :—

"London Gazette," dated the 21st November, 1884, page 5036.

WAR OFFICE, PALL MALL,
21st November, 1884.

Publisher, Gazette of India.

ORDERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The following changes in the Regulations and Bye-laws of the University having been sanctioned by the Senate and approved by His Excellency the Governor General in Council, are published for general information.

In the form of application for the Entrance Examination (Calendar 1884-85, page 76), the words "in my presence" have been added to the certificate to be signed by the Principal or Head Master of the College at which the candidate has been educated, after the words "signed the above application:" and also in the same form under the head of *particulars to be filled in by the candidate* the words "age in years and months" have been substituted for the words "age on the 1st of January next."

In paragraph 1 of the Bye-laws having reference to the Syndicate the word "ten" has been substituted for the word "six" and after the word "proportions" the word "five" has been substituted for the word "three," and after the word "Arts" the word "two" has been substituted for the word "one," and after the word "Law" the word "two" has been substituted for the word "one" (Calendar 1884-85, page 30), so that the paragraph will henceforth run as follows:—

"The Executive Government of the University shall be vested in a Syndicate consisting of the Vice-Chancellor and ten of the Fellows, who shall be elected for one year by the several Faculties in the following proportions:—

Five by the Faculty of Arts.

Two by the Faculty of Law.

Two by the Faculty of Medicine.

One by the Faculty of Engineering."

In paragraph 3 of the Regulations for the Entrance and First Arts Examinations and in paragraph 4 of the Regulations for the B. A.

Examination (Calendar 1884-85, pages 33, 35, 39) the words "six weeks" have been substituted for the words "thirty days."

The following changes have been made in the forms of application of female candidates prescribed in Appendix A for the First Arts and B. A. Examinations.

In the form of application prescribed for the First Examination in Arts (Calendar 1884-85, page 88) for the present list of particulars to be filled in by the candidate, the following list has been substituted, *viz.*:—

Particulars to be filled in by the Candidate.

Date of Entrance—
Race (*i. e.*, nation, tribe, &c., &c.)—
Religion—
Where to be examined—
Whether she has appeared at the First Arts Examination of any previous year—
Language in which, besides English, to be examined—
Alternative subject (*Physics or Botany*)—

In the form of application prescribed in Appendix A for the B. A. Examination (Calendar 1884-85, page 89) for the present list of particulars to be filled in by the candidate the following list has been substituted, *viz.*:—

Particulars to be filled in by the candidate.

Date of Entrance—
Date of passing the First Examination in Arts—
Race (*i.e.*, nation, tribe, &c., &c.)—
Religion—
Where to be examined—
Whether she has appeared at the B. A. examination of any previous year—
Whether she takes up the A Course or the B Course—

Subjects in which she desires to be examined.

No.	Pass.	Honours.
1		
2		
3		

N.B.—(1) *It must be definitely shown whether the candidate takes up the Pass or the Honour Course in each subject by entering it in its appropriate column.*

(2) *It must be definitely stated which alternative subject and which alternative sub-division of each subject the candidate takes up.*

(*Thus* [*A Course*] "3. Second language Latin, *or* 3. History of England, Greece, and Rome; *or* [*B Course*] 3. Physiology and Botany.")

CHARLES H. TAWNEY,
Registrar.

POST OFFICE.

NOTIFICATIONS

Calcutta, the 19th December 1884.

From the 1st January 1885, money orders will be issued in India for payment in any of the following British Colonies and possessions :—

South and West Africa	Newfoundland.
	Bermuda.
	Falkland Islands.
	Cape Colony.
	Gambia.
	Gold Coast.
	Lagos.
	Natal.
	St. Helena.
	Seychelles.
	Sierra Leone.
West Indies	Antigua.
	Bahamas.
	Barbadoes.
	British Guiana.
	Dominica.
	Grenada.
	Honduras (British.)
	Jamaica.
	Montserrat.
	Nevis.
	St. Kitts.
	St. Lucia.
	St. Vincent.
	Tobago.
	Trinidad.
	Turk's Islands.
	Cyprus.
	North Borneo.

2. The conditions under which money orders for payment in any of the above-named Colonies or possessions will be issued are the same as those laid down in the *Indian Postal Guide* for money orders payable in the United Kingdom. The amount of each order may not exceed £10.

3. The rates of commission payable by remitters in India on money orders drawn upon any of the countries or the places named will be the same as on money orders drawn upon the United Kingdom, *viz.* :—

	R	a.
On sums not exceeding £2 Sterling . .	0	4
" " exceeding £2, but not exceeding £ 5 .	0	8
" " " " 5 " " " " 7 .	0	12
" " " " 7 " " " " 10 .	1	0

4. In addition to the above rates, a further commission will be deducted from the amount of the orders by the London Post Office before payment is made in any of the countries or places named. This further commission, which is charged for the service of forwarding the money orders, will be at the following rates :—

On orders not exceeding £2 Sterling in value 3*d.*
On orders exceeding £2, but not exceeding £5 in value . . . . . 6*d.*
On orders exceeding £5 but not exceeding £7 in value . . . . . 9*d.*
On orders exceeding £7 but not exceeding £10 in value . . . . . 1 *shilling.*

A similar deduction will be made by the London Post Office from the value of money orders that may be received for payment in India from any of the Colonies or places referred to.

5. With effect from the same date, the rate of commission chargeable upon money orders drawn on the United States of America will be reduced from 2 per cent., the rate now in force, to the rates mentioned above, and the exchange of money orders with the United States will be assimilated in all respects to that with the countries and places enumerated in the first para. of this Notice.

HENRY F. BLANFORD,
Meteorological Reporter to the Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co. are distributed by that firm; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows:—

Terms of subscription, payable annually in advance.

For the Complete Series, *including postage* . R22 8

	Without postage.	With postage.
For the Calcutta Series	R10 0	R12 8
„ each of the Madras, Bombay and Allahabad Series	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*)		„ 2 0
„ a part of the Madras, Bombay and Allahabad Series purchased separately (*inclusive of postage in India*)		„ 1 0

Persons desiring to subscribe for, or purchase, the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.
„ Thacker & Co., Bombay.
„ Higginbotham & Co., Madras.
The Government Central Book Depôt, Bombay.
„ Curator of Government Books, North-Western Provinces and Oudh.
„ Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1885 should be at once remitted.

NOTICE.

Indian Law Reports.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, by the Calcutta Central Press Company, "Limited," 5—1, Council House Street, at the following rates, payable in advance:—

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 19th December, 1884, and is hereby promulgated for general information :—

ACT No. XXI OF 1884.

An Act to repeal the Straits Settlements Emigration Act, 1877, and to amend the Indian Emigration Act, 1883.

WHEREAS it is expedient to repeal the Straits Settlements Emigration Act, 1877, and to amend the Indian Emigration Act, 1883, in manner hereinafter appearing; It is hereby enacted as follows :—

1. The Straits Settlements Emigration Act, 1877, is repealed. V o

New section substituted for section 102 of Act XXI of 1883.

2. For section 102 of the Indian Emigration Act, 1883, the following section shall be substituted :— XX

Power for Governor General in Council to exempt emigration to Native States adjoining the Straits Settlements from Act.

"102. On and from such a date as the Governor General in Council may, by notification in the *Gazette of India*, fix in this behalf, a Native of India who departs by sea out of British India under an agreement to labour for hire in any protected Native State adjoining the Straits Settlements to which the notification refers shall not be deemed to emigrate within the meaning of this Act."

D. FITZPATRICK,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 2nd January, 1885, and is hereby promulgated for general information :—

ACT No. 1 OF 1885.

An Act to amend the Burma Steam-boilers and Prime-movers Act, 1882.

WHEREAS it is expedient to amend the Burma Steam-boilers and Prime-movers Act, 1882; It is hereby enacted as follows :—

1. This Act may be called the Burma Steam-boilers and Prime-movers Act, 1885; and it shall come into force at once.

Short title and commencement.

2. In section 4 of the Burma Steam-boilers and Prime-movers Act, 1882, after the words "first or second class" the words "or as engine-drivers" shall be added.

Amendment of section 4 of Act XVIII of 1882.

XVIII of 1882.

3. In section 5, sub-section (2), section 8, clause (*b*), and section 11, clause (*b*), of the said Act, after the word "engineer" the words "or in the case of a boiler or prime-mover attached to an engine of not more than twenty horse-power of an engineer or engine-driver" shall be inserted.

Amendment of sections 5, 8 and 11 of same Act.

PART V.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 19th December, 1884, and was referred to a Select Committee :—

No. 18 OF 1884.

A Bill to repeal part of section 6 of the Indian Tariff Act, 1882, and to amend the Excise Act, 1881, and the Bengal Excise Act, 1878.

WHEREAS it is expedient to repeal part of section 6 of the Indian Tariff Act, 1882, and to amend section 7 of the Excise Act, 1881, and section 18 of the Bengal Excise Act, 1878; It is hereby enacted as follows :—

1882. of 1881. Act 1878.

1882. Repeal of part of section 6 of Act XI of 1882.

1. The part of section 6 of the Indian Tariff Act, 1882, beginning with the words "And whereas," down to and including the words "been paid," is repealed.

XXII of 1881. Amendment of section 7 of Act XXII of 1881.

2. For clause (*a*) of section 7 of the Excise Act, 1881, the following clause shall be substituted :—

"(*a*) such duty as the Local Government may from time to time fix in respect of such spirit has been paid."

Beng. VII of 1878. Amendment of section 18 of Bengal Act VII of 1878.

3. In section 18 of the Bengal Excise Act, 1878 for the words "at the rate leviable under any Tariff Act for the time being in force" the words "at such rate as the Local Government may from time to time fix in respect of such spirituous liquor" shall be substituted; but nothing in this section shall affect any Act passed after this Act comes into force by the Lieutenant-Governor of Bengal in Council.

XI of 1882. Saving of duties already fixed under section 6 of Act XI of 1882.

4. The duty now fixed by the Local Government under section 6 of the Indian Tariff Act, 1882, as leviable on spirit manufactured in all or any of the distilleries situate in the territories under its administration, or in any part of such territories, shall, in places in which the Excise Act, 1881, or the Bengal Excise Act, 1878, is in force, be deemed to be the duty fixed by the Local Government under sections 7 and 18 of those Acts, as amended by this Act, respectively,

XXII of 1881. Beng. Act VII of 1878.

STATEMENT OF OBJECTS AND REASONS.

THE Government of Madras recently submitted a draft Bill to consolidate and amend the Abkari law of the Presidency of Madras, for sanction to its introduction in the local Legislative Council, and, on examination of its provisions, it was found that two clauses of one of its sections, imposing a duty on liquor, were, as applied to spirit, *ultra vires* of the local legislature, as the mode of fixing the excise duty on spirit is determined by section 6 of the Indian Tariff Act, 1882. It was also feared that the penultimate clause of the latter section, by keeping in force, under the authority of the Governor General's Legislative Council, an unexplored mass of law existing on the 10th March, 1882, might render other provisions of that Bill *ultra vires*.

This in itself would make it necessary that legislation should be resorted to in the Council of the Governor General in order to prevent the Madras Bill from being declared invalid; and as,

moreover, section 6 of the Tariff Act must seriously hamper any local legislature contemplating legislation like that proposed by the Madras Government, it is proposed to repeal that section, leaving it to the Local Governments to deal with the mode of fixing the duties of excise on spirit, under the other enactments locally in force, subject, so far as any discretion is allowed to them by those enactments, to the general executive control of the Government of India.

The present Bill has accordingly been prepared. It first repeals section 6 of the Tariff Act except the last clause amending section 1 of Act XVI of 1863, which Act is still in force. It then amends section 7 of the Excise Act, 1881, and section 18 of the Bengal Excise Act, 1878, which at present contain references to the provisions of section 6 of the Tariff Act, by omitting these references and conferring on the Local Governments concerned power to fix the duty payable in respect of country spirit. Lastly, in order to prevent any question being raised as to the effect of the repeal of section 6 of the Tariff Act, the Bill declares that duties already fixed by the Local Government under section 6 of the Tariff Act shall be deemed to be duties fixed by the Local Government under sections 7 and 18 of the Excise Act, 1881, and the Bengal Excise Act, 1878, as amended by this Act, respectively.

The 13th December 1884.

A. COLVIN.

D. FITZPATRICK,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 19th December, 1884, and was referred to a Select Committee:—

No. 19 OF 1884.

A Bill to amend the law relating to the carriage of passengers by sea.

WHEREAS by section 99 of an Act of the Imperial Parliament called "the Passengers Act, 1855," it is enacted that "it shall be lawful for the Governor General of India in Council, from time to time, by any Act or Acts to be passed for that purpose, to declare that this Act or any part thereof shall apply to the carriage of passengers upon any voyage, from any ports or places within the territories of British India, to be specified in such Act or Acts, to any other places whatsoever, to be also specified in such Act or Acts;" and it is thereby also enacted that "on the passing of such Indian Act or Acts, and whilst the same shall remain in force, all such parts of this Act as shall be adopted therein shall apply to and extend to the carriage of passengers upon such voyages as in the said Indian Act or Acts shall be specified. The provisions of such Indian Act shall be enforced in all Her Majesty's possessions in like manner as the provisions of this Act may be enforced;"

And whereas certain parts of the said Act of Parliament were by Act II of 1860 (*to amend the law relating to the carriage of passengers by sea*) made applicable to the carriage of passengers upon certain specified voyages;

And whereas by an Act of the Imperial Parliament called "the Passengers Act Amendment Act, 1863," certain parts of the Passengers Act, 1855, which were so made applicable have been amended, and it is provided that the said Acts of the Imperial Parliament shall be construed together as one Act;

And whereas it is expedient that the amendments so made in the Passengers Act, 1855, should also be made in the parts of that Act so made applicable, and it is also expedient to apply those parts so amended to the carriage of passengers upon certain voyages not specified in Act II of 1860;

It is hereby enacted as follows:-

Short title and commencement.

1. (*1*) This Act may be called the Indian Sea Passengers Act, 1885: and [New.]

(*2*) It shall come into force on the first day of March, 1885. [New.]

Repeal of Act II of 1860.

2. On and from the day on which this Act comes into force, Act II of 1860 (*to amend the law relating to the carriage of passengers by sea*) shall be repealed. [New.]

Certain provisions of the Statutes made applicable to specified voyages from India.

3. The provisions contained in sections 4, 5 and 6 of this Act, and the schedule hereto annexed (being parts of the Passengers Act, 1855, as amended by the Passengers Act Amendment Act, 1863), are declared applicable to the carriage of passengers upon the following voyages, namely:— [Act II of 1860 s. 1, Act VII of 1871, ss. 23 and 24.] [New.] 18 & 19 Vic., c. 119. 26 & 27 Vic., c. 51.

(*a*) Voyages from the ports of Calcutta, Madras and Bombay to the British Colonies of Mauritius, Jamaica, British Guiana, Trinidad, St. Lucia, Grenada, St. Vincent, Natal, St. Kitts, Nevis and Fiji; [New.]

(*b*) Voyages from the ports of Calcutta, Madras and Bombay to the French Colonies of Réunion, Martinique, Guadeloupe and its dependencies, and Guiana; [New.]

(*c*) Voyages from the ports of Calcutta, Madras and Bombay to the Netherlands colony of Dutch Guiana; [New.]

(*d*) Voyages from the ports of Calcutta, Madras and Bombay to the Danish colony of St. Croix; [New.]

(*e*) Voyages under the Native Passenger Ships Act, 1876, from Calcutta Madras, Bombay, Karáchí, Rangoon and other ports in British India to the Straits Settlements, to the protected Native States adjoining the Straits Settlements, to Australia, and to ports in the Red Sea or Persian Gulf. VIII of 18

Act II of 1860, s. 2.]

Governors or Consuls may pay expenses of passengers taken off passenger-ship.

4. If the passengers upon any such voyage as is specified in the last preceding section are taken off from the ship carrying such passengers, or are picked up at sea from any boat, raft or otherwise, it shall be lawful, if the port or place to which they shall be conveyed is in any of Her Majesty's colonial possessions, for the Governor of such colony, or for any person authorized by him for the purpose, or, if in any foreign country, for Her Majesty's Consular officer, at such port or place therein, to defray all or any part of the expenses thereby incurred.

Act II of 1860, s. 3, 26 & 27 Vic., c. 51, s. 5, New.]

Governors or Consuls may send on passengers, if the master of the ship fail to do so.

5. If any passenger of any such passenger-ship as aforesaid, without any neglect or default of his own, finds himself within any colonial or foreign port, or place other than that for which the ship was originally bound, or at which he, or the Emigration Agent, or any public officer or other person on his behalf, has contracted that he should land, it shall be lawful for the Governor of the colony, or for any person authorized by him for the purpose or for Her Majesty's Consular officer at the foreign port or place, as the case may be, to forward the passenger to his intended destination, unless the master of the ship, within forty-eight hours of the arrival of such passenger, gives to the Governor or Consular officer, as the case may be, a written undertaking to forward or carry on within six weeks thereafter the passenger to his original destination, and unless the master accordingly forwards or carries him on within that period.

Act II of 1860, s. 4, 26 & 27 Vic., c. 51, s. 6.]

Expenses incurred under sections 4 and 5 to be a Crown debt.

6. (1) All expenses incurred under the last two preceding sections, or either of them, by or by the authority of a Governor or Consular officer, or other person as therein respectively mentioned, including the cost of maintaining the passengers until forwarded to their destination, and of all necessary bedding, provisions and stores, shall become a debt to Her Majesty and Her successors from the owner, charterer and master of the ship, and shall be recoverable from them, or from any one or more of them, at the suit and for the use of Her Majesty, in like manner as in the case of other Crown debts.

New.]

(2) A certificate in the form given in the Schedule hereto annexed, or as near thereto as the circumstances of the case will admit, purporting to be under the hand of any such Governor or Consular officer (as the case may be), stating the total amount of the expenses, shall, in any suit or other proceeding for the recovery of the debt, be received in evidence without proof of the handwriting or of the official character of the Governor or Consular officer, and shall be deemed sufficient evidence of the amount of the expenses, and that the same were duly incurred;

[New.] nor shall it be necessary to adduce on behalf of Her Majesty any other evidence in support of the claim, but judgment shall pass for the Crown, with costs of suit, unless the defendant specially pleads and duly proves that the certificate is false or fraudulent, or specially pleads and duly proves any facts showing that the expenses were not duly incurred:

Provided, nevertheless, that in no case shall any larger sum be recovered on account of the expenses than a sum equal to twice the total amount of passage-money received or due to and recoverable by or on account of the owner, charterer or master of the passenger-ship or any of them from or on account of the whole number of passengers who may have embarked in the ship; which total amount of passage-money shall be proved by the defendant if he will have the advantage of this limitation of the debt: but if any such passengers are forwarded or conveyed to their intended destination under the provisions of the last preceding section, they shall not be entitled to the return of their passage-money, or to any compensation for loss of passage.

THE SCHEDULE.

Form of Governor's or Consul's Certificate of expenditure in the case of Passengers shipwrecked &c. [26 & 27 Vic., c. 51, Sch. [New.]

(See section 6.)

(a). *N. B.*—1. If more passengers were rescued than forwarded, or if bedding, &c., was not supplied, alter the certificate to suit the facts of the case.

(b). *N. B.* 2 State generally the nature of the disaster and where it occurred. But if the passengers were only left behind without any default of their own, state the fact accordingly.

I hereby certify that acting under, and in conformity with, the provisions of the Indian Sea Passengers Act, 1885, I have defrayed the expenses incurred in rescuing, maintaining, supplying with necessary bedding, provisions and stores (*a*), and in forwarding to their destination passengers who were proceeding from to in the passenger-ship which was wrecked at sea, &c. (*b*).

And I further certify, for the purposes of the sixth section of the said Indian Sea Passengers Act, 1885, that the total amount of such expenses is , and that such expenses were duly incurred by me under the said Act.

Given under my hand this day of 18 .

{ *Governor of &c.*, (or, as the case may be). *Her Britannic Majesty's Consul at* .

STATEMENT OF OBJECTS AND REASONS.

ACT II of 1860 declares certain parts (namely, sections 52, 53 and 54) of the English Passengers Act, 1855 (18 & 19 Vic., cap. 119) to be applicable to the carriage of passengers upon voyages from the ports of Calcutta, Madras and Bombay to the colonies of Mauritius, Jamaica, British Guiana, Trinidad, St. Lucia and Grenada, and from ports in British India to ports in the Red Sea or Persian Gulf. The colonies mentioned were the places to which emigration was then lawful. Since 1860, emigration to the colonies of Fiji, Natal, Réunion, St. Croix, Guadeloupe, Martinique, Dutch Guiana, St. Vincent, Nevis and St Kitts has been sanctioned. With respect, however, to voyages to places not specified in Act II of 1860, that

Act gives no power to any authority to recover expenses incurred in forwarding shipwrecked passengers to their destination and in maintaining them until they are so forwarded. At present, therefore, the voyages to which the Act does not apply are more numerous than those to which it does.

2. Again, the Act, as it stands at present, is, if strictly construed, inapplicable to the conditions under which emigration from India is usually conducted. Section 3 of the Act, following section 53 of the English Passengers Act, 1855, runs as follows:—"If any passenger * * * find himself within any colonial or foreign port or place other than that at which *he may have contracted to land*," &c. But as a rule, emigrants from India do not themselves contract with the owners or charterers of the vessels in which they emigrate. In all cases falling under the Indian Emigration Act VII of 1871 (or which may fall under the Indian Emigration Act XXI of 1883, when that Act is brought into force) the contract is made by a recruiter for the colony importing labour, under the supervision of the Protector of Emigrants. Emigrants despatched in this way are therefore technically excluded from the provisions of Act II of 1860. A similar difficulty appears to have arisen in England, and to have been met by an amendment of the law. Section 12 of the English Passengers Act Amendment Act, 1863 (26 & 27 Vic., cap. 51), repeals section 53 of the English Passengers Act, 1855, and section 15 of the former Act substitutes for the words "other than that at which he may have contracted to land" the words "other than that for which the ship was originally bound, or at which he or the Emigration Commissioners, or any public officer, or other person on his behalf, may have contracted that he should land".

3. These two defects in the Act came to notice in connection with the following occurrence. In the end of April last, the steamer *Laleham*, carrying emigrants from Calcutta to Dutch Guiana, grounded off Ceylon, and was compelled to land her passengers at Trincomalee. The *Laleham* returned to Calcutta, where she was examined by the Engineer-Surveyor to the port, and reported "unseaworthy and unfit to proceed to sea without serious danger to human life". The Agents of the *Laleham* at first proposed to substitute another vessel, but subsequently declined to do so, offering merely to have the *Laleham* repaired at Calcutta, and to fulfil her charter-party by re-embarking the coolies at Trincomalee and taking them on to Surinam.

The Advocate General of Bengal, on being consulted, was of opinion that no action could be taken under Act II of 1860, and that the matter would be governed by the charter-party. Surinam, he said, being in Dutch Guiana, is not a place to which Act II of 1860 applies. He thought further that the English Passengers Act Amendment Act, 1863, would be construed strictly, and according to such construction he did not think that the words of section 3 of Act II of 1860 would cover the break-down in a voyage to which that Act applied, in any case other than that in which the passenger had himself contracted.

Under these circumstances legislation seems necessary in order to bring Act II of 1860 into conformity with the present system of emigration and the English Passengers Act Amendment Act, 1863.

The present Bill has accordingly been prepared. It repeals and re-enacts Act II of 1860 with the necessary amendments. Section 3 of the present Bill declares the subsequent provisions of the Bill (being parts of the English Passenger Act, 1855, as amended by the Passengers Act Amendment Act, 1863) to be applicable to all voyages to certain specified colonies and places, which are, in fact, the colonies and places to which under the existing law emigration is now lawful or is likely to be legalized; and in sections 5 and 6 the amendments made by the English Passengers Act Amendment Act, 1863, in sections 53 and 54 of the English Passengers Act, 1855 (which formed sections 3 and 4 of Act II of 1860) are incorporated with some slight modifications so as to adapt them to this country.

The 5th December, 1884.

C. P. ILBERT.

D. FITZPATRICK,
Secretary to the Government of India.

SUPPLEMENT TO

The Gazette of India.

Nº 1. CALCUTTA, SATURDAY, JANUARY 3. 1885.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.*

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.*

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

RESOLUTION.

The Resolution of the Home Department, No. 25—1480 to 1484, dated 5th November 1883, set forth the conclusions at which the Governor General in Council had arrived as to the legislation in amendment of the present* law, necessary to place the importation of petroleum into India on a safe and satisfactory basis. In this Resolution the points in regard to which the existing law appears defective were fully described, and the circumstances were explained under which, in order to secure the preparation of a complete and satisfactory amended Schedule to the Act, a further reference was considered necessary to the Board of Analysts in Bengal. The report of the Bengal Analysts, together with the comments of Surgeon-Major Lyon, the Bombay Analyst, thereon was in due course received and forwarded to Her Majesty's Secretary of State under cover of the Despatch from the Government of India, No. 27, dated 11th July 1884, in view to the whole matter being once more laid before Sir Frederick Abel. The Government of India having now received through the Secretary of State the final advice of Sir F. Abel as to the Schedule and generally as to the amendment of the Act, is in a position to deal with the subject in a comprehensive manner and to proceed with the legislation which is necessary in order to give effect to such modifications as have been shewn to be desirable in the existing procedure.

* The Petroleum Act, VIII of 1881.

2. As regards the amendment of the Schedule to the Act, Sir F. Abel has submitted a revised Schedule of Instructions which he confidently recommends for adoption in India. This Schedule has been prepared in conjunction with Mr. Redwood and Dr. Warden, the Professor of Chemistry in the Medical College, Calcutta, and Chemical Examiner to Government, and after personal discussion with Professor Pedler of the Presidency College, Calcutta. It embodies very definite directions regarding the sampling and testing of petroleum and it lays down in a most detailed manner the procedure to be adopted. The Governor General in Council believes that the adoption of this Schedule will meet all the difficulties which have been found to occur under the present law in regard to the sampling and testing of petroleum, and that, if the procedure therein described is carefully followed, there is every reason to hope that trustworthy and generally concordant results will be obtained. The necessary steps will accordingly be taken to embody this Schedule in the amended Act.

3. In paragraphs 5 to 7 of the Resolution of 5th November 1883, the reasons were explained which appeared to the Government of India to render unnecessary any change in the existing standard of 73° F. fixed by the Act for dangerous petroleum. To this opinion the Governor General in Council adheres, but, in view of the possibility of variations in the application of the test, which according to the opinions of the experts may, even with the utmost care, cause deviations of 2° or 3° in the results, the Government of India now proposes to raise the nominal legal minimum standard for non-dangerous petroleum to 76°, oil being allowed to pass which on an average of tests does not fall below that standard by more than 3°. Sir F. Abel has expressed himself as decidedly in favor of this proposal, and effect will be given thereto. It will also be provided that a consignment represented to be of one uniform quality shall not be admitted without rectification if on testing it is found that any portion of the consignment gives a flashing point below 70°. Sir F. Abel has properly pointed out that such instrumental or experimental errors as it may not be possible altogether to eliminate by the most carefully prepared instructions for use in India, and the possibility of causes, independent of the test, operating to produce a depression of the flashing point of an oil when examined in India, can be met by the importation of oil having a flashing point not below 76° Fahrenheit, as determined at the port of shipment.

4. In their report of the 16th February 1884, the Bengal Analysts, Messrs. Warden and Pedler, urged the importance of maintaining an Indian standard instrument for testing purposes, and the Government of India, in addressing the Secretary of State, expressed an opinion that the establishment of an Indian standard is essential to prevent disputes and difficulties. Sir F. Abel entirely

concurs in this opinion, and has suggested that, in view of the desirability of subjecting the instruments in use in India to verification at least once in five years, a standard instrument, preserved solely for that purpose, should be placed in charge of some competent authority in India, together with a sufficient number of spare instruments (with an extra supply of thermometers) so that one or more may be at once supplied for use during the re-verification of the instrument or instruments belonging to any particular station. Sir F. Abel also advises that the testing instruments required for use in India should be standardised in England before their transmission to India, this standardising being performed at the War Department Chemical Establishment at Woolwich. The adoption of these proposals approves itself to the Governor General in Council. The Indian standard instrument, which will be specially constructed under the direction of Sir F. Abel, will be placed in charge of the Chemical Examiner to Government, Calcutta, whose duty it will be to compare therewith new instruments sent out to India after being standardised at Woolwich, and to afford shippers of petroleum the opportunity of standardising their private instruments, if they should think fit to apply for this.

5. The Government of India consider it desirable to notice here a separate correspondence* which has taken place on the subject of the treatment of gasoline and similar products falling within the legal definition of "dangerous petroleum." Complaints having been made that a particular consignment of gasoline was treated with unnecessary severity at Calcutta under the rules issued† by the Bengal Government with the previous sanction of the Governor General in Council to regulate the importation of petroleum, it was thought expedient to ascertain the existing English practice in this matter, and Sir F. Abel was at the same time asked to state whether, in his opinion, any relaxation of the rules should be allowed in respect to such products in India. In reply Sir F. Abel has described the nature of the rules in force in England in regard to such products, and has expressed his opinion that the rules issued by the Bengal Government are similar to, and not more stringent than, the bye-laws laid down by Harbour Authorities in Great Britain and approved by the Board of Trade. Sir F. Abel considers that the very volatile, and therefore comparatively dangerous, nature of the class of products included under the term "dangerous petroleum" renders necessary the application of special precautionary measures in connection with their importation into Indian ports, and he is opposed to the relaxation in any point of the clauses of the existing Petroleum Act relating to such products. These views entirely commend themselves to the Governor General in Council. There is, however, one point in the Bengal rules of the 18th July 1882, to which Sir F. Abel refers as involving possible hardship, of which importers of petroleum might reasonably complain, and that is the possibility of delay in the carrying out of the conditions of rules‡ 6 and 8. In order to provide for this Sir F. Abel suggests that definite limits of time should be specified within which samples of shipments of "uncertificated" petroleum should be taken, and within which the reports thereon by the Chemical Examiner should be deposited in the Office of the Port Commissioners. This suggestion commends itself to the Governor General in Council, and the Bengal Government will be requested to make the necessary addition to the rules.

* Despatch from Her Majesty's Secretary of State for India, No. 18 (Statistics and Commerce), dated 24th January 1884, and endorsement thereon to Government of Bengal, No. 335, dated 1st March 1884.
Letter from Government of Bengal, No. 872 T.M., dated 21st June 1884.
Despatch to Her Majesty's Secretary of State for India, No. 26, dated 11th July 1884.
Despatch from Her Majesty's Secretary of State for India, No 135 (Statistics and Commerce), dated 30th October 1884.

† Notification, dated 18th July 1882, published in *the Calcutta Gazette* of 19th idem.

‡ 6.—(1) When a ship is stopped at Budge-Budge under Rule 4, or at Mutteea Brooj Ghat under Rule 5, the Superintendent of River Police or one of his assistants shall, as soon as possible go on board and obtain samples—in the former case, of all the uncertificated petroleum, and if there is certificated petroleum on board which together with the uncertificated petroleum, amounts to more than 500 gallons, of that certificated petroleum; in the latter case, of all the petroleum on board which has not been reported not dangerous.

(2) The master shall give to the Superintendent or his assistant a sample of every variety of petroleum comprised in the petroleum of which samples are to be taken under clause (1), and shall, if the Superintendent or his assistant so require, take those samples from the particular receptacles indicated by him.

(3) The Superintendent or his assistant shall forthwith seal the receptacles containing the samples, and having labelled them with the name of the ship, the name of the consignee, and such other distinguishing marks as may be necessary, shall forward them to the Chemical Examiner for report; and the Chemical Examiner, having tested them, shall sign a report declaring that they are or are not dangerous petroleum (as the case may be), and forward that report to the Office of the Port Commissioners, where it shall be deposited.

* * * * *

8. If the uncertificated petroleum on board a ship exceeds 40 gallons, no portion of it shall be landed until the Chemical Examiner's report in respect of it has been deposited in the Office of the Port Commissioners as hereinbefore provided.

6. In connection with this correspondence regarding the treatment of gasoline and similar products falling under the legal definition of "dangerous petroleum," Sir F. Abel has further stated his opinion that two minor amendments should be made in the existing Indian Act. It is suggested that the provisions of Section 6 of the Act, which relate to the marking of vessels containing dangerous petroleum, and which provide that all such vessels "shall bear an indelible mark or a label in conspicuous characters, stating the nature of the contents thereof" should be brought into accordance with the English law, which lays down that the label shall state in conspicuous characters the description of the petroleum, with the addition of the words "highly inflammable" and with the addition of the name and address of the consignee or owner or of the sender or vendor. Looking, moreover, to the comparatively fragile nature of glass vessels and to the possibility of such vessels, even if "securely stopped," which are filled with the highly volatile liquids included under the head of "dangereus petroleum," bursting if exposed to powerful sunlight for a brief period, or even if kept for some time in localities where the temperature is high, Sir F. Abel doubts the prudence of including *glass* vessels among those specified in Section 5 of the Indian Act as vessels which may be used for the storage of small quantities of dangerous petroleum. On both of the above points the views of Sir F. Abel are accepted by the Government of India, and effect will be given thereto in the amended Act.

7. In conclusion, the Governor General in Council desires to express his appreciation of the very valuable advise and assistance which have been rendered to the Government of India by Sir F. Abel in this matter. The question of the manner in which oils should be treated in India, so as on the one hand to provide sufficient safeguards for the public, and on the other to relieve the trade from all unnecessary risk and restrictions, has formed the subject of the most patient and exhaustive enquiry, and the Government of India trusts that the amendment of the Act on the lines set forth in the resolution of 5th November 1883, as modified and supplemented by the present orders, will suffice to meet all the objects in view and to place the entire matter once for all on a permanently satisfactory footing.

Letter from Government of Bengal, No. 585, dated 14th March 1884, and enclosures.
Letter from Government of Bombay, No. 2109, dated 18th June 1884, and enclosures.
Extract paragraphs 1 to 5 of Despatch to Secretary of State, No. 27, dated 11th July 1884, with schedule annexed thereto.
Extract paragraphs 1 to 3 of Despatch from Secretary of State, No. 130, dated 16th October 1884, and enclosures.
Despatch from Secretary of State, No. 135, dated 30th October 1884, and enclosures.

ORDER.—Ordered, that this Resolution, together with copies of the papers marginaly noted, be forwarded to the Legislative Department, with a request that a Bill may be drafted to amend the Petroleum Act VIII. of 1881 on the lines indicated in the Resolution.

Ordered also, that this Resolution, together with copies of the papers marginally noted, be forwarded to the Government of Bombay for information, and to the Government of Bengal with a request that steps may be taken to make the necessary addition to the rules referred to in paragraph 5.

Extract paragraphs 1 to 5 of Despatch to Secretary of State, No. 27, dated 11th July 1884, with schedule annexed thereto.
Extract paragraphs 1 to 3 of Despatch from Secretary of State, No. 130, dated 16th October 1884, and enclosures.
Despatch from Secretary of State, No. 135, dated 30th October 1884, and enclosures.

REVISED ESTIMATE FOR THE SITTANG VALLEY RAILWAY.

No. 1078 R. C., dated 17th December 1884.

RESOLUTION—By the Government of India, Public Works Department.

Read again—

Railway Despatch from Her Majesty's Secretary of State for India, No. 88 of the 30th June 1881.

Letter No. 6568 of the 24th October 1884, from the Chief Commissioner, British Burma, and enclosures.

Read now the following :—

No. 1771, dated 26th November 1884.

Office Memo. from —The Officiating Under-Secretary to the Government of India, Department of Finance and Commerce,

To—The Secretary to the Government of India, Public Works Department.

The undersigned is directed to convey the sanction of the Government of India to the Revised Estimate, amounting to ₹1,22,56,118, for the Sittang Valley Railway, British Burma.

ORDER.—Ordered, that this Resolution be communicated to the Chief Commissioner, British Burma, and the Accountant General, Public Works Department, for information.

Also, that it be published in the Supplement to the *Gazette of India*.

W. S. TREVOR, *Colonel, R.E.*,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 31st DECEMBER 1884.

GENERAL REMARKS.—Rain has fallen in all districts of the Madras Presidency, but nowhere so heavily as during the week preceding that under report. No report has been received from Mysore, and in Coorg there has been little or no rain. Rain has fallen throughout the Deccan and Southern Mahratta Country and parts of Guzerat and the Konkan, where it was needed most, but more rain is still required in parts of some districts. Rain in varying quantities has fallen throughout the Central India States and at some places in Rajputana. In the Berars there has been good rain and the weather continues cloudy. No report has been received from Hyderabad. Slight rain has fallen generally throughout the North-Western Provinces and Oudh and the weather continues seasonable. Except at Lahore and Amritsar, no rain has fallen in the Punjab. In the Central Provinces there have been occasional showers which have proved beneficial to the crops. In Bengal a little rain has fallen in more than half a dozen districts.

There is little or no change to record in agricultural operations. Harvesting continues in Madras and standing crops are generally in good condition, except in Bellary and Kurnool where they are in want of more rain, and in Tanjore where they have been damaged by excessive rain and floods.

In Bombay *rabi* prospects have been improved by the recent rain, and in the Central Provinces, the North-Western Provinces and Oudh, and Punjab the condition of the crops is generally very good. The *rabi* crops are also promising in Bengal, where the *amun* paddy is still being harvested, the outturn being fair in some districts. In British Burma the rice harvest has been completed in some and is well advanced in other districts; the outturn has been satisfactory. The public health is generally good. In Tanjore and Madura the mortality from cholera is still heavy.

Prices are fluctuating in Bengal and the Punjab, but elsewhere generally stationary.

Presidency or Province and District.	Rainfall for week preceding.		* State of agricultural prospects.
Madras—(Dec. 31st)			
Bellary . . .	Average	·28	More rain wanted; standing crops, dry and wet, withering from want of rain; harvest paddy and dry grains, yield below average.
Kurnool . . .	„	·15	Standing crops good except in 1 division, and in parts of 3 taluks; where they are withering for want of rain; cereals being harvested; outturn below average.
Ganjam . . .	„	·15	Harvest paddy, outturn average; cholera slight.
Kistna . . .	„	·14	Standing crops generally good; harvest paddy, outturn about average; river 2·65 feet over anicut; smallpox, fever, and cattle-disease exist; one death from cholera.
Chingleput . . .	„	·97	Standing crops fair, except where damaged by excessive rain and floods; harvest paddy, outturn below half the average; smallpox and cattle-disease prevalent; 47 deaths from cholera.
Coimbatore . . .	„	1·03	Standing crops generally good, but damaged by insects in parts; harvest paddy near average; dry grains below average; fever exists; 307 deaths from cholera.
Tanjore . (Dec. 20th)	„	12·29	Freshets in rivers 4 to 13 feet; standing crops considerably damaged by excessive rain and floods; harvest paddy in one taluka, outturn below average; cholera increasing, 396 deaths.
Do. . („ 31st)	„	·47	Rivers 4 to 12 feet; standing crops considerably damaged by late floods; harvest paddy and *ragi*, outturn below average; cholera increasing, 632 deaths.
Madura . („ 20th)	„	1·73	Cholera increasing, 119 deaths.
Do. . („ 31st)	„	·25	Cholera increasing, 226 deaths.
Malabar . . .	„	·18	Standing crops fair, and harvest commenced in 3 taluks; smallpox slight, fever in two taluks, 27 deaths from cholera.
Travancore . .	„	·52	Standing crops paddy good; smallpox, fever, and cholera exist. *General Remarks.*—General prospects fair; rain in parts of Bellary; prospects not improved in Anantapur.
Bombay—(Dec. 31st)			
Karachi . . .		*Nil*	iver at Kotri on 26th, 5 feet 3 inches; cholera in Jati taluka only, 4 cases remaining; smallpox in 11 villages in the district; 27 fresh cases, 3 deaths, 18 remaining sick; fever generally prevalent; cattle-disease in 5 talukas, loss of 199 buffaloes and 137 cows and bullocks; prices—wheat, red rice, and *bajri* in Karachi 26, 28, and 40, in Manjhand 32, 34, and 40; in Tatta 28, 40, and 38, and in Shahbandar 20, 36, and 38 lbs. per rupee respectively.
Hyderabad . . .	. . . .		*Rabi* prospects good; smallpox in 2, measles in 1, fever in 7, and cattle-disease in 4 talukas; wheat 30, *jowari* 44, *bajri* 42, red rice 32, and white rice 20 lbs per rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Ahmedabad		Standing crops healthy; fever in some talukas; wheat 31 and *bajri* 34 lbs. per rupee.
Surat	·01	Total rainfall 40·34 inches; standing crops healthy; fever in 5 talukas; *jowari* 37 and *nagli* 46 lbs. per rupee.
Násik		*Rabi* crops likely to be damaged by the recent heavy rainfall; public health generally good; wheat 40, *bajri* 34, and rice 21 lbs. per rupee.
Colaba (Bombay)		Average abnormal temperature 1° cool; vapour in air excessive from 24th to 27th and on 30th; wind normal; distant lightning on 25th and 26th.
Poona	Rain throughout the district; maximum 2·75 inches at Jannar; minimum ·88 at Maval.	The early rain has improved standing crops in Indapur, Sirur, and Bhimthadi talukas; *bajri* 33 and *jowari* 37 lbs. per rupee; in Poona *bajri* 32 and *jowari* 39 lbs. per rupee.
Ahmednagar	Rain general, maximum 4 inches at Navasa.	Prospects of *rabi* improved; rates in Kopargaon—*bajri* 36 to 45 and *jowari* 35 to 60 lbs. per rupee.
Sholapore	In Sholapur 1·82, in Barsi 1·22, in Madha, 2·51, in Karmala 1·66, in Pandharpur 3·52, in Sangola 2·82, and in Malsiras 2·53 inches.	Rainfall favourable to such young *rabi* crops as had not previously withered up; *jowari* 33 lbs. 37 tolas and *bajri* 33 lbs. 10 tolas per rupee.
Dharwar	In Dharwar 2·65, in Nargund 1·4, in Kod 1·8, in Hubli ·51, in Navalgund ·72, in Gadag ·13, in Mundargi ·38, in Bankapur ·56, in Ranibennur ·20, in Hangal ·15, in Kalghatgi ·12, and in Ron ·40.	This rain has been beneficial to late crops but more is wanted; hailstorm in Navalgund and wheat crops injured a little thereby; harvesting of rice and reaping of early *jowari* in progress; cotton blighted in 3 talukas; scarcity of fodder in Navalgund, Karajgi, and Ron; that of drinking water in Nargund and Bankapur in Ron taluka; migration continues; rice 26 to 32 and *jowari* 32 to 51 lbs. per rupee.
Kanara	Rain in Karwar 1·16 inches, in Kumta 1·80, and in Sirsi ·55.	Total rainfall 97·71 inches; common rice in Karwar 15, district average 14¼ seers per rupee; preparing ground for second crop in Supa and Mundgod Petha; smallpox, one death each in Kumta taluka and Supa Petha and 4 in Sirsi; cholera, 31 deaths out of 49 cases in Halial; weather settled and fair.
Rajkot		General health good; weather cold and cloudy; fever prevailing in some talukas; smallpox in Jafarabad; cattle-disease called *silli* or smallpox has appeared in Manekoada; *bajri* 37 and *jowari* 51 lbs. per rupee. *General Remarks.*—Rain throughout the Deccan and Southern Mahratta Country and parts of Guzerat and the Konkan; standing crops much benefited in parts of Poona, Ahmednagar, Sholapur, Dharwar, Belgaum and Kaladgi, but slightly injured in parts of Nasik, Khandesh, Kaira, and Thana; more rain still required in parts of some districts; crops injured by hail in one taluka of Dharwar and 2 of Kaladgi; cholera, cattle-disease, and smallpox in parts of 7 and fever in parts of 13 districts.
Bengal—(Dec. 31st)		
Chittagong	*Nil*	Weather seasonable; prospects of crops good; harvesting of *amun* paddy nearly finished with about a 12-anna outturn; prices of food grains stationary; sporadic cases of cholera throughout the district.
Dacca	„	*Amun* and *roachia* paddy are being harvested; cutting of sugarcane continues; prospects of standing crops good; public health good.
24-Pergunnahs	„	Prospects of crops continue satisfactory; *amun* paddy and sugarcane are being harvested, the yield of the former is over the average; price of common rice varies from 11½ to 17¾ seers per rupee; public health generally good; isolated cases of cholera and fever are reported from the Diamond Harbour and Buseerhat subdivisions; state of river normal.
Moorshedabad	·13	Weather mild, at times cloudy and warm; harvesting of *amun* paddy is still in progress; prospects of *rabi* crops continue to be good, but a little rain would be beneficial; rice selling at from 16 to 17 seers per rupee; public health good, although there are still some cases of cholera in Nawada thana.
Rajshahye	*Nil*	Weather cloudy; harvesting of *amun* paddy nearly finished with an average outturn; prospects of *rabi* crops continue promising; *ganja* plants are flowering; public health fair.
Burdwan	„	Harvesting of *amun* paddy is almost over, the outturn for the district will not exceed 3 or 4 annas; *rabi* crops continue promising.
Rungpore	„	Harvesting of *amun* paddy still going on; prospects of mustard, sugarcane and other standing crops good; fever and cholera are abating.
Bhagalpore	„	Paddy is being cut; *rabi* crops are generally good, but a little rain would do much good; new rice is selling at 15 seers 2 chattacks per rupee; public health good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*contd.*		
Purneah . . .	*Nil*	*Rabi* crops still promise well, but rain would be beneficial; harvesting of paddy continues; common rice 16 seers per rupee; much fever; rivers low.
Patna . . .	„	*Rabi* crops progressing well; reaping of paddy and *jowar* still going on; poppy cultivation looks well; public health good.
Durbhanga . . .	„	Weather cool with west winds; *rabi* crops still looking well; but require rain in some places; harvesting of paddy going on; poppy crop doing well; prices almost stationary; public health good.
Hazaribagh . .	„	Weather cold; harvesting of paddy nearly finished; mustard and other oil-seeds are being gathered; prices almost stationary; small-pox still reported from several places.
Cuttack . . .	·45	Weather warm and muggy; cutting of *sarad* in progress, *dalua* is being sown; price of rice stationary; public heath generally good.
Gya	. . . .	Prospects of poppy crop, both earlier and later sowings, very favourable, but want of rain is much felt.
Shahabad . . .	. . . .	Prospects of poppy crop excellent; measurement completed.
Mozufferpore . .	. . . .	Prospects of poppy crop continue favourable.
Sarun	. . . .	Prospects of poppy crop excellent; weather favourable.
Chumparun . . .	. . . .	Condition of poppy cultivation very good; prospects of good outturn are favourable as before.
Monghyr . . .	. . . .	Prospect of poppy crop continue favourable, the plants look healthy and promising.
		General Remarks.—Some rain fell in more than half a dozen districts; *aman* paddy is still being harvested and a fair outturn is expected in some districts; *rabi* crops are coming on well but a little rain would do good; price of rice has fallen in some districts and in others it is stationary; sugarcane-cutting continues; sporadis cases of cholera still continue to be reported from many districts, while fever still prevails in some.
N.-W. Provinces and Oudh— (Dec. 31st)		
Benares (Dec. 30th)	No rain	Weather seasonable; *rabi* and opium crops doing well; bazars well supplied; prices fluctuating slightly.
Gorakhpur („ 29th)	„	*Rabi* flourishing; opium promises well; general health good; prices stationary.
Fyzabad („ 30th)	„	Weather cold and seasonable; prospect of *rabi* crops good; sugar-cane being pressed; poppy promising well; public health good.
Lucknow („ 29th)	Slight showers on the 23rd, and 24th, at Sadr and Tahsil Mohanlalganj.	Weather cold and occasionally cloudy; prospects of poppy and *rabi* crops continue favourable; irrigation and weeding in progress; health of people good; cattle-disease in Tahsil Lucknow is decreasing; markets well-stocked; prices low.
Rai Barelli („ „)	*Nil*	Weather seasonable; irrigation of crops in progress; prospects and general health good; supplies sufficient; prices steady.
Partabgarh („ 30th)	„	Prospects favourable; weather cloudy; poppy crops flourishing; health good.
Allahabad („ „)	„	Prospects of crops good; little change in prices; health of people good.

REVENUE AND AGRICULTURAL DEPARTMENT.

NOTIFICATION.—EMIGRATION.

Calcutta, the 6th January 1885.

No. 9 *E.*—The following Draft Rules relating to Colonial Emigration from the Port of Calcutta, under the provisions of Act XXI of 1883, are published for general information in conformity with Section 81 of the Act, and it is hereby notified that the Draft will be taken into consideration by the Government of India on the expiry of one month from this date:—

RULES RELATING TO COLONIAL EMIGRATION FROM THE PORT OF CALCUTTA UNDER THE PROVISIONS OF ACT XXI OF 1883.

CHAPTER I.

GENERAL RULES.

Introduction.

IN exercise of the powers conferred by section 80 of Act XXI of 1883 (The Indian Emigration Act), the Governor-General in Council is pleased to make the following rules to regulate the engagement and transport of labourers and dependents, as defined in the said Act, to the colonies authorized to import Indian labour.

Inclusion of schedules and forms in the rules.

1. The schedules and forms attached to these rules are prescribed for the several purposes specified in the heading of each, and shall be taken as part of the rules.

Provision for dependents.

2. The same provision in every respect shall be made for the welfare of dependents of labourers as for that of the labourers themselves: and all rules regulating the treatment and transport of labourers shall be applicable to their dependents also.

Correspondence with Government

3. Correspondence with the local Government, in connection with emigration matters, shall ordinarily be conducted through the Protector of Emigrants appointed by such Government.

Submission of monthly returns.

4. A return, showing the number and description of emigrants embarked for the colonies during each month, shall be submitted by the Protector of Emigrants to the local Government within the month following that for which the return is due.

Submission of annual reports.

5. The submission of annual reports by emigration officers shall be regulated as follows:—

(*a*)—The Magistrate of every district of recruitment shall forward to the Protector of Emigrants concerned as early as possible, and not later than two months after the close of every official year, his report for that year, reviewing the conduct of recruitment for the colonies within his jurisdiction, with special reference to the following points:—The condition of the places of accommodation; the irregularities, if any, committed, and the punishment of the persons concerned; the prevalence of any epidemic disease; and the local circumstances, such as the state of the labour market, and the price of food-grains, &c., which either favoured or hindered emigration.

(*b*)—Every Emigration Agent shall similarly forward his report, reviewing the operations of the past year, with special reference to the results of recruitment on his behalf; the terms of engagement of labourers; the disposal of emigrants accommodated in depôt; the sickness and mortality in depôt: the vessels despatched; the number of returned emigrants; and the amount of their savings.

(*c*)—Every Medical Inspector of Emigrants shall similarly forward his report, treating on the following points, namely—the condition of the depôts; the state of health of the emigrants accommodated therein; the sufficiency of hospital and other medical arrangements; the cause of any epidemic disease; and the precautionary measures adopted against its spread.

(*d*)—Every Protector of Emigrants shall, not later than four months after the close of every official year, submit to the local Government his report for that year. The report, while embracing information on all points of importance noticed in the annual reports of other emigration officers received by him, shall review the history of emigration during the year, noticing all points of importance; and shall furnish such other particulars as may from time to time be required by the local Government.

CHAPTER II.

RECRUITMENT.

Section I.—Recruiting licenses.

Application for recruiter's license.

6. Every Emigration Agent, desiring to obtain a license (form No. 1) for any intending recruiter, shall forward an application on his behalf to the Protector of Emigrants concerned, and shall send therewith a certificate of good character in form No. 2, obtained from the Magistrate of the district, of which the intending recruiter is a native or resident of long standing.

The 188 . } *Emigration Agent for*

Application for transfer of license.

8. If an Agent desires a license for any recruiter of another agency, whose services are no longer required, he shall forward with his application the unexpired license of such recruiter, duly endorsed to the above effect by the Agent dispensing with his services.

Section 2.—Sub-depôts.

Definition of sub-depôt.

9. The places of accommodation provided for emigrants by recruiters shall, for the purposes of these rules, be called sub-depôts.

Exercise of powers of Protector of Emigrants.

10. Every Magistrate, and every officer of police of not lower rank than an Inspector, shall, under section 27 of the Act, exercise for the supervision and regulation of sub-depôts the same powers as are by the Act conferred on a Protector of Emigrants in respect of depôts at the port of embarkation.

Sub-depôt requirements.

11. The accommodation provided in sub-depôts shall be considered sufficient if the emigrants are kept in such manner as would be considered comfortable by persons of their condition in the district where they are recruited. But the following points shall invariably be insisted on :—

(*a*)—Perfect cleanliness, both of the premises and of the emigrants.

(*b*)—Sufficiency of accommodation for the largest number of coolies likely to be located there at one time.

(*c*)—The presence of a plentiful supply of good water within a reasonable distance.

(*d*)—Proper conveniences for purposes of nature and for bathing; and when the number of emigrants is likely to be large, and this becomes necessary, suitable latrine accommodation.

(*e*)—The exclusion of cases of contagious disease from the premises, and on the occurrence of any such case, immediate information to be given to the medical authorities, and proper steps taken to prevent the spread of the disease.

(*f*)—The non-admission of any women, who are not emigrants, within the sub-depôt premises, without special permission of the District Magistrate.

(*g*)—The exclusion of parda-nashin women from the sub-depôt premises under all circumstances.

(*h*)—The provision of separate accommodation for single women and married couples, apart from that for single men, and the placing of such accommodation in charge of a female sub-depôt servant, specially approved by the District Magistrate.

(*i*)—The filing by the proprietor of any sub-depôt of a list of his servants in the Magistrate's office, and of a supplementary list when necessary; and the exclusion from the sub-depôt of every person not borne on these lists, or to whose employment the Magistrate may refuse his assent.

(*j*)—The keeping of an inspection book by the proprietor for inspecting officers to write their remarks therein; and the having it always in readiness for production when required.

Inspection of sub-depôts.

12. The District Magistrate shall appoint one of his subordinate Magistrates to visit the head-quarter's sub-depôts at least once a month. The sub-divisional sub-depôts also shall be inspected by the sub-divisional officers at least once a month.

Inspection of emigrants in sub-depôts.

13. Every Magistrate and every authorized police officer shall without fail inspect emigrants in sub-depôts, and shall carefully examine the state of the premises, and the manner in which the emigrants are lodged, fed, and otherwise provided for, frequent and unexpected visits being desirable to prevent abuses.

Alteration of terms of recruitment.

14. The Emigration Agent shall without delay intimate to the Protector, for the information of Government, any changes that he may be authorized by the Colonial Government to make in the terms offered to intending emigrants.

Section 3.—Registration.

Registering officers.

15. The District Magistrate shall be *ex-officio* the head registering officer of the district, and all other registering officers in such district, appointed under section 28, shall be subordinate to him.

Register for registrations.

16. Every registering officer shall keep a register in form No. 4 for the registration of intending emigrants.

COLONIAL EMIGRATION FORM No. 4.

FORM OF REGISTER FOR REGISTRATION OF INTENDING EMIGRANTS.

Registration particulars of labourers and dependents recruited by Emigration Agents' recruiters as recorded by Registering Officer of

1	2	3	4	5	6	7	8			9	10	11	12	13	14	15	16				17					18	19
Date of Registration.	Serial number of emigrants registered according to financial year.	Name of emigrant.	Father's name.	Sex.	Age.	Caste.	Residence.			Whether labourer or dependant.	If dependent, upon what labourer dependent; or if minor, under whose guardianship.	If female, whether married, widow, or unmarried.	Where recruited and registered.	Name of recruiter, and number of his license.	Occupation or profession.	Colony and depôt to which proceeding.	Successors to Estate, or next friend in India.				Colonial Address of Emigrant.					Date of despatch of copy to district of birth.	Remarks.
							a. District.	b. Perguunah.	c. Thana.	Village.								a. Name.	b. Relationship or connexion.	c. Residence. a. District.	b. Thana.	c. Village.	a. Number in ship's nominal roll.	b. Name of ship.	c. Year in which sailed.	d. Name of colony.	e. Date of receipt from depôt.		

Correct and legible entries in register

17. Particular care shall be taken that the writing in the register is very legible, and that vernacular names are correctly spelt.

Affixing of serial number to all entries.

18. The serial number shall be affixed to all entries of emigrants in order as they are registered; and shall also be affixed to all red ink entries (*see* rule 25, below) made therein.

Examination of emigrants to be registered.

19. Every registering officer, before whom any person is brought for registration as an intending emigrant, or as the dependent of such emigrant shall, after the removal from the place of the recruiter or other person interested in having the registration executed, cross-examine such person on the points set forth in sections 31—33 of the Act.

Entries of particulars of registered emigrants.

20. As each person brought to be registered by the recruiter is examined and passed for registration by the registering officer under section 31, the particulars regarding such person shall be entered in columns 1 to 17 inclusive of the register by the registering officer himself, or by a member of his office establishment, and the work shall not be made over to the recruiter or any other person.

Entries of dependents of registered emigrants.

21. If an intending emigrant labourer has dependents, their serial number, and particulars as to name, age and relationship to such labourer, shall be entered in the appropriate columns of the register separately and immediately following the entries of the labourer on whom dependent.

Procedure on disacknowledgment of any next-of-kin.

22. If an intending emigrant states that he has no next-of-kin in India, an endeavour shall be made to obtain the name of some respectable man in his native village, such as the headman or chief rayat; and such name shall be entered in the register under the column for successor to estate or next friends in India, a note explaining the matter being made in the "remarks" column.

Registration of postponement cases.

23. If, in the case of a postponement of registration under section 32 (2), the woman is subsequently registered, she shall be treated as a freshly brought up intending emigrant, and her particulars entered in the register for registrations.

Furnishing of entries of registration to Magistrate of district of birth.

24. If the emigrant is born in a district other than that where registered, a copy of all the particulars of registration shall be sent by the registering officer, after filling up column 19 of the register, to the Magistrate of the district of birth, with a memorandum in form No. 5, which he shall initial and return, on receipt, to the registering officer concerned.

COLONIAL EMIGRATION FORM No. 5.

FORM OF ACKNOWLEDGMENT OF REGISTRATION PARTICULARS.

Memo. No.

THE undersigned has the honour to acknowledge the receipt of the undermentioned copies of entries of registration of intending emigrants for the Colonies.

DATED]
The] *Magistrate of the district of birth.*

To

The Magistrate of

YEAR.	Serial number of entries.	Where registered.	Date of receipt.

Registration of particulars in district of birth.

25. On receipt of such copy of particulars of registration, the Magistrate of the district of birth shall cause the Registering Officer of the district to enter in his register, *in red ink*, an exact copy thereof, and to add in the column of remarks "registered " (giving the name of the place and district of registration).

Proposal of returned memorandum form.

26. The memorandum form prescribed by rule 24 shall, on being received back from the Magistrate of the district of birth, be filed separately in the registering office.

Copy of sub-divisional register for head-quarters registering officer.

27. If emigrants are registered in a sub division of a district, or otherwise than at head-quarters, the local registering officer shall immediately, on each registration being concluded, send certified copies of his register to the registering officer at head-quarters, who shall forthwith, on receipt, enter them *in red ink* in his own register.

Transfer of unrequired emigrants by re-registration.

28. Emigrants registered on behalf of any colonial agency, but not required owing to recruiting operations having closed for the time being or other cause, may be transferred to the recruiters of other colonial agencies for re-registration; provided that the emigrants consent to the transfer, after being given to understand that, if unwilling, they are entitled to be discharged, or to be returned to the districts of registration as they may desire.

Entries of transfer particulars.

29. If emigrants be transferred in the district of original registration, such transfer shall be entered in the "remarks "column of the register against each emigrant. But if transferred elsewhere, the re-registering officer shall forward to every registering officer concerned in the original registration the particulars of re-registration for entry of the transfer *in red ink* in the "remarks" column of his register.

"Re-registered at for " (giving the name of the place of re-registration and colony for which re-registered).

Register for refusals of registration.

30. Every registering officer shall also keep in form No. 6 a register of refusals to register under sections 31, 32(1) and 33(2); and of postponements of registration under section 32(2).

COLONIAL EMIGRATION FORM No. 6.

FORM OF REGISTER FOR REFUSAL OF REGISTRATION.

Postponement and refusal of registration.

Particulars of emigrants recruited for the colonies as recorded by the registering officer of

Date of appearance for registration.	Serial number of entry according to financial year.	Name of person presented for registration.	Father's name.	Sex.	Age.	Caste.	Occupation.	Residence. a. District.	Residence. b. Pergunnah.	Residence. c. Thana.	Residence. d. Village.	Where and by whom recruited.	Reasons for refusal or postponement (*see* section 31).	In case of postponement under section 32(1), period of postponement.	Final order (with reasons) on expiry of period of postponement.	Signature of registering officer.	REMARKS.

31. Clerks in charge of registration work shall receive remuneration at rates fixed by the Local Government.

Section IV.—Agreements.

Execution of agreement.

32. After the register has been filled up and signed, the agreement forms shall be filled up and signed, in triplicate, under section 55.

Careful preparation of agreement.

33. The agreement form shall be filled up with as much care, as regards accuracy of spelling and legibility of writing, as the original register.

Supply of forms of agreement.

34. The agreement for execution by intending emigrants shall be in form No. 7, and the requisite supply of these forms shall be provided by Emigration Agents, when emigrants are taken before registering officers for registration and the execution of their agreements. The forms shall be printed correctly and clearly, and on substantial paper; and registering officers shall refuse them when they do not comply with these conditions.

COLONIAL EMIGRATION FORM No. 7.

at

Dated

N.B.—The above conditions to be filled up in the office of registration in the language best understood by emigrants.

N.B.—The above demarcation should correspond precisely with that on the reverse, and the space below it should be left blank.

Entries of registration particulars in English.

35. The copy of the particulars registered concerning the intending emigrant and dependents, if any, under section 31 (*see* section 36) and printed on the face of the agreement form shall be in English.

Entry of conditions of agreement in best understood language.

36. In the copy of the agreement given to the emigrant, the conditions of service printed on the reverse (*see* section 36) shall be, among those prescribed below for each province, in the language which is best understood by the emigrant; and if none of the languages be understood by him, in English:—

For	Lower Provinces of Bengal	in Bengali or Hindi.
,,	North-Western Provinces and Oudh	in
,,	Punjab	in
,,	Central Provinces	in
,,	Bombay	in
,,	Madras	in

Entry of particulars in lower portion of agreement.

37. Of the triplicate copies of the agreement signed by each emigrant, only one shall have the lower portion; the other two shall consist of the upper portion only.

Non-requirement of agreement from dependent.

38. When a dependent is registered, no agreement shall be required from him. A copy, however, of such dependent's particulars in the register (*see* rule 21) shall be included in the copies of the agreement sent to the Protector and Emigration Agent; and shall also be entered in the copy of agreement given to the emigrant labourer.

Disposal of triplicate copies of agreement.

39. When the agreement has been attested and compared, one copy shall be delivered to the recruiter, another sent forthwith to the Protector by the registering officer, and the third, *i.e.*, the one containing the lower portion, shall be given to the emigrant concerned.

Disposal of lower portion of agreement of embarked emigrants.

40. At the time of embarkation, each emigrant shall present his copy of the agreement to the Emigration Agent for inspection. The Agent shall then tear off the lower part of the agreement; return the upper half to the emigrant, and, having filled up heads 18*a* to 18*d* in the lower half, send it by post to the Magistrate of the district of registration.

Disposal of lower portion of agreement of non-embarked emigrants.

41. If an emigrant died after registration and before embarking, the Emigration Agent shall write across the lower portion of the agreement "dies in depôt (or on the journey, as the case may be) on the ", tear it off, and return it to the Magistrate of the registering district. The registering officer shall then note the fact in the columns for the colonial address of the emigrant. A similar procedure shall be followed when, for any other reason, a registered emigrant does not proceed to the Colony.

Disposal of lower portion of agreement by Magistrate of district of registration.

42. The Magistrate of the district on receiving from the Agent the lower portion of the agreement, shall forward it to the head-quarters registering officer, who shall enter the particulars therein furnished in column 18 of his register, and thereafter in every case in which the agreement had been executed in any sub-division, forward it to the local registering officer for the entry of the same particulars in the sub-divisional register of intending emigrants.

42*a*. The returns A and B shewing the monthly registration of emigrants and the receipts and expenditure under Act XXI of 1883 should be regularly forwarded by District Magistrates or registering officers to the Protector of Emigrants, Calcutta.

Section V.—District records.

Preservation of district records in central office.

43. The District Magistrate's office shall be a central office of record for each district, and such books and papers of subordinate registering offices as are not to be destroyed shall be transferred to it from time to time.

Index to names of registered emigrants.

44. In every district in which the number of entries in the register (including red ink ones) exceeds 200 per annum, the head-quarters registering officer shall keep an index of names of emigrants in form No. 8.

COLONIAL EMIGRATION FORM No. 8.

FORM OF INDEX TO NAMES OF EMIGRANTS REGISTERED IN THE DISTRICT OF

Name of emigrant.	Year of registration.	Serial number in register.

Alphabetical arrangement of index.

45. This index shall be kept according to the letter of the alphabet, the entries under each letter being arranged according to the system in use in the office of the Registrar of Assurances in the district.

CHAPTER. III.

DEPOTS.

Section I.—Depôt accommodation.

Depôt site.

46. The site of every depôt, and the disposition and construction of the sheds, shall, from a sanitary point of view, be subject to the approval of the Medical Inspector of Emigrants, who shall furnish the protector of Emigrants with a certificate of such approval.

Depôt grounds.

47. The depôt grounds shall be cleaned, levelled, and drained; and, if necessary, wells and tanks shall be properly fenced in and protected from surface drainage.

Nature depôt buildings.

48. Every depôt shall consist of the following buildings:—

(*a*)—*Reception shed* to be set apart for the examination of freshly arrived emigrants before they are permitted to occupy the accommodation shed.

(*b*)—*Accommodation sheds* to be so constructed as to provide suitable accommodation for single women and married persons apart from that for single men: and, moreover, admit of the separate location of intending emigrants, and of emigrants who are returned from the colony.

(*c*)—*Cooking sheds.*

(*d*)—*Latrines.*

(*e*)—*Hospital sheds*, embracing a shed for the treatment of ordinary cases, an observation shed for suspected cases, and an isolation shed for treatment of contagious diseases not otherwise provided for; each such shed having separate wards for males and females.

(*f*)—*Dispensary shed* with suitable accommodation for the resident medical officer.

(*g*)—*Inspection shed* for the mustering of emigrants for any purpose and, whenever necessary, for their feeding.

Lighting and ventilation of depôt buildings.

49. Air and light shall be admitted freely into all sheds to be occupied by emigrants by means of a sufficient number of doors and windows fitted with moveable jhamps or screens, by openings under the eaves; and, if necessary, by properly constructed ridge ventilators in the roof.

Sleeping platforms.

50. The platforms in the accommodation sheds for emigrants to sleep on shall be boarded, and when not removable shall be raised high enough to admit of the space underneath being readily cleaned.

Capacity of accommodation sheds.

51. The number of emigrants to be located in each accommodation shed shall be calculated at the uniform rate of not less than 14 superficial feet of space to each person; and such number shall be specified in some conspicuous part of the shed for the information of visiting officers.

Construction of cooking sheds.

52. Cooking sheds shall have either brick or mud plastered walls and tiled roof, and a proper receptacle for rice, water, and other kitchen refuse shall be provided.

Water tanks.

53. Iron tanks shall be provided, and a plentiful supply of the purest water obtainable shall be stored in them for drinking and cooking purposes. Each tank shall be fitted with a padlocked cover; and with two or more strong taps of simple construction: and in all cases where any doubts exist in the opinion of the Medical Inspector as to the uniform purity of the water-supply, each such tank shall be fitted also with a suitable and efficient filter.

Construction of latrines.

54. Latrines shall be provided for males and females separately; and shall be properly roofed, lighted, and ventilated. The position and plan of the latrine, and the system adopted for the removal of night-soil, shall be subject to the approval of the Medical Inspector.

Construction of hospital buildings.

55. The wards of the hospital buildings shall be dry, well raised, thoroughly ventilated, and well lighted: and the dispensary, with accommodation for the medical officer in charge, shall be conveniently situated. The fittings of the several sheds shall be such as may be considered necessary by the Medical Inspector

Fire extinguisher.

56. An approved fire extinguisher, or other efficient means for suppressing fires, shall be provided in every depôt and kept in working order ready to hand.

Section II.—Depôt Management.

Inspection of emigrants by Protector.

57. When emigrants are accommodated in the depôts, it shall be the duty of the Protector to inspect them, and to satisfy himself that the terms of their engagement for work in the colonies are understood by them, and that the provisions of the Act and rules thereunder are complied with.

Inspection of emigrants by Medical Inspector.

58. Similarly, it shall be the duty of the Medical Inspector to supervise the depôts from a sanitary point of view, to inspect the emigrants in respect to their health, and to see that hospital and other medical arrangements are suitable and sufficient; that all necessary precautions, such as vaccination and other means, are taken against the occurrence and spread of communicable disease; and that the depôt arrangements for the feeding, cloth-

Depôt Medical Officer.

N.B.—The following rules should be observed:—(*a*) To find the daily average strength of emigrants, divide the sum of the total number of souls present daily by the total number of days. (*b*) To find the daily average number of sick add together the number of sick in hospital for each day, and divide the total by the number of days. (*c*) To find the rate per cent. of daily average of sick to strength, take the daily average number of sick and multiply the number by 100, and divide the product by the daily average strength. (*d*) To find the rate per cent. of deaths to daily average strength, multiply the total number of deaths by 100, and divide the product by the daily average strength.

Instructions.—This monthly return is to be forwarded to the Medical Inspector, and a duplicate to the Protector of Emigrants within a fortnight of the month following that to which it relates.

Emigration Agent for

Official communication with documents and property sent to Protector.

64. When documents and money or other property of deceased emigrants are sent by the Agent to the Protector's office, they shall invariably be forwarded with an official communication, furnishing full and accurate particulars regarding them.

Good condition of depôt.

65. The ventilation of the depôt buildings and the cleanliness of the emigrants accommodated therein shall receive special attention from the Agent. The depôt sheds, latrines, drains, &c., shall, moreover, be kept at all times in good order, and mud-plastered or brick walls shall be white-washede very month.

List of depôt servants.

66. The separate accommodation for single women and married persons shall be placed in charge of a female depôt servant; and a list of all servants employed in the depôt shall be furnished to the office of the Protector; and every person not borne on that list shall be persistently excluded from the depôt premises.

Procedure on arrival of emigrants.

67. Emigrants, on entering the depôt premises, shall be taken direct with all their things to the reception shed, situated near the gate or other place, and set apart for the admission of emigrants; and shall there be inspected by the Agent and the Resident Medical Officer, while their names and other particulars are entered in the depôt register. The sick, suffering from ordinary complaints, shall be sent to the depôt hospital for treatment; but those found to have small-pox, measles, cholera, or other dangerous communicable decease shall *immediately* be removed to the authorized hospital. The healthy, excepting those suspected of infection, and to be dealt with as prescribed in rule 81, shall be permitted to proceed to the accommodation shed, after they have bathed and put on clean clothing, and their bundles or boxes have been carefully examined, and soiled and objectionable article removed. Every soiled articles of clothing, new or old, shall be thoroughly washed and cleaned before it is allowed to be used or removed to the accommodation shed, but cast off ragged clothes, as well as such as are believed to be infected, shall be burnt in the presence of the resident Medical Officer.

Non-residence in depôt of recruiters and others not servants.

68. Recruiters or other persons in charge, taking emigrants to the depôt shall not be permitted to reside within the depôt premises, nor shall any person who is not a depôt servant.

Report of arrival of emigrants.

69. Every Agent shall report to the Protector in form No. 17 the admission of emigrants into his depôt during any day by the forenoon of the next day, and shall at the same time bring to notice the misconduct of any recruiter or other person in charge, whom he may have found to have infringed the law or rules.

N.B.—If the absentees of any previously reported original batches arrive on any subsequent date, their admission should be reported in this form, but separately from returns of original batches arrived on the same date, with the following observation in the "remarks" column. Absentees of the original batch, serial No. , reported under memorandum No. of 188

70. The emigrants shall be distributed in each accommodation shed according to the number it is licensed to hold, and shall, as far as possible, be prevented from overcrowding.

Distribution of emigrants in accommodation sheds.

71. The clothes supplied to emigrants, on admission into the depôt and subsequently for the voyage, shall be according to the scales laid down in schedule G of the rules, and of the description and quality approved by the Medical Inspector, samples being retained in the Protector's office.

Supply of clothing.

72. Emigrants in health shall bathe and wash their clothes daily; and a liberal supply of soap shall be allowed for the purpose.

Bathing of emigrants.

73. The water in depôt tanks may be used for drinking or cooking; and may be drawn for bathing and washing clothes, so long as the Medical Inspector does not consider it objectionable for such purposes.

Depôt tanks.

74. Regular hours shall be set apart for cooking and feeding, and no cooking shall be allowed at any other time, except for invalids; nor in any place except the cooking sheds, where alone emigrants shall feed and smoke.

Observance of regular feeding hours.

75. The rations issued daily for each labourer or dependent in depôt shall be according to the scale laid down in schedule G; and shall be served out to emigrants after being cooked. The cooked food and drinking water shall invariably, before being served out, be examined by the resident medical officer, who should satisfy himself that the food is of good quality, sufficient in quantity, and well cooked; and that the water is pure and wholesome. Food suitable for infants and invalids, such as milk, soup, and sago, &c., shall be freshly prepared, and punctually supplied at proper intervals commencing in the early morning.

Issue and examination of rations.

76. After meals, the resident medical officer shall see that the cooking sheds are swept out, that all cooking utensils are thoroughly cleaned, and that no stale food is secreted either by the cooks or emigrants; but that it is deposited along with other refuse matter in the receptacle specially provided.

Cleaning of cooking utensils.

77. Emigrants in depôt shall be kept as much as possible in the open air; and may be employed on light work, such as keeping the accommodation sheds clean, and the depôt garden and grounds in good order. Games or other amusements should always be encouraged.

Employment of emigrants in depôt.

Precautions against fire and sleeping heds.

78. No cooking, feeding, or smoking shall be permitted in the sleeping sheds; and all lanterns used in them shall be padlocked.

Vaccination of emigrants.

79. Every unprotected emigrant admitted into the depôt shall be vaccinated, as soon as possible thereafter, under arrangements made with the Government Vaccination Department; and returns of vaccination, as may be required, shall be regularly furnished to that department.

Treatment of sick emigrants.

80. Sick emigrants, excepting those suffering from dangerous communicable disease and otherwise provided for, shall not be sent to any other than the depôt hospital; nor be removed thence, nor from the depôt, without the written permission of the Medical Inspector.

Procedure on occurrence of infectious or contagious disease.

81. In the event of cholera, or small-pox, or other dangerous communicable disease appearing in the depôt, every labourer or dependent attacked shall *immediately* be sent to the authorized hospital for treatment; and the relatives of the affected persons, if any, not accompanying the patient shall at the same time be placed in the segregation shed situated in an isolated part of the depôt compound; and shall not be removed thence without the written permission of the Medical Inspector. A report of the case shall at once be submitted to the Medical Inspector; and within 24 hours the Protector shall be furnished with a descriptive statement in form No. 18 of every emigrant sent to the authorized hospital, together with the reason for such removal. In the event of any emigrant sent to hospital dying, or being permitted to return to the depôt, the death or re-admission of such emigrant shall be similarly reported to the Protector in form No. 19. If any severe outbreak of cholera occurs in depôt, the Medical Inspector shall forward without delay a report thereon to the Protector for submission to Government.

82. Clothing, blankets, and mats that have been in contact with persons suffering from dangerous communicable disease, hospital dressings, foul rags, and all combustible filth, shall be thoroughly burnt in some safe and suitable place, under the supervision of the resident medical officer.

Destruction of infected articles.

83. The segregation shed, immediately it ceases to be occupied, shall be carefully cleared out and disinfected by fumigation or other efficient means.

Disinfection of segregation shed.

84. On the death of any intending emigrant, the Agent shall make a correct inventory of the property of such emigrant in a register to be kept in form No. 13; and after foul clothing, if any, has been properly washed, shall forward such property, together with a descriptive list of the same, to the office of the Protector for disposal. The claims made by relatives in depôt, if any, shall also be communicated to the Protector, who shall, after making enquiry as to heirs, dispose of the estate as circumstances may render necessary.

Disposal of deceased emigrants' effects.

85. All emigrants that are declared by the Medical Inspector to be unfit to emigrate, or are finally rejected by the Agent, shall be returned, through the Protector's office, to the districts of registration at the expense of the Agency, unless they of their own accord insist on being discharged from the depôt, in which case they shall previous to discharge be sent to the Protector's office, and there paid such amount of railway fare as would enable them to return subsequently, if necessary, to the districts wherein originally registered.

Disposal of rejected emigrants.

86. All rejected emigrants shall be examined by the Medical Inspector on the day that they are to be returned to their districts: and only those that are certified by him to be able to travel shall be forwarded to the Protector's office for disposal; while the rest shall be detained in depôt under treatment, until the Medical Inspector certifies to their being in a fit state of health to undertake the journey.

Medical examination of rejected emigrants.

87. The removal of any emigrant from the depôt rolls, or any casualty of whatever nature occurring on any day, shall be reported in form No. 20 to the Protector on the following day: but any death, from whatever cause, shall be reported *at once* to the Medical Inspector.

Report of casualties in depôt.

89. No emigrants, regarding whose emigration any question has been raised, shall be embarked by the Agent until the Protector decides the case, and sanctions in writing the embarkation of such emigrant.

Non-embarkation of emigrants under enquiry.

90. Of the total number of emigrants to be embarked on board each ship, except when bound to Mauritius, the proportion of adult females shall not be less than 40 adult females to every 100 adult males. In respect of Mauritius-bound ships, the proportion shall not be less than 33 to every 100. In every case female passengers who emigrate to the colonies on their own account may be included in calculating the prescribed percentage of women to be shipped.

Proportion of women.

91. Should any Agent find it impossible to embark the prescribed proportion of women in connection with any shipment, he shall submit an early application for the sanction of Government to embark short of the required proportion, stating the probable deficiency, and the manner in which he intends to make good the number subsequently.

Non-completion of prescribed proportion of women.

92. If in any ship women are embarked in excess of the prescribed number, the Agent may count such excess number towards the proportion required for any subsequent ship of the same season; but the excess at the close of any season shall not be so allowed to count in respect of shipments of the following season.

Excess shipment of women.

93. Some days prior to the embarkation of emigrants, the quality of the clothing and blankets intended for their use on the voyage shall be examined by the Surgeon, and the former shall be tried on by the emigrants in his presence. If satisfied that they are sufficient and suitable in accordance with requirements, the Surgeon shall give to the Agent a certificate to that effect in form No. 22 for information of Protector.

Inspection of clothing for voyage.

COLONIAL EMIGRATION FORM No. 22.

95. On the day fixed for embarkation, a tin ticket shall be suspended from each emigrant's neck, bearing a stamped number corresponding to that entered against his or her name in the embarkation nominal roll, and a suitable bag for holding his or her kit, with the emigrant's number stencilled thereon, shall also be supplied to each emigrant. The Agent shall at the same time caution emigrants against removing the tickets from their necks during the voyage, and neglecting to place their clothing in the bags provided for their safe keeping.

Supply of tin tickets and bags.

96. Emigrants, previous to leaving the depôt for the embarkation wharf, shall be carefully identified with the entries in the nominal roll, and examined as to their fitness to undertake the voyage by the Surgeon Superintendent, who shall furnish to the Agent a certified statement in form No. 24 of the results of his examination. Such statement shall be made over to the Medical Inspector, when finally examining the emigrants at the embarkation wharf; and by him, be given, after concluding his examination, to the Protector of Emigrants, with an endorsement thereon of his opinion as to whether the emigrants are fit to embark.

Examination of emigrants against embarkation.

COLONIAL EMIGRATION FORM No. 24.

FORM OF CERTIFICATE OF FINAL MEDICAL EXAMINATION OF EMIGRANTS

Statement of results of Medical Examination of Emigrants to be embarked in ship

ON this the day of 188 I identified in depôt the emigrants intended to be embarked for ; and found them to answer to their descriptive particulars in the embarkation nominal roll. I also examined each individual emigrant in respect of his or her fitness in point of health to undertake the voyage; and am satisfied that they are, with the exceptions noted and remarked on below, fully capable of making the sea voyage safely, and without endangering the health of others.

Exceptions taken.

Number in nominal roll.	Remarks by Surgeon-Superintendent.	Passed or rejected by Medical Inspector.	Name of emigrants for whom exchanged.

Surgeon Superintendent.

MEDICAL INSPECTOR'S ENDORSEMENT.

THE emigrants referred to in the above statement were examined by me at the embarkation wharf, and I am of opinion that they are fit to proceed, excepting numbers noted below and exchanged for other emigrants brought from the depôt As regards the exceptions taken by the Surgeon Superintendent, I have carefully examined them, and consider them "fit" or "unfit" as entered against the numbers. Those unfit have likewise been exchanged for others: and I am of opinion that every emigrant who has been substituted and entered in the nominal roll accordingly can safely be allowed to proceed to the colony.

Number in nominal roll.	Remarks by Medical Inspector.	For whom exchanged.

Medical Inspector of Emigrants.

DATED

The of 188 .

97. Emigrants shall not leave the depôt for embarkation before they have had a cooked meal, except under very exceptional circumstances, and with the sanction of the Protector.

Cooked meal prior to embarkation.

98. A supply of good drinking water shall be provided at the wharf, against the arrival of the emigrants, and for their use while undergoing final identification and medical examination, prior to proceeding on board.

Supply of water at embarkation wharf.

CHAPTER IV.

TRANSPORT ARRANGEMENTS.

SECTION I.—*General Rules.*

Joint responsibility of Protector and Medical Inspector.

99. The Medical Inspector of Emigrants shall be jointly responsible with the Protector of Emigrants for the suitability of the general fittings and hospital arrangements; of emigrant ships; for the quality and sufficiency of the provisions and medical stores shipped for the voyage; and for the fitness for duty, in point of health, of the ship's officers and crew. He shall also be present with the Protector at the surveys of emigrant ships, and at the embarkation of emigrants; and shall see that everything is done to secure the comfort of the emigrant passengers, and to lessen the likelihood of disease occurring among them.

Appointment of diplomed Surgeon.

100. In the absence of a Surgeon Superintendent nominated by the Crown Agents, or by the Colonial Government direct, the Emigration Agent shall appoint a diplomed Medical Officer, who shall be properly qualified, not only professionally, but otherwise, for the discharge of the requisite duties on board an emigrant ship, and shall have a thorough knowledge of English, and such appointment shall be subject to the approval of the Protector and Medical Inspector of Emigrants.

Registration of Surgeon's qualifications.

101. Every Medical Officer, on receiving his appointment as Surgeon Superintendent from the Agent, shall call at the Protector's office for the purpose of having his papers examined; and if his nomination be approved, registered for future reference.

Attendance of Surgeon for embarkation duties.

102. Every Surgeon Superintendent appointed to an emigrant vessel shall be present throughout her preparation for the voyage; and if residing on shore, shall send all his things on board not later than the evening of the day preceding that fixed for embarkation with a view to being free on the day of embarkation to attend at the depôt and wharf for the uninterrupted discharge of the several duties devolving on him in connection with the embarkation of emigrants.

Appointment of compounders.

103. A properly qualified compounder, or a qualified native doctor engaging to perform the duties of a compounder, shall be appointed by the Agent to every vessel chartered for the conveyance of emigrants subject to the approval of the Protector and Medical Inspector of Emigrants: and shall call at the Protector's Office for registration of his name and necessary particulars. Should the number of emigrants to be carried exceed 500 statute adults, or should, under exceptional circumstances, such as the occurrence of famine or epidemic disease in the recruiting districts, the Medical Inspector consider such appointment absolutely necessary, a second compounder shall be appointed.

Attendance of compounders for embarkation duties.

104. Every compounder appointed to an emigrant vessel shall take his effects on board on the evening of the day previous to that fixed for embarkation; and, attending at the depôt and wharf throughout the day of embarkation, shall render to the Emigration Agent and Surgeon Superintendent such assistance as they may need in arranging for embarkation.

Appointment of store-keeper and interpreter.

105. A store-keeper, who should be fully qualified to act as an interpreter, as well as to keep a correct account in English of the issue of stores, shall be appointed by the Master, with the approval of the Protector of Emigrants, and placed on the ship's articles.

Appointment of attendants.

106. The Agent shall appoint to every vessel chartered for the conveyance of emigrants a staff of attendants as prescribed in scale No. of schedule G, and such persons shall, whenever practicable, be selected from among those accustomed to a sea life, and previously trained, either in depôt or elsewhere, to the kind of work that will have to be performed on board.

Appointment of emigrants as attendants.

107. Emigrants, who volunteer for the work, may be appointed by the Agent as cooks, nurses, and topazes. One of the nurses, best fitted for the work of supervising and directing the other nurses, should be appointed head nurse.

Agreements of native attendants.

108. Separate agreements in duplicate shall be entered into with the compounders, nurses, and other attendants; and shall, in the cases of natives of India, provide for a free return passage to this country; and, in those of West Indians or Africans, for a free passage to their homes. Any advance of wages, made under the agreements, shall be paid to the persons concerned in the presence of the Protector, and shall be duly entered therein.

Disposal of duplicate agreements.

109. The duplicate of the agreements executed as above shall, after the departure of the vessel, be forwarded by the Agent to the office of the Protector for submission to Government.

Control of attendants.

110. The attendants on emigrants shall during the voyage be under the immediate control of the Surgeon Superintendent, and that officer may disrate or dismiss any of them for misconduct or neglect of duty, and appoint others in their stead.

Services of interpreter and store-keeper.

111. The services of the interpreter and store-keeper shall be entirely at the disposal of the Surgeon; and it shall be his duty to assist that officer in maintaining discipline among the emigrants; to see that all instructions are fully carried out; to report to him any irregularities or cases of sudden sickness; to assist in issuing the rations and water, and distributing the meals; and to supervise generally, under the orders of the Surgeon, all matters affecting the welfare of the emigrant passengers.

Prohibition of objectionable cargo and animals.

112. No pigs, nor dogs or other animals that are ferocious or dangerous, shall be allowed on board, nor shall any of the articles specified is schedule E be carried as cargo in an emigrant vessel.

Section II.—Emigrant vessels.

Chartering of vessel.

113. When a vessel is to be chartered in India for the conveyance of emigrants the Agent concerned shall avoid engaging (*a*) any vessel that is not classed as provided for in schedule A appended to the rules: and (*b*), if practicable, any vessel that has carried a salt cargo on her previous voyage.

Inshore mooring of emigrant vessels.

114. With a view to facilitate visits of emigration officers to an emigrant vessel for the purposes of survey and inspection, the master of such vessel shall, as early as possible, arrange with the Port authorities to have her moored in an inshore berth.

Application for license.

115. As soon as a vessel is chartered, the Agent shall forward to the Protector a certified copy of the charter party, with request for her survey, and shall direct the master to apply to the local Government, through the office of the Protector, for the requisite license to carry emigrants.

Information from master with application.

116. The master shall personally submit his application for license in form No. 25: and shall therein furnish information as to—

(*a*) What number of statute adult emigrants he believes his vessel to be legally capable of carrying:
(*b*) What the ship's classification is:
(*c*) What her tonnage is:
(*d*) Whether fitted with any apparatus for securing artificial ventilation; and of what description:
(*e*) Whether her receptacles for drinking water are separately constructed tanks, or mere compartments of the hull; and what was last stored in them:
(*f*) What cargo was last carried: and
(*g*) Whether cholera, small-pox, measles, scarlet fever, yellow fever, or other dangerous communicable disease occurred on board during the ship's last two voyages.

COLONIAL EMIGRATION FORM No. 25.

FORM OF MASTER'S APPLICATION FOR LICENSE.

FROM

THE MASTER OF THE SHIP

LYING OFF,

To

THE PROTECTOR OF EMIGRANTS,

Dated Calcutta, the of 188 .

SIR,

THE ship named under my command, and owned by of having been chartered by subject to the approval of the local Government, for the conveyance of Indian emigrants, hence to the colony of , I have the honour to apply for a license to convey to the said colony, under the provisions of the Indian Emigration Act, XXI of 1883, statute adult emigrants, which number, I believe, the vessel can legally carry, and to request the favour of your submitting the application to Government.

2. I would also furnish the following information regarding the ship as required by rule 116:—

(*b*) Classification.
(*c*) Tonnage.
(*d*) Artificial ventilation.
(*e*) Construction of water-tanks.
(*f*) Cargo.
(*g*) Prevalence of infectious diseases.

I have the honor to be,

SIR,

Your most obedient servant,

Master.

Procedure on information of previous occurrence of dangerous communicable disease.

117. If dangerous communicable disease is reported to have recently occurred, the Protector, in consultation with the Medical Inspector, shall determine whether the vessel can safely be employed in carrying emigrants; and shall inform the master of the decision arrived at.

Survey vessel.

118. If there be no objection on sanitary grounds to the employment of the vessel, the Protector shall cause her to be surveyed by the Marine and Engineer Surveyors appointed by Government in respect of her classification and tonnage, seaworthiness, the nature of her accommodation for emigrants, the number of statute adult emigrants she is legally capable of accommodating, the nature and sufficiency of her ventilators; the number, description, and condition of the permanently fixed tanks, or receptacles for water; the adequacy and suitability of the tackle, apparel, and furniture requisite for her intended voyage; the strength of officers and crew she should employ, the suitability and condition of all steam and other machinery, and the requirements generally under the schedules appended to the rules.

Preliminary and final survey reports.

119. The Marine Surveyor shall forward to the Protector, firstly, a report of the results of his preliminary survey as to the vessel's eligibility for employment in form No. 26, and subsequently, when every requirement under the Act and Rules has been met to his satisfaction, a final report with certificate in form No. 27.

COLONIAL EMIGRATION FORM No. 26.

FORM OF CERTIFICATE OF PRELIMINARY SURVEY OF EMIGRANT VESSEL.

(1)—Certified that I have carefully surveyed the $\frac{\text{sailing}}{\text{steam}}$ ship
of tons classed lying off
and commanded by , who holds a certificate of competency, and that I consider her in every respect thoroughly seaworthy and eligible for the conveyence of Indian emigrants to the colony of

(2)—Certified also that I have personally ascertained all the information furnished under the first two heads below to be in accord with facts; that the ventilation as already available and ordered to be supplied will meet requirements; and that the master has been informed of the requirements as to certificated officers and crew noted below for compliance before issue of my final survey report on his ship.

I, the undersigned Engineer and Shipwright Surveyor, by direction of the Protector of Emigrants, having personally made, during visits to the abovenamed ship, a careful survey and examination of her hull, machinery, and each of her equipments, fittings, and appurtenances declare as follows:—

(1) That the hull of the said ship; the water-tight tunnel enclosing the propeller shafts; the water-tight doors and stuffing boxes connected with the said tunnel and shaft, the boilers and machinery; the safety valves; all other fittings and appurtenances; and the fire extinguishing appliances on board are sufficient for the service intended, and in good condition.

(2) That the weight that has been placed on the safety valves does not exceed the pressure per square inch in lbs. stated in the above column *d* , being the maximum pressure allowable.

(3) That the boats, life-buoys, lights, compasses, means of making signals of distress, and other equipments on board are sufficient, in good condition, and as required by Act XXI of 1883 and the rules thereunder, and that there is on board a proper, sufficient, and safe magazine for keeping the signals of distress.

(4) That I saw all the boats of the ship lowered into the water, satisfied myself that proper and sufficient means are provided for lowering them safely and expeditiously; carefully examined all the air cases in the life-boats, and ascertained the life-boats to be properly provided with efficient equipments and disengaging gear.

(5) That the distilling apparatus is in efficient working order, and is capable of producing sufficient cold water of a good quality for the number of passengers and crew the ship will carry; that the steam-cooking apparatus connected with the condenser is in good condition and safe working order, and that a person competent to properly manage and repair the apparatus is rated in the ship's articles.

(6) That the coals on board, which I have satisfied myself amount to tons, are in my judgment of good quality and sufficient for all the requirements of the voyage.

(7) That the requirements as to light and air in the between decks, and other places of accommodation, and the ventilation of cargo are complied with; that the means of ventilating the spaces occupied by coals or cargo do not open into or affect any compartment intended for the accommodation of emigrants; and, finally, that the vessel is in my opinion seaworthy, in good trim, and in all other respects fit to proceed to sea for her intended voyage with emigrants to

DATED AT

The *of* 188 .

Marine and Engineer Surveyor.

Special report on unsuitable vessel.

120. In the event of the Marine Surveyor considering a vessel unseaworthy, or in anywise unfit for the safe conveyence of emigrants, he shall, in lieu of the preliminary survey report (form No. 26), forward a special report, furnishing the reasons for his conclusion, for the information of the Protector, and for communication to the Master.

Procedure on receipt of preliminary survey report.

121. On receipt of the preliminary survey report from the Marine Surveyor, the Protector shall forward a copy to the Emigration Agent concerned for information and transmission to the Master concerned.

Arrangements for first inspection.

122. The Master, on receiving from the Agent a copy of the Marine Surveyor's preliminary survey report, shall, after clearing the spaces intended to be given up for emigration purposes, and all obstructions to a thorough inspection, arrange with the Protector, by application in form No. 28, the day on which the first inspection is to be held. He shall also intimate the date of intended inspection to the Emigration Agent, who should arrange for the attendance of the Surgeon Superintendent, if in Calcutta.

COLONIAL EMIGRATION FORM No. 28.

FORM OF MASTER'S APPLICATION FOR FIRST INSPECTION.

FROM

THE MASTER OF THE SHIP

LYING OFF

To

THE PROTECTOR OF EMIGRANTS.

Dated the *of* 188 .

SIR,

HAVING cleared the spaces intended for the accommodation of emigrants, and removed all obstructions to a thorough inspection of the places that are to be given up for the hospital, dispensary, store room, galley, and latrines, I have the honour to request that you will be so good as to inform me of the date when you will be able to inspect the ship and determine the fittings that will be required under the rules.

2. The samples of the stores to be shipped for the voyage are on board awaiting inspection.

I have the honour to be,

SIR,

Your most obedient servant,

Master.

Determination of requirements for voyage.

123. When holding the first inspection, the Protector and Medical Inspector shall, in communication with the Emigration Agent, Surgeon Superintendent, and Master, determine any questions in regard to accommodation, ventilation, or fittings generally that may arise in connection with the requirements for emigrants prescribed by the Act and rules: and, if necessary, the Master shall be furnished with a memorandum of instructions for his guidance.

Shipment of stores according to samples.

124. The quality of the stores to be shipped for the voyage shall likewise be determined during the first inspection; and the Master shall be responsible for the shipment of the stores up to the standard of samples as approved and left with him.

Precautions against fire.

125. The stowing away of combustibles demands special attention, and the Master shall take every care that rockets, blue lights, and fireworks are carried in separate boxes; that the boxes are not kept below the weather deck; and that nothing whatever of any kind, whether explosive or otherwise, is carried in the same magazine or receptacle with gunpowder, or with signals made of gun-cotton or cotton-powder. He shall appoint one of his principal officers, the Engineer, and the ship's carpenter jointly to have charge of the fire extinguishing appliances, and to be responsible for their being in good working condition, and at hand for immediate use, if wanted.

Compartment for emigrants' stores.

126. A distinct compartment of the hold under lock and key shall be set apart for the emigrants' stores, extra blankets, and heavy luggage; and some order should be observed in stowing them away, so that they may be readily got at when wanted.

Storing of drinking water.

127. The water for the emigrants and ship's crew shall not be stored in compartments formed of the hull of the vessel, but in independently constructed water-tanks, the capacity of which shall not exceed 5,000 gallons each.

Surgeon's inspection of completed requirements.

128. After completing the means of ventilation and general fittings, and shipping and sorting all the stores, clothing, and miscellaneous articles required for the voyage, the Master shall request the Surgeon Superintendent to inspect them, and to furnish a certificate (form No. 29), for submission to the Protector, with his application for final inspection by the Emigration officers.

Surgeon's inspection certificate.

129. The Surgeon shall thereupon hold a careful examination: and, after fully satisfying himself by personal examination that each article of the stores shipped is in quality and quantity strictly in accordance with the requirements of the rules and schedules, and not until then, shall give to the Master the desired certificate in form No. 29.

COLONIAL EMIGRATION FORM No. 29.

FORM OF CERTIFICATE OF SURGEON'S EXAMINATION OF STORES SHIPPED.

CERTIFIED that I have carefully examined, on board the ship , the provisions, miscellaneous articles, and medical stores shipped for the use of emigrants: and compared the quantities of the several articles with those prescribed in the scales, and found them to be correct in every instance. I also carefully examined on board the whole of the extra clothing and blankets shipped for the voyage, and found them to be according to scale, and of good quality. All required fittings are completed, and there is nothing to prevent the holding of the final survey by the Government emigration officers.

DATED
The of 188 . } *Surgeon Superintendent.*

Application for final inspection.

130. When the Master is ready for final inspection, he shall forward to the Protector's office, in the forenoon of the day preceding that on which such inspection is desired, an application in form No. 30, and therewith the following certificates:—

(*a*) Certificate of shipment of provisions for emigrants (form No. 31).
(*b*) Ditto of supply of drinking water (form No. 32).
(*c*) Ditto of efficiency of distilling apparatus (form No. 33).
(*d*) Ditto of shipment of medical stores (form No. 34).
(*e*) Ditto of shipment of stores for native crew (form No. 35).
(*f*) Ditto of non-shipment of objectionable articles (form No. 36).
(*g*) Ditto of Surgeon's examination of stores shipped (form No. 29).

COLONIAL EMIGRATION FORM No. 30.

FORM OF MASTER'S APPLICATION FOR FINAL INSPECTION.

To

THE PROTECTOR OF EMIGRANTS.

Dated

SIR,

THE ship's equipment in every respect having been completed in accordance with the requirements of the rules and schedules and instructions received, and the stores shipped for

the use of emigrants having been carefully checked by the store-keeper and Surgeon, in respect of the quantities prescribed in the scales and arranged in accordance with the instructions given, I have the honour to forward herewith the certificates required under rule, viz:—

(*a*) Certificate of shipment of provisions.
(*b*) Ditto of supply of drinking water.
(*c*) Ditto of efficiency of distilling apparatus.
(*d*) Ditto of shipment of medical stores.
(*e*) Ditto of shipment of stores for native crew.
(*f*) Ditto of non-shipment of objectionable articles.
(*g*) Ditto of Surgeon's examination of stores shipped.

and to request that you will be so good as to arrange with the Medical Inspector for the final inspection of the fittings and examination of the stores on the of , when a sufficient number of hands will be in attendance to facilitate the work.

I have the honour to be,
SIR,
Your most obedient servant,

Master.

139. After the necessary papers have been made over to the Master, the Protector shall, fully 24 hours previous to the time fixed for embarkation, issue a notice to the Medical Inspector for his attendance.

Section III.—Embarkation.

Embarkation wharf.

140. The suitability and safety of every wharf and moveable stage used for embarking emigrants shall be annually certified by the Conservator or other officer charged with the functions of Conservator of the Port

Presence of Surgeon at embarkation.

141. The Surgeon Superintendent of the ship shall attend at the wharf fully an hour before the time fixed; but the compounder shall be present earlier, and shall assist in attending to requirements connected with embarkation.

Final medical examination of emigrants.

142. Emigrants on arriving from the depôt shall be arranged in order, commencing at the end of the shed nearest the wharf according to their names as entered in the nominal roll; and having been provided with their passes in form No. 45 for delivery to the Master at the time of embarkation, the Medical Inspector, accompanied by the Surgeon Superintendent, shall examine them, and determine, for the guidance of the Protector, whether they are in a fit state of health to undertake the voyage, endorsing the result of his examination in form No. 24 (Surgeon Superintendent's certificate of final examination of emigrants in depôt).

Number.	Description.

DATED ON BOARD,
The *of* 188 .

Permission for conduct of embarkation.

145. No embarkation shall be permitted until the requirements of the Act and rules have been complied with.

Requirements previous to embarkation.

146. In making preparation for embarkation, the master shall carefully comply with the following requirements :—

(*a*) The between-decks are to be cleared, cleaned, and dried for the accommodation of emigrants.

(*b*) The upper deck hatches, and all ventilators of the between-decks, are to be opened ; and, if the weather be unfavourable, the hatches and air shafts are to be protected by tarpaulins spread tent fashion over them, and the cowls turned to leewards.

(*c*) Lanterns, ready for lighting, are to be hung in their places

(*d*) The tanks on deck are to be filled with drinking water, and so also are the tubs for latrine purposes to be kept filled and ready for use.

(*e*) The embarkation stage, with ladder and hand-rails, are to be securely and conveniently fastened.

(*f*) The awnings are to be spread.

(*g*) The heavy baggage of the emigrants is to be stowed away in the hold.

147. During embarkation all traffic, unless carried on by means of a separate gangway, and every kind of work interfering with embarkation, shall be stopped.

Suspension of traffic during embarkation.

148. When everything is ready, and the master has taken the emigrants' passes, and has satisfied himself that the nominal rolls (lists) furnished to him by the Emigration Agent under section 65 are correct, and that the entries therein correspond with the emigrants and their passes, and the Medical Inspector has found the emigrants fit to embark, they shall be permitted to proceed on board, a tally of the number of persons embarking being kept at the gangway by two persons belonging to the ship.

Tally at embarkation.

149. While embarkation is proceeding, the Surgeon Superintendent, or his assistant, shall supervise the location of the emigrants in their respective compartments of the between-decks as follows: the single women furthest aft; the married persons next; and the single men forward.

Location of embarked emigrants.

150. If emigrants after embarkation cannot be provided with a cooked meal, they shall be supplied instead with a dry meal of biscuits and sugar, or such other articles as may be ordered by the Surgeon, and children shall have milk issued to them.

Feeding of emigrants after embarkation.

151. As soon as the embarkation is completed, the following documents, duly signed, relating to the emigrants embarked, shall be made over to the Master and the Surgeon Superintendent respectively—

Documents for Master and Surgeon.

To the Master—

(*a*) The nominal roll of embarked emigrants.

(*b*) Two copies of the Act and rules, with two copies of translations.

To the Surgeon—

(*a*) Issue of provisions and medical comforts	...	(Form No. 47).
(*b*) Surgeon's journal	...	(„ „ 48).
(*c*) Admission and discharge book ...	...	(„ „ 49).
(*d*) Case book	...	(„ „ 50).
(*e*) Register of births and deaths ...	...	(„ „ 51).
(*f*) Register of cholera cases	...	(„ „ 52).
(*g*) Register of deceased emigrant's property	...	(„ „ 53)
(*h*) Surgeon's abstract report of voyage ...	...	(„ „ 54).
(*i*) Surgeon's list of embarked emigrants ...	...	(„ „ 55).

(*j*) One copy of the Act and rules.

Instructions to Surgeon Superintendent.

The Surgeon Superintendent, with reference to all his duties on the voyage, is requested keep a daily journal of his proceedings, noting therein every event of moment at the ıe of its occurrence. In addition, he should enter the dates when the decks are scrubbed otherwise cleaned; the ship fumigated, if necessary; the bottom-boards of the platforms ı hospital bunks taken out on to the upper deck and scrubbed; the blankets shaken and ed; the bathing days and working days; and the days on which he fails to muster the igrants with the reason of failure. He should state, every day, the nature of the weather ı the latitude and longitude, and should notice the crossing of the tropics and of the ɔ. He should enter any noteworthy instances of the good or bad conduct of those on ırd, or of the working of the regulations for their discipline, and copies of any letters he y write or receive on service. At the end of the journal he should place together all his ıeral observations on the voyage, expressing every objection he may see reason to form to regulations, or to the victualling, or any other part of the arrangements, and taking care ıave the remedy he would propose.

"The Surgeon should bear in mind that this journal is a very important document, only as concerns his charge, but himself, and should be a faithful record of the occurɔes of the voyage. It should therefore be carefully kept, and all matters noted therein which ɔ any bearing upon his functions. A careful entry should be made of any complaints le to him by the emigrants, and the measures taken to remedy them; and in case any ɔstigation be necessary, the Surgeon should request the master of the vessel to assist him) evidence taken and the decision arrived at should be carefully entered and signed by witnesses, himself, and the master of the vessel and read to the complainant, who should also required to sign it as a correct record of the proceedings. The occurrences of each should be entered before its close, while fresh on memory, and loose memoranda should ɔr be resorted to."

Instructions to Surgeon Superintendent.

The Surgeon Superintendent is requested, in conformity with the orders of Government, to carefully enter in the cholera register the information required under the several heads in the event of cholera occurring on the voyage, and on the completion of the voyage to submit a report with the register to the Colonial authorities for transmission direct to the Government of India.

The report should be arranged in the following manner :—

Report on cholera in in the month of 188 dated , by Surgeon

Section A.—Details of outbreak.

(1). The circumstances attending first case; any fatigue or exposure to weather, or excess of any kind connected with it; had the person first attacked lately been in any place where cholera existed?

(2). If the first case was in a patient already under treatment in hospital, how long under treatment, and for what disease?

(3). Dates and other particulars of any suspicious case or cases not entered in the register?

(4). The occurrence of previous cases in the Calcutta depôts.

(5). Any prevalence of diarrhœa before or during the outbreak, the number of such cases treated within given dates not only in hospital, but also by receiving medicine outside.

Section B.—Meteorology.

Any peculiarity noted in the atmospheric phenomena, such as the force and direction of the wind, unusual stillness of the air, the amount of rain, occurrence of storm, with thunder and lightning, &c.

Section C.—Evidence of contagion.

(1). Could the first case be traced to importation, or could any connection be established between the first case and those which occurred afterwards? If so, detail the facts.

(2) How many individuals, including medical and other officers, hospital assistants and others, both Europeans and natives, attended on the cases of cholera which occurred, and of these how many were attacked with cholera, and on what dates? Of the sweepers employed in collecting and removing cholera excreta (who should also be included in the above), how many were seized with cholera? Were the circumstances connected with any of the attacks such as to lead to the conclusion that they were due to such attendance? If so, what were they?

Section D.—Sanitary defects.

Any defects noted in water-supply, conservancy, accommodation, &c.

Section E.—Information or opinions not included in the above.

N. B.—Section A to D inclusive should be strictly confined to a statement of facts, and should contain no opinions.

(3). In preparing the report, attention should be given to the following points :—

(*a*). The replies under each head should be complete in themselves, and not confined to "yes" or "no" without reference to the point which is in question.

(*b*). Even when only one case of cholera has occurred, the report (and register also) should be prepared exactly according to the form prescribed.

COLONIAL EMIGRATION FORM No. 53.

FORM OF REGISTER OF DECEASED EMIGRANT'S PROPERTY.

Particulars relating to property left by deceased emigrants during the voyage of the ship bound to. in the year

Date of death.	Serial number.	Name of deceased.	Sex.	Number in nominal roll.	DESCRIPTION OF PROPERTY LEFT.		Date of delivery of effects to master.	Signature of Master in acknowledgment.	Particulars as to names and addresses of nearest relatives of deceased.	REMARKS.
					Money.	Miscellaneous articles.

COLONIAL EMIGRATION FORM No. 55.

Form of Surgeon's list of embarked Emigrants.

Nominal roll.	Name of emigrant.	Father's name.	Sex.	Age.	Caste.	REMARKS.

152. If, after embarkation of the emigrants, the Preventive Officer should cause any of the crew to be arrested for having contraband articles in his possession, the master shall forthwith complete the required number of crew against the vessel's departure, and shall not leave the port without a complete crew, unless for any special reason he is permitted to do so by the Port Officer.

Departure with complete crew.

CHAPTER V.

THE VOYAGE.

Section I.—General Rules.

Pilotage charge of emigrant vessels.

153. The pilotage charge of all emigrant vessels, whether outward or inward bound, shall be held only by officers of the grades of Branch and Master Pilot.

Precaution against fire.

154. (*a*) The secreting of fire by emigrants, immediately after embarkation, or at any time during the voyage, for smoking in the 'tween decks shall be carefully guarded against; and the emigrants shall be called on to deliver up whatever matches, gunpowder, or other inflammable articles they may have with them; and shall at the same time, be warned of the serious risk to the ship and passengers involved in smoking in the between decks, or in retaining such things in their possession.

(*b*) The carrying of naked fires or unprotected lights or stoves into the between decks, hold, cabins, store-room, spirit-room, forecastle, or any other part of the ship shall be strictly prohibited; and no smoking shall be allowed anywhere, except within that portion of the upper deck specially set apart for the purpose by the master.

(*c*) Watches shall be kept day and night by two of the emigrants in turn, and they shall report to the officer of the watch, immediately after it is noticed, any breach of the above rules, and once every hour that all is safe below.

(*d*) The officer of the watch shall appoint a trustworthy man of his watch to inspect the between decks, if he has reason to believe that any one is smoking below; and, on being relieved of his watch, shall, before retiring to his cabin, visit the between decks himself to see that all is safe.

Responsibility of preventive officers.

155. Before the vessel gets under way, pilots and preventive officers shall see that only the number stated in the list of passengers and crew (Form No. 44) remain on board; and that no other persons are taken into the vessel subsequently while she is proceeding to sea.

Non-employment of female emigrants as servants.

156. On the voyage, the officers and crew of the vessel shall not have any intercourse, or in any way interfere, with the female emigrant passengers; and no female emigrant shall be employed by the master, officers, or passengers on board as a personal servant.

Landing of infectious cases at Diamond Harbour.

157. When any emigrant suffering from measles, small-pox, or scarlet fever is landed and placed in the hospital at Diamond Harbour for treatment under section 78, the Surgeon shall, without delay, inform the Emigration Agent concerned. On receiving such information, the Emigration Agent shall arrange with the Medical Officer of the hospital to defray the requisite expenses for the treatment and keep of the patients, and of any dependants or relatives landed at the same time; and to remove them to the depôt at Calcutta, when it can be done safely under permission from the hospital authorities.

Landing of emigrants on outbreak of epidemic cholera.

158. The Surgeon, immediately after determining to land all the emigrants on board at Diamond Harbour under section 79, shall telegraph his decision to the Agent concerned; and shall defer the disembarkation until the arrival of the Agent, or other responsible person deputed by him, the patients only being removed in the meanwhile to the hospital on shore for treatment.

Removal of emigrants to Agent's depôt.

159. The Agent, on receiving the telegram from the Surgeon, shall at once proceed to Diamond Harbour, or, if necessary, depute some responsible person to take charge of the emigrants when landed, and have them removed by train as soon as possible thereafter to the depôt at Calcutta.

Re-embarkation of landed emigrants

160. The emigrants, on their return to depôt, shall be isolated as far as possible, and kept under observation, and shall not be re-embarked until the Medical Inspector of Emigrants decides that they can do so safely, and until the vessel, returning to the embarkation wharf at Garden Reach, has been thoroughly disinfected to the satisfaction of that officer, and of the Protector of Emigrants, who shall conduct the re-embarkation under conditions that obtained previously in connection with embarkation.

Section II.—Rules for the guidance of the Master.

Facilities for discharge of duties.

161. The master of an emigrant vessel shall afford to the pilot, and to the preventive officer on board, every facility for the proper discharge of their respective duties.

Support of Surgeon's authority.

162. The master shall, in all matters relating to the emigrant passengers, pay due regard to the authority of the Surgeon Superintendent empowered to exercise general control and superintendence over them; co-operate with him in enforcing the maintenance of order among the emigrants; afford him such countenance as may add to his moral authority

on board; comply promptly with every reasonable requisition, and give early attention to the representations of the Surgeon Superintendent in connection with his special care of their interests. He shall also see that the officers and crew render the Surgeon such assistance as he may need.

Maintenance of discipline.

163. The master shall take care that members of the crew do not enter the compartments occupied by emigrants without special permission, nor annoy, abuse, or assault an emigrant, under any pretext whatever. Moreover, the crew shall be strictly prevented from selling or giving opium, ganja, spirits, or any intoxicant to any of the emigrant passengers. In the event of this rule being disregarded, and of there being sufficient evidence to prove that its enforcement was neglected, or that any attempts of the crew to infringe it were not vigorously dealt with, the master shall be liable to the full penalty provided by the conditions of the bond or obligation executed by him previous to the embarkation of the emigrant passengers. He shall, moreover, be liable thenceforward to be considered unfit to command an emigrant ship.

Cleanliness of bilges.

164. The bilges of an emigrant vessel shall not be allowed to foul, and measures shall be taken to keep them as clean and free from smell as possible throughout the voyage.

Cleanliness of decks.

165. The between decks shall be kept perfectly free, clean by scrubbing daily or otherwise, and as dry as possible by means of hot sand and stoves, if necessary, and the upper deck also shall be kept clean and clear of all unnecessary lumber.

Non-encroachment on emigrant's space.

166. The space set apart for the accommodation of the emigrants shall on no account be encroached on. The emigrants generally shall be allowed the free use of the main and quarter decks; and the women that of the whole of the poop or after deck, no sailmending or other work being allowed to interfere with their accommodation, and all shall be encouraged to remain in the open air as long as possible, when the weather permits.

Systematic issue of emigrants' stores.

167. The rations and water for emigrants shall be issued daily under instructions from the Surgeon before 6 A.M.; and the officer in charge of the stores shall keep a correct account of such issue in Form No. 47, and have it initialed daily by the master and Surgeon.

Issue of medical stores and comforts.

168. Medical stores and comforts, shipped for the exclusive use of the emigrants, shall be issued entirely at the discretion of the Surgeon Superintendent. Spirits and wine, however, shall be issued only upon the written requisition of the Surgeon addressed to the master, specifying the patient or patients for whom the issue is required, and the quantity in each case; and in no case shall the master issue more of these articles than is required for a single day's consumption. Form No. 47 shall be daily filled in and initialed by the master and Surgeon.

Protection from annoyance during meals.

169. The master shall see to it that members of the crew, whether on duty or not, do not interfere with or in any way annoy or disgust the emigrants while taking their meals.

Issue of scale allowance of water.

170. While the vessel is proceeding down the river, the emigrants shall not be put on the scale allowance of drinking water; but when at sea, the prescribed quantity shall be issued twice daily; and, if required, and circumstances admit of it, in excess of the scale while in the tropics. The water issued for drinking shall, as far as possible, be condensed water.

Water-supply for closets.

171. The supply of water for use in the water-closets shall not be allowed to fail either day or night; but under proper arrangements shall be continuously kept up in the tubs, or iron tanks, set apart for the purpose.

Spread of awnings and tarpaulins.

172. Awnings shall be spread over the quarter and main decks when the weather permits, so as to admit of the emigrants remaining on the upper deck as much as possible; and tarpaulins, with a view to being spread tent-fashion over the hatchways when necessary, shall always be kept at hand ready for use.

Precautions against accidents.

173. Life-buoys and life-boats shall be kept at all times in readiness for immediate use; the crew shall be exercised in fire drill once a week, and in lowering boats whenever opportunities permit, the life boats having picked men assigned to them. The regulations of the Board of Trade respecting lights and fog signals shall be strictly observed throughout the voyage; and the times of hoisting and hauling down the lights shall be noted daily in the ship's log.

Lighting and securing of lanterns.

174. Lanterns shall be lighted at dusk and padlocked; and, besides the number of lights that may be required by the Surgeon to be placed in the between decks, one lantern, at least in each water-closet, and one at each gangway, shall be kept burning throughout the night up to day light.

Disposal of deceased emigrants' effects.

175. The goods or effects of deceased emigrants shall be taken charge of by the master after the Surgeon has entered in the register of deceased emigrants' property (Form No. 53) a copy of an inventory thereof prepared under rule ; and they shall be delivered on the vessel's arrival at destination to the Immigration Officer at the port of debarkation.

176. On arrival at the port of debarkation, the master shall deliver the nominal, roll-received from the Protector of Emigrants at the port of embarkation, together with an attested copy of the ship's log, to the Colonial Immigration Officer for transmission to India.

Delivery of documents.

Section III.—Rules for the guidance of Surgeons.

177. The Surgeon shall exercise general control and superintendence over the emigrant passengers. He shall, throughout the voyage, maintain a constant watchfulness over everything that may influence the health of those under his care; and also pay strict attention to all sanitary precautions, and to the early detection and treatment of disease.

Special charge of emigrants.

178. The emigrants after embarkation shall be divided into groups, each consisting of 25 or thereabouts, and the Surgeon shall appoint a sirdar to take charge of each group, who shall be held responsible for the good conduct and well-being of the persons under him, and for the cleanliness of the portions of the between decks occupied by them.

Appointment of sirdars.

179. While the vessel is proceeding to sea, the Surgeon shall adopt measures to prevent the emigrants from drinking water from the river.

Precaution against drinking river water.

180. The Surgeon shall frequently caution the staff of attendants on the emigrants to see that the rules against smoking or carrying fire into the between decks are not violated; and to report to him any breach of them immediately after detection of the offender.

Precautions against fire.

181. Discipline among the emigrants shall be secured by all legitimate means; and harsh treatment shall, as far as possible, be avoided. Every emigrant who is guilty of insubordinate or riotous conduct on the voyage, or obstructs the Surgeon or master in the execution of any duty imposed, upon them, shall, for each such offence be liable, on arrival at destination, to corporal punishment, or imprisonment for a period not exceeding one month, as the Magistrate may order. No emigrant, however, shall, for any offence, be subjected on board to corporal punishment, or to any reduction of the prescribed quantity of daily food. If any other form of punishment become necessary, it shall be inflicted only with the consent of the Surgeon; and the particulars of each case shall be immediately entered in the ship's log.

Maintenance of discipline.

182. The Surgeon shall appoint night watchmen from among the married emigrants, who shall see that no women visit the single men's compartment, or the crew, during the night under pretence of going to the latrines.

Prevention of immorality.

183. Any uncalled for interference on the part of the officers or crew with the emigrants, or the space allowed to them on the upper and lower decks, or any infringement of the rules, shall at once be brought officially in writing to the notice of the master, who shall, *as soon as possible*, enquire into the matter and adopt such measures as the case may need.

Interference by officers and crew.

184. Ventilation, and the means of promoting or modifying it, shall receive the constant personal attention of the Surgeon.

Attention to ventilation.

185. Emigrants shall not lie under the platforms, but may be permitted to place their legs thereunder should space for a passage between the platforms not be obtainable otherwise.

Non-occupation of space under platforms.

186. The compounder, interpreter, nurses, sirdars, cooks, and topazes shall be under the Surgeon's immediate control; and shall discharge their duties strictly in accordance with his instructions. In the event of any misconduct, it shall be in the power of the Surgeon to disrate any of them, and to appoint another person instead.

Control over attendants.

187. Emigrants shall be inspected daily; and every effort shall be made to detect for immediate treatment the earliest symptoms of ill-health, and to isolate at once every case of any serious communicable disease. Emigrants ordered to be placed on hospital diet should be deprived of their tin tickets until such order is countermanded.

Inspection of emigrants.

188. All emigrants, who are not prevented by sickness, or other sufficient cause to be determined by the Surgeon, shall rise not later than 7 o'clock A. M., and shall retire for the night not later than 10 o'clock P. M.

Hours for rising and retiring.

189. The emigrants on rising shall, weather permitting, be sent to the upper deck, and shall not be permitted to return to the between decks while they are being cleaned.

Vacating of between decks.

190. While the emigrants are on the upper deck, the between decks including the spaces under the platforms, shall be swept and cleaned by scrubbing. This duty shall be performed by parties of emigrants taken in rotation from the adult males above 14 years, in the proportion of 10 to every one hundred emigrants. The removable planks of the sleeping platforms

Cleaning of between decks.

shall also be dry-scrubbed and aired on the upper deck, weather permitting, at least twice a week.

Airing of clothing.

191. The emigrants' clothing and blankets in use shall be aired thoroughly every day; and, whenever possible, in the open air on lines provided for the purpose. Each emigrant shall be responsible for the care of his or her own clothing, and the Surgeon shall hold a general muster of all clothing and blankets once a week.

Bathing and washing.

192. The emigrants shall bathe daily when possible, a screen being put up for the women; and those desiring to anoint themselves with mustard or cocoanut oil shall be provided with the required oil at the Surgeon's discretion. Their clothes shall be washed by them at least twice a week.

Hours for meals.

193. The forenoon meal shall be served out to the emigrants by 9 o'clock, and the afternoon meal by 4 o'clock; and both meals shall be served on the upper deck whenever practicable.

Observance of dietary scale.

194. The Surgeon Superintendent shall, in connection with the daily feeding of emigrants on the voyage, adhere strictly to the articles and their quantities as prescribed in the weekly diet scale. But, *ordinarily*, he may exercise his discretion in regard to alterations in the proportions, and to the mode of preparation of the articles intended for daily consumption; the daily issues, in whatever way varied, being so regulated as to fulfil, by the close of each week, the requirements of the weekly diet scale: and, *extraordinarily*, under special or unlooked for circumstances rendering a departure from the requirements of the weekly scale absolutely unavoidable. If for any sufficient reason, to be stated in the Surgeon's journal, it becomes impossible to cook the meals, dry provisions shall be issued as provided for in the scale of provisions. In the dieting of the sick, no limit to the exercise of the Surgeon's discretion is intended to be fixed.

Inspection of food.

195. The meals shall be served out to the emigrants in the presence of the Surgeon, who shall see that the food is well cooked, and fairly distributed to all possessing tin tickets, a means of distinguishing those not on hospital diet.

Care of children and the sick.

196. Special attention shall be paid by the Surgeon to the feeding of children and the sick. Besides their usual meals, the children of seven years and under shall be provided, *in the early morning*, with a light meal of farinacious food mixed with milk. The sick shall have their food arranged for at stated intervals, and the Surgeon shall take effective measures to prevent any neglect on the part of those told off for the duties of night nursing.

Non-consumption of stale food.

197. After every meal, the decks shall be carefully swept; all the cooking utensils thoroughly cleaned; and no stale food shall be allowed to be secreted or consumed by either cooks or emigrants.

Open air exercise.

198. Emigrants shall be encouraged to spend most of their time in taking exercise, and amusing themselves in the fresh air of the upper deck, noisy amusements, such as singing and playing on drums, ceasing at 8 bells

Treatment of sick emigrants.

199 Emigrants suffering from slight illness may be attended in their berths; but all serious cases shall be treated in hospital. Patients attacked by cholera or small-pox, or other dangerous communicable disease, with all that belongs to them, shall be instantly and thoroughly isolated from the healthy; and the family or batch in which such disease occurred shall be kept on another deck, or as far apart as possible from the rest of the emigrants.

Measures for prevention of an epidemic.

200 Besides the immediate isolation and treatment of the first case or cases of dangerously communicable disease, every precaution shall be taken to prevent an epidemic, strict attention being paid to premonitory symptoms, general and personal cleanliness, careful disinfection and disposal of excreta, disinfection and destruction of infected articles, free ventilation, and care of the healthy. On the occurrence of cholera, a register of the cases shall be kept in the prescribed Form No. 52.

Utilization of available places in case of epidemic.

201. For the purpose of isolation of the sick or separation of infected persons, the master shall give up, if required by the Surgeon Superintendent, any suitable places that may be available anywhere, and put up tarpaulins or other shelter for those to be so isolated or separated.

Measures of disinfection

202. Places originally occupied by emigrants removed on account of communicable disease shall be instantly cleaned, and the deck shall be thoroughly scrubbed and disinfected.

Destruction of infected articles.

203. All clothes, blankets, mats, &c., that have been in any way in contact with those suffering from serious communicable disease, or have been soiled, or are suspected of infection or impurity, shall be thrown overboard in the presence of the Medical Officer.

Burial of deceased emigrants.

204. Unless contagious or infectious disease be the cause of death, the corps of an emigrant shall not be committed to the sea until six hours after, and, under any circumstances, no burial shall take place until the death has been verified by the Surgeon, master, and chief officer.

205. A correct inventory of the goods or effects of every emigrant dying on the voyage, when not claimed by some person lawfully entitled thereto, shall made by the master and Surgeon conjointly; and the Surgeon shall enter a copy thereof in the register of deceased emigrants' property Form No. 53, with such particulars as he may be able to collect as to the names and addresses of the nearest relatives of the deceased the master in every case attesting the correctness of such entry by affixing his signature in the appropriate column.

Effect of deceased emigrants.

206. The Surgeon shall keep the following records during the voyage, and shall make them over, together with the nominal-roll of embarked emigrants, to the proper Colonial Government Officer at the port of debarkation for transmission to the Protector of Emigrants concerned in India.

Keeping of records.

(*a*). Issue of provisions and medical comforts (Form No. 47).
(*b*). Surgeon's Journal (Form No. 48).
(*c*). Admission and discharge book (Form No. 49).
(*d*). Case book (Form No. 50).
(*e*). Register of births and deaths (Form No. 51).
(*f*). Register of Cholera cases (Form No. 52).
(*g*). Register of deceased emigrant' property (Form No. 53).
(*h*). Surgeon's abstract report of voyage (Form No. 54).

207. If any of the records, deliverable by the Surgeon, have not been satisfactorily kept, the Surgeon shall be liable to be deprived of so much of his gratuity as the Colonial Government may consider to be adequate punishment.

Deprivation of gratuity.

CHAPTER VI.

Returned Emigrants.

208. The master of a vessel, with returned emigrants, shall, when coming up the river, telegraph to the Emigration Agent concerned the probable time of her arrival off the debarkation wharf at Garden Reach.

Intimation of arrival to Emigration Agent.

209. The Emigration Agent shall duly notify to the Protector, and also to the Medical Inspector, the time when the mustering of the emigrants on board will have been completed, and the ship will, in every respect, be ready to land her passengers.

Notice by Agent to emigration officers.

210. The Protector shall thereafter visit the ship, and shall ascertain whether the emigrants were properly treated on the voyage, and in the colony.

Inspection of emigrants by Protector.

211. The Medical Inspector shall also proceed on board, and inspect the emigrants as to their state of health, the ship as to her general condition and fittings, and samples of the stores and water that had been supplied to the emigrants on the voyage, and shall forward a written report of the result to the Protector as soon as possible after the inspection for the information of Government.

Inspection of emigrants by Medical Inspector.

212. The Surgeon of the ship shall, previous to arrival, prepare a statement of the sick and helpless returned emigrants in Form No. 56, and shall furnish it, after the Medical Inspector has endorsed his remarks thereon, to the Emigration Agent for his guidance, and for transmission of the Protector with remarks as to how such emigrants have been finally disposed of. He shall also furnish to the Protector the Surgeon's abstract of the principal events of the return voyage (Form No. 57), after carefully filling in required information.

Surgeon Superintendent,

Ship

213. After the official inspection by Government officers, provided there be sufficient day-light, the emigrants shall be landed and accommodated in the depôt of the Agency concerned, where they shall be properly lodged and provided for until the Agent is in a position to arrange for their departure.

Landing of emigrants.

214. The sick, unless unwilling, shall be treated in the depôt or other hospital according to circumstances; and, on their discharge from hospital, shall be dealt with like other returned emigrants who needed no medical treatment.

Disposal of sick.

215. The paupers shall, if they desire it, be returned to their native districts at the expense of the Agency concerned, and such returned emigrants as may be considered by the Medical Inspector to be physically or mentally helpless shall be so returned by the Agent under proper escort: provided that, in the case of paupers, the Agency shall bear the expenses of the escort, and also provide such additional pecuniary assistance as their condition or circumstances may render necessary.

Disposal of pauper and helpless emigrants.

216. If any returned emigrants are known to have deposited money in the Colonial bank for transmission to India, the Emigration Agent concerned shall, without delay, make payment to them, in Indian money, at the current rate of exchange, of the equivalents of the amounts so deposited, and should any desire it, assist such to obtain orders on the district treasuries in lieu of notes or silver, which for obvious reasons they should be discouraged to carry about with them. The amounts payable in the cases of emigrants who died on the voyage shall be forwarded by the Agent to the Protector of Emigrants for disposal as administrator to their estates, together with the nominal-roll of the returned emigrants, containing entries of all payments made by the agency against the names of the depositors.

Payment of colonial deposits.

217. Before returned emigrants leave the depôt, the Agent shall caution those who possess money against carrying loose cash on their persons; and shall assist them, if they desire it, to obtain money orders instead on the treasuries of the districts to which they intend to go.

Advice to emigrants leaving depôt.

218. On the day following the debarkation, both master and Surgeon shall separately address the Protector, and inform him in writing of any charges or complaints they may have against any one on board in connection with his or her conduct on the voyage, with a view to the necessary investigation being held before the emigrants disperse to their homes.

Complaints by master and Surgeon.

219. When any vessel arrives with returned emigrants from any colony, the Emigration Agent concerned shall invariably forward the nominal-roll of the returned emigrants, together with all the documents relating to the voyage kept by the Surgeon Superintendent, to the Protector of Emigrants for his and the Medical Inspector's perusal.

Documents relating to voyage.

220. As soon as possible after arrival of returned emigrants, the Protector of Emigrants shall submit a report to the Local Government in Form No. 58, and shall embody therein the results of his and the Medical Inspector's inspection of the emigrant vessel, and of the returned emigrants arrived in her

REMARKS BY PROTECTOR OF EMIGRANTS.

DATED

The 188 .

Protector of Emigrants.

Delivery of deceased emigrant's property.

221. The master of every vessel bringing returned emigrants shall, after the emigrant passengers are landed, make over to the Emigration Agent concerned the goods or effects of all the emigrants who died on the voyage leaving unclaimed property, together with an extract from the register of deceased emigrants' property kept on the voyage, furnishing the particulars of each case, countersigned by the Surgeon Superintendent. The agent shall, on his part, forward the effects and extract to the Office of the Protector for disposal as administrator to the estates of deceased emigrants.

Disposal of deceased emigrant's property.

222. On receipt from the Emigration Agent of the effects of any deceased emigrants, the Protector shall enter all such effects in a register of deceased emigrants' estates in Form No. 59, and, after disposing, to the best advantage, by private or public sale, of any miscellaneous articles, shall deposit, in the Treasury Department of the Bank of Bengal, the aggregate amount at credit of the estate, pending enquiry for heirs.

Enquiry for legal heirs.

223. The enquiry for relatives entitled to the succession shall be made by the Protector of Emigrants through district officers, and if successful in tracing any such relatives, the Protector of Emigrants shall withdraw the amount deposited in the Bank, and transmit it to the district officer concerned for payment to the person or persons reported by him to be the legal heir or heirs to the estate under administration.

Report of disposal of deceased emigrants' estates.

224. After all enquiries for the heirs of Indian emigrants dying on the return voyage from the colonies have been completed, and the estates to which any succession was traced have been administered to, the Protector of Emigrants shall report to the Local Government the results of his proceedings, and dispose of any vacant estates in accordance with the orders received in each case.

APPENDIX

TO

THE RULES UNDER THE INDIAN EMIGRATION ACT XXI OF 1883.

APPENDIX TO THE RULES UNDER THE INDIAN EMIGRATION ACT XXI OF 1883.

SCHEDULE A.

Vessel.

Requirements for Emigrant Vessels.—The Marine Surveyor shall satisfy himself, in respect to every vessel chartered for the conveyance of emigrants, either that, if constructed of iron or steel, she is classed in Lloyd's Register of British and Foreign Shipping *AI, AI or 100 AI; or that, if of composite construction or built of wood, she is classed AI in Lloyd's Register, or does not exceed in age once and two-thirds her original classification: or that she has been pronounced in Calcutta, by at least two competent Surveyors of Shipping, after a full and careful survey in the manner prescribed by Lloyd's rules, to be fully equal to vessels classed as above.

Hull.

Examination in dry dock.—No vessel shall be eligible for the conveyance of emigrants unless—if iron—she has been examined in dry dock, or in slip-way, within twelve months of the date on which she is to sail: or if wood, she has been so examined within eighteen months of that date. In case a vessel has been stranded, she shall be examined in dry dock before being certified as eligible, notwithstanding that she may have been so examined shortly before such stranding took place.

Internal examination.—The vessel shall be opened up for internal examination, by the ceiling being lifted or listings cut as required, to the entire satisfaction of the Marine Surveyor.

Masts, spars, and rigging.

Rigging in general.—Masts, spars, and rigging of every vessel shall be such, and in such condition, as per Lloyd's requirements for vessels' tonnage; and suitable spare spars shall be provided to the satisfaction of the Marine Surveyor.

Rigging for steamers.—Every steamer shall be sufficiently well rigged to enable her to bear up under canvas for a lee port, in case of accident to her machinery.

Anchors, chains, and hawsers.

Every vessel shall be provided with anchors, cables, and hawsers, in accordance with Lloyd's requirements for vessels' tonnage. All the cables shall be taken out of lockers for examination when required by Marine Surveyor, and at least once a year; and all shackle-pins backed out and cleaned, &c.

Sails and running gear.

Two complete suits of sails, and proper storm sails, shall be provided in every sailing or steam-vessel, and all necessary running gear, to the satisfaction of the Marine Surveyor. Also one complete suit of main, quarter, and poop-deck awnings.

Boats.

Scale.—Every vessel shall have boats of approved construction, and supplied in accordance with the following boat scale:—

REGISTERED TONNAGE OF SHIP.	Number of boats not less than	SAILING VESSEL.		STEAM VESSEL.	
		Minimum cubic contents of life-boats.	Minimum cubic contents of all the boats of the ship.	Minimum cubic contents of life-boats.	Minimum cubic contents of all the boats of the ship.
		Feet.	Feet.	Feet.	Feet.
Less than 200 tons	2	150	394	230	614
200 and less than 400 tons	3	200	712	302	1,095
400 ditto 600 ,, ...	4	250	1,205	330	1,462
600 ditto 800 ,, ...	5	280	1,738	330	1,730
800 ditto 1,000 ,, ...	5	400	2,045	330	2,045
1,000 ditto 1,250 ,, ...	6	480	2,515	900	2,515
1,250 ditto 1,500 ,, ...	6	900	3,000	900	3,000
1,500 and upwards		928	3,600	928	3,600

N. B.—The length over all *plus* the extreme breadth *plus* the inside depth amidships to be considered as the cubic contents.

Requirements.—Every boat shall be provided to the satisfaction of the Marine Surveyor with masts, sails, painter, oars, rowlocks or tholes, rudder and tiller, boat hooks, plugs and breakers; and all to be properly secured in the boats.

Fittings.—Each boat shall be supplied with two fresh-water breakers, two small tin-lined lockers fitted under the side seats in the stern of each boat, each locker being capable of holding about 50 lbs of biscuit, and a tightly spread canvas cover to preserve her from the sun.

Position.—In the case of sailing vessels, all the boats, excepting the two life-boats, shall be carried on the skids, as being the safest place for them in heavy weather: and all the chocks of the chocks shall be made to go with hinges instead of being immoveable.

Life-boats.—Of the total number of boats, at least two shall be carried at the quarters, and fitted as life-boats, with Clifford's or other approved lowering apparatus. The hatchet or tomahawk, which is to be kept in each end of each life-boat, shall be in good order and attached with a lanyard: a life-jacket or belt for each oarsman, and one for the

cockswain, shall also be provided: and a life line in loops shall run round the outside of the boat, and be securely made fast.

Life-jackets.

No life-jacket or belt shall be approved that it is not capable of floating in the water for 24 hours with 23lbs of iron suspended from it: and to ensure this buoyancy, a life-jacket, in which the cork must be exposed and have a canvas back and straps only shall weigh 5lbs when dry.

Life-buoys.

Number.—At least six life-buoys shall be provided, and two of them shall be fitted with float signals. Six small and two large Holmo's distress signals shall besides be provided for night use.

Material—No life-buoys with stuffed rushes or with cork or other shavings, or granulated cork, or sola, or any loose material shall be approved by the Marine Surveyor. All cork life-buoys shall be constructed of solid cork, and fitted with life lines and loops securely seized to them; and none shall be approved that will not float for 24 hours in water with 32lbs of iron suspended from it.

Substitute—If life-buoys are not made of solid cork, any other strong life-buoy of an approved pattern, capable of floating in the water for 24 hours with 40lbs. of iron suspended from it, may be accepted in lieu. No contrivance shall be approved as a life-buoy that requires inflation before use.

Fastening.—Life-buoys with lines attached shall be secured by toggle and becket, or any other similar method, so that they can be quickly released, and they shall not be lashed or seized to the rail or any other part of the vessel, but shall be kept so as to be ready for use at a moment's notice in case of an emergency.

Examination.—In all cases, the Marine Surveyor shall carefully examine the life-buoys, satisfy himself of their buoyancy, and see that the materials of which they are composed have not become sodden, and that the lines attached to them are sufficient.

Penalties.—The Marine Surveyor shall call the attention of owners and masters to the penalties imposed under section 293 of the Merchant Shipping Act for not keeping the boat and efficient life-buoys in constant readiness.

Fire-engines, fire-buckets, and pumps.

Fire-engines and buckets.—The number of fire-engines and fire-buckets to be carried in an emigrant ship shall be as follows:—

Registered tonnage of ship.	Power of engines.	Suction pipe.		Delivery pipe in 25 feet lengths.		Number of jets to fit branch pipe.	Number of fire-buckets to be carried.
		Length.	Diameter.	Length.	Diameter.		
		Ft.	In	Ft.	In.		
Under 100 tons	One engine capable of pumping 30 gallons per minute.	25	1¼	75	1¼	1 straight ⅞ inch ... 1 curved ⅞ " ... 1 rose (copper) ...	One for each of crew, exclusive of officers.
Five hundred to 1,000 tons	One engine capable of pumping 40 gallons per minute.	28	2¼	125	2	1 straight 1⅛ inch ... 1 curved 1⅛ " ... 1 rose (copper) ...	
Over 1,000 tons	One engine capable of pumping 50 gallons per minute, or two of the preceding sizes.	30	2¼	150	2¼	1 straight 1⅜ inch ... 1 curved 1⅜ " ... 1 rose (copper) ...	

N.B.—All the working parts of the engines to be of gun-metal. The suction pipe must be fitted with a copper rose, weighted to 10lbs, with a ring and a rope attached to act as a guy.

Pumps.—One head pump, one stern pump, and one hold pump, with flexible hose for issuing fresh water on the upper deck.

Signals.

In every emigrant vessel the following requirements for signalling shall be provided:—

Lights and fog.—One complete set of regulation side lights and anchor light, as per Board of Trade requirements, one mechanical fog-horn and one bell.

Distress.—One gun at least 3½ inch bore, or one mortar at least 5½ inch bore, with 12 charges of ammunition, each charge containing 16 ounces of pebble or beam powder in a flannel bag.

An air-tight copper magazine, rammers, sponges, wads priming wires, friction tubes, powder flask, with fine powder for priming, and means for withdrawing charges.

Twelve sixteen ounces rockets and sticks.

Twenty-four blue lights.

Ordinary.—One complete set of new Commercial Code signal flags.

Instruments.

The instruments to be provided shall be as follows:—

(*a*). Axes, exclusive of boats axes, 2.
(*b*). Barometers. 1 at least.
(*c*). Chronometers, 2.
(*d*). Compasses, 1 steering, 1 azimuth, and 1 spare; besides 1 compass for each life-boat.
(*e*). Lightning conductors, one at least fitted to mainmast.
(*f*). Lead and lines, deep sea and hand lead, 2 of each.

Charts and books.

Charts.—Admiralty charts of all the seas the vessel is to traverse; and of the islands, coasts, ports, and harbours contiguous thereto.

Books.—(1). The Commercial Code Signal book.
(2). The latest Commercial Code list of ships.
(3). Horsburgh's India Sailing Directory (Captain Taylor's edition).
(4). South American Pilot, Part I.
(5). West India Pilot, volumes I and II.
(6). Nautical Almanac.
(7). Law of Storms.

Crew of emigrant vessel.

Scale according to tonnage of the number of hands to be carried in sailing and steam-vessels.

Sailing vessels—(*a*). For the first 500 tons and under, Europeans four hands, and natives six hands to every 100 tons.

(*b*). From 600 to 1,500 tons Europeans two additional hands and natives three additional hands to every additional 100 tons.

(*c*). From 1,500 tons upwards, Europeans and natives one additional hand to every additional 100 tons.

Steam-vessels.—(*a*). For the first 500 tons and under, Europeans three hands, and natives five hands to every 100 tons.

(*b*). From 600 to 1,500 tons, Europeans one and a half additional hands, and natives two additional hands to every additional 100 tons.

(*c*). From 1,500 tons upwards, Europeans half an additional hand, and natives one additional hand to every additional 100 tons.

The total number of hands shall include the master and the four officers: and two-thirds of the ship's company, exclusive of the master and the four officers, shall be made up of (A. Bs) able seamen. In case of mixed crews the number shall be in proportion.

The master and the four officers shall possess certificates of competency corresponding to their rank; or certificate of a higher grade in the case of the officers, and not only of service; and shall not be natives. They shall, moreover, if a native crew be carried, be capable of issuing their orders intelligibly. In the case of steam-vessels, no steamer shall carry less than three engineers: and every steamer of one hundred nominal horse-power as per ship's register and upwards shall carry, as First Engineer, an engineer holding a first class certificate; and as Second Engineer, an engineer holding a second class certificate or a certificate of a higher grade, being in every case certificates of either competency or service, but not of inland service. But in steamers of under one hundred nominal horse-power, the First Engineer shall hold a second class certificate or a certificate of a higher grade, of either competency or service, but not of inland service. The engine-room crew, exclusive of the three engineers, shall be in number not less than in the ratio of six men for every hundred nominal horse-power, if Europeans; and nine men, if natives.

Decks and deck openings.

Between-decks. Thickness.—The between-decks shall be at least one and a half inch thick, properly laid, and thoroughly caulked and payed throughout.

Height.—The between-decks shall in no case be less in height from deck to deck than six feet, and emigrants shall not be accommodated in any lower passenger deck than the between-decks.

Iron deck.—Every vessel bound to any place west of the Cape of Good Hope, or to Fiji *viâ* South Australia, having iron between-decks, shall have a water-tight wooden deck properly laid over it.

Hatches.—The hatches of the between-decks shall not have grating, but shall be solid, strong, in good condition, and well fitted. Any that is not to be caulked for the voyage shall be closed, and covered with sound tarpaulins, properly fastened down to the combings by means of iron bars securely locked.

Air holes.—All air holes and other apertures, likely to allow the escape of effluvia from the cargo or bilge into the between-decks, shall be effectually closed.

Pipes.—All pipes leading from the ship's water-closets, baths, or cisterns shall be perfectly sound and in good order, and carefully ascertained to be such by the Marine Surveyor. The pipes intended for the conveyance any where of sea, soiled, or waste water, shall not pass through drinking water tanks; nor shall they be allowed to continue in any position in which they are likely by leaking to contaminate the purity of the drinking water, or of the air in the between-decks or other places intended for the accommodation of emigrants.

Upper deck thickness.—The upper deck of every emigrant vessel shall be properly laid, thoroughly caulked, and payed throughout: and its thickness shall not be less than that given in Lloyd's rules for scantling according to tonnage of vessel.

Iron deck.—Every vessel with an iron upper deck shall have such deck covered with a properly laid water-tight wooden deck.

Structures.—All structures and fittings on the upper deck, such as the poop or round-house, deck-houses, galleys, water-closets, and booby-hatches, shall be strongly constructed; and if to be utilized for emigrants, the Marine Surveyor shall satisfy himself that they are properly built and secured, and that they conform to the regulations governing space and ventilation.

Lumber.—No lumber of any kind shall be placed on the upper deck, and all the necessary fittings, water-tanks, tubs, and spare spars, shall be properly secured to the Marine Surveyor's satisfaction.

Water tanks.—The soundness, purity, and capacity of main tanks, or other fixed receptacle for water that do not form part of the hull of the vessel, shall be examined and certified by the Marine Surveyor. No after-compartments, or other receptacles for water that form part of the hull of the vessel shall contain drinking water for either emigrants or crew.

Hold.

Bilges.—The purity of the bilges shall be ascertained; and disinfected, if necessary, to the satisfaction of the Marine Surveyor.

SCHEDULE B.

VENTILATION AND LIGHTING OF EMIGRANT VESSELS.

General Rules.

The requirements of this schedule shall apply to every steam as well as sailing vessel, chartered for the conveyance of emigrants.

2. The ventilation of the between-decks shall be distinct from that of the hold.

3. All air-holes in the between-decks communicating with the hold shall be effectually closed, to prevent the escape of foul air from the bilge, or steam from the cargo into the between-decks; and all ventilating shafts, tubes, or other openings intended to promote the ventilation of the hold, shall be fitted to act independently of those adapted to the requirements of the between-decks ventilation.

The size and situation of all ventilators for the between-decks and hold respectively shall be determined, with due regard to their efficiency and the safety of the vessel, by the Marine Surveyor, who shall satisfy himself that all the appliances for both natural and artificial ventilation meet the requirements of the rules, and are in good working order.

The Marine Surveyor, on determining the size and situation of the requisite ventilators, shall cause the dimensions and positions of the between-deck ventilators to be marked with chalk or paint on the under surface of the upper deck, so as to afford the Medical Inspector, when holding his primary inspection, an opportunity of judging of the intended means of ventilation, and indicating any alterations he may deem necessary to be made in respect thereof.

Natural ventilation of between-decks.—Besides hatchways, cowls, or air-shafts, every vessel shall be provided with properly fitted double scuttles on each side, one of glass and one of metal, fitted independently of each other to the side of the ship. They shall be placed about 14 feet apart, and as close under the upper deck as possible,; and with a view to prevent emigrants tampering with them, shall fasten, when closed, by means of square-headed screw bolts without handles, that require a carpenter's spanner to open them.

Exclusive of side and sternports, and, in steamers, of openings into the engine-room, stoke-holes, coal-bunkers, collision compartments, and screw tunnel, the effective size, or sectional area of the hatch openings and of other apertures for the ventilation of emigrants' compartments taken collectively, shall be calculated at the rate of not less than 72 square inches per statute adult, and at least one-fifth of such ventilating area shall be available even in excessively bad weather, necessitating the closing of hatches.

In view of the varying conditions to be dealt with, of the importance of fresh air, and of the facilities for reducing or modifying ventilation, any existing openings in excess of the prescribed approximate requirement shall not be classed, even on other grounds, without the written authority of the Marine Surveyor.

The relative positions of ventilating tubes or shafts in emigrant vessels shall be governed by the following rules:—

(a) A pair of cowl-headed tubes, or one large central tube or air-shaft, shall be fitted as far aft as possible, and similar ventilators as far forward as possible; and in no case shall they be more than six feet from the extreme end or bulk-head, aft or forward respectively, so that the between-decks may be thoroughly ventilated. All other tubes or air-shafts needed for the between-decks shall, as far as practicable, be so distributed in the intervening spaces between the several hatchways as to ensure throughout an equable supply of fresh air.

(b). Inlets for fresh air shall be so placed as to avoid, as much as possible, the risk of receiving the foul air from outlets.

(c). With a view to secure for ventilators the support and protection of the solid structures of the ship, and thus render them capable of being kept open in bad weather when the hatches have to be closed, as large a proportion as possible of the required ventilation shall be secured through cowl-headed tubes and air-shafts carried up direct from the between-decks to the open air above through the poop, deck-houses, and forecastle.

Such portions of the upper deck hatchways as are not fitted with storm hatches, and can safely be utilized for ventilation, shall be kept open, but protected against accidents with iron gratings admitting of the hatches being closed and their covers readily put on when necessary. The appropriate hatches and their tarpaulins shall be securely and

conveniently placed near the hatchways to which they belong for immediate use when needed.

Cowl-headed tubes, as compared with air-shafts, being more generally efficient under all conditions of wind and weather, and capable of acting as inlets or outlets by being turned to or from the wind respectively, the preference shall always be given, when practicable, to the former means of ventilation. But when cowls are largely or exclusively employed, and the decks are consequently dark, a sufficient number of deck-lights shall be fixed into the upper deck to compensate for the deficiency of light under the cowl-head system of ventilation.

Every cowl-headed tube shall be fitted with an air diffuser at its lower end, and with a suitable plug for closing the deck opening in bad weather; and every air-shaft shall be provided with a sky-light cover, and a tarpaulin for spreading tent-fashion over it in wet weather, obviating the necessity for closing the sky-light cover for every passing shower.

No less than six wind-sails can be provided for the exclusive use of the emigrants, each measuring fully 21 feet long.

Of the cargo hold.—Exclusive of ventilation through hollow iron masts, the hold of every steam or sailing vessel shall be fitted, to the satisfaction of the Marine Surveyor, with cowl-headed ventilators, having an aggregate sectional area of not less than 4 square feet to every 1,000 tons of the vessel's register: and the mouth of every such cowl shall be protected by a convex wire netting protector, one-fourth inch mesh, against the possibility of live embers from pipes or chillums being thrown down into the hold by emigrants unconscious of the danger attending the act.

The stoppage of ventilation through the masts or other ventilating openings shall be guarded against by arranging the dunnage and cargo about the outlets in such manner as to secure the continuous escape of foul air.

Artificial ventilation.—With a view to provide against natural ventilation becoming insufficient in calm weather, or when, as in the case of a steamer running with the wind, every sailing or steam vessel shall be fitted with some efficient contrivance, to be approved by the Protector and Medical Inspector of Emigrants, for artificially extracting foul air from the between-decks and hold.

SCHEDULE C.

Requirements for distilling apparatus.

All condensers shall have a separate engine for working the circulating cold-water pump, and under no circumstances shall this engine do other work except feeding the steam-boiler.

All condensers shall be fitted with a filter and an aerating valve, the filter being charged with animal charcoal; and no condensed water from the food boilers shall pass without filtration into the tanks for storing condensed water for drinking purposes.

The arrangement for discharging the circulating water from the condenser shall be such as to admit of the water being delivered into buckets or by means of a suitable hose and connection to be provided discharged over each side of the ship, or utilized for the washing of decks, the cleaning of latrines, and the extinguishing of fire.

Boilers shall be furnished with a steam-gauge, indexed to double the working pressure, a glass water-gauge and two separate gauge cocks, one safety valve, and two mud-hole doors for cleaning purposes.

Boilers and all machinery shall be properly covered in; and any wooden bulkhead in the vicinity of the boiler shall be covered with sheet lead, 4 lb to the square foot, and securely fastened thereto.

The undermentioned tools shall be required with each condenser—

1 Hydrometer and thermometer.
1 Chipping hammer and spare handle.
2 Flat chisels.
2 Cross-cut chisels.
1 Ratchet-brace.
4 Drills, ⅜, ½, ⅝, and ¾ inch
1 Set of taps and dies, comprising at least the following dimensions:—¼, ⅜, ½ and ⅝ inch.
2 Suitable spanners (say, ½ and ⅝ inch).
1 Shifting spanner.
6 Files and handles, assorted.
1 Soldering bolt (copper).
2 Pairs gas tongs to fit piping.
1 Small vice and bench.
1 Smith's forge.
1 Do. anvil.
3 Fire-irons, suitable for the boilers.
2 Firing shovels.
½ Set of spare fire bars.
4 Dozens spare bolts and nuts of useful sizes.

2 ¾-inch pipe connections.
2 1-inch „ ditto.
2 ½-inch „ elbows.
2 1-inch „ ditto.
} The dimensions of the piping in connection with the condenser are to be substituted if not as noted.

1 Spare length of piping for main suction of at least 12 feet in length.
1 Length of smaller piping.
1 Spare slide rod for engine.
6 Spare gauge glasses for boiler.
25 India-rubber rings for ditto.
6 Spare gauge glasses for condenser.
25 India-rubber rings for condenser.
} When required.
A set of spare valves for pump of condenser.
7 lbs. of hard solder.
7 „ of soft do.
7 „ of borax.
7 „ of resin.
57 „ of charcoal (animal).
14 „ of red-lead.
14 „ of white-lead.
14 „ of spun yarn or patent packing to suit glands.
1 Gallon linseed oil.
10 Gallons oil for lubrication.
10 lbs. cotton, waste.
40 Tons of English coal for a passage to West Indies, and a proportionate quantity for longer or shorter voyage.

All the piping in connection with the condenser, especially the main suction and the condensed water discharge pipe, shall be led in positions secure from accident, or securely encased.

At the time of survey it shall be necessary to have the condenser at work, the condensed water being delivered into a tub placed where most convenient and large enough to contain at least the quantity delivered by the condenser during the space of half an hour. This quantity shall be accurately measured by a stamped imperial gallon measure, to be furnished by the ship, and no allowance shall be made for any waste occurring from defective arrangements, that is to say, once the time has been taken as commencing the experiment, the quantity of water produced in the next half hour shall determine the efficiency of the machine.

The whole of the tools shall have to be shown to the Engineer-Surveyor, and be of a class that will satisfy his requirements.

A competent person, subject to the approval of the Engineer-Surveyor, shall be appointed to have charge of the apparatus, &c., for the voyage.

All the food boilers connected with steam cooking arrangements shall be cased with wood, and fitted with safety valves, protecting them against accidents.

No certificate shall be granted unless the condensing machine can yield as many gallons of distilled water in 24 hours as will be needed under scale allowance for the full number of emigrants and crew the vessel can legally carry, and the whole of the arrangements connected therewith are to the entire satisfaction of the Surveyor, who shall forward his certificate to the master for transmission to the Protector of Emigrants.

SCHEDULE D.

FITTINGS FOR EMIGRANT VESSELS.

General Rules.

Metal fittings.

1. Whenever suitable and consistent with requirements, iron or other metal shall be employed in the construction of an emigrant ship's fittings. The water-closet seats or foot-rests, floors or troughs and their shoots, shall invariably be of metal, which is less readily contaminated and more easily cleaned.

Wooden fittings.

2. Where wood has to be employed, as in the case of bottom boards for banks and sleeping platforms, it shall be of sufficient thickness—at least one inch—and smoothly planed *before* being utilized for any purpose. The wood used in constructing the combings of booby hatches, stanchions, and other supporting frames or structures shall not be less than three inches square; and the thickness of the planking used for platforms, bunks, water-closets and other similar purposes shall not be less than one inch.

Fastenings of fittings.

3. All fittings shall be strongly put together, and all hinges, bolts, clamps, metal ventilating tubes, cowl-heads and their deck phlanges, and every other description of fittings shall be thoroughly well fastened against rough usage.

Old fittings.

4. The cast off wooden fittings of any emigrant vessel shall on no account be employed in fitting any other emigrant vessel; nor shall the wooden fittings of a previous voyage be utilized for any succeeding voyage without the written permission of the Medical Inspector of Emigrants obtained by the master during the primary inspection of his vessel.

Fittings of the Upper Deck.

Hospital.

1. The hospital shall, in every case, be on the upper deck, and shall moreover be fitted in a deck-house except in vessels proceeding to Fiji by the South Australian route, when, if practicable, the forward poop cabins, as being warmer, shall be fitted for hospital purposes. If required to be built in the absence of a suitable deck-house, the hospital-house shall be made as strong, secure, and water-tight as a deck-house should be. The doors to a hospital-house shall, when practicable, be fitted aft, and accommodation shall be provided therein for two per cent. of the total number of statute adults to be carried in the vessel at the rate of 18 superficial feet per statute adult The hospital space shall be divided by means of a bulk-head or screen, without interfering with ventilation, into two compartments for the separate accommodation of male and female patients, and shall be ventilated, lighted, and fitted to the satisfaction of the Medical Inspector. The bunks shall be constructed to fold out of the way when not needed, and may be fitted with either bottom boards, or strong sacking bottoms, tightly stretched across and securely fastened. In either case, however, the bottoms shall be removeable and capable of being thoroughly cleaned, aired, and renewed if necessary during the voyage.

Dispensary.

2. A well lighted and suitably fitted dispensary shall be provided either in a deck-house, or in one of the forward poop cabins subject to the approval of the Medical Inspector. The dispensary shall be a separate compartment from the hospital or compounder's cabin, capable of holding a fitted medicine chest, a folding table, a small dispensary stove for the warming of food, &c, for patients during the night, and racks for drugs and appliances in immediate use, and shall be provided with lock and key.

Store-room.

3. A store-room, sufficiently large to hold all the medical comforts (excepting wines and spirits), and a day's issue of ordinary provisions, shall be fitted in a deck-house or in one of the poop cabins, and shall be provided with lock and key.

Spirit-room.

4. A small spirit-room for the safe custody of all the spirits and wines stowed for emigrant passengers and ship's use shall be provided in one of the cabins fitted with lock and key.

Distilling apparatus.

5. There shall be provided and fitted up in a covered space on the upper deck of every emigrant vessel an apparatus for distilling fresh from salt water (either Normandy's, Graveley's, Chaplin's or such others as may be approved by the Engineer Surveyor) of a size calculated to yield as many gallons of distilled water in 24 hours as will be needed under scale allowance for the full number of emigrants and crew the vessel can legally carry. The apparatus shall be carefully examined and tested by the Engineer Surveyor, who shall not give a certificate to the master until he is satisfied that all the requirements of the schedule have been complied with.

Galley.

6. The emigrants' galley shall be provided in a deck-house and in a separate compartment from that of the ship's or crew's galley, and shall be fitted with a steam cooking apparatus approved by the Engineer Surveyor; and also with an ordinary cooking range, capable of baking *chuppaties* for the total number of statute adult emigrants to be carried, as well as of accommodating, in the event of any accident to the steam cooking apparatus, the full number of large sized regulation boilers to be put on board. A suitable lever with chains and hooks for lifting the boilers off the fire shall also be provided.

Latrines.

7. *Structure.*—Latrines shall be fitted in convenient positions close against the bulwarks, so that their soil shoots may lead immediately out of ports or other suitable openings, and projected well beyond the vessel's side; and shall be well built, securely fastened to the deck and bulwarks, and made water-tight.

Blocks.—The latrines shall be in four separate blocks; two of them for men, placed one opposite the other on either side forward; and two for women and children, similarly placed aft; and each block shall be provided with an inclined continuous metal floor or trough, as free as possible from obstructive angles, and terminating in the soil shoot with a good fall favouring a free discharge of soil and fluids.

Compartments.—Every block shall be divided into separate private compartments, well ventilated, and lighted throughout the night by means of a safety lantern, so fitted as to distribute its light into all the compartments.

The total number of compartments shall be regulated according to the following scale :—

NUMBER OF STATUTE ADULTS TO BE CARRIED.	Number of compartments				REMARKS.
	To be fitted on each side of deck.			Total number on both sides.	
	For men in forward block.	For women and children in after block.	Total number.		
For under 150	2	1	3	6	There should be three compartments on each side for any number under the first 150 statute adult emigrants, and in order to avoid crowding the decks with a larger number of closets than have been found by experience to be sufficient, such number should not be increased at a higher rate than one compartment to every additional 50 statute adults.
,, 150 and under 200	2	2	4	8	
,, 200 do. 250	3	2	5	10	
,, 250 do. 300	3	3	6	12	
,, 300 do. 350	4	3	7	14	
,, 350 do. 400	4	4	8	16	
,, 400 do. 450	5	4	9	18	
,, 450 do. 500	5	5	10	20	
,, 500 do. 550	6	5	11	22	
,, 550 do. 600	6	6	12	24	
,, 600 do. 650	7	6	13	26	
,, 650 do. 700	7	7	14	28	

Each compartment shall measure 22 inches in breadth, and the seat in it 22 inches square, but the length of the compartment shall exceed its breadth by six inches in front of each seat for convenience of entering the closet. A metal foot-rest for sitting on with handrail for support shall be fitted on either side of each compartment. Each of the foot-rests shall be seven inches wide, and they shall be so placed as to leave between them a central opening eight inches wide, directly over the closet floor or trough below. Every compartment shall, moreover, be fitted with a strongly hinged door, capable of closing automatically, and of being bolted or buttoned outside as well as inside, and each door shall have a double knotted hand-rope or becket passed through it for a handle. The three sides of each compartment, if of wood, shall be lined with metal to the height of one foot from the foot-rests.

Cemented floor.—The portion of the upper deck occupied by the latrines shall be cemented and coal-tarred throughout.

Steps.—Should the seats of any latrine compartment be unavoidably high, a convenient step shall be provided at the entrance.

Flushing.—With a view to the latrines being freely and frequently flushed by means of a hose and force-pump from the outside, a metal funnel shall be inserted under the foot-rests at each end of every block so as to admit of a free discharge of water over the floor or trough of the latrine below.

A strongly constructed platform shall be fitted between the skids or in some other convenient place aft, and shall be of sufficient size to admit of the stowage without crushing of the stock of onions on one side and of potatoes on the other, with a passage between; and of the slinging, if necessary, of the pumpkins under it. Two tarpaulins also shall be provided, each large enough to spread over the onions and potatoes respectively so as to effectually shelter them from rain, besides other tarpaulins that may be needed for the protection of pumpkins or other vegetables in exposed places.

Platforms for vegetables.

8. The following miscellaneous requirements for the upper deck shall also be provided.

Tanks.—At least one conveniently placed and properly secured iron tank, capable of holding a day's allowance of, water for the total number of statute adults to be carried, and fitted with an efficient rapid filter; a locked cover for the manhole, a discharge pipe near the bottom for cleaning the tank, and at least two moderate sized taps, about one foot from the bottom and clear of sediment, with removable keys for each. Should a second tank be found necessary, it shall be similarly fitted, if not united, to the first by means of a connecting pipe about a foot from the bottom of each, admitting of its contents flowing into the first.

Miscellaneous requirements.

Sheep pens.—Sheep pens for emigrants' sheep separate from those required for the ship's sheep.

Dirt shoot.—A portable metal dirt shoot leading out of any port hole.

Bathing screen——A canvas bathing screen for the women.

Booby hatches.—The hatchways of vessels bound to places east of the Cape, and to Fiji viâ Torres Strait, shall be fitted with strong iron frames for the support of closely fitting tarpaulins capable of being rolled up out of the way in fine weather; but those of vessels bound to places west of the Cape, and to Fiji viâ South Australia, shall be fitted with strongly built water-tight booby hatches, fastened securely outside the hatchway combings, leaving a few inches space all round between the combings and the inner sides of the booby hatches for the fastening, when necessary, of the ordinary hatches and their tarpaulins without interfering with the booby hatches. Whenever practicable, the booby hatches shall be so constructed as to admit of the ladders leading down into the between decks being placed fore and aft, and of their lids opening, so that the gangway may be either at the forward or after end of the hatch, which ever proves most convenient; but in any case, to avoid accidents, the open spaces under the lids opposite the gangways shall be protected by means of iron rod gratings. The lids when open shall rest against, and be capable of being securely fastened to, strong gallows purposely fitted to each hatch; and should they be unavoidably large, each lid shall be divided into two parts capable of being folded back twice.

Hatchways.

Tent tarpaulins.—Every hatchway shall be provided with a large tarpaulin, which can be spread tent-fashion over it in wet weather. In the case of any hatchway that is fitted with a storm-hatch, and also with an adjoining grating for ventilation, the tarpaulins shall be sufficiently large to completely cover and protect from rain not merely the storm-hatch but also the grating covered ventilating portion of the open hatch.

Fittings of the between decks.

There shall be a totally separate compartment in the fore part of the between decks for the accommodation of the single men; and the division shall be effected by means of a shifting frame with wooden or iron bars vertically placed five inches apart, which can be adjusted to the height and width of the between decks, so as to form a compartment of such size as will be capable of legally accommodating the number of single men intended to be embarked. A division shall also be made in the after part of the between decks by means of two wooden or iron bars horizontally placed two feet apart, separating the space intended for the accommodation of the number of single women to be embarked from the central space to be occupied by the married persons.

Compartments of between decks.

With a view to render the woodwork and decks less liable to the absorption of moisture and objectionable matter, and more capable of being kept dry and clean and to reflect light into dark recesses, the sides and ceiling of the between decks, the inner surface of the upper hatch combings and the between decks themselves to the extent of at least six feet from the sides all round shall be properly painted with white zinc paint. But the centre of the deck, chiefly used as a passage, may be painted with coal-tar, or with a mixture of carbolic acid and oil, or any other suitable coating approved by the Medical Inspector that will effect the object in view.

Painting of woodwork.

Construction.—Strongly constructed sleeping platforms, each measuring 12 feet long by 6 feet broad by 2 feet high, shall be fitted one foot apart from each other on each side, and from end to end of the between decks, and each such platform shall be divided by a firmly fastened board 5 inches high into two compartments, each six feet square, and thus admitting of emigrants in each compartment sleeping either fore-and-aft, or athwart ship, as circumstances of wind and weather may render most convenient. The sleeping platforms may be made either fixtures or capable of being folded back or raised up, entirely or partially, when not in use; and in the latter case, shall be so fitted as to admit of their being securely fastened, whether in use at night or put out of the way during the day.

Sleeping platforms.

Bottom boards.—The boards forming the bottom of these platforms shall be closely fitted and readily removable so as to admit of the deck underneath being cleaned, and each plank to facilitate replacement shall have its distinguishing number conspicuously painted on it. The bottom boards which need not be painted shall from time to time during the voyage be taken to the upper deck, aired, and scrubbed if necessary.

Ladders.

9. Strong ladders, with handrails on both sides about a foot high, and with a knotted hand rope conveniently near, shall be securely fixed at the hatchways that are not used solely for ventilation purposes, and there shall be at least one at each hatchway fore and aft, and two at the main hatchway.

Hatchway curtains.

In ships bound to the West Indies or Fiji viâ South Australia, each hatchway shall be provided with canvas curtains extending from the four sides of the lower opening of the upper deck hatchway to the combings of the lower deck hatchway; and capable of being either fastened below in order to check drafts of cold air from above, or rolled up out of the way when not required.

Lanterns.

Rack.—A rack shall be fitted aft or forward as most convenient for the keep of the total number of safety lanterns when not in use.

Hooks.—Hooks for hanging the required number of lanterns at night shall be fixed wherever necessary and at convenient distances apart.

Supports.

A strong double fore-and-aft rail of bamboo or wood shall be fastened to the central stanchions for the emigrants to hang their clothes, and depend for support when the ship rolls.

SCHEDULE E.

Shewing the articles prohibited from being carried as cargo in emigrant vessels.

Articles.	Exceptions
Arsenic.	
Bones.	
Butter.	
Camphor.	
Collodion.	
Corrosive sublimate.	
Cotton.	
Chlorate of potash.	
Dammer.	
Ether.	
Ghee	Excepting 10 tons, or, if oil also be shipped, aggregating that quantity, securely packed and satisfactorily stowed.
Hides (raw).	
Jute	Excepting gunny-bags screwed in bales.
Molasses.	
Matches.	
Naphtha.	
Nitre (nitrate of soda).	
Oils (essential and fixed)	Excepting 10 tons of mustard or cocoa-nut oil, or, if ghee also be shipped, aggregating that quantity, securely packed and satisfactorily stowed.
Orpiment.	
Phosphorus.	
Pitch.	
Quicklime.	
Quicksilver.	
Rags.	
Sulphur.	
Spirits	
Saltpetre (Nitrate of potas).	
Sugar (unrefined).	
Turpentine and spirits of turpentine.	
Tar.	
Tallow.	
Wax.	
All other articles prohibited in the case of troop ships.

SCHEDULE G.

Scales regulating the supply of stores, clothing, and miscellaneous articles for emigrants in depôt, and on the voyage, and also the appointment of attendants on board.

SCALE No. 1.

Scale of provisions, clothing, and miscellaneous articles for emigrants in depôt.

(A)—Of provisions.

ARTICLES.	Scale of daily rations for two meals, per statute adult.		REMARKS.
	Oz.	Drs.	
Rice	24	.....	
Flour	.....	.....	Flour, in lieu of rice, should be issued to those who prefer flour for three meals a week, at the rate of 12 ozs. per statute adult for each meal.
Dál	5	.....	
Meat or fish	.....	.....	Meat or fish, in lieu of dál, should be issued to those who desire it for two meals a week at the rate of 3 ozs. per statute adult for each meal
Vegetables	5	.....	
Ghee	.....	8	From 1st October to end of February the allowance of ghee should be increased to at least 12 drams for statute adult.
Oil	.....	4	For vegetable curry.
Chillies	.....	2	
Garlic, green ginger, turmeric, coriander and mustard-seed or fenugreek ...	.....	4	
Tamarind	.....	2	
Salt	.....	8	
Tobacco (prepared)	2	.....	Dried leaf should be given to those who prefer it.

N. B.—(*a*) Two children of two years and under 10 years of age shall receive the full rations of one statute adult.

(*b*) Every child under 2 years of age, that is not nursed by the mother, shall receive not less than one pint of milk daily, and a sufficient quantity of sago or arrowroot, as may be needed.

(B)—Of clothing.

Dhooties to each male } 1*
Saries „ „ female }

From 1st October to end of February.

Blankets to adults and children from 2 years, upwards ... 1
Kurtas (woollen) to every infant under 2 years 1

(C)—Miscellaneous articles.

Country soap to each emigrant ... ... 1 ball
Oil for anointing to each statute adult (twice a week) ... ½ ounce.

* *N. B.*—The dhooties and saries should be supplied throughout the year, and an additional dhootie or sarie should be given, when, for any reason, the emigrant is deprived of the clothing worn on admission into the depôt.

SCALE No 2.

SCALE OF PROVISIONS AND MISCELLANEOUS ARTICLES FOR EMIGRANT VESSELS.

2.—In provisioning emigrant vessels, water, salt, tobacco, and medical comforts shall be shipped for the whole voyage dry provisions for issue when cooking is impossible, for one-twentieth part of the voyage; and ordinary provision for the rest of the voyage. Two children under ten years of age shall receive full rations of one statute adult.

(A).—OF ORDINARY PROVISIONS.

Showing the daily rations and the resulting weekly quantities per statute adult emigrant.

ARTICLES.	Daily rations.		Weekly quantities at the rate of five-sevenths rice and two-sevenths flour.		POSSIBLE METHOD OF DISTRIBUTING WEEKLY QUANTITIES.						Total of week's issue.		How to be packed.	REMARKS.

d (f)	3 lb	.....	21 lb	.....		.....		.....		.....	21 lb	... ..		

In the case of emigrants proceeding to places west of the Cape, or to Fiji viâ South Australia, fresh mutton (sheep) at scale rate shall be supplied for one week; dried for two weeks; and preserved mutton for the rest of the voyage. As one sheep weighing 60 lbs. yields about 25 lbs. of available flesh, five sheep are approximately equivalent to one week's supply of fresh mutton at scale rate for 100 statute adults; and shall be so reckoned in calculating requirements.

In the case of emigrants proceeding to places east of the Cape, and to Fiji viâ Torres Straits, fresh mutton (sheep) at scale rate shall be supplied for one week, and dried for the rest of the voyage.

In the case of emigrants proceeding to places west of the Cape, or to Fiji viâ South Australia, in lieu of fresh potatoes, 16 days supply of preserved potatoes (at scale rate and according to rule of substitution) shall be shipped at Calcutta. In substituting dried preserved potatoes for fresh potatoes, one part by weight of preserved potato shall be reckoned as equal to four parts by weight of fresh potato.

In the case of vessels proceeding to colonies west of the Cape, four-sevenths of the allowance of mutton (sheep) and fresh vegetables shall be taken in at Calcuttta; three-sevenths, the balance at the Cape, or St. Helena.

Of the whole quantity of water required for emigrants, master, officers and crew, cabin and other passengers if any, and the live stock, a reduction of three-sevenths will be allowed when, a condenser is carried, and a further reduction of one-seventh, if the vessel is to take water at an intermediate port.

In substituting coal for firewood, one part by weight of coal shall be reckoned as equal to two parts by weight of firewood.

3.—Excepting spirits or wine, no surplus articles of diet, or water, of a previous voyage, shall be utilized as emigrant stores for any succeeding voyage.

(B). OF DRY PROVISIONS.

Showing the allowance for a day, and for a voyage of 20 weeks per statute adult emigrant.

ARTICLES.	Allowance for one day or for two meals.	ALLOWANCE FOR A VOYAGE OF 20 WEEKS.									How to be packed.	REMARKS.
		For one-twentieth part of the voyage, or 7 days' supply.			For every Sunday morning, or 20 days, supply.			Total supply.				
		lbs.	oz.	dr.	lbs.	oz.	dr.	lbs.	oz.	dr.		
Biscuit	10 ounces	4	6	...	12	8	...	10	14	...	In barrels or tanks.	May be eaten with raw onion, if preferred.
Sugar	1½ ,,	...	10	8	1	14	...	2	8	8	In bags.	May be eaten with biscuit or choorah.
Choorah ...	8 ,,	3		...	...	...	...	3	8	...	,,	,, with sugar.
Gram	4 ,,	1		...	...	...	...	1	12	...	,,	,, with salt and some condiment, such as pepper or chillies.

N.B.—The dry provisions shall be shipped for one-twentieth part of the voyage, and shall be issued only when the weather renders cooking impossible. The extra biscuit and sugar shall be shipped only for the morning meals on each Sunday of the voyage.

SCALE No. 2—*continued.*

(C).—OF MEDICAL COMFORTS.

Showing the quantities to be shipped for one hundred statute adult emigrants.

ARTICLES.	(a) In ships bound to places west of the Cape and to Fiji viâ South Australia, calculated for a voyage of 20 weeks.	(b) In ships bound to places east of the Cape, and to Fiji viâ Torres Straits, calculated for a voyage of 12 weeks.	How to be packed.	REMARKS.
	lbs.	lbs.		
Chicken broth	50	50	In one pound and half pound tins.	
Mutton do.	50	None.		
Leibeg's extract of meat ...	3	1½	In original cases.	Grains 150=a tea spoonful dissolved in half a pint of warm water makes good soup.
Milk, preserved	250	125	Ditto.	The contents of a pound tin mixed with ½ a gallon of warm water makes good milk.
Sago	80	40	In tins.	
Arrowroot	80	40	Do.	
Soojee	50	25	Do.	
Flour (fine)...	30	None.	Barrels.	
Sugar	600	300	Bags.	
Tea	5	None.	Tins.	
Bael fruit (candied) ...	30	15	Do.	
Lime-juice	40 gallons	15 gallons	Bottles ...	If not the whole, at least two-thirds should be non-alcoholic.
Brandy	8 ,,	3	Ditto ...	At Surgeon's request, portwine may be substituted in such quantity as may be equivalent to the money value of not more than one-sixth of the total quantity of brandy to be shipped according to scale.

The total quantity of each article shall be shipped according to the above scale, in either column (*a*) or column (*b*), as the case may be, in proportion to the length of voyage in either case, and to the total number of statute adult emigrants to be conveyed.

(D.) OF PROVISIONS FOR SHEEP.

Showing the daily allowance of gram, hay, and water for sheep for emigrants' use, and the total quantity to be shipped for the voyage.

ARTICLES.	DAILY ALLOWANCE FOR EACH SHEEP. lbs.	Gallons.	Quantity for voyage to be at scale rate for	How to be packed.	REMARKS.
Gram	3	...	Half the full number of sheep.	Bags ...	Scale quantity for the full number of sheep to be shipped for the entire voyage.
Hay	2	.....	Ditto ditto ..	Pressed bales	In case of vessels touching at the Cape or St. Helena, half the scale quantity for the number of sheep to be shipped at port of embarkation; and similarly half the scale quantity at port of call for sheep to be shipped there.
Water	..	1	The full number of sheep.	Tanks ...	Scale quantity to be shipped at port of embarkation, subject to deductions at the rate prescribed on account of condenser, and water supply at port of call.

SCALE No. 2—*continued.*

(E).—OF MISCELLANEOUS ARTICLES.

Showing the quantities to be shipped for 100 *statute adult emigrants.*

ARTICLES.	(a) In ships bound to places west of the Cape or Fiji viâ South Australia. For 20 weeks.		(b) In ships bound to places east of the Cape or Fiji viâ Torres Straits. For 12 weeks.		How to be packed.	REMARKS.

PUBLIC DEBT OFFICE,
BANK OF BENGAL;
Calcutta, the 5th January 1885.

R. HARDIE,
Secretary and Treasurer.

POST OFFICE.

NOTIFICATIONS.

Calcutta, the 19th December 1884.

From the 1st January 1885, money orders will be issued in India for payment in any of the following British Colonies and possessions :—

	Newfoundland.
	Bermuda.
	Falkland Islands.
South and West Africa . .	Cape Colony.
	Gambia.
	Gold Coast.
	Lagos.
	Natal.
	St. Helena.
	Seychelles.
	Sierra Leone.
West Indies .	Antigua.
	Bahamas.
	Barbadoes.
	British Guiana.
	Dominica.
	Grenada.
	Honduras (British.)
	Jamaica.
	Montserrat.
	Nevis.
	St. Kitts.
	St. Lucia.
	St. Vincent.
	Tobago.
	Trinidad.
	Turk's Islands.
	Cyprus.
	North Borneo.

2. The conditions under which money orders for payment in any of the above-named Colonies or possessions will be issued are the same as those laid down in the *Indian Postal Guide* for money orders payable in the United Kingdom. The amount of each order may not exceed £10.

3. The rates of commission payable by remitters in India on money orders drawn upon any of the countries or the places named will be the same as on money orders drawn upon the United Kingdom, *viz.* :—

	R	a.
On sums not exceeding £ 2 Sterling . .	0	4
„ „ exceeding £ 2, but not exceeding £ 5 .	0	8
„ „ „ „ 5 „ „ „ „ 7 .	0	12
„ „ „ „ 7 „ „ „ „ 10 .	1	0

4. In addition to the above rates, a further commission will be deducted from the amount of the orders by the London Post Office before payment is made in any of the countries or places named. This further commission, which is charged for the service of forwarding the money orders, will be at the following rates :—

On orders not exceeding £ 2 Sterling in value 3*d.*
On orders exceeding £ 2, but not exceeding £5 in value . . . . . 6*d.*
On orders exceeding £ 5 but not exceeding £7 in value . . . . . 9*d.*
On orders exceeding £7 but not exceeding £10 in value . . . . . 1 *shilling.*

A similar deduction will be made by the London Post Office from the value of money orders that may be received for payment in India from any of the Colonies or places referred to.

5. With effect from the same date, the rate of commission chargeable upon money orders drawn on the United States of America will be reduced from 2 per cent., the rate now in force, to the rates mentioned above, and the exchange of money orders with the United States will be assimilated in all respects to that with the countries and places enumerated in the first para. of this Notice.

HENRY F. BLANFORD,
Meteorological Reporter to the Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co. are distributed by that firm; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows:—

Terms of subscription, payable annually in advance.

For the Complete Series, *including postage* . R22 8

	Without postage.	With postage
For the Calcutta Series	R10 0	R12 8
„ each of the Madras, Bombay and Allahabad Series	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*)		„ 2 0
„ a part of the Madras, Bombay and Allahabad Series purchased separately (*inclusive of postage in India*)		„ 1 0

Persons desiring to subscribe for, or purchase, the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.
„ Thacker & Co., Bombay.
„ Higginbotham & Co., Madras.
The Government Central Book Depôt, Bombay.
„ Curator of Government Books, North-Western Provinces and Oudh.
„ Superintendent of Government Printing, Bengal

Orders and subscriptions for 1885 should be at once remitted.

NOTICE.

Indian Law Reports.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, by the Calcutta Central Press Company, "Limited," 5—1, Council House Street, at the following rates, payable in advance:—

	One page.	*Half page.*	*Quarter page.*

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 2nd January, 1885, and is hereby promulgated for general information:—

ACT No. I OF 1885.

An Act to amend the Burma Steam-boilers and Prime-movers Act, 1882.

WHEREAS it is expedient to amend the Burma Steam-boilers and Prime-movers Act, 1882; It is hereby enacted as follows:—

Short title and commencement.

1. This Act may be called the Burma Steam-boilers and Prime-movers Act, 1885; and it shall come into force at once.

Amendment of section 4 of Act XVIII of 1882.

2. In section 4 of the Burma Steam-boilers and Prime-movers Act, 1882, after the words "first or second class" the words "or as engine-drivers" shall be added. XVIII of 1882.

Amendment of sections 5, 8 and 11 of same Act.

3. In section 5, sub-section (2), section 8, clause (*b*), and section 11, clause (*b*), of the said Act, after the word "engineer" the words "or in the case of a boiler or prime-mover attached to an engine of not more than twenty horse-power of an engineer or engine-driver" shall be inserted.

D. FITZPATRICK,

Secretary to the Government of India.

The Hon'ble Peári Mohan Mukerji.
The Hon'ble H. St. A. Goodrich.

BURMA STEAM-BOILERS AND PRIME-MOVERS ACT, 1882, AMENDMENT BILL.

The Hon'ble MR. ILBERT moved that the Report of the Select Committee on the Bill to amend the Burma Steam-boilers and Prime-movers Act, 1882, be taken into consideration.

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

BIRTHS, DEATHS AND MARRIAGES REGISTRATION BILL, 1885.

The Hon'ble MR. ILBERT also moved for leave to introduce a Bill to provide for the voluntary registration of certain births and deaths, for the establishment of General Registry Offices for keeping registers of certain births, deaths and marriages, and for certain other purposes. He said:—

"The objects of this Bill are three. The first is to establish a system of voluntary registration of births and deaths happening amongst certain classes of the community; the second is to improve the system of registering marriages solemnized under the two Marriage Acts of 1872; and the third is to provide a machinery for giving evidential value to entries in certain registers or records of baptisms, marriages, deaths and burials which are in existence but which are not kept under the authority of any particular law.

"The first of these subjects has been under the consideration of the Government of India for a great many years; it first came up, I believe, in the year 1869, and since then the attention of the Government has been repeatedly directed to it by various Christian religious bodies. The present state of the law is this. The Indian Statute-book does not contain any general law for the registration of births and deaths. There are several Municipal and other local Acts under which births and deaths are registered, but in the first place these Acts are of a strictly local character and leave a great part of the country unprovided for, and in the next place their provisions are directed primarily to statistical purposes, and the entries made under them are not of such a character as to make them of much value as evidence of particular births and deaths. Now, this state of things has not unfrequently caused serious inconvenience. For instance, references are from time to time made to the Secretary of State and the Government of India for proofs of age or proofs of death in cases affecting individual interests of great importance, such as rights to property; and when such references are made, we often find it difficult to supply the evidence required. Then His Excellency the Commander-in-Chief tells me that European soldiers often find great difficulty in obtaining such evidence of the age of their children as will enable them to draw the allowances granted by the State to soldiers' children. Of course the most thoroughgoing remedy for this state of things would be to pass a general law for the compulsory registration of births and deaths throughout British India, but the general opinion is that the country is not yet ripe for a measure of that kind, and there appear to be serious objections to the passing of a law for the compulsory registration of births and deaths which would be confined in its application to Christians or Europeans or any other particular classes of Her Majesty's subjects. This being so, we propose to content ourselves with passing a permissive law under which no one will be required to register, but ample facilities for registering births and deaths will be given to any one who desires to have unimpeachable evidence of such events. When I say no one will be required to register births or deaths, it will be understood that this permissive law will be outside of, and will not interfere with, the provisions for compulsory registration contained in the various local Acts to which I have referred. The classes to which it is proposed to apply these provisions of this Bill are the classes to which the present Indian Succession Act applies, that is to say, not only Europeans and Christians, but also East Indians, Jews, Armenians and Pársís. These are the only classes who would be likely to make any extensive use of this law. If it is found that the provisions of the law are generally appreciated, it will be possible to give them a wider application hereafter.

"So much as regards the registration of births and deaths. Then, as to marriages. The two Marriage Acts to which I have referred are Act XV of 1872, the Indian Christian Marriage Act, and Act III of 1872, which has not been christened with a short title, but which was passed with special reference to the celebration of marriages amongst the Brahmo community. The chief defect in these two Acts is that they do not provide for an index being kept to the registers of marriages, and it is obvious that without an index the value of a register is materially impaired. It is part of our scheme for registering

births and deaths under this Bill to establish a central registry office to which copies of the registers of births and deaths are to be sent, and in which an index is to be kept for public reference; and we propose to utilize this machinery for the evidence of marriages by requiring copies of registers kept under the two Marriage Acts of 1872 to which I have referred to be sent up and indexed in the same way in the same registry office.

"Then, lastly, there are at present a number of informal registers or records of baptisms, deaths, burials and marriages which have not been kept under the requirements of any law, and are therefore probably not admissible as evidence in judicial proceedings, although many of them have been faithfully and correctly kept up. It would be dangerous to pass a law giving evidential value to all entries in these records, and what we propose to do is to follow the precedent which has been set by English legislation on the same subject, and to appoint Commissioners whose functions it will be to examine all the registers of this nature which may be sent up for examination within a specified period after the passing of the Bill. These Commissioners are to prepare an index of such registers as they may declare to be admissible, and copies of registers so declared are to be admissible in evidence."

The Motion was put and agreed to.

SUNDRY BILLS.

The Hon'ble MR. ILBERT also moved that the Hon'ble Messrs. Evans and Goodrich be added to the Select Committee on the Bill to amend the Transfer of Property Act, 1882.

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Hon'ble Mr. Goodrich be added to the Select Committee on the Bill to facilitate the construction of Telegraphs, and to amend the Indian Telegraph Act, 1876.

The Motion was put and agreed to.

The Council adjourned to Friday, the 16th January, 1885.

FORT WILLIAM;
The 6th January, 1885.

D. FITZPATRICK,
Secretary to the Government of India,
Legislative Department.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

IRRIGATION.

REVENUE REPORT OF IRRIGATION WORKS IN THE PUNJAB FOR 1883-84.

No. 1 I., dated Fort William, 2nd January 1885.

RESOLUTION—By the Government of India, Public Works Department.

Read—

Letter from the Government of the Punjab, No. 4841 I., dated the 4th November 1884, forwarding the Revenue Report of Irrigation Works in the Punjab for 1883-84, and the Resolution by the Government reviewing the Report.

OBSERVATIONS.—The Capital outlay, exclusive of contributions by Native States, towards the construction of the Sirhind Canal amounted, at the close of the year under review, to ₹5,03,32,844. The expenditure during the year was ₹28,25,240. Of the total outlay ₹4,69,75,379 represents the Capital expenditure on canals in operation, and ₹33,57,465 that on canals which are still under construction.

The gross revenue of the year from all sources amounted to ₹42,84,164, and the working expenses to ₹19,70,328; the net revenue was therefore ₹23,13,836, yielding a return of 4·6* per cent. on the total outlay, and nearly 5† per cent. on the Capital of the open canals.

* Actual figure . . 4·597

† Actual figure . . 4·925

Up to the close of the year under review the net revenue had exceeded the interest charges by R2,07,45,601. If the result of the operations is calculated on the basis of the revenue assessed for the year 1883-84, the returns are 4·23 and 4·53 per cent., respectively, on the total outlay and Capital expenditure on canals in operation.

2. The following statement compares the assessments for 1883-84 with those of three previous years :—.

Canals.	Assessments.			
	1883-84.	1882-83.	1881-82.	1880-81.
	R	R	R	R
Bari Doab	13,87,047	13,12,256	13,53,590	15,19,068
Western Jumna	16,96,485	14,22,785	11,44,440	10,29,669
Sirhind	3,397	...	...	...
Inundation	13,73,952	12,32,821	14,33,536	10,95,551
Totals .	44,60,881	39,67,862	39,31,566	36,44,288

The returns from the Mozuffergarh Canals are included in the figures against "Inundation" in the above table, but as they have no Capital account, the revenue from this series of canals is not included in the calculation of profit on Capital outlay.

There is again for the second year in succession an increase of nearly 2¾ lakhs of rupees in the revenue of the Western Jumna Canal due principally to the irrigation of a larger area in both crops. The increase in revenue of the Bari Doab Canal is also satisfactory.

Irrigation from the Sirhind Canal has only just commenced, and the revenue will increase in proportion to the rate of progress in constructing the distributary channels. This work, as well as the completion of the remaining branches of the canal, is being pushed on as rapidly as is consistent with careful alignment and construction.

The year 1883-84 was very unfavorable to the working of the Inundation Canals. Their efficiency depends on the height and duration of the periodical rise of level of water in the rivers. On the earliest waterings the more valuable crops, such as indigo and sugarcane, are sown; the inferior autumn crops are satisfied with the later rise. In August lands are flooded to enable the ground to be prepared for the spring crop which is sown in October, the extent of these sowings, therefore, depends largely on the duration of high water at the end of the season. The country that is watered by the Inundation Canals is for the most part very flat, so that but little slope can be given in the beds of the channels, and the flow consequently depends on the head of water that is obtainable from the rivers. Many of the canals are capable of improvement and extension if money were available for the purpose, and this would increase the revenue in favorable seasons, but, from the nature of things, considerable variations must always be expected in the returns from the existing Inundation Canals.

3. A comparative statement of working expenses including indirect charges is given below :—

Canals.	Working Expenses.			
	1883-84.	1882-83.	1881-82.	1880-81.
	R	R	R	R
Bari Doab	5,62,330	5,29,573	5,10,565	4,22,718
Western Jumna	4,77,664	4,31,163	4,31,163	4,08,254
Sirhind	17,491	...	...	...
Inundation	10,90,169	9,47,693	8,05,517	8,84,252
Total .	21,47,654	19,49,060	17,47,245	17,15,224

The increase in working expenses is thus explained in the report. On the Bari Doab, expenditure is still continued on river training works and on repairs to rapids and other works necessary to render the channels capable of carrying larger supplies of water; it may be expected that these extraordinary charges against the Revenue will be much diminished after the current year. On the Inundation Canals there was heavy expenditure on River Protective Works, and an increase in the cost of clearing canals in the Indus series, and new heads were made for several of the canals of the Lower Sutlej and Chenab series.

In this latter series, as is also the case with the Mozuffergarh Canals, expenditure on ordinary repairs is defrayed by a Local Fund and not from the Imperial Budget.

4. The net assessed revenue amounted to—

Canals.	Net assessed revenue.			
	1883-84.	1882-83.	1881-82.	1880-81.
	₹	₹	₹	₹
Bari Doab	8,24,717	7,82,683	8,43,025	10,96,350
Western Jumna	12,18,821	9,50,991	7,13,277	6,21,415
Sirhind	—14,094	...	...	...
Inundation	2,83,783	2,85,128	6,28,019	2,11,299
Totals	23,13,227	20,18,802	21,84,321	19,29,064

Notwithstanding the heavy maintenance charges, the net revenue from the permanent canals for 1883-84 shows an increase of 18 per cent. over the returns for the best of the years immediately preceding.

The percentages of profit on the Capital outlay from the net assessed revenue for the year under review and for 1882-83, are—for the Bari Doab Canal 5·25 and 5·04, and for the Western Jumna Canal 12·73 and 10·75, respectively.

For those Inundation Canals for which Capital and Revenue accounts are kept, the profit from net assessed revenue was 5·22 per cent., and in the preceding year 11·46 per cent., on the capital invested.

5. In the following table the areas irrigated in 1883-84 and three previous years are compared:—

Canals.	Acres irrigated.			
	1883-84.	1882-83.	1881-82.	1880-81.
Bari Doab	390,860	353,615	368,062	433,080
Western Jumna	472,426	374,243	300,545	265,551
Sirhind	5,030	...	...	...
Inundation	783,752	955,414	1,019,178	867,246
Totals	1,652,068	1,683,272	1,687,725	1,565,877

The areas irrigated on the Bari Doab and Western Jumna Canals are, respectively, 37,000 and 98,000 acres in excess of the previous year. The measurements for the Western Jumna have been exceeded only three times in the history of the canal.

The increase on the Bari Doab Canal was in wheat and fodder crops. On the Western Jumna there was an increase of 38 per cent. in the area under wheat and of 15 and 30 per cent. in rice and cotton. The area under sugarcane declined 34 per cent. owing to a temporary depression in the sugar trade. Of the total area irrigated by the Punjab Canals, nearly 60 per cent. was under cereal crops, and more than 37 per cent. under wheat alone.

6. The duty and earnings of each cubic foot of water entering the heads of the permanent canals are given in the following statement :—

Canals.		1883-84.		1882-83.		1881-82.		1880-81.	
		Kharif.	Rabi.	Kharif.	Rabi.	Kharif.	Rabi.	Kharif.	Rabi.
Bari Doab .	Acres .	53	138·7	53·8	103·9	64·9	143·4	54·8	144·6
	₹ . .	145·5	305·6	160·4	233·2	196	320	161·7	319·6
Western Jumna .	Acres .	74	121	66	101	67·6	65·8	62·4	62·8
	₹ . .	211	264	210	221	295	205	178·5	138·2

The areas irrigated per cubic foot of the water actually utilized during 1883-84 are stated to be—

		Acres.
Bari Doab Canal .	Kharif	58·8
	Rabi	141·8
Western Jumna Canal .	Kharif	89
	Rabi	147

from which it would appear that there is a comparatively small loss of water on the former canal. It is explained that the much more considerable loss on the Western Jumna Canal is due to percolation between Dadupur, where the supply is first gauged and Kurnal where it is again regulated. In this part of its course the canal follows the line of an old drainage and resembles a river rather than a canal.

The remodelling of the canal which is now being carried out will only partially remedy this defect, as the new main line begins at Indri which is 30 miles below Dadupur, and the loss of water which is much to be regretted must to a great extent continue.

There is a satisfactory increase in the duty of water for both crops on the Western Jumna Canal, and there is good reason for anticipating that the improvement will continue as the opening of the new lines of canal and distributaries give greater facilities for regulating the supply to the cultivators. The duty on the Bari Doab Canal for the rabi crop has also improved, but for the kharif it is far below that of the older canal: this may be brought to the notice of the Punjab Government, and an explanation should be given in the next year's report.

7. The maintenance charges per acre irrigated amounted to—

Canals.	Per acre irrigated.			
	1883-84.	1882-83.	1881-82.	1880-81.
	₹	₹	₹	₹
Bari Doab	1·44	1·49	1·39	0·97
Western Jumna	1·01	1·26	1·43	1·53
Inundation	1·39	0·99	0·79	1·02
For whole area .	1·29	1·15	1·03	1·09

For the permanent canals the rate has decreased approximately in the same ratio as the acreage has increased; the causes that have led to an increase of rate on the Inundation Canals have been already alluded to.

8. The balance of revenue uncollected at the close of the year was ₹36,945, the total demand being ₹19,83,443. In 1882-83 the uncollected balance was ₹42,992 and the demand ₹18,91,589.

Order.—Ordered, that copies of this Resolution and of the Report, and of the Resolution by the Punjab Government, be forwarded to the Secretary of State, and to the Finance and Commerce and Revenue and Agricultural Departments of this Government for information.

Also, that copies of this Resolution be forwarded to the Government of the Punjab for information and guidance.

The Governments of Madras, Bombay, Bengal and the North-Western Provinces and Oudh, Public Works Department.
The Chief Commissioners, Central Provinces and British Burma.
The Foreign Department for communication to the Resident at Mysore and Coorg.
The Resident at Hyderabad.
The Agents to the Governor General, Central India and Rajputana.

Also, that copies of this Resolution and of the Report, and Resolution by the Punjab Government, be forwarded to the Local Governments and Administrations and Officers noted in the margin for information.

Also, that this Resolution, and the Resolution by the Local Government, with a few selected tables, be published in the Supplement to the *Gazette of India*.

R. HOME, *Colonel, R.E.*,
Offg. Depy. Secretary to the Government of India.

Proceedings of the Hon'ble the Lieutenant-Governor of the Punjab and its Dependencies, in the Public Works Department, No. 4840A-I., dated 4th November 1884.

READ—

Revenue Report of the Chief Engineer, Irrigation Works, Punjab, for the year 1883-84.

RESOLUTION.—The result of the working of the Punjab Canals for the financial year 1883-84 was as follows:—

The percentage of the net revenue on the capital invested is by assessments 0·95 and by collections 1·35, as compared with 3·60 and 3·12 which were the corresponding figures for the previous year.

With reference to the above, it should be mentioned that the Sirhind Canal, on which the maintenance charges exceeded the earnings for the year, has now, for the first time, been included in the list of canals in operation. If this canal had been excluded from the accounts, the percentages of surplus over maintenance and interest charges would have been by assessments 4·39 and by collections 5 08.

2. The area irrigated in the year under review was 1,652,068, and in the previous year 1,683,272 acres; on the Bari Doab Canal there was an increase of 37,245 acres; and on the Western Jumna Canal the increase was 98,183 acres; but there was a decrease of 171,662 acres in all the series of inundation canals.

3. The capital invested by Government amounted at the close of the year to ₹5,03,32,844, to which must be added ₹1,06,96,807, contributed by Native States to the Sirhind Canal. The total money invested was therefore ₹6,10,29,651, of which ₹28,14,406 have been expended on a Famine Relief and Insurance work, the Swat River Canal, which is not yet completed.

4. The capital expenditure during the year was ₹28,25,240. The surplus revenue after paying all charges and interest on the Productive Public Works expenditure in the Province amounted to ₹6,22,544, but this sum includes ₹5,15,690 on account of adjustments of previous years' accounts. Interest charges for other than Productive Public Works under the operation of Government of India's Public Works Circular No. IV, dated 1st May 1884, have not been shown in the accounts of the present year.

The total surplus receipts now amount to ₹2,07,45,601.

5. *Permanent Canals.*—There was an addition of ₹2,07,01,271, including expenditure of previous years on the Sirhind Canal, to the capital of the permanent canals in operation. The total capital invested in these canals is ₹4,50,77,347.

The gross revenue collected during the year was ₹31,20,702; the working expenses ₹10,57,485; and the interest charges ₹16,81,466. The surplus was therefore ₹3,81,751, giving a percentage of 0·84 on the capital invested.

The revenue assessed for the year was ₹30,86,929, and the net profit ₹3,47,978, or 0·77 per cent. after paying all charges.

6. *Inundation Canals.*—There is a decrease of ₹7,142 in the capital account of the inundation canals in operation, due to sales of stores from the Madhopur Workshops. The total capital invested at the close of the year was ₹18,98,032. There is no capital account for the Muzaffargarh Inundation Canals.

The revenue collected during the year was ₹11,63,462; the working expenses ₹9,12,843; the profit was therefore ₹2,50,619, or 13·20 per cent. on the capital invested.

The revenue assessed for the year was ₹10,12,027, and the net profit ₹99,184, or 5·22 per cent. after paying working expenses.

7. The following table shows the areas irrigated on permanent and inundation canals during the year under review and for four previous years:—

Canals.	1883-84.	1882-83.	1881-82.	1880-81.	1879-80.
Permanent	8,68,316	7,27,858	6,68,547	6,98,631	7,04,003
Inundation	7,83,752	9,55,414	10,19,178	8,67,246	5,16,341
Total .	16,52,068	16,83,272	16,87,725	15,65,877	12,20,344

There was a considerable increase on both the Western Jumna and Bari Doab Canals, but the areas on the inundation canals were in every case less than in the previous year.

8. A scheme for a new inundation canal from the Indus at Leiah to irrigate the high land of the Muzaffargarh District was under investigation at the close of the year, and a proposal for the constitution of a Survey Division for the Shahpur District with the object of preparing a project for the extension of irrigation from the Jhelum River was submitted, and has since been sanctioned.

WESTERN JUMNA CANAL.

9. There has again been a very considerable increase in the area irrigated by this canal. The acreage assessed has only three times been exceeded since the canal was opened. His Honour the Lieutenant-Governor concurs in the commendation by the Chief Engineer of the Divisional Officers, Messrs. Jeffrey, Palmer and Field, and their subordinates, to whose exertions the maturing of crops on such large areas in particularly trying seasons, is due.

10. The collections and assessments show a profit after defraying all charges and interest of 6·55 and 9·08 per cent. The percentages of the previous year were 4·75 and 7·07 respectively.

11. The cost of establishment was ₹0·52 per acre; the cost in the previous year ₹0·70. The working expenses amounted to ₹1·01 per acre, against ₹1·26 in 1882-83. The decrease in these rates was due to a decrease in the establishment charges and an increase in the area irrigated.

The balance of profit at the credit of this canal at the close of the year was ₹2,71,02,081.

BARI DOAB CANAL.

12. The area irrigated by this canal was 390,860 acres, or 37,245 more than in the previous year. The increase is due to the kharif crop being the largest ever yet recorded; and this was caused by the scarcity of rainfall in July. The rabi, though greater than that of the preceding year, was below the average, and this was due to the excessive rainfall in September.

13. The profit from the collections of the year amounts to 3·20 against 1·59 per cent. in the previous year. The profit by assessments was 1·43, and in the previous year 1·12 per cent.

14. The charges for establishment and working expenses were ₹0·598 and ₹1·44 per acre, against ₹0·67 and ₹1·50 in the previous year. The decrease was due to the increase in the area irrigated.

The charges and interest at the debit of the canal at the close of the year amounted to ₹53,28,900.

SIRHIND CANAL.

15. The area irrigated was 5,030 acres, of which 3,317 acres in the kharif were given gratuitously to save fodder crops.

The loss by collections is 3·78, and by assessments 3·76 per cent. on the capital invested. The charges and interest at the debit of this canal at the close of the year amounted to R55,24,609.

UPPER SUTLEJ INUNDATION CANALS.

16. The area irrigated by these canals was 71,374 acres, in the previous year the area was 1,29,802 acres; the decrease was due to the late and insufficient rise of the river and its unfavourable set.

17. The accounts for the year show a return by collections of 10·16 per cent., the corresponding percentage in the previous year was 3·44; the profit of the current year was swollen by the inclusion in the accounts of a sum of R74,036 on account of adjustments for previous years. By assessments there was a loss of 8·87 per cent. against a profit of 0·14 in the previous year, the decrease was due to the small area irrigated.

18. The charge for establishment was R0·68 against R0·34 per acre, and the cost of working expenses R1·86 against R1·10 per acre in the previous year. The increase in the rate is due to the falling-off in area irrigated, and to heavy expenditure in the construction of new leading channels to the canals.

The debit balance of working expenses at the end of the year was R33,755.

LOWER SUTLEJ AND CHENAB INUNDATION CANALS.

19. The area irrigated by these canals was 32,999 acres less than in the previous year, the main cause of the decrease was the late rise of the river, which prevented the sowing of the usual area under indigo and rice.

20. The profit was 220·53 against 183·47 per cent. in the previous year; the increase being due to adjustments on account of the share of Land Revenue, which was alluded to in paragraph 25 of the Resolution attached to the previous year's report.

The share of Land Revenue for the present and past years was R3,18,507 and R3,14,658, respectively.

21. The cost of establishment was R0 24, and that for working expenses R1·40 per acre against R0·23 and R1·15 per acre in the previous year; the increase in rate was due to high maintenance charges and to a diminution in the area irrigated.

The balance at the credit of these canals now stands at R48,31,094.

22. Owing to a decrease in area, the cost of irrigation to the cultivators was R1·61 per acre as compared with R1·47 in the previous year.

INDUS INUNDATION CANALS.

23. The area irrigated by these canals during the past and previous years was 150,418 and 190,620 acres, respectively. The decrease in the present year was due to the short duration of high water in the river and to the fact that the water never rose to its usual level.

24. There was a loss of 10·18 against 0·24 per cent. in the previous year. The loss was mainly due to abnormal maintenance charges, the necessity for which is explained in the Chief Engineer's report.

25. The cost of establishment and working expenses was R0·57 and R2·04 per acre, against R0·40 and R1·18 in the previous year. The increase in rate was due to the excessive maintenance charges alluded to above, and to a diminution in area irrigated.

26. The share of Land Revenue was R1,57,026 against R1,57,166 in the previous year.

The balance at the credit of these canals is R52,232.

MUZAFFARGARH INUNDATION CANALS.

27. There is no capital account for this series of canals. The profit for the year was R3,00,999, but if the adjustments alluded to in paragraph 32 of the Resolution for 1882-83 be deducted, the net profit will be R1,84,599 against R1,83,095 in the previous year.

28. The area irrigated was 226,199 against 259,385 acres in the previous year. The decrease was due to the unfavourable state of the rivers throughout the irrigating season.

The share of Land Revenue was R2,42,112 as compared with R2,37,136 in the previous year.

29. The cost of establishment was R0·20 and of working expenses R0·78, against R0·17 and R0·59 per acre in the previous year. The increase in rate is due to abnormal maintenance charges, and to a diminution in the area irrigated.

The balance at the credit of these canals now amounts to R7,32,662.

30. In the preceding year the cost per acre of irrigation to the cultivators was given as R1·32; but to this should be added the value of labour supplied for bunds, which was not then taken into account; with this addition the cost will be R1·38 per acre for 1882-83 and R1·52 for 1883-84.

SHAPUR INUNDATION CANALS.

31. The area irrigated was 5,485 acres against 12,632 in the previous year. The decrease was due to the fact that an extraordinary large area was under rabi cultivation, and owing to a late harvest less land was available for cultivation in the ensuing kharif.

32. The percentage of profit on capital outlay was 47·29 against 6·70 in the previous year. The increase was caused by the realization of arrears of water-rate due from the previous year; this was alluded to in paragraph 34 of the previous year's Resolution.

The balance of profit at credit of these canals is R70,499.

GENERAL.

33. A classified statement of crops irrigated in each canal Division is appended to Chief Engineer's Report.

34. Lithographed maps of the canals in the various Irrigation Circles are bound up with the Chief Engineer's report. Efforts will be made to improve these maps in subsequent years.

By order of the Hon'ble the Lieutenant-Governor,

R. HOME, *Colonel, R.E.*,
Joint Secretary to Government, Punjab, P. W. D.,
Irrigation Branch.

Deduct spring water from Upper Ganges Canal	121	
		1,432

* The Upper Ganges Canal was reopened on the 23rd November, but up to the 26th the supply passing the Soluni Aqueduct was immaterial; the average discharge from the 25th to 30th was 2,296 cubic feet per second and the gauge 4·44.

The consumption in the Northern Division was 171 cubic feet, the rest passing on into the Anupshahr and Meerut Divisions, in neither of which can there be said to have been any consumption.

Nearly the whole of the water passing into the Meerut Division was escaped at Jani and only 72 feet per second were passed on to the Bulandshahr Division, which was not sufficient to affect the gauges, while in the Aligarh Division there was nothing but spring water.

Executive Engineer, Northern Division, Ganges Canal, reports—No irrigation recorded during November, 1884. Canal opened at noon on 23rd November, and distributaries beginning work; weather clear; demand very slight. Bunds finished and water plentiful.

Executive Engineer, Narora Division, Lower Ganges Canal, reports—Rains of the early part of October put aside all necessity of palo and the general dampness of the soil delayed necessity of early waterings of rabi this year.

Executive Engineer, Cawnpore Division, Lower Ganges Canal reports—Canal closed.

Executive Engineer, Bhognipur Division, Lower Ganges Canal, reports—Canal closed throughout the month.

Executive Engineer, Eastern Jumna Canal, reports—No demand till the end of the month, and not much then. The irrigation done is quite inconsiderable. Canal was opened at 4 P.M. on the 15th.

Executive Engineer, Agra Canal, reports—There was scarcely any demand during the month; the area sown to rabi is small.

Executive Engineer, Rohilkhand Canals, reports—There has been no demand at all for rabi paao this year; demand for first watering began towards end of month at southern portion of division.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 7th JANUARY 1885.

GENERAL REMARKS.—Slight rain has fallen in one or two places in Bombay, Madras, the Berars the Central Provinces, and Punjab. Elsewhere there has been no rain.

In parts of Bellary and Anantapur in the Madras Presidency prospects continue unfavourable, and the crops are withering from want of rain. Harvesting is in progress in most districts with an outturn generally below the average. In the Bombay Presidency the standing crops have been much improved by the recent rain, and the prospects of the *rabi* are generally good. Scarcity of fodder exists in certain parts of Dharwar, Kaladgi, and Belgaum. The standing crops are in good condition in Mysore and the harvesting of *ragi* and paddy continues. In Coorg the reaping of rice and picking of coffee continue; the condition of the coffee trade is just now much depressed owing to low prices and short crop. In the Berars the *rabi* crops in Akola have suffered much from the recent heavy rains. In the Nizam's territories *rabi* prospects are good and the reaping of the *abi* crops is over. In Central India and Rajputana agricultural prospects continue favourable. In the North-Western Provinces and Oudh, Punjab, and the Central Provinces the *rabi* crops are generally promising very well.

In Bengal more rain is wanted for the *rabi* which is, however, doing well; paddy is still being harvested, and it is expected that the yield will be generally below the average. Mustard and *til* are being gathered in some districts and the cutting of sugarcane continues. In Assam the harvesting of *sali* crops has been nearly completed.

Fever, cholera, and smallpox are prevalent in parts of Madras, Bombay, and Bengal, the mortality from cholera is increasing in Coimbatore, Tanjore, and Madura. From Raipur 258 deaths among cattle are reported.

Prices are generally stationary.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(Jan. 7th)		
Bellary	*Nil*	Standing crops, dry and wet, withering from want of rain; harvest paddy and dry grains, yield below average.
Kurnool	„	Standing crops good except in one division and in parts of 3 taluks, where they are withering for want of rain; harvest cereals, yield below average; smallpox in 1 taluk.
Ganjam	Average ·06	Smallpox, cholera, and cattle-disease prevalent.
Kistna	*Nil*	Standing crops excepting *cholum* good; harvest paddy, outturn about average; river 4·05 feet over anicut; smallpox, fever and cattle-disease exist.
Chingleput	„	Standing crops good in parts, elsewhere partially damaged by excessive rain and floods; harvest paddy, outturn below half the average; smallpox in 1 taluk and cattle-disease in 4; 48 deaths from cholera.
Coimbatore	„	Standing crops fair, but in need of rain in 2 taluks and elsewhere affected by insects and disease; harvest paddy nearly average, dry grains below average; fever exists; 219 deaths from cholera.
Tanjore	Average ·02	Rivers 2 to 5 feet; standing crops goods except in parts damaged by late rain and floods; harvest paddy and *ragi*, outturn below average; 571 deaths from cholera.
Madura	*Nil*	Cholera increasing, 316 deaths.
Malabar	„	Harvest of 2nd crop paddy commenced; fever in 2 taluks; 34 deaths from cholera; smallpox and cattle-disease slight.
Travancore	„	Standing crops paddy good; smallpox, fever, and cholera exist. *General Remarks.*—General prospects fair, except in parts of Bellary and Anantapur where they continue unfavourable.
Bombay—(Jan. 7th)		
Karachi	*Nil*	River on 5th, 5 feet, being 2 feet higher than last year; fever in 11 talukas: cattle-disease in five talukas, 173 buffaloes, 150 cows and bullocks died; cholera in Jati taluka only, 3 cases remaining sick; smallpox in 9 villages in the districts, 21 fresh cases, 4 deaths, 16 remaining sick; prices—wheat, red rice, and *bajri* in Karachi 26, 28, and 40, in Kotri 32, 36, and 40; in Mirpur-Sakro 18, 36, and 44 and in Mirpur-Batoro 26, 46, and 40 lbs. per rupee respectively.
Hyderabad	„	*Rabi* prospects good; smallpox in 2, measles in 1, fever in 7, and cattle-disease in 4 talukas; prices of grain steady.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay – *contd.*		
Ahmedabad	*Nil*	Standing crops healthy; fever in Dholka, Viramgam, and Parantej; wheat 32, and *bajri* 35 lbs. per rupee.
Baroda	,,	Standing crops in good condition; opium sowing in progress in Kadi division; public health fair; prices—*bajri* 32 and rice 24 lbs. per rupee.
Surat	,,	Crops healthy; cutting of *jowari* in progress; fever in 5 talukas; *jowari* 26 and *nagli* 46 lbs. per rupee.
Násik	,,	*Rabi* crops good; public health generally good; cattle-desease in Dindore; wheat 40, *bajri* 34, and rice 21 lbs. per rupee.
Colaba (Bombay)	,,	Abnormal temperature 1° cool from 31st December to 2nd January, after which it gradually rose to 3° warm by the 6th; vapour in air excessive; abnormal wind southerly on 6th.
Poona	Rain in Bhimthadi 24 and in Indapur 58.	*Rabi* crops improved by the recent rains; smallpox in one village in Bhimthadi taluka; *bajri* 32 and *jowari* 36; in Poona *bajri* 32 and *jowari* 35 lbs. per rupee.
Ahmednagar	*Nil*	Prospects unchanged; *bajri* 34 to 42 lbs. per rupee.
Sholapore	In Barsi 46 and in Pandharpur 63.	Young *rabi* crops much improved by recent rainfall; *jowari* 34 lbs. 14 tolas and *bajri* 34lbs. 10 tolas per rupee.
Dharwar	*Nil*	Rain still required for late crops; harvesting of rice nearly completed, that of early *jowari* commenced; cotton blighted in 3 talukas; scarcity of fodder in Nawalgund, Mundargi, Karajgi and Ron; that of drinking water in Navalgund, Bankapur and Ranibennur in Ron taluka; migration continues; rice 20 to 32 and *jowari* 32 to 59 lbs. per rupee.
Kanara	,,	Common rice in Karwar 15; district average 14½ seers per rupee; preparing ground for second crop continues in Supa and Yellapur talukas; sowing second crop completed on coast; smallpox, 1 death in Sirsi taluka and Supa Petha; cholera, 9 deaths out of 9 cases in Haliyal; weather settled and fair.
Rajkot	,,	General health good; fever still prevailing in some talukas; cholera has appeared in Dhobra under Rajkot; *bajri* 36 and *jowari* 49 lbs. per rupee.
		General Remarks.—Slight rain in parts of Poona, Sholapur, Khandesh and Kaladgi; standing crops much improved by the recent rain in several districts of the Deccan and Southern Mahratta Country; scarcity of fodder continues in four talukas of Dharwar, one of Kaladgi and two of Belgaum; cotton blighted in three talukas of Dharwar; cholera and cattle-disease in parts of six, smallpox in ten, and fever in 12 districts.
Bengal – **(Jan. 6th)**		
Chittagong	*Nil*	Weather seasonable; prospects of crops continue good; prices of food grains stationary; general health good, though cholera still reported.
Dacca	,,	Prospects of crops good; cutting of sugarcane continues; mustard and *til* are being gathered; lands are being prepared for the next paddy crop; public health good.
24-Pergunnahs	,,	Prospects of crops continue satisfactory; harvesting of *amun* paddy on high lands has nearly been finished, the yield of the crop in general is above the average; *rabi* crops are doing well; price of common rice is almost stationary; cases of cholera and fever as usual in this season are reported from the Diamond Harbour and Busserhat sub divisions; state of river is normal.
Moorshedabad	,,	Weather warm at the beginning, but cool and seasonable at the close of the week; harvesting of *amun* paddy not yet completed; *rabi* crops are promising well; a little rain would do much good; price of common rice varies from 16 to 22 seers per rupee; public health good, although there have been some deaths from cholera in two thanas.
Rajshahye	,,	Harvesting of *amun* paddy nearly finished; mustard is being gathered; prospects of *rabi* crops are generally promising; public health fair.
Burdwan	,,	Harvesting of *amun* paddy is generally completed, the outturn for the district is three to four annas; *rabi* crops are promising.
Rungpore	,,	Weather seasonable; harvesting of *amun* paddy still continues; other winter crops are doing well; prices of food grains stationary; public health good.
Bhagalpore	,,	Paddy is still being cut; prospects of *rabi* crops continue good, and if rain fall in this month a full outturn may be expected; new rice is selling at 15¾ seers per rupee.
Purneah	,,	*Rabi* crops require rain; harvesting of *aghani* paddy continues; common rice is 16 seers per rupee; fever prevalent; rivers are low.
Patna	,,	Prospects of *rabi* crops favourable; reaping of *jowar* and paddy still continues; prospects of paddy crop good; public health good.
Durbhanga	,,	Harvesting of paddy going on; *rabi* crops are coming on well; rain wanted in some parts; poppy crop is looking prosperous; prices almost stationary; public health good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*contd.*		
Hazaribagh . .	*Nil*	Weather clear and cold; paddy is still being harvested in certain places; *rabi* crops are generally doing well; but wheat and barley appear to be suffering from want of rain in some parts of the district; scarcity of water for poppy crop is still complained of; price of common rice varies from 14 to 19 seers per rupee; cases of smallpox are still reported, general health otherwise good.
Cuttack . . .	„	*Sarad* paddy is being harvested with a fair outturn; *dalua* is being transplanted; cotton, tobacco, castor, and mustard are growing well; price of rice stationary; public health generally good
Gya	. . . . .	Prospects of poppy crop continue excellent, there are however complaints over a limited area that slight damage has been done to the latest sowings by caterpillars.
Shahabad . . .	. . . . .	Some damage by caterpillars to poppy crop is reported.
Mozufferpore . .	. . . . .	Prospects of poppy crop continue favourable.
Sarun	. . . . .	Prospects of poppy crop continue favourable; plants are looking healthy.
Chumparun . . .	. . . . .	Condition of poppy crop is all that could be desired.
Monghyr . . .	. . . . .	Prospects of poppy crop continue good.
		General Remarks.—There has been no rain in any of the districts of the province except in Poorse where the fall was ·19, but a seasonable fall of rain would in some districts be greatly beneficial to *rabi* crops, which are generally doing well; paddy is still being harvested and the yield will be generally below the average; mustard and *til* are being gathered in certain districts; cutting of sugarcane continues; price of rice has been falling owing to appearance of new rice in the market; cholera still prevails in many districts, and smallpox in three or four districts, otherwise public health good.
N-W. Provinces and Oudh— (Jan. 8th)		
Benares (Jan. 6th)	No rain during the week.	Weather moderately cold; prospects of *rabi* crops and opium favourable; bazars well supplied, prices falling; health of men and cattle good.
Gorakhpur („ 5th)	No rain	*Rabi* promising; opium prospects unchanged; plants thriving and healthy; rain needed on *chat* soil; weather cold; prices stationary.
Fyzabad („ 6th)	No rain	Weather cold; prospects of poppy and *rabi* crops continue favourable, irrigation and weeding in progress; health of people good.
Lucknow („ 5th)	. . . .	Weather cold; west wind; crops flourishing; irrigation and weeding in progress; health of people good; cattle disease in *tahsil* Lucknow decreasing; markets well stocked; prices steady.
Rai Barelli („ „)	*Nil*	Weather cold, but sometimes cloudy; irrigation and weeding of *rabi* crops in progress; general health good; supplies ample; prices steady.
Partabgarh („ 6th)	. . . .	*Sarson* and peas in blossom; barley and wheat well advanced in Palti; insects have attacked the *sarson* and gram; poppy prospects continue very favourable.
Allahabad („ „)	No rain	Weather seasonable and crops of all kinds in splendid condition; health good; prices still falling.
Cawnpore („ 5th)	No rain	Weather cold; *rabi* crops being irrigated; poppy crops promising; but rain wanted for backward cultivation; health of people on the whole good; some cattle disease in 2 parganas; markets well stocked; prices easy.
Banda . („ 7th)	*Nil*	Weather clear; *rabi* prospects good; no distress.
Ballia . („ 5th)	. . . .	Weather clear; crops thriving; health good; condition of cattle satisfactory; markets will supplied.
Farakhabad („ 6th)	. . . .	Health of people improving; crops favourable; weather seasonable.
Sitapur . („ 7th)	. . . .	Westerly winds have prevailed during the week; all irrigated crops are doing well; poppy prospects good.
Bareilly . („ 5th)	. . . .	Crops looking well; prices tending to fall; health good.
Kumaon . („ „)	*Nil*	Weather sometimes cloudy; rain is required; general health good, with the exception of cholera in the Bhabar; fever and smallpox in a few villages in the interior; cholera abating; cattle disease continues, but is abating; prices stationary.
Agra . („ 6th)	No rain	Crops promising; general health good; prices steady.
Jhansi . („ „)	. . . .	*Rabi* crops doing well; markets are well stocked with food grains; prices fluctuating; health of people and cattle good.
Meerut . („ 5th)	No rain	Weather frequently cloudy; rain wanted for unirrigated crops; health of people and cattle good; prices falling.
		General Remarks.—No rain; all crops good, and prospects excellent.
Punjab— (Jan. 7th)		
Delhi (Jan. 6th)	*Nil*	Health fair; *rabi* crops promising; prices falling.
Hissar („ „)	„	Fever abated; *rabi* flourishing; prices falling.
Umballa („ „)	„	Fever almost disappeared; *rabi* crops thriving; rain wanted, prospects favourable; prices of food grain slightly falling.
Jullundur („ „)	„	Health and crop prospects good; rain wanted; prices stationary
Amritsar („ „)	„	Health and crop prospects good; rain wanted; prices almost stationary.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Punjab *contd.*		
Sirsa (Jan. 6th)	Rain falling	Health and crop prospects good; prices stationary
Ferozepore („ „)	*Nil*	Health and crop prospects good; prices slightly falling.
Lahore („ „)	Slight rain	Health good; crops fair; prices steady.
Rawalpindi („ „)	*Nil*	Health and *rabi* crops good; rain much needed; prices almost stationary.
Mooltan („ „)	Slight rain	*Rabi* crops flourishing; health good; prices slightly falling.
Dera Ismail Khan („ „)	*Nil*	Health and prospects good.
Peshawar („ „)	„	Health good; prices falling; rain much needed.
		General Remarks.—Fever decreasing in the Hissar and Umballa districts; the health of the rest of the province is generally good; crop prospects good.
Central Provinces — (Jan. 7th)		
Nagpur	·03	Weather clear; prospects improved by recent rain; health good; prices of wheat fallen; other grains stationary.
Jubbulpore		Weather clear and cool; *rabi* in good condition; health good; wheat 28 and rice 17 seers per rupee.
Saugor (Jan. 6th)		Weather cool and pleasant; *rabi* crops promising favourably; health good; prices easier.
Seoni		Weather cloudy; rain beneficial to *rabi*; threshing; *kharif* nearly completed; cattle-disease continues; prices stationary.
Hoshungabad		Weather clear and cold; prospects of crops fair; cotton-picking continues; fever slightly prevalent; wheat 25, rice 12, and *juari* 36 seers per rupee.
Khandwa	·11	Weather cloudy and warm; *rabi* prospects good; prices stationary.
Raipur		Weather clear and cool; recent rain beneficial; *rabi* prospects favourable; linseed and pulses flowering; health good; 58 deaths among cattle reported during week from weakness; fodder scarce; prices falling.
Sambalpur (Jan. 3rd)		Weather clear and cold; reaping rice completed, outturn good; reaping of sugarcane and cotton-picking continues; health good; prices stationary.
		General Remarks.—Weather appears to have cleared; crop prospects improved by recent rain; but clear weather should now continue; health generally good; cattle-disease severe in Raipur; prices steady.
British Burma — (Jan. 7th)		
Akyab (Jan. 3rd)	*Nil*	Health good; reaping nearly completed.
Bassein („ „)	„	Slight cholera in town and district.
Rangoon („ „)	„	Health good.
Amherst („ „) (Moulmein).	„	Health good; reaping completed.
Tavoy („ „)	„	Slight cholera and smallpox; harvesting nearly completed.
Pegu (27th Dec. 1884 & 3rd Jan. 1885)	„	Health good; reaping well advanced.
Henzada (3rd Jan. 1885)	„	Slight cholera in town and district; reaping nearly completed.
Prome (27th Dec. 1884 & 3rd Jan. 1885)	„	Cholera severe in town and slight in district; crops in good condition.
Toungoo (Jan. 3rd)	„	Health good; reaping in progress.
Thayetmyo („ „)	„	Health good; reaping completed.
		General Remarks.—Public health generally good excepting in Prome town and Amherst district where cholera is somewhat prevalent; harvesting completed in some districts, nearly completed in others; no rainfall; prospects fair.
Assam — (Jan. 7th)		
Gauhati	No rain during the week ending 6th inst.	Weather seasonable; mornings foggy, nights cool; harvesting of *sali* paddy nearly completed; mustard crops being gathered; land being ploughed for *aus*; public health good.
Sylhet	*Nil*	State and prospects of crops the same as last week; cholera still prevalent in the district.
Cachar	„	Weather very cold; reaping of *sali* crops nearly finished; common rice 19 seers per rupee; no cholera reported.
Dibrugarh	·31	Weather cloudy and cold; outturn of *sali dhan* moderate; smallpox at Sadiya; cholera abated in sub-division.
Mysore and Coorg — (Jan. 7th)		
Bangalore	No rain during the week.	Crops in good condition, except around Tumkur where late-sown crops are fading; harvesting of *ragi* and paddy continues; prospects fair; public health good; prices unchanged at Mysore, but reported rising at Kolar and Bangalore.
Moteara		Rice crop being reaped; coffee-picking continues; condition of trade and of the coffee enterprise much depressed owing to low prices and short crop.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Berar & Hyderabad— (Jan. 7th)		
Amraoti	*Nil*	Weather cloudy; cotton-picking and *jowari* cutting continue, *rabi* plants healthy; wheat 22 and *jowari* 26 seers per rupee.
Akola	1·52	Both the reaped and standing crops have suffered by the late untimely heavy rains in some taluks; the rainfall was accompanied by hail-storms; the *rabi* crops have suffered much therefrom.
Hyderabad (Jan. 8th)	*Nil*	Reaping of *abi* crops concluded; *rabi* crops prospering; *tabi* sowings in progress; general health good; prices—wheat 13¾, coarse rice 12½, white *juar* 18, yellow *juar* 22½, and *tur* 18 seers per current sicca rupee.
Central India States— (Jan. 7th)		
Indore	*Nil*	Weather still cloudy and warm; prospects of crops and health good.
Morar (Gwalior)	„	Total rainfall 32·74; health and prospects good; weather seasonable.
Sutna	„	Weather clear; health and prospects good.
Neemuch	„	Crops thriving; weather fine; health good.
Goona	„	Weather clear, health good; poppy sowings completed.
Agar	„	Prospects of wheat and opium crops good; health good.
Sehore	·22	Weather clear; prospects of crops and health good.
Nowgong	*Nil*	Prospects good; weather cold; health fair.
Manpur (Bhopawar)	„	Health good; crops doing well.
Rajputana— (Jan. 7th)		
Abu (Jan. 7th)	*Nil*	Weather cold, windy, and cloudy.
Sirohi („ 4th)	„	Health and prospects good; weather mild.
Marwar („ 2nd)	„	Health and prospects good; weather cloudy; prices steady, about 7 months' water in city tanks.
Harowti („ 5th)	„	Weather much warmer; health good.
Jhallawar („ 2nd)	„	Weather seasonable; prospects good.
Ajmere („ 6th)	„	Prospects excellent; fever still continues.
Ulwur („ „)	„	Crop prospects and health good; weather seasonable.
Nepal— (Jan. 1st)		
Khatmandu	*Nil*	Weather good; prospects fair.

DEPARTMENT OF FINANCE AND COMMERCE.

NOTIFICATIONS.—CODES.

Calcutta, the 14th January 1885.

The following Addenda to the Codes of the Financial Department are published for general information :—

No. 184.

CIVIL PENSION CODE, SECTION 91 (PAGE 44).

Add the following as Rule 3 under this Section :—

3. The service of a postman or village postman, whatever his pay, is superior service, provided he has served as postman or village postman for five years with approval.

No. 185.

CIVIL PENSION CODE.

Page 3.

Section 8.

Add the following to proviso (3) of this Section :—

"The consent of the Government of India in the Foreign Department is also required to any increase to the salary of an officer already transferred, which has the effect of raising the officer's net salary above R250 a month."

No. 201.

Page X.

Definitions.

Add the following to the definition of "General Revenues" below the note :—

"General Revenues also includes the Revenues of Mysore so far as regards service rendered before the 1st October 1882 by officers who, having no status in the service of the British Government apart from their particular employment in Mysore, were employed in Mysore when under British administration, and transferred to British service proper before that date."

CIVIL PENSION CODE.

Page 4.

Section 83.

Add the following to this Section.:—

"In the case of officers who, having no status in the service of the British Government apart from their particular employment in Mysore, were employed in Mysore and transferred to the British service proper before 1st October 1882, the pensions granted are charged according to the rule of proportions.

Pensions for service in Mysore prior to 1st October 1882 of officers who had a status in the service of the British Government, apart from their particular employment in Mysore, are paid wholly from British Revenues."

The 16th January 1885.

No. 247.

CIVIL LEAVE CODE.

Page 194.

Section 127.

Rule 5.

Cancel Note 2 under this Rule.

CIVIL LEAVE CODE.

Page 194.

Section 127.

Rule 6.

Strike out the words enclosed in brackets in the first and second lines of this Rule.

Add the following to this Rule :—

No leave can be granted to an Apprentice Overseer in the Public Works Department, unless supported by a Medical Certificate. When leave on Medical Certificate is granted to an Apprentice Overseer, Public Works Department, allowances equal to half pay may be granted to both Civil and Military Apprentices provided that those of the latter shall not be less than their Military Pay and Allowances. Time spent as Apprentice Overseers in the Public Works Department counts towards leave when they are appointed to the Department.

PAPER CURRENCY.

The 16th January 1885.

STAMPS.

JUDICIAL, &c.

EXEMPTIONS, &c.

The 15th January 1885.

No. 241.—In exercise of the powers conferred by Section 35 of the Court Fees Act, 1870, the Governor General in Council is pleased to remit the fees payable on applications for loans under the Agriculturists' Loans Act, XII of 1884.

D. BARBOUR,
Secretary to the Government of India.

MILITARY DEPARTMENT.

Fort William, the 16th January, 1885.

APPOINTMENTS.

No. 23.—It is notified under the authority of the Secretary of State for India that officers who vacate their regimental commands under the conditions of G. G. O. No. 209 of 1882, and who elect to remain in India, are allowed the privilege of choosing their place of residence within Presidential limits, subject to the approval of the Commander-in-Chief. But wherever they may reside, they continue liable for the performance, if required, of military duty.

2. The provisions of paragraph 75, Section VIII of the Bengal Army Regulations, or the corresponding regulations of the Madras and Bombay Armies, will apply to them.

3. This rule will be held to apply also to all officers over 55 years of age who vacate staff, departmental, or civil appointments, and to whom the provisions of paragraph 7 of G G. O. No. 209 of 1882 were made applicable by G. G. O. No. 192 of 1883.

No. 24.—STAFF CORPS—

The undermentioned officers are admitted to the Bengal Staff Corps, with effect from the dates specified, subject to the confirmation of the Secretary of State for India :—

Lieutenant Lionel Herbert, Suffolk Regiment, Squadron officer, 1st Regiment, Central India Horse,—23rd April, 1883.

Lieutenant Ernest Carbonaro, Hampshire Regiment, Officiating Wing Officer, 17th Bengal Infantry,—22nd June, 1883.

Lieutenant Hugh Daly, Gloucestershire Regiment, Officiating Squadron Officer, 2nd Regiment, Central India Horse,—4th October, 1883.

No. 25.—MEDICAL DEPARTMENT—

Surgeon-Major G. P. Mackenzie, M.B., Medical Officer, 4th Bengal Infantry, to be Medical Officer, Lawrence Military Asylum, Sanawar, *vice* Surgeon-Major R. T. Lyons, M.D., whose tenure of service in that appointment has expired. Dated 1st December, 1884.

No. 26.—Surgeon C. P. Lukis, to officiate as Medical Store-keeper, Allahabad, *vice* Brigade Surgeon J. Browne, M.D., proceeding on leave.

No. 27.—VOLUNTEER CORPS—

Northern Bengal Volunteer Rifle Corps.

Lieutenant H. H. Ozzard, Wing Officer and Adjutant, 14th Bengal Infantry, to be Adjutant, *vice* Major T. M. Maxwell, who has vacated the appointment.

FURLOUGH AND LEAVE.

No. 28.—The undermentioned officers are granted furlough out of India, with the necessary subsidiary leave :—

Colonel J. C. Horne, Bengal S. C., Judge Advocate General, (p. a.) for two years, under rule IX of the regulations of 1868.

Colonel A. H. Bamfield, Bengal S. C., Inspector General of Police and Under-Secretary to the Government of Punjab, Home (Police) Department, (p. a.) for two years, under rule IX of the regulations of 1868.

Colonel W. W. Boddam, Bengal S.C., Deputy Inspector General of Police, 1st grade, Punjab, (p. a.) for 243 days, under rule IX of the regulations of 1868.

Lieutenant-Colonel G. S. Hills, R.E., Supernumerary Executive Engineer, 1st grade, Public Works Department, (p. a.) for two years, under rule IX of the regulations of 1868.

No. 29.—Surgeon-Major J. C. Shaw is granted furlough without pay for six days, with effect from the 2nd September 1884, in extension of that allowed in G. G. O. No. 433 of 1883. (This cancels G. G. O. No. 575 of 1884.)

No. 30.—Colonel C. Batchelor, Cavalry, is permitted to reside out of India.

No. 31.—The undermentioned officers have been granted extensions of furlough by the Secretary of State for India :—

Major H. Paterson, Bengal S. C., (m. c.) for one month.

Brigade Surgeon J. C. Morice, (u. p. a.) without pay, for ten days.

War Services.

Colonel H. Fraser was actively employed from July, 1857, until January, 1859, with the Cavalry Brigade, Hyderabad Contingent, and accompanied the field force under Colonel W. Orr to Mhow in October 1857, coercing en route the refractory zemindars of Peeplia and Ragoo Ghur. Joined the Bombay column before Dhar in October, and was present with the 4th Cavalry, Hyderabad Contingent, on the 12th November at Rawul, when the Mahidpur mutineers were after forced marches overtaken, several hundred slain, and a complete battery, including siege guns, &c., captured. Specially mentioned for conspicuous gallantry on the occasion. Was appointed Staff Officer to the Contingent. Present with the Malwa Field Force under Sir James Stewart, K C.B., at the battle of Mundisur on the 21st, 22nd, 23rd, and 24th November. Was thanked by Colonel Orr in G. G. O. No. 183-A. of 29th January, 1858. Served in the action in forcing the pass of Dhamoni by the Contingent troops under Colonel Orr, C.B. Joined the Central India Field Force under Sir Hugh Rose, G.C.B. Present at the action of Muddenpur and in the pursuit, when a considerable number of the mutineers were cut up. Thanked by Sir Hugh Rose in G G. O. No. 110 of 1858. Joined in the operations against Tal Behat under Colonel Orr; was present before Jhansi from the 20th March to 15th April; and commanded during the greater part of the day the 3rd Cavalry, Hyderabad Contingent, at the battle of Betwah. Thanked for his conduct at Jhansi in G. G. O. No. 174 of 1858. Was specially mentioned by Sir Hugh Rose. Was in the action at Konch noticed by Colonel Orr, (G. G. O. No. 324 of 1858). Joined in the entire operations before Calpi and Gowlabi. Noticed by Colonel Orr in G. G. O. No. 278 of 1858. Was in the action at Bilowah. Thanked for services in G. G. O. No. 310 of 1858. Was in the operations against Gwalior. Brought specially to notice by Sir Hugh Rose "for unwearied zeal and good service during the whole of the campaign in Central India" (*vide* G. G. O. No. 321 of 1859). Thanked by Colonel Orr for his gallantry before the enemy.—(Medal and clasp for Central India.)

No. 12.—Colonel D. Limond, C.B., R.E., Chief Engineer, 2nd Class, is permanently promoted to the 1st Class, with effect from the 19th July 1884.

This cancels that portion of Public Works Notification No. 191, dated 11th August 1884, which relates to Colonel Limond, R.E.

No. 14.—The undermentioned gentlemen are appointed apprentices sub. *pro tem.* in the Superior Account Establishment and posted to the offices noted opposite their names :—

Mr. C. H. Duffin,—Office of Examiner, Public Works Accounts, British Burma.

Mr. H. J. Hoskins,—Office of Examiner, Public Works Accounts, North-Western Provinces and Oudh.

No. 15.—Mr. H. T. Wadley, Assistant Engineer, 3rd Grade, State Railways, is promoted to Assistant Engineer, 2nd Grade, with effect from 2nd December 1884.

No. 16.—Babu Rajeswar Mittra, Assistant Engineer, 3rd Grade, Rajputana, is promoted to Assistant Engineer, 2nd Grade, with effect from 14th December 1884.

The 15th January 1885.

No. 17.—The following is published for general information :—

No. 12A G., dated 10th January 1885.

RESOLUTION—By the Government of India, Public Works Department.

Revised Edition of Public Works Forms relating to accounts of Sub-Divisional Officers and Executive Engineers.

RESOLUTION.—A revised edition of the forms above referred to has been published, but it has been ascertained that there is a considerable quantity of the old stock on hand, estimated to meet

requirements varying from three months in the case of some of the forms to eighteen months in that of others.

2. It is further observed that the forms admit of division into two distinct classes :—

1st.—Those in which uniformity in the different offices is not at first a matter of absolute necessity.

2nd.—Those in which any change must be both simultaneous and general.

3. As regards the first of these classes, the old forms will be retained in use up to 1st April 1886 unless the existing stock is exhausted prior to that date, in which case the Contractor for Printing Government of India Stock Forms will be instructed to supply the revised forms; but as regards the second class, a supply of the old forms will be kept in stock sufficient to meet all requirements up to 1st April 1886, after which date the whole of the new forms will be brought into use.

ORDER.—Ordered, that this Resolution be published in the *Gazette of India* for information and guidance.

Ordered also, that a copy be forwarded to the Accountant General, Public Works Department, for the issue of such subsidiary orders as may be necessary.

No. 18.—The Governor General in Council is pleased to order the following promotions of Executive and Assistant Engineers attached to the several Local Administrations, with effect from the 1st January 1885 :—

HENRY F. BLANFORD,
Meteorological Reporter to the Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co. are distributed by that firm; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows:—

Terms of subscription, payable annually in advance

For the Complete Series, *including postage* . ₹22 8

	Without postage.	With postage

„ each of the Madras, Bombay and Allahabad Series	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*)		„ 2 0
„ a part of the Madras, Bombay and Allahabad Series purchased separately (*inclusive of postage in India*)		„ 1 0

Persons desiring to subscribe for, or purchase, the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.
„ Thacker & Co., Bombay.
„ Higginbotham & Co., Madras.
The Government Central Book Depôt, Bombay.
„ Curator of Government Books, North-Western Provinces and Oudh.
„ Superintendent of Government Printing, Bengal

Orders and subscriptions for 1885 should be at once remitted.

NOTICE.

Indian Law Reports.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, by the Calcutta Central Press Company, "Limited," 5—1, Council House Street, at the follo wing rates, payable in advance:—

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 2nd January, 1885, and is hereby promulgated for general information:—

ACT NO. I OF 1885.

An Act to amend the Burma Steam-boilers and Prime-movers Act, 1882.

WHEREAS it is expedient to amend the Burma Steam-boilers and Prime-movers Act, 1882; It is hereby enacted as follows:—

Short title and commencement

1. This Act may be called the Burma Steam-boilers and Prime-movers Act, 1885; and it shall come into force at once.

Amendment of section 4 of Act XVIII of 1882.

2. In section 4 of the Burma Steam-boilers and Prime-movers Act, 1882, after the words "first or second class" the words "or as engine-drivers" shall be added. XVIII of 1882.

Amendment of sections 5, 8 and 11 of same Act.

3. In section 5, sub-section (2), section 8, clause (*b*), and section 11, clause (*b*), of the said Act, after the word "engineer" the words "or in the case of a boiler or prime-mover attached to an engine of not more than twenty horse-power of an engineer or engine-driver" shall be inserted.

The Births, Deaths and Marriages Registration Bill, 1885.

(*Chapter II.—General Registry Offices of Births, Deaths and Marriages.—Sections 1-9.*)

A Bill to Provide for the voluntary Registration of certain Births and Deaths, for the establishment of General Registry Offices for keeping Registers of certain Births, Deaths and Marriages, and for certain other purposes.

WHEREAS it is expedient to provide for the voluntary registration of births and deaths among certain classes of persons, for the more effectual registration of those births and deaths and of the marriages registered under Act III of 1872 or the Indian Christian Marriage Act, 1872, and for the establishment of general registry offices for keeping registers of those births, deaths and marriages; XV of 1872.

And whereas it is also expedient to provide for the collection and preservation of certain existing registers made otherwise than in the performance of a duty specially enjoined by the law of the country in which the register was kept, and to declare that copies of the entries in those registers shall be admissible in evidence;

It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

Short title and commencement.

1. (*1*) This Act may be called the Births, Deaths and Marriages Registration Act, 1885; and

[Act XV of 1872, s. 1.]

(*2*) It shall come into force on such day as the Governor General in Council, by notification in the *Gazette of India*, directs.

Local extent.

2. This Act extends to the whole of British India, and, so far only as regards subjects of Her Majesty, to the dominions of Princes and States in India in alliance with Her Majesty.

Definitions.

3. In this Act, unless there is something repugnant in the subject or context,—

"prescribed" means prescribed by a rule made by the Governor General in Council under this Act; and

"Registrar of Births and Deaths" means a Registrar of Births and Deaths appointed under this Act.

Saving of local laws.

4. Nothing in this Act, or in any rule made under this Act, shall affect any law heretofore or hereafter passed providing for the registration of births and deaths within particular local areas.

CHAPTER II.

GENERAL REGISTRY OFFICES OF BIRTHS, DEATHS AND MARRIAGES.

Establishment of general registry offices and appointment of Registrars General.

[6 & 7 Wm. IV, c. 86, s. 2.]

5. (*1*) Each Local Government—

(*a*) shall establish a general registry office, for keeping such certified copies of registers of births and deaths registered under this Act, or marriages registered under Act III of 1872 (*to provide a form of marriage in certain cases*), or the Indian Christian Marriage Act, 1872, as may be sent to it under this Act, or under either of the two last-mentioned Acts as amended by this Act; and XV of 1872.

(*b*) may, from time to time, appoint to the charge of that office an officer, to be called the Registrar General of Births, Deaths and Marriages, for the territories under its administration.

[Cf. Act III of 1877, s. 4.]

(*2*) Provided that the Governor of Bombay in Council may, with the previous sanction of the Governor General in Council, establish two general registry offices and appoint two Registrars General of Births, Deaths and Marriages for the territories under his administration; one of such general registry offices and of such Registrars General being established and appointed for Sindh and the other for the other territories under the administration of the Governor of Bombay in Council.

Indexes to be kept at general registry office.

[Cf. 6 & 7 Wm. IV, c. 67, ss. 37 & 38. See also Act III of 1877, s. 77.]

6. Each Registrar General of Births, Deaths and Marriages shall cause indexes of all the certified copies of registers sent to his office under this Act, Act III of 1872, or the Indian Christian Marriage Act, 1872, as amended by this Act, to be made and kept in his office in the prescribed form. XV of 1872.

Indexes to be open to inspection.

7. Subject to the payment of the prescribed fees, the indexes so made shall be at all reasonable times open to inspection by any person applying to inspect them, and copies of entries in the certified copies of the registers to which they relate shall be given to all persons applying for them.

Copies of entries to be admissible in evidence.

8. A copy of an entry given under the last foregoing section shall be signed by the Registrar General of Births, Deaths and Marriages, and shall be admissible in evidence for the purpose of proving the birth, death or marriage to which the entry relates.

Superintendence of Registrars by Registrar General.

9. Each Registrar General of Births, Deaths and Marriages shall exercise a general superintendence over the Registrars of Births and Deaths in the territories for which he is appointed.

The Births, Deaths and Marriages Registration Bill, 1885.

(*Chapter III.—Registration of Births and Deaths.—Sections 10-18.*)

CHAPTER III.

REGISTRATION OF BIRTHS AND DEATHS.

A.—Application of this Chapter.

10. The persons whose births and deaths shall be registrable under this chapter are as follows, namely :—

Persons whose births and deaths are registrable.

(*a*) in British India, the members of every race, sect or tribe to which the Indian Succession Act, 1865, applies, and in respect of which an order under section 332 of that Act is not for the time being in force, and all persons professing the Christian religion ;

X of 1865.

(*b*) in the dominions of Princes and States in India in alliance with Her Majesty, subjects of Her Majesty being members of a like race, sect or tribe or professing the Christian religion.

B.—Registration Establishment.

11. (*1*) The Local Government may, from time to time, appoint, either by name or by virtue of their office, so many persons as it thinks fit to be Registrars of Births and Deaths for such local areas within the territories under its administration as it may, from time to time, define.

Power for Local Government to appoint Registrars for its territories.

[Cf. Act III of 1877, s. 13.]

(*2*) The Local Government may suspend, remove or dismiss any person appointed under this section and appoint another person in his stead.

(*3*) A Registrar of Births and Deaths may resign by notifying in writing to the Local Government his intention to do so, and, on his resignation being accepted by the Local Government, he shall be deemed to have vacated his office.

12. The Governor General in Council may, from time to time, by notification in the *Gazette of India*, appoint, either by name or by virtue of their office, so many persons as he thinks fit to be Registrars of Births and Deaths for such local areas within the territories of any Prince or State in India in alliance with Her Majesty as he may, from time to time, define.

Power for Governor General in Council to appoint Registrars of Births and Deaths for Native States.

[Cf. 37 & 38 Vic., c. 88, s. 26.]

13. (*1*) Every Registrar of Births and Deaths shall have an office in the local area for which he is appointed.

Office and attendance of Registrar.

(*2*) Every Registrar of Births and Deaths to whom the Local Government may direct this subsection to apply shall attend at his office for the purpose of registering births and deaths on such days and at such hours as the Registrar General of Births, Deaths and Marriages may, from time to time, direct, and shall cause to be placed in some conspicuous place on or near the outer door of his office, his name, with the addition of Registrar of Births and Deaths for the local area for which he is appointed, and the days and hours of his attendance.

14. (*1*) When any Registrar of Births and Deaths to whom the Local Government may direct this section to apply, not being a Registrar of Births and Deaths for a local area in the town of Calcutta, Madras or Bombay, is absent, or when his office is temporarily vacant, any person whom the Registrar General of Births, Deaths and Marriages appoints in this behalf, or, in default of such appointment, the Judge of the District Court within the local limits of whose jurisdiction the Registrar's office is situate, shall be the Registrar of Births and Deaths during such absence or until the Local Government fills the vacancy.

Absence of Registrar from his district or vacancy in his office.

[Cf. Act II of 1877, s. also 37 & Vic., c. 88, 24 & 25.]

(*2*) When any such Registrar of Births and Deaths for a local area in the town of Calcutta, Madras or Bombay is absent, or when his office is temporarily vacant, any person whom the Registrar General of Births, Deaths and Marriages appoints in this behalf shall be the Registrar of Births and Deaths during such absence or until the Local Government fills the vacancy.

(*3*) The Registrar General of Births, Deaths and Marriages shall report all appointments made under this section to the Local Government.

15. The Local Government shall supply every Registrar of Births and Deaths with a sufficient number of register books of births and of register books of deaths, and shall make suitable provision for the preservation of the records connected with the registration of births and deaths.

Register books to be supplied and preservation of records to be provided for.

[Cf. Act II of 1877, s. 13.]

C.—Mode of Registration.

16. Every Registrar of Births and Deaths, on receipt of notice of a birth or death within the local area for which he is appointed, shall, if the notice is given within the prescribed time and in the prescribed mode by a person authorized by this Act to give the notice, forthwith make an entry of the birth or death in the proper register book.

Duty of Registrar to enter births and deaths of which notice is given in register.

[Cf. 6 & 7 Wm. IV, c. 86, ss. 17 & 18 ; also Act III of 1877, 16.

17. The following persons are hereby authorized to give notice of a birth, namely, the father or mother of the child, or, in default of the father or mother, the occupier of the house in which to his knowledge the child is born, or any person present at the birth, or the person having charge of the child.

Persons authorized to give notice of birth.

[Cf. 37 & 38 Vic., c. 88, s. 10.]

18. The following persons are hereby authorized to give notice of a death, namely :—

Persons authorized to give notice of death.

[Cf. 37 & 38 Vic., c. 88, s. 10.]

(*a*) In the case of any person dying in a house

The Births, Deaths and Marriages Registration Bill, 1885.

(Chapter III.—Registration of Births and Deaths.—Sections 19-25.)

after the date on which this Act comes into force, the nearest relatives of the deceased present at the death or in attendance during the last illness of the deceased, or, in default of such relatives, any other relative of the deceased dwelling or being in the local area of the Registrar of Births and Deaths within which the deceased was at the time of his death, or, in default of such relatives, any person present at the death, or the occupier of the house in which to his knowledge the death took place, or, in default of the persons hereinbefore in this section mentioned, any inmate of that house; and

[Cf. 37 & 38 Vic., c. 88, s. 11.] (*b*) in the case of any person dying in a place which is not a house, or of a dead body being found elsewhere than in a house, after the date on which this Act comes into force, any relative of the deceased person having knowledge of any of the particulars required to be registered concerning the death, or, in default of such relative, any person present at the death, or finding, or taking charge of, the body.

Entry of birth or death to be signed by person giving notice.

19. (*1*) When an entry of a birth or death has been made by the Registrar of Births and Deaths as required by section 16, the person giving notice of the birth or death must sign the entry in the register in the presence of the Registrar.

(*2*) Until the entry has been so signed, the birth or death shall not be deemed to be registered under this Act.

[Cf. 37 & 38 Vic., c. 88, s. 30.]

Grant of certificate of registration of birth or death.

20. The Registrar of Births and Deaths shall, on application made at the time of registering any birth or death by the person giving notice of the birth or death, and on payment by him of the prescribed fee, give to the applicant a certificate in the prescribed form, signed by the Registrar, of having registered the birth or death.

[Cf. 6 & 7 Wm IV, c. 86, ss. 32 & 34; also Act III of 1877, s. 56]

Duty of Registrars as to sending certified copies of entries in register books to Registrar General.

21. (*1*) Every Registrar of Births and Deaths in British India shall send to the Registrar General of Births, Deaths and Marriages for the territories within which the local area for which he is appointed is situate, at the prescribed intervals, a true copy, certified by him under his hand, in the prescribed form, of all the entries of births and deaths in the register book kept by him since the last of those intervals:

Provided that, in the case of Registrars of Births and Deaths who are clergymen of the Churches of England, Rome and Scotland, the Registrar may send the certified copies in the first instance to his ecclesiastical superior, who shall send them to the proper Registrar General of Births, Deaths and Marriages.

In this sub-section, "Church of England" and "Church of Scotland" mean the Church of England and the Church of Scotland as by law established respectively; and "Church of Rome" means the Church which regards the Pope of Rome as its spiritual head.

(*2*) The provisions of sub-section (*1*) shall apply to every Registrar of Births and Deaths in the territories of any Prince or State in India in alliance with Her Majesty, with this modification, that the certified copies referred to in that sub-section shall be sent to such one of the Registrars General of Births, Deaths and Marriages as the Governor General in Council, from time to time, by notification in the *Gazette of India*, appoints in this behalf. [Act XV of 1872, s. 56.]

Searches and copies of entries in register books.

22. (*1*) Every Registrar of Births and Deaths shall, on payment of the prescribed fees, at all reasonable times allow searches to be made in the register books kept by him, and give a copy of any entry in the same. [Cf. 6 & 7 Wm. IV, c. 8 s. 35; also Act XV 1872, s. 79.]

(*2*) Every copy of an entry in a register book given under this section shall be signed by the Registrar of Births and Deaths, and shall be admissible in evidence for the purpose of proving the birth or death to which the entry relates.

D.—Penalties.

Penalty for wilfully giving false information.

23. If any person wilfully makes, or causes to be made, for the purpose of being inserted in any register of births or deaths, any false statement in connection with any notice of a birth or death under this Act, he shall be punished with imprisonment for a term which may extend to three years and with fine. [Cf. 6 & 7 Wm. IV, c. 86, s. 41; 37 & 38 Vi c. 88, s. 40; Act XV of 1872, s. 66.]

Penalty for omission to enter birth or death in register, or loss of register.

24. If any Registrar of Births and Deaths refuses, or without reasonable cause omits, to make an entry in the proper register of any birth or death which he ought so to enter under this Act, or if any person having the custody of any register book of births or deaths carelessly loses or injures or allows the injury of the book, he shall be punished with fine which may extend to five hundred rupees. [37 & 38 V c. 88, s. 35.

E.—Correction of Errors.

Correction of entry in register of births and deaths.

25. (*1*) If a Registrar of Births and Deaths discovers any error in the form or substance of any entry of a birth or death in any register kept by him under this Act, he may, in the presence of the persons who gave the notice of the birth or death, or, in case of their death or absence, in the presence of two other credible witnesses, correct the error by entry in the margin, without any alteration of the original entry, and shall sign the marginal entry and add thereto the date of the correction. [Cf. 6 & 7 Wm.IV, c. 86, s. 4 37 & 38 V c. 88, s. 3 See also A XV of 18 s. 78.]

(*2*) Every entry made under this section must be attested by the witnesses in whose presence it was made.

(*3*) If a certified copy of the entry has already been sent to the Registrar General of Births, Deaths and Marriages, the Registrar of Births and Deaths shall make and send a separate certified copy of the original erroneous entry and of the marginal correction therein made.

The Births, Deaths and Marriages Registration Bill, 1885.

(Chapter IV.—Amendment of Marriage Acts, 1872. Chapter V.—Special Provisions as to certain existing Registers.—Sections 26-31.)

CHAPTER IV.

AMENDMENT OF MARRIAGE ACTS, 1872.

Addition of new section after section 13, Act III of 1872.

26. After section 13 of Act III of 1872 *(to provide a form of marriage in certain cases)*, the following section shall be inserted :—

Transmission of certified copies of entries in marriage-certificate book to the Registrar General of Births, Deaths and Marriages.

"13A. The Registrar shall send to the Registrar General of Births, Deaths and Marriages for the territories within which his district is situate, at such intervals as the Governor General in Council, from time to time, directs, a true copy certified by him under his hand, in such form as the Governor General in Council, from time to time, prescribes, of all entries made by him in the said marriage-certificate book since the last of such intervals."

XV of 1872.

Amendment of the Indian Christian Marriage Act, 1872.

27. In the Indian Christian Marriage Act, 1872, the following amendments shall be made, namely :—

(*a*) at the end of section 3 the words "'Registrar General of Births, Deaths and Marriages' means a Registrar General of Births, Deaths and Marriages appointed under the Births, Deaths and Marriages Registration Act, 1885," shall be added ;

(*b*) for the words "Secretary to the Local Government", wherever they occur, and for the words "Secretary to a Local Government" in section 79, the words "Registrar General of Births, Deaths and Marriages" shall be substituted ;

(*c*) for the words "at such places as the Local Government directs" in section 62, the words "in the office of the Registrar General of Births, Deaths and Marriages for the territories of the Local Government by which the person who keeps the register-book was licensed" shall be substituted ;

(*d*) in section 81, after the words "Registrar General of Births, Deaths and Marriages" the words "in England" shall be added.

CHAPTER V.

SPECIAL PROVISIONS AS TO CERTAIN EXISTING REGISTERS.

[Cf. 3 & 4 Vic., c. 92, s. 1.]

Permission to persons having custody of certain records to send them within one year to Registrar General.

28. If any person in British India, or in the dominions of any Prince or State in India in alliance with Her Majesty, has for the time being the custody of any register or record of birth, baptism, naming, dedication, death or burial of any persons of the classes specified in section 10, or of any register or record of marriage of persons of the class of those to whom Act III of 1872 or the Indian Christian Marriage Act, 1872, applies, and, if such register or record has been made by him otherwise than in performance of a duty specially enjoined by the law of the country in which the register or record was kept, he may, within one year from the date on which this Act comes into force, send the register or record to the office of the Registrar General of Births, Deaths and Marriages for the territories within which he resides, or, if he resides within the dominions of any such Prince or State as aforesaid, to such one of the Registrars General as aforesaid as the Governor General in Council, by notification in the *Gazette of India*, from time to time, directs in this behalf. XV of 1872.

[Cf. 3 & 4 Vic., c. 94, s. 2.]

Appointment of Commissioners to examine registers.

29. (*1*) The Governor General in Council may appoint so many persons as he thinks fit to be Commissioners for examining the registers or records sent to the Registrar General of Births, Deaths and Marriages under the last foregoing section.

(*2*) The Commissioners so appointed shall hold office for such period as the Governor General in Council, by the order of appointment, or any subsequent order, directs.

[Cf. 3 & 4 Vic., c. 92, ss. 2 and 4.]

Duties of Commissioners.

30. (*1*) The Commissioners appointed under the last foregoing section shall enquire into the state, custody and authenticity of every such register or record as may be sent to the Registrar General of Births, Deaths and Marriages under section 28,

and shall, from time to time, deliver to the Registrar General a descriptive list or lists of all such registers or records, or portions of registers or records, as they find to be accurate and faithful.

(*2*) The list or lists shall contain the prescribed particulars and refer to the registers or records, or to the portions of the registers or records, in the prescribed manner.

(*3*) The Commissioners shall also certify in writing, upon some part of every separate book or volume containing any such register or record, or portion of a register or record, as is referred to in any list or lists made by the Commissioners, that it is one of the registers or records, or portions of registers or records, referred to in the said list or lists.

[Cf. 3 & 4 Vic., c. 92, s. 5.]

Searches of lists prepared by Commissioners and grant of certified copies of entries.

31. (*1*) Subject to the payment of the prescribed fees, the descriptive list or lists of registers or records, or portions of registers or records, delivered by the Commissioners to the Registrar General of Births, Deaths and Marriages shall be, at all reasonable times, open to inspection by any person applying to inspect them, and copies of entries in

The Births, Deaths and Marriages Registration Bill, 1885.

(Chapter VI.—Rules.—Sections 32-33.)

those registers or records shall be given to all persons applying for them.

(2) A copy of an entry given under this section shall be signed by the Registrar General of Births, Deaths and Marriages, and shall be admissible in evidence for the purpose of proving the birth, baptism, naming, dedication, death, burial or marriage to which the entry relates.

CHAPTER VI.

RULES.

[Cf. 37 & 38 Vic., c. 88, s. 27; also Act XV of 1872, s. 82]

Power for Governor General in Council to make rules.

32. The Governor General in Council may, from time to time, make rules—

(*a*) to fix the fees payable under this Act;

(*b*) to prescribe the forms required for the purposes of this Act;

(*c*) to prescribe the time within which, and the mode in which, persons authorized under this Act to give notice of a birth or death to a Registrar of Births and Deaths must give the notice;

(*d*) to prescribe the registers to be kept, and the form and manner in which Registrars of Births and Deaths are to register births and deaths under this Act, and the intervals at which they are to send true copies of the entries of births and deaths in the registers kept by them;

(*e*) to prescribe the particulars which the descriptive list or lists to be prepared by the Commissioners appointed under Chapter V are to contain, and the manner in which they are to refer to the records or registers, or portions of records or registers to which they relate; and

(*f*) generally to carry out the purposes of this Act.

Procedure for making and publication of rules.

33. (*1*) The Governor General in Council shall, before making rules under the last foregoing section, publish a draft of the proposed rules in such manner as may, in his opinion, be sufficient for the information of persons likely to be affected thereby.

(*2*) There shall be published with the draft a note specifying a date at or after which the draft will be taken into consideration.

(*3*) The Governor General in Council shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(*4*) Every rule made under this section shall be published in the *Gazette of India*, and the publication in the *Gazette of India* of a rule purporting to be made under the last foregoing section shall be conclusive evidence that it has been duly made.

STATEMENT OF OBJECTS AND REASONS.

IT is proposed by this Bill (1) to establish a system of voluntary registration of births and deaths for the benefit of such classes of the community as would be likely to avail themselves of such registration, (2) to establish general registry offices for keeping registers of the births and deaths so registered, and of marriages registered under Act III of 1872 or the Indian Christian Marriage Act, 1872 (XV of 1872), and (3) to provide machinery for giving evidential value to certain existing registers of births, baptisms, deaths, burials and marriages, which have been kept under no law.

2. The subject of the registration of births and deaths among Europeans in India has been long under the consideration of the Government, whose attention has, moreover, been frequently directed to it by memorials from various Christian religious bodies urging very strongly the need for legislation.

3. The Indian Statute-book contains at present no general law for the registration of births and deaths. There are, indeed, enactments which provide for the registration of births and deaths within certain specified areas, principally municipalities and cantonments, but, in the first place, these enactments are strictly local in their nature, leaving the greater portion of the country unprovided for, and, in the next place, their provisions, being directed primarily to statistical purposes, are not of such a nature as to make the registers of births and deaths kept under them of value for purposes of evidence.

4. As to the numerous registers of baptisms and burials which are kept by ministers of religion in all parts of the country, it is doubtful how far they can be relied on for giving accurately the requisite particulars as to births and deaths, and most of them would, moreover, be inadmissible in evidence.

5. This being the state of the law, and considering the importance of the subject generally, and the memorials above referred to, and having regard to the fact that references are frequently made to the Secretary of State for India and to the Government of India for proof of age or of deaths in connection with questions involving large individual interests, such as rights to property, the Government of India is of opinion that it is expedient to enact a permissive law under which full facilities for registering births and deaths should be given to persons valuing unimpeachable evidence of these events.

6. As to the second object of the Bill, it is obvious that no system of registration of births and deaths can be complete or of practical value unless it provides for the establishment, at certain centres, of general offices where the information registered at the various local offices shall be collected and so arranged as to be readily available for public reference.

7. In this connection, the attention of the Government of India has been directed to the unsatisfactory nature of the system of registration of marriages under the Indian Christian Marriage Act, 1872, and Act III of 1872.

Documentary evidence of all marriages under the former Act is, by the provisions of the Act or the orders thereunder, sent to the Secretary to the Local Government, who is also empowered to grant certified copies which are receivable in evidence. It would seem, therefore, at first sight, that nothing further was required. But, as a matter of fact, not only are no arrangements made for maintaining an index to the marriages the records of which are retained in the local Secretariat, but the greater portion of the marriage records which are received in the local Secretariat have, under section 81 of the Act and the orders in force, to be sent on *in original* to the Government of India in the Home Department for transmission to the Secretary of State; so that the greater number of the marriage records which reach the local Secretariat do not remain there for purposes of reference, and such as do remain are, owing to the absence of an index, practically valueless.

As to Act III of 1872, this Act makes no provision for the marriages solemnized under it being reported to any central authority. The marriage-certificate books for which it provides are retained by the Registrar, who is not even required to index them. Their value as records of the marriages to which they refer is accordingly much diminished.

8. The Government of India have, therefore, availed themselves of the opportunity of the proposed legislation for the registration of births and deaths to remove these defects in the marriage-registration law, by providing for general registry offices for keeping registers, not only of the births and deaths which may be registered under the proposed law, but also of marriages which may be registered under Act III of 1872 or the Indian Christian Marriage Act, 1872.

9. The present Bill extends (section 2) to the whole of British India, and, so far as regards subjects of Her Majesty, to the dominions of Princes and States in India in alliance with Her Majesty.

10. As there seems to be no way of utilizing for the special purposes in view the compulsory system of registration of births and deaths which is prescribed by the local laws referred to in paragraph 3 above, or of separating the registration of the limited classes affected by the Bill from that of the general population which is required under those laws, it has been found necessary to save the laws providing for the registration of births and deaths within particular local areas at present in force or which may hereafter be passed; and this is done by section 4. The result of this section will, therefore, be that the persons to whom the provisions of the Bill relating to the registration of births and deaths are applicable will be bound, as heretofore, to satisfy the statistical requirements of such local Acts, and will be at liberty to re-register births and deaths under the Bill for evidential purposes.

11. Chapter II provides (section 5) for the establishment by the Local Governments of general registry offices of births, deaths and marriages, and the appointment of Registrars General of Births, Deaths and Marriages. By section 6 indexes are to be kept at the general registry offices of all the certified copies of registers which may be sent to them under the Bill or under Act III of 1872 or the Indian Christian Marriage Act, 1872. These indexes (section 7) are to be open to public inspection, and copies of the entries in the certified copies of the registers to which they relate are to be given to all persons applying for them; and such copies are (section 8) to be admissible in evidence. By section 9 the Registrar General is given the superintendence of the Registrars of Births and Deaths.

12. Chapter III deals with the subject of registration of births and deaths. Section 10 defines the persons whose births and deaths are registrable as, in British India, the members of every race, sect or tribe to which the Indian Succession Act, 1865, applies and in respect of which an order under section 332 of that Act is not for the time being in force, and all persons professing the Christian religion, and in Native States all like persons who are British subjects. These provisions of the Bill will therefore, generally speaking, apply to East Indians, Jews, Armenians and Pársís as well as to Europeans and Native Christians. These are believed to be the only classes of persons in the country who are likely to avail themselves of the benefits of a law of this nature.

13. The chapter then provides for a registration establishment, empowering (sections 11 and 12) the Local Government in British India and the Governor General in Council in Native States to appoint either by name or by virtue of their office fit persons to be Registrars of Births and Deaths for definite local areas. It is proposed to appoint under the general powers given by these sections persons authorized or licensed to perform marriages under either Act III of 1872 or the Indian Christian Marriage Act, 1872, and, in order to provide for the receipt of notices from persons who may prefer not to resort to the Marriage Registrars, other suitable persons, one of whom it is intended should be appointed for each local area for which a person who is also a Marriage Registrar is appointed. It is to the latter class of Registrars that sections 13 and 14, which lay down certain provisions as to the office of such

Registrars, and for the filling up temporary vacancies in the office of such Registrars, are intended to apply. Section 15 provides for the supply of register books and the preservation of records.

14. The chapter next treats of the mode of registration. It imposes (section 16) a duty on every Registrar of Births and Deaths to make an entry in his register book of all births and deaths of which notice may be given to him within the prescribed time and in the prescribed mode by a person authorized to give him such notice. It then (sections 17 and 18) specifies the persons who shall be authorized to give notice of births and deaths respectively.

Section 19 provides that the entry of the birth or death is to be signed by the person giving notice, and declares that until it is so signed the birth or death shall not be deemed to be registered. By section 20 every Registrar of Births and Deaths is required to give on application made at the time of registering any birth or death by the person giving notice of the same, and on payment by him of the prescribed fee, a certificate of having registered the birth or death.

Section 21 provides for the sending by every Registrar of Births and Deaths at prescribed intervals to the Registrar General of Births, Deaths and Marriages of certified copies of all entries in his register books. In the case of Registrars in British India, the copies are to be sent to the Registrar General within whose jurisdiction the local areas for which the Registrar is appointed is situate, an exception being made in the case of Registrars who are clergymen of the Churches of England, Rome and Scotland, who may send them to their ecclesiastical superiors to be forwarded by them to the Registrar General. In the case of Registrars in Native States, the copies are to be sent to such one of the Registrars General as the Governor General in Council may, by notification in the *Gazette of India*, direct in this behalf. Section 22 provides for searches, and grant of copies of entries in register books which shall be admissible in evidence.

15. Sections 23 and 24 prescribe penalties of imprisonment which may extend to three years and fine for wilfully giving false information to a Registrar of Births and Deaths, and of fine, which may extend to five hundred rupees, for Registrars of Births and Deaths omitting to enter births or deaths in the register or losing or injuring register books.

16. Lastly, section 25 prescribes the procedure by which errors in the form or substance of any entry in a register book of births and deaths may be corrected.

17. Chapter IV (sections 26 and 27) makes the amendments in Act III of 1872 and the Indian Christian Marriage Act, 1872, which are necessary in order to make the provisions of these Acts fit in with the scheme of the Bill, under which certified copies of entries in the registers kept under these Acts are in future to be sent to the Registrar General of Births, Deaths and Marriages.

18. Chapter V deals with the last of the three subjects referred to in the first paragraph of this Statement. As noted above, registers of births or baptisms and deaths or burials are at present kept in all parts of the country by ministers of religion. Registers of marriages were also similarly kept before the marriage-registration law came into force. Most of these registers are, as the law now stands, inadmissible in evidence, and possibly many of them should never be admitted in evidence owing to the irregular manner in which they have been compiled. At the same time, others are probably fit for admission as public registers. Under these circumstances, it seems advisable to follow the analogy of what was done in England (see 3 & 4 Vic., c. 92) and provide a procedure under which such of these registers as are worthy of recognition may be validated and certified copies of entries made in them declared admissible in evidence. This is accordingly done by Chapter V.

19. That chapter first (section 28) declares that any person having custody of any such records may, within one year from the date on which the Bill comes into force, send them to the Registrar General of Births, Deaths and Marriages for the territories within which the person resides, or, if he resides in a Native State, to such one of those Registrars General as the Governor General in Council, by notification, directs. It then (section 29) provides for the appointment by the Governor General in Council of Commissioners to examine the registers so sent to the various Registrars General, and prescribes (section 30) the duties of the Commissioners, which are to inquire into the state, custody and authenticity of every register submitted to them, and to prepare lists of all such registers or portions of registers as they find to be accurate and faithful, and to certify upon some part of every book or volume containing any such register or portion of a register as is referred to in any such list that it is one of the registers referred to in the list. Section 31 permits, on payment of a fee, searches to be made of the lists so prepared, and provides for the grant of certified copies of the entries in the registers which shall be admissible in evidence.

20. Finally, Chapter VI (sections 32 and 33) empowers the Governor General in Council to make rules with regard to certain matters connected with the purposes of the Act, and prescribes the usual procedure for the making and publication of such rules.

C. P. ILBERT.

The 2nd January, 1885.

R. J. CROSTHWAITE,
Officiating Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 16th January 1885:—

No. 2 OF 1885.

A Bill to provide for the temporary appointment from time to time of an Additional Judicial Commissioner for Oudh.

WHEREAS it is expedient to provide for the temporary appointment from time to time of an Additional Judicial Commissioner to assist the Judicial Commissioner of Oudh; It is hereby enacted as follows:—

Short title and commencement.

1. (*1*) This Act may be called the Oudh Additional Judicial Commissioner's Act, 1885; and

(*2*) It shall come into force at once.

Appointment of Additional Judicial Commissioner of Oudh.

2. (*1*) The Local Government may, from time to time, with the previous sanction of the Governor General in Council, by notification in the local official Gazette, appoint such person as it thinks fit to be an Additional Judicial Commissioner, and to sit as such in the Court of the Judicial Commissioner of Oudh.

(*2*) Every person so appointed shall hold his office during the pleasure of the Local Government.

Jurisdiction and powers of Additional Judicial Commissioner.

3. Every Additional Judicial Commissioner shall exercise such jurisdiction and powers of the Judicial Commissioner under the Oudh Civil Courts Act, 1879, as the Local Government may, from time to time, prescribe, but only in such cases as the Judicial Commissioner may direct. XIII of 1879.

Law applicable to Additional Judicial Commissioner.

4. Every enactment for the time being applicable to the Judicial Commissioner shall apply to the Additional Judicial Commissioner when exercising any jurisdiction or powers under the last foregoing section as if he were the Judicial Commissioner.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide for the temporary appointment, from time to time, as it may be deemed necessary, of an Additional Judicial Commissioner of Oudh.

The steady increase in the work that falls upon the Judicial Commissioner of Oudh, and the accumulation of arrears, have made it necessary to adopt some plan for assisting him in the discharge of his functions; and the simplest arrangement would seem to be the appointment, as occasion requires, of an Additional Judicial Commissioner.

The Bill (section 2) empowers the Local Government, with the sanction of the Governor General in Council, from time to time, to appoint an Additional Judicial Commissioner, who is to hold office during the pleasure of the Local Government. The Additional Judicial Commissioner so appointed is (section 3) to exercise such jurisdiction and powers of the Judicial Commissioner under the Oudh Civil Courts Act as the Local Government may prescribe, but only in such cases as the Judicial Commissioner directs. The Local Government will thus be able to regulate the jurisdiction and powers of the Additional Judicial Commissioner in such a way as to prevent any conflict between them and those of the Judicial Commissioner, while the latter officer will be able to arrange for the distribution of business as may appear to him to be most convenient. Lastly (section 4), all enactments applicable to the Judicial Commissioner are declared to be applicable to the Additional Judicial Commissioner, so that his legal status generally will be identical with that of the Judicial Commissioner.

J. W. QUINTON.

The 16th January, 1885.

PUBLIC WORKS DEPARTMENT.

RAILWAY CONSTRUCTION.

CONSTRUCTION OF A RAILWAY FROM RUPNARAINPUR TO KAIRBAD BY THE ALIPORE COAL COMPANY.

No. 19 R. C., dated Fort William, 8th January 1885.

RESOLUTION.—By the Government of India, Public Works Department.

Read—

An Agreement made the 21st day of April one thousand eight hundred and eighty-four between the SECRETARY OF STATE for India in Council (hereinafter called "the Secretary of State") of the one part and the ALIPORE COAL COMPANY LIMITED a Joint Stock Company duly incorporated with limited liability under the Indian Companies Act 1882 having their registered office at No. 39 Strand in the town of Calcutta (hereinafter called "the Company") of the other part. WHEREAS the Company is desirous of constructing a Railway from Kairbad on the land belonging to the Company situate in the Sub-district of Raniganj and district of Burdwan to Rupnarainpur in the same sub-district and district for carriage of coal and other minerals raised by them from various places on their said land to the East Indian Railway and have applied to the Secretary of State for the acquisition of lands for the purpose of the Company under the provisions of the Land Acquisition Act I 70. AND WHEREAS the Lieutenant-Governor of Bengal has consented to the provisions of Section 6 to Section 45 (both inclusive) of the said Act being put in force in order to acquire the lands required for the purposes of the said railway as aforesaid which are not the property of Government. AND WHEREAS the said Lieutenant-Governor of Bengal is satisfied that the proposed acquisition is needed for the construction of the work of the said railway and that such work is likely to prove useful to the public and has required the Company to enter into such agreement with the Secretary of State for India in Council as is hereinafter contained. Now it is hereby agreed as follows :—

1. The Secretary of State shall forthwith put in force the provisions of Section 6 to Section 45 (both inclusive) of the said recited Act in order to acquire all lands shown to the satisfaction of Government to be required for the construction by the Company of a line of railway with the necessary stations offices sidings and other works from Kairbad to Rupnarainpur aforesaid.

2. The Company shall pay to the Secretary of State on demand all moneys which shall be awarded as compensation for such lands and for costs incurred in the acquisition thereof.

3. The Secretary of State shall upon such payment being made as aforesaid convey and transfer all such lands as aforesaid to the Company and the Company shall be entitled to permanent possession thereof.

4. The Company shall within two years from the date of signing this agreement by both parties complete to the reasonable satisfaction of the Secretary of State a railway from Kairbad to Rupnarainpur and such railway shall be five feet and six inches in gauge and of a general structural character in conformity with the now established standard of railways in India of that gauge and the alignment thereof together with all plains shall be subject to approval by the Secretary of State and the railway previous to opening for traffic shall be duly inspected by an authorised officer of Government. In all places where the railway shall cross a public road constructed or hereafter to be constructed the Company shall provide and maintain level crossings for the secure and easy passage of vehicles and passengers.

5. The Company shall forthwith upon the completion of the said line of railway give to the East Indian Railway running powers over the said line for the conveyance of goods and passengers in accordance with such terms and conditions as may be mutually agreed upon by the said Company and the said East Indian Railway provided that the rates charged for the conveyance of passengers shall not exceed the rates in force for the time being on the said East Indian Railway.

6. The Secretary of State shall promote the passing in such Legislative Council as may be invested with the necessary powers in that behalf of such Act or Acts as may be necessary for the purpose of conferring upon the Company sufficient statutory powers to enable them to construct maintain and work the said line of railway.

7. Nothing in this agreement shall exempt the Company or the railway from the provisions of any general Act relating to railways now in force or which may hereafter be passed by the Indian Legislature and no claim shall be made upon the Secretary of State by the Company for compensation in respect of any Act of the Indian Legislature of general applicability which may affect the railway or the profits thereof.

8. If any doubt or difference shall arise between the Secretary of State and the Company concerning anything herein contained or any matter in any way connected therewith or with these presents or the construction thereof or the rights duties or liabilities of any person or persons in connection with these presents or as to the incidence of expense as between the Secretary of State and the Company under any of the clauses of this agreement then and in every such case the matter in doubt or difference shall be referred to two arbitrators one to be appointed by each party or by the umpire of such arbitrators in case they differ in opinion. But if either party shall refuse or neglect for one month after notice in writing from the other party of an arbitrator having been appointed to appoint an arbitrator then the arbitrator so appointed may make a final decision alone which decision shall have the same force and effect as the award of two arbitrators or their umpire duly appointed and the costs of any such reference and award shall be in the discretion of the arbitrator arbitrators or umpire respectively and the submission to arbitration shall be subject as to the mode and consequences of the reference and in all other respects to the provisions of the Code of Civil Procedure for the time being.

As witness the hands of the parties the day and year first above written.

Witness to the signature of—

Secretary to the Government of Bengal in the Public Works Department for the Honourable the Lieutenant-Governor of Bengal acting in the premises for and on behalf of the Secretary of State for India in Council on the 24th day of April 1884.

S. T. TREVOR, *Col., R. E.,*
Secy. to Govt. of Bengal, P. W. Dept.

FRANCIS J. E. SPRING,
Under-Secretary.

The Common Seal of the Alipore Coal Company Limited was hereunto affixed by Messrs. Bird and Co. of No. 39 Strand, Calcutta, the Managing Agents of the said Company on the 21st day of April 1884.

BIRD AND Co.,
Managing Agents.

ORDER.—Ordered, that the Government of Bengal be requested to publish this Agreement in the local Gazette; also that it be published in the Supplement to the *Gazette of India.*

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

EXTENSION OF THE SYSTEM OF COMPETITIVE EXAMINATIONS FOR THE ADMISSION OF CLERKS INTO GOVERNMENT OF INDIA OFFICES.

No. $\frac{3}{101\text{-}107}$.

Extract from the Proceedings of the Government of India in the Home Department (Public),—under date Calcutta, the 16th January 1885.

Read—

Home Department Resolution No. 26—953-63, dated the 19th July 1883.
Home Department Resolution No. 31—1336-45, dated the 23rd August 1884.

RESOLUTION.

The Resolution of the 19th July 1883, read in the preamble, lays down revised rules for the admission of clerks into the Secretariat offices attached to the Government of India by a system of competitive examinations, and contains (paragraph 18) a list of the offices to which the rules are applicable. The Governor General in Council is now pleased to extend these rules to the following offices in addition to those enumerated in paragraph 18 of the Resolution of 19th July 1883:—

1. The Postal Department (clerical staff).
2. The Northern India Salt Revenue* Department.

*(The head of this Department is left free to choose any passed candidate on the list, irrespective of the position gained by such candidate at the examination, and, in the event of no suitable passed candidates being available, to fill up vacancies in accordance with the existing practice.)

3. The Consulting Engineer for Guaranteed Railways, Calcutta.
4. Military Account Offices in the Bengal Presidency.

(Power is reserved to the Military Department to appoint, when necessary, military soldier clerks possessing technical and professional knowledge, in lieu of passed candidates.)

2. As regards the Ordnance Department, the Office of the Inspector General only was included in the Resolution of 19th July 1883; but the system will also in future apply to—

(*a*) the Office of the Director General of Ordnance in India.
(*b*) the office establishments of the several Arsenals, Depôts, and Factories in Bengal.

(Not more than three appointments in the office establishment of the Director General of Ordnance, and three in that of the Inspector General of Ordnance, Bengal Circle, will be reserved for soldier clerks possessing technical knowledge of Ordnance duties.)

3. In the Office of the Commissary General, Bengal, the Governor General in Council has been pleased to decide that the Commissary General shall have the power to set apart a certain number of appointments to be reserved for soldier clerks possessing the necessary technical knowledge of Commissariat duties.

4. With regard to the Office of the Director General of Railways, included in the Resolution of the 19th July 1883, and the Office of the Consulting Engineer for Guaranteed Railways, Calcutta, the Governor General in Council is pleased to decide that the rules shall only apply to the first admission of clerks to the lower division of those offices.

ORDER.—Ordered, that a copy of this Resolution be forwarded to all Departments of the Government of India, and that it be published in the Supplement to the *Gazette of India*.

(True Extract.)

D. FITZPATRICK,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 14th JANUARY 1885.

GENERAL REMARKS.—During the week under report rain has fallen in a few districts in the Bombay Presidency, in the Central Provinces, and in the Central India and Rajputana States. There has been rain in varying quantities also throughout the Punjab, and in many districts of the North-Western Provinces and Oudh.

General prospects are fair in the Madras Presidency except in parts of Bellary and Anantapur. In the Kurnool and Coimbatore districts more rain would be beneficial to the crops, which are withering. Harvest operations continue. In Mysore and Coorg prospects are generally good. *Rabi* prospects have been much improved in Bombay, and except in one or two districts the condition of the crops is generally good.

In the Berars, the Nizam's territories, and in the Central India and Rajputana States agricultural prospects remain unchanged.

The recent rain in the Punjab has much improved the *rabi* and the crops are now in excellent condition. In the North-Western Provinces and Oudh and in the Central Provinces prospects are favourable.

More rain would be very beneficial for the *rabi* in Bengal, which is however doing well; some of the crops are being gathered. The paddy harvest still continues and the sowing of *Boro* paddy has commenced, and lands are being prepared in a few districts for the *aus* crops.

In Assam agricultural prospects continue favourable. In British Burmah the rice harvest has been almost completed and threshing has begun, the outturn has been fair.

The public health is generally good. The mortality from cholera in the Chingleput, Coimbatore, Tanjore, Madura, and Malabar districts of Madras continues high.

Prices are falling in Bengal. Elsewhere they are generally stationary.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(Jan. 14th)		
Bellary . . .	*Nil*	Standing crops dry and wet withering from want of rain; harvest paddy and dry grains, yield below average.
Kurnool . . .	„	Standing crops good except in one division and in parts of 3 taluks where they are withering from want of rain; harvest cereals, outturn below average; smallpox in 2 taluks.
Ganjam . . .	„	Smallpox, cholera, and cattle-disease prevalent.
Kistna . . .	„	Standing crops generally good; harvest paddy, outturn about average; river 3 feet over anicut; fever prevails; smallpox slight.
Chingleput (Madras) .	„	Standing crops good in parts, elsewhere partially damaged by excessive rain and floods; paddy affected by insects in 2 taluks; harvest paddy, outturn below half the average; smallpox and cattle disease exist; 123 deaths from cholera.
Coimbatore . . .	„	Standing crops fair but in need of rain in 2 taluks and affected by insects and disease in parts of 4 taluks; harvest paddy, outturn nearly average; dry grains below average; fever exists; cholera increasing, 787 deaths.
Tanjore . . .	„	Rivers 1 to 5 feet; standing crops good except where damaged by late rain and floods; harvest wet and dry crops, outturn below average; cholera increasing, 674 deaths.
Madura . . .	„	Fever prevails; 186 deaths from cholera.
Malabar . . .	„	Second crop paddy being harvested; fever in 2 taluks, smallpox and cattle-disease slight; cholera increasing, 147 deaths.
Travancore . .	„	Standing crops paddy good; harvest first crop paddy in 2 divisions, yield average; fever exists, one death from cholera.
		General Remarks.—General prospects fair, except in parts of Bellary and Anantapur.
Bombay—(Jan. 14th)		
Karachi . . .	Good showers of rain in Karachi, Dadu and neighbourhood of Kotri.	Weather cloudy, more rain expected; river at Kotri on 10th 4 feet 8 inches against 5 feet on same date last year; fever in 10 talukas; cattle-disease in 5 talukas, loss of 94 buffaloes and 95 cows and bullocks; smallpox in 16 villages in the districts, 24 fresh cases, 2 deaths, 25 remaining sick; no fresh cases of cholera; prices, wheat, red rice and *bajri* in Kurachi 26, 28, and 40, in Gohi 36, 44, and 40, in Ghorabari 22, 36, and 40, and in Sajawal 28, 44 and 42 lbs. per rupee respectively.
Hyderabad . . .	·41 in Guni, ·06 in Halu, and islight in Badni and Dighri on 7th.	*Kharif* harvest finished, but threshing and division of produce still continue; *rabi* good; sky cloudy and threatening frost in Moro; fever in 8 and smallpox and cattle-disease in 4 talukas; prices steady.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Ahmedabad . . .	. . . .	*Rabi* crops in Parantej and cotton crops in Gogo slightly affected by cloudy weather; fever in Parantej and Viramgam; wheat 31 and *bajri* 34 lbs. per rupee.
Baroda . . .	Slight rain fell during the week.	Crops in good condition; *rabi* and opium sowing in progress; prices, *bajri* 32 and rice 24 lbs. per rupee.
Surat	. . . .	Standing crops healthy; fever in 3 talukas; *jowari* 38 and *nagli* 47 lbs. per rupee.
Násik	. . . .	*Rabi* crops good; public health generally good; wheat 37, *bajri* 34, and rice 21 lbs. per rupee.
Colaba (Bombay) . .	. . . .	Abnormal temperature fell from 3° warm on 7th to 6° cool on 10th, rose to *nil* by the 12th, and remained *nil* on the 13th; vapour in air excessive on 7th, 8th, and 12th, defective on 10th and 11th; abnormal wind southerly on 7th and 8th, northerly on 9th and 10th.
Poona . . .	*Nil*	State of *rabi* crops good; small insects have appeared among standing crops in Purandhar; slight smallpox in 2 villages of Khed and Purandhar; *bajri* 32 and *jowari* 37; in Poona *bajri* 32 and *jowari* 35 lbs. per rupee.
Ahmednagar . .	. . . .	Prospects of *rabi* good, except in Navasa, Rahuri, and Akola, where damaged by the recent rains; *bajri* 35 to 45 lbs. and *jowari* 35 to 60 lbs. per rupee.
Sholapore . . .	*Nil*	Young *rabi* crops doing well throughout the district; *jowari* 35 lbs. 3 tolas and *bajri* 34 lbs. 17 tolas per rupee.
Dharwar . . .	. . . .	Harvesting of rice nearly completed, that of early *jowari* in progress; exotic cotton blighted in some villages of 3 talukas; scarcity of fodder in Navalgund, Mundargi, Karajgi, and Ron, that of drinking water in Nargund and Bankipur in Ron taluka; migration continues; rice 20 to 32 and *jowari* 35 to 52 lbs. per rupee.
Kanara . . .	. . . .	Common rice in Karwar 14, district average 14 seers per rupee; sowing second crop continues in Ghat talukas; smallpox, 1 death in Sirsi taluka and 2 in Supa Petha; cholera, 1 fatal case in Haliyal; cattle-disease in Yellapur; fever in Honavar, Siddapur, and Mundgod; weather fair.
Rajkot . . .	Slight showers on the 8th.	General health good; weather cold and cloudy; fever still prevalent in some talukas; *bajri* 34 and *jowari* 47 lbs. per rupee.
		General Remarks.—Rain in parts of Sindh and Gujarat; *rabi* prospects greatly improved by the recent rain; standing crops generally in good condition except in parts of four talukas of Belgaum and three of Ahmednagar; scarcity of fodder and drinking water in several talukas of Dharwar and Belgaum; cholera in parts of Thana, Kanara, and Ratnagiri; fever in parts of 14, smallpox in parts of 9, and cattle-disease in parts of 7 districts.
Bengal - (Jan. 13th)		
Chittagong . .	*Nil*	Weather seasonable; prospects of crops continue good; prices of food-grains stationary; sporadic cases of cholera continue, general health otherwise good.
Dacca	,,	Prospects of crops good; sugarcane is being cut; sowing of winter crops nearly completed.
24-Pergunnahs . .	,,	Prospects of standing crops satisfactory; *amun* paddy and sugarcane are still being harvested, the former with a good outturn; price of common rice varies from 14 to 18 seers per rupee; public health good, though isolated cases of cholera, as usual in this season, are reported from the Sudder, Diamond Harbour, and Busseerhat sub-divisions; state of river normal.
Moorshedabad . .	,,	Weather seasonable; harvesting of *amun* paddy is almost over; *rabi* crops are doing well, but they would be better still if a little rain would fall; common rice is selling at from 16 to 18 seers per rupee; public health very good.
Rajshahye . . .	,,	Harvesting of *amun* paddy proceeding; winter crops are generally promising, but a little rain is urgently wanted, *ganja* plants are not so promising.
Burdwan . . .	,,	Harvesting of *amun* paddy almost completed, with an outturn from three to four annas on an average; *rabi* crops are promising.
Rungpore . . .	,,	Weather seasonable; harvesting of *amun* paddy still continues in some places; other winter crops are doing well; land is being prepared in some places for sowing *aus* crops; prices of food grains stationary; public health good.
Bhagalpore . . .	*Nil*	Harvesting of paddy almost finished; *rabi* crops good, but rain in this month is wanted; new rice is selling at 15⅛ seers per rupee.
Purneah . . .	*Nil*	*Rabi* crops still promise well, but rain is required; mustard is being cut in many places; common rice is selling at 16 seers per rupee; there is much fever in the district.
Patna . . .	*Nil*	Harvesting of paddy is still going on; in the Behar Sub-division *rabi* crops are suffering from want of rain; poppy crop is growing well; public health good.
Durbhanga . . .	*Nil*	Weather cloudy; harvesting of paddy nearly over; *rabi* crops continue posperous, but a heavy shower will greatly improve the prospects; poppy crop is slightly injured by grubs; prices of food grains stationary; public health good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*contd.*		
Hazaribagh . .	*Nil*	Weather cold and cloudy since the 12th instant; harvesting of paddy is over; *rabi* crops look well, a shower will do them much good; poppy plants are in flower and look healthy, but the later sowings are backward and in some cases poor and yellow; cases of smallpox are still reported from the interior, otherwise general health good.
Cuttack . . .	*Nil*	Weather seasonable, mornings foggy; reaping of *sarad* crop in progress; *dalua* is growing well; *rabi* crops are being gathered with an average outturn; price of rice stationary; public health good.
Gya	. . . .	Prospects of poppy crop favourable; rain expected.
Shahabad . . .	. . . .	Poppy plants in some places have been damaged by caterpillars and turning yellow; prospects on the whole fair.
Mozufferpore . .	. . . .	Prospects of poppy crop favourable.
Sarun	. . . .	Prospects of poppy crop excellent and weather favourable.
Chumparun . . .	. . . .	Prospects of poppy crop excellent.
Monghyr . . .	. . . .	Prospects of poppy crop continue favourable and the early sowings are in flower.
		General Remarks.—There has been no rain again in any part of the province; *rabi* crops are generally doing well, but a shower of rain will greatly improve the prospects; some of the crops are being gathered; harvesting of paddy still continues; sowing of *boro* paddy has commenced and lands are being prepared in a few districts for *aus* crops; prices of food grains have been falling; cholera is abating in a few districts, but it is still prevalent in many others, and smallpox is reported from about half a dozen districts.
N.-W. Provinces and Oudh— (Jan. 15th)		
Benares (Jan. 13th)	Slight rain in the district.	Weather cloudy on the 9th and 10th; but bright again on the 11th; prospects of *rabi* and opium crops continue good; sugarcane being pressed and late rice husked; outturn fair; no sickness of men or cattle; bazars well supplied; prices rising slightly.
Gorakhpur („ 12th)	. . . .	*Rabi* promises well; opium prospect improved by fall of rain; prices stationary.
Fyzabad („ 13th)	·80 rain at Sadar.	Weather cold; prospects of *rabi* crops and opium favourable; bazars well supplied; prices falling; health of men and cattle good.
Rai Bareli („ 12th)	·40 rain on the night of the 9th at Sadar.	Hailstorm reported from tahsil Salon; health of men and condition of cattle good; supplies ample; prices easy.
Partabgarh („ 13th)	Rain in three tahsils on the 10th instant, varying from ·20 to ·60.	Rain very beneficial both to the irrigated and unirrigated crops; weather still cloudy; prospects continue favourable; health of men and cattle good; prices almost stationary, poppy prospects continue very favourable.
Allahabad („ „)	Rain averaging ·40.	Crops flourishing; health good; prices still slightly falling.
Cawnpore („ 12th)	Slight rain fell during the week in 3 parganas.	Weather cloudy off and on and winds variable; crops being irrigated; rain wanted for crops in unirrigated tracts; health of people good; no cattle-disease reported; markets well supplied, and prices easy.
Banda . („ 14th)	No rain.	*Rabi* prospects excellent; no distress.
Ballia . („ 12th)	Rain in Mofussil on 10th from ·10 to ·20	Prospects favourable; poppy crops flourishing; supplies sufficient; health good.
Farakhabad („ 12th)	Slight rain has fallen and more is threatening.	Condition of people improving; crops favourable; sky cloudy during most of the week.
Sitapur . („ 13th)	·30 rain at Sadar and through northern part of the district.	Rain has done much good; irrigation proceeds and prospects continue favourable.
Bareilly . („ 12th)	Rain on 9th.	Crops much benefited by the rain; prices falling; food cheap; health good.
Kumaon . („ „)	Heavy rain.	Sky cloudy; prospects of *rabi* immensely improved; prices stationary; cholera still lingering in the Bhabar; fever and smallpox in some places fatal; disease continues.
Agra . („ 13th)	Rain in 6 parganas from ·10 to ·60.	Prospects good; general health good; prices falling slightly.
Jhansi . („ „)	. . . .	Weather cold; prospects of *rabi* and poppy crops continue favourable; prices stationary; health good.
Meerut . („ 12th)	Rain this week from ·60 to ·90.	Rain beneficial to all crops; weather cold and cloudy; supplies ample; prices easy.
		General Remarks.—Weather cloudy with light rain in most districts; destructive hail in Lucknow, prospects favourable and prices easy.
Punjab— (Jan. 14th)		
Delhi (Jan. 13th)	·80	Health fair; prices almost stationary.
Hissar („ „)	1·5	Fever abated; *rabi* flourishing; prices stationary.
Umballa („ „)	2·2	Fever nearly disappeared; *rabi* crops thriving; prospects much improved; prices of food grains slightly fading.
Jullundur („ „)	2·1	Health and prospects of coming crops good; prices steady.
Siálkot („ „)	2·5	Health good; crop prospects excellent; falling tendency in prices.
Ferozepore („ „)	1 inch rain at Sadr and city, 2·10 at Moga, 1·3 at Tira, and ·30 at Fazilka.	Health and state of crops good; prices stationary.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Punjab—*contd.*		
Lahore (Jan. 13th)	Slight rain	Health good; crops fair; prices steady.
Rawalpindi („ „)	3·9	Health and *rabi* crops good; prices almost stationary.
Mooltan („ „)	·30 at Sadr.	Health good; *rabi* crops favourable; prices stationary.
Dera Ismail Khan(„ „)	·18	Health and crop prospects good.

EXTERNAL.

The 19th January, 1885.

No. 59 *E.*—The following Treaty of Friendship and Commerce between Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, and His Majesty the King of Corea, singed at Hanyang, the 26th of November 1883, is published for general information :—

TREATY OF FRIENDSHIP AND COMMERCE BETWEEN HER MAJESTY AND HIS MAJESTY THE KING OF COREA.

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, and His Majesty the King of Corea, being sincerely desirous of establishing permanent relations of friendship and commerce between their respective dominions, have resolved to conclude a Treaty for that purpose, and have therefore named as their Plenipotentiaries, that is to say :

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, Sir Harry Smith Parkes, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Knight Commander of the Most Honourable Order of the Bath, Her Majesty's Envoy Extraordinary and Minister Plenipotentiary to His Majesty the Emperor of China ;

His Majesty the King of Corea, Min Yŏng-Mok, President of His Majesty's Foreign Office, a Dignitary of the First Rank, Senior Vice-President of the Council of State, Member of His Majesty's Privy Council, and Junior Guardian of the Crown Prince ;

Who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon and concluded the following Articles :—

ARTICLE I.

1. There shall be perpetual peace and friendship between Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, her heirs and successors, and His Majesty the King of Corea, his heirs and successors, and between their respective dominions and subjects, who shall enjoy full security and protection for their persons and property within the dominions of the other.

2. In case of differences arising between one of the High Contracting Parties and a third Power, the other High Contracting Party, if requested to do so, shall exert its good offices to bring about an amicable arrangement.

ARTICLE II.

1. The High Contracting Parties may each appoint a Diplomatic Representative to reside permanently or temporarily at the capital of the other, and may appoint a Consul-General, Consuls, or Vice-Consuls, to reside at any or all of the ports or places of the other which are open to foreign commerce. The Diplomatic Representatives and Consular functionaries of both countries shall freely enjoy the same facilities for communication, personally or in writing, with the authorities of the country where they respectively reside, together with all other privileges and immunities as are enjoyed by Diplomatic or Consular functionaries in other countries.

2. The Diplomatic Representative and the Consular functionaries of each Power and the members of their official establishments shall have the right to travel freely in any part of the dominions of the other, and the Corean authorities shall furnish passports to such British officers travelling in Corea, and shall provide such escort for their protection as may be necessary.

3. The Consular officers of both countries shall exercise their functions on receipt of due authorization from the Sovereign or Government of the country in which they respectively reside, and shall not be permitted to engage in trade.

ARTICLE III.

1. Jurisdiction over the persons and property of British subjects in Corea shall be vested exclusively in the duly authorized British judicial authorities, who shall hear and determine all cases brought against British subjects by any British or other foreign subject or citizen without the intervention of the Corean authorities.

2. If the Corean authorities or a Corean subject make any charge or complaint against a British subject in Corea, the case shall be heard and decided by the British judicial authorities.

3. If the British authorities or a British subject make any charge or complaint against a Corean subject in Corea, the case shall be heard and decided by the Corean authorities.

4. A British subject who commits any offence in Corea shall be tried and punished by the British judicial authorities according to the laws of Great Britain.

5. A Corean subject who commits in Corea any offence against a British subject shall be tried and punished by the Corean authorities according to the laws of Corea.

6. Any complaint against a British subject involving a penalty or confiscation by reason of any breach either of this Treaty or of any regulation annexed thereto, or of any regulation that may hereafter be made in virtue of its provisions, shall be brought before the British judicial authorities for decision, and any penalty imposed, and all property confiscated in such cases, shall belong to the Corean Government.

7. British goods, when seized by the Corean authorities at an open port, shall be put under the seals of the Corean and the British Consular authorities, and shall be detained by the former until the British judicial authorities shall have given their decision. If this decision is in favour of the owner of the goods, they shall be immediately placed at the Consul's disposal. But the owner shall be allowed to receive them at once on depositing their value with the Corean authorities pending the decision of the British judicial authorities.

8. In all cases, whether civil or criminal, tried either in Corean or British Courts in Corea, a properly authorized official of the nationality of the plaintiff or prosecutor shall be allowed to attend the hearing, and shall be treated with the courtesy due to his position. He shall be allowed, whenever he thinks it necessary, to call, examine, and cross-examine witnesses, and to protest against the proceedings or decision.

9. If a Corean subject who is charged with an offence against the laws of his country takes refuge on premises occupied by a British subject, or on board a British merchant-vessel, the British Consular authorities, on receiving an application from the Corean authorities, shall take steps to have such person arrested and handed over to the latter for trial. But, without the consent of the proper British Consular authority, no Corean officer shall enter the premises of any British subject without his consent, or go on board any British ship without the consent of the officer in charge.

10. On the demand of any competent British Consular authority, the Corean authorities shall arrest and deliver to the former any British subject charged with a criminal offence, and any deserter from a British ship of war or merchant-vessel.

ARTICLE IV.

1. The ports of Chemulpo (Jenchuan), Wönsan (Gensan) and Pusan (Fusan), or, if the latter port should not be approved, then such other port as may be selected in its neighbourhood, together with the city of Hanyang and of the town of Yanghwa Chin, or such other place in that neighbourhood, as may be deemed desirable, shall, from the day on which this Treaty comes into operation, be opened to British commerce.

2. At the above-named places British subjects shall have the right to rent or to purchase land or houses, and to erect dwellings, warehouses, and factories. They shall be allowed the free exercise of their religion. All arrangements for the selection, determination of the limits, and laying out of the sites of the foreign Settlements, and for the sale of land at the various ports and places in Corea open to foreign trade, shall be made by the Corean authorities in conjunction with the competent Foreign authorities.

3. These sites shall be purchased from the owners and prepared for occupation by the Corean Government, and the expense thus incurred shall be a first charge on the proceeds of the sale of the land. The yearly rental agreed upon by the Corean authorities in conjunction with the foreign authorities, shall be paid to the former, who shall retain a fixed amount thereof as a fair equivalent for the land tax and the remainder, together with any balance left from the proceeds of land sales, shall belong to a municipal fund to be administered by a Council, the constitution of which shall be determined hereafter by the Corean authorities in conjunction with the competent foreign authorities.

4. British subjects may rent or purchase land or houses beyond the limits of the foreign Settlements, and within a distance of 10 Corean *li* from the same. But all land so occupied shall be subject to much conditions as to the observance of Corean local Regulations and payment of land tax as the Corean authorities may see fit to impose.

5. The Corean authorities will set apart, free of cost, at each of the places open to trade, a suitable piece of ground as a foreign cemetery, upon which no rent, land tax, or other charges shall be payable, and the management of which shall be left to the Municipal Council abovementioned.

6. British subjects shall be allowed to go where they please without passports within a distance of 100 Corean *li* from any of the ports and places open to trade, or within such limits as may be agreed upon between the competent authorities of both countries. British subjects are also authorized to travel in Corea for pleasure or for purposes of trade, to transport and sell goods of all kinds, except books and other printed matter disapproved of by the Corean Government, and to purchase native produce in all parts of the country under passports which will be issued by their Consuls and countersigned or sealed by the Corean local authorities. These passports, if demanded, must be produced for examination in the districts passed through. If the passport be not irregular, the bearer will be allowed to proceed, and he shall be at liberty to procure such means of transport as he may require. Any British subject travelling beyond the limits above named without a passport, or committing when in the interior any offence, shall be arrested and handed over to the nearest British Consul for punishment. Travelling without a passport beyond the said limits will render the offender liable to a fine not exceeding 100 Mexican dollars, with or without imprisonment for a term not exceeding one month.

7. British subjects in Corea shall be amenable to such municipal, police, and other regulations for the maintenance of peace, order, and good government as may be agreed upon by the competent authorities of the two countries.

ARTICLE V.

1. At each of the ports or places open to foreign trade, British subjects shall be at full liberty to import from any foreign port or from any Corean open port, to sell to or to buy from any Corean subjects or others, and to export to any foreign or Corean open port, all kinds of merchandise not prohibited by this Treaty, on paying the duties of the Tariff annexed thereto. They may freely transact their business with Corean subjects or others without the intervention of Corean officials or other persons and they may freely engage in any industrial occupation.

2. The owners or consignees of all goods imported from any foreign port upon which the duty of the aforesaid Tariff shall have been paid shall be entitled, on re-exporting the same to any foreign port at any time within thirteen Corean months from the date of importation, to receive a drawback certificate for the amount of such import duty, provided that the original packages containing such goods remain intact. These drawback certificates shall either be redeemed by the Corean Customs on demand, or they shall be received in payment of duty at any Corean open port.

3. The duty paid on Corean goods, when carried from one Corean open port to another, shall be refunded at the port of shipment on production of a Customs certificate showing that the goods have arrived at the port of estination, or on satisfactory proof being produced of the loss of the goods by shipwreck.

4. All goods imported into Corea by British subjects, and on which the duty of the Tariff annexed to this Treaty shall have been paid, may be conveyed to any Corean open port free of duty, and, when transported into the interior, shall not be subject to any additional tax, excise or transit duty whatsoever in any part of the country. In like manner, full freedom shall be allowed for the transport to the open ports of all Corean commodities intended for exportation, and such commodities shall not, either at the place of production, or when being conveyed from any part of Corea to any of the open ports, be subject to the payment of any tax, excise or transit duty whatsoever.

5. The Corean Government may charter British merchant-vessels for the conveyance of goods or passengers to unopened ports in Corea, and Corean subjects shall have the same right, subject to the approval of their own authorities.

6. Whenever the Government of Corea shall have reason to apprehend a scarcity of food within the kingdom, His Majesty the King of Corea may, by Decree, temporarily prohibit the export of grain to foreign countries from any or all of the Corean open ports, and such prohibition shall become binding on British subjects in Corea on the expiration of one month from the date on which it shall have been officially communicated by the Corean authorities to the British Consul at the port concerned, but shall not remain longer in force than is absolutely necessary.

7. All British ships shall pay tonnage dues at the rate of 30 cents (Mexican) per register ton. One such payment will entitle a vessel to visit any or all of the open ports in Corea during a period of four months without further charge. All tonnage dues shall be appropriated for the purposes of erecting lighthouses and beacons, and placing buoys on the Corean coast, more especially at the approaches to the open ports, and in deepening or otherwise improving the anchorages. No tonnage dues shall be charged on boats employed at the open ports in landing or shipping cargo.

8. In order to carry into effect and secure the observance of the provisions of this Treaty, it is hereby agreed that the Tariff and Trade Regulations hereto annexed shall come into operation simultaneously with this Treaty. The competent authorities of the two countries may, from time to time, revise the said Regulations with a view to the insertion therein, by mutual consent, of such modifications or additions as experience shall prove to be expedient.

ARTICLE VI.

Any British subject who smuggles, or attempts to smuggle, goods into any Corean port or place not open to foreign trade shall forfeit twice the value of such goods, and the goods shall be confiscated. The Corean local authorities may seize such goods and may arrest any British subject concerned in such smuggling or attempt to smuggle. They shall immediately forward any person so arrested to the nearest British Consul for trial by the proper British judicial authority, and may detain such goods until the case shall have been finally adjudicated.

ARTICLE VII.

1. If a British ship be wrecked or stranded on the coast of Corea, the local authorities shall immediately take such steps to project the ship and her cargo from plunder, and all the persons belonging to her from ill-treatment, and to render such other assistance as may be required. They shall at once inform the nearest British Consul of the occurrence, and shall furnish the shipwrecked persons, if necessary, with means of conveyance to the nearest open port.

2. All expenses incurred by the Government of Corea for the rescue, clothing, maintenance, and travelling of shipwrecked British subjects, for the recovery of the bodies of the drowned, for the medical treatment of the sick and injured, and for the burial of the dead, shall be repaid by the British Government to that of Corea.

3. The British Government shall not be responsible for the repayment of the expenses incurred in the recovery or preservation of a wrecked vessel, or the property belonging to her. All such expenses shall be a charge upon the property saved, and shall be paid by the parties interested therein upon receiving delivery of the same.

4. No charge shall be made by the Government of Corea for the expenses of the Government officers, local functionaries, or police who shall proceed to the wreck, for the travelling expenses of officers escorting the shipwrecked men, nor for the expenses of official correspondence. Such expenses shall be borne by the Corean Government.

5. Any British merchant-ship compelled by stress of weather or by want of fuel or provisions to enter an unopened port in Corea shall be allowed to execute repairs, and to obtain necessary supplies. All such expenses shall be defrayed by the master of the vessel.

ARTICLE VIII.

1. The ships of war of each country shall be at liberty to visit all the ports of the other. They shall enjoy every facility for procuring supplies of all kinds, or for making repairs, and shall not be subject to trade or harbour regulations, nor be liable to the payment of duties or port charges of any kind.

2. When British ships of war visit unopened ports in Corea, the officers and men may land, but shall not proceed in the interior unless they are provided with passports.

3. Supplies of all kinds for the use of the British navy may be landed at the open ports of Corea, and stored in the custody of a British officer, without the payment of any duty. But if any such supplies are sold, the purchaser shall pay the proper duty to the Corean authorities.

4. The Corean Government will afford all the facilities in their power to ships belonging to the British Government which may be engaged in making surveys in Corean waters.

ARTICLE IX.

1. The British authorities and British subjects in Corea shall be allowed to employ Corean subjects as teachers, interpreters, servants, or in any other lawful capacity, without any restriction on the part of the Corean authorities; and, in like manner, no restrictions shall be placed upon the employment of British subjects by Corean authorities and subjects in any lawful capacity.

2. Subjects of either nationality who may proceed to the country of the other to study its language, literature, laws, arts, or industries, or for the purpose of scientific research, shall be afforded every reasonable facility for doing so.

ARTICLE X.

It is hereby stipulated that the Government, public officers, and subjects of Her Britannic Majesty shall, from the day on which this Treaty comes into operation, participate in all privileges, immunities, and advantages, especially in relation to import or export duties on goods and manufactures, which shall then have been granted or may thereafter be granted by His Majesty the King of Corea to the Government, public officers, or subjects of any other Power.

ARTICLE XI.

Ten years from the date on which this Treaty shall come into operation, either of the High Contracting Parties may, on giving one year's previous notice to the other, demand a revision of the Treaty or of the Tariff annexed thereto, with a view to the insertion therein, by mutual consent, of such modifications as experience shall prove to be desirable.

ARTICLE XII.

1. This Treaty is drawn up in the English and Chinese languages, both of which versions have the same meaning, but it is hereby agreed that any difference which may arise as to interpretation shall be determined by reference to the English text.

2. For the present all official communications addressed by the British authorities to those of Corea shall be accompanied by a translation into Chinese.

ARTICLE XIII.

The present Treaty shall be ratified by Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, and by His Majesty the King of Corea, under their hands and seals; the ratifications shall be exchanged at Hanyang (Söul) as soon as possible, or at latest within one year from the date of signature, and the Treaty, which shall be published by both Governments, shall come into operation on the day on which the ratifications are exchanged.

In witness whereof the respective Plenipotentiaries above named have signed the present Treaty and have thereto affixed their seals.

Done in triplicate at Hanyang this twenty-sixth day of November, in the year eighteen hundred and eighty-three, corresponding to the twenty-seventh day of the tenth month of the four hundred and ninety-second year of the Corean era, being the ninth year of the Chinese reign Kuang Hsü.

(L.S.) HARRY S. PARKES.

(L.S.) Signature in Chinese of MIN YÖNG-MOK, the Corean Plenipotentiary.

Regulations under which British Trade is to be conducted in Corea.

I.—Entrance and Clearance of Vessels.

1. Within forty-eight hours (exclusive of Sundays and holidays) after the arrival of a British ship in a Corean port, the master shall deliver to the Corean Customs authorities the receipt of the British Consul showing that he has deposited the ship's papers at the British Consulate, and he shall then make an entry of his ship by handing in a written paper stating the name of the ship, of the port from which she comes, of her master, the number, and, if required, the names of her passengers, her tonnage, and the number of her crew, which paper shall be certified by the master to be a true statement, and shall be signed by him. He shall, at the same time, deposit a written manifest of his cargo, setting forth the marks and numbers of the packages and their contents as they are described in the bills of lading, with the names of the persons to whom they are consigned. The master shall certify that this description is correct, and shall sign his name to the same. When a vessel has been duly entered, the Customs authorities will issue a permit to open hatches, which shall be exhibited to the Customs officer on board. Breaking bulk without having obtained such permission will render the master liable to a fine not exceeding 100 Mexican dollars.

2. If any error is discovered in the manifest, it may be corrected within twenty-four hours (exclusive of Sundays and holidays) of its being handed in, without the payment of any fee, but for any alteration or post entry to the manifest made after that time a fee of 5 Mexican dollars shall be paid.

3. Any master who shall neglect to enter his vessel at the Corean Custom-house within the time fixed by this Regulation shall pay a penalty not exceeding 50 Mexican dollars for every twenty-four hours that he shall so neglect to enter his ship.

4. Any British vessel which remains in port for less than forty-eight hours (exclusive of Sundays and holidays) and does not open her hatches, also any vessel driven into port by stress of weather, or only in want of supplies, shall not be required to enter or to pay tonnage dues so long as such vessel does not engage in trade.

5. When the master of a vessel wishes to clear, he shall hand into the Customs authorities an export manifest containing similar particulars to those given in the import manifest. The Customs authorities will then issue a clearance certificate and return the Consul's receipt for the ship's papers. These documents must be handed into the Consulate before the ship's papers are returned to the master.

6. Should any ship leave the port without clearing outwards in the manner above prescribed, the master shall be liable to a penalty not exceeding 200 Mexican dollars.

7. British steamers may enter and clear on the same day, and they shall not be required to hand in a manifest except for such goods as are to be landed or transhipped at the port of entry.

II.—Landing and Shipping of Cargo, and Payment of Duties.

1. The importer of any goods who desires to land them shall make and sign an application to that effect at the Custom-house, stating his own name, the name of the ship in which the goods have been imported, the marks, numbers, and contents of the packages and their values, and declaring that this statement is correct. The Customs authorities may demand the production of the invoice of each consignment of merchandise. If it is not produced, or if its absence is not satisfactorily accounted for, the owner shall be allowed to land his goods on payment of double the Tariff duty, but the surplus duty so levied shall be refunded on the production of the invoice.

2. All goods so entered may be examined by the Customs officers at the places appointed for the purpose. Such examination shall be made without delay or injury to the merchandise, and the packages shall be at once restored by the Customs authorities to their original condition, in so far as may be practicable.

3. Should the Customs authorities consider the value of any goods paying an *ad valorem* duty as declared by the importer or exporter insufficient, they shall call upon him to pay duty on the value determined by an appraisement to be made by the Customs appraiser. But should the importer or exporter be dissatisfied with that appraisement, he shall within twenty-four hours (exclusive of Sundays and holidays) state his reasons for such dissatisfaction to the Commissioner of Customs, and shall appoint an appraiser of his own to make a re-appraisement. He shall then declare the value of the goods as determined by such re-appraisement. The Commissioner of Customs will thereupon, at his option, either assess the duty on the value determined by this re-appraisement, or will purchase the goods from the importer or exporter at the price thus determined, with the addition of 5 per cent. In the latter case the purchase-money shall be paid to the importer or exporter within five days from the, date on which he has declared the value determined by his own appraiser.

4. Upon all goods damaged on the voyage of importation a fair reduction of duty shall be allowed proportionate to their deterioration. If any disputes arise as to the amount of such reduction, they shall be settled in the manner pointed out in the preceding clause.

5. All goods intended to be exported shall be entered at the Corean Custom-house before they are shipped. The application to ship shall be made in writing, and shall state the name of the vessel by which the goods are to be exported, the marks and number of the packages, and the quantity, description, and value of the contents. The exporter shall certify in writing that the application gives a true account of all the goods contained therein, and shall sign his name thereto.

6. No goods shall be landed or shipped at other places than those fixed by the Corean Customs authorities, or between the hours of sunset and sunrise, or on Sundays or holidays, without the special permission of the Customs authorities, who will be entitled to reasonable fees for the extra duty thus performed.

7. Claims by importers or exporters for duties paid in excess, or by the Customs authorities for duties which have not been fully paid, shall be entertained only when made within thirty days from the date of payment.

8. No entry will be required in the case of provisions for the use of British ships, their crews and passengers, nor for the baggage of the latter which may be landed or shipped at any time after examination by the Customs officers.

9. Vessels needing repairs may land their cargo for that purpose without the payment of duty. All goods so landed shall remain in charge of the Corean authorities, and all just charges for storage, labour, and supervision shall be paid by the master. But if any portion of such cargo be sold, the duties of the Tariff shall be paid on the portion so disposed of.

10. Any person desiring to tranship cargo shall obtain a permit from the Customs authorities before doing so.

III.—Protection of the Revenue.

1. The Customs authorities shall have the right to place Customs officers on board any British merchant-vessel in their ports. All such Customs officers shall have access to all parts of the ship in which cargo is stowed. They shall be treated with civility, and such reasonable accommodation shall be allotted to them as the ship affords.

2. The hatches and all other places of entrance into that part of the ship where cargo is stowed may be secured by the Corean Customs officers between the hours of sunset and sunrise, and on Sundays and holidays, by affixing seals, locks, or other fastenings, and if any person shall, without due permission, wilfully open any entrance that has been so secured, or break any seal, lock, or other fastening that has been affixed by the Corean Customs officers, not only the person so offending, but the master of the ship also, shall be liable to a penalty no exceeding 100 Mexican dollars.

3. Any British subject who ships, or attempts to ship or discharges, or attempts to discharge, goods which have not been duly entered at the Custom-house in the manner above provided, or packages containing goods different from those described in the import or export permit application, or prohibited goods, shall forfeit twice the value of such goods, and the goods shall be confiscated.

4. Any person signing a false declaration or certificate with the intent to defraud the revenue of Corea shall be liable to a fine not exceeding 200 Mexican dollars.

5. Any violation of any provision of these Regulations, to which no penalty is specially attached herein, may be punished by a fine not exceeding 100 Mexican dollars.

Note.—All documents required by these Regulations, and all other communications addressed to the Corean Custom authorities, may be written in the English language.

IMPORT TARIFF.

[Classified according to Rate of Duty.]

CLASS I.

Duty Free Goods.

Agricultural implements.
Books, maps, and charts.
Bullion, being gold and silver refined.
Coins, gold and silver.
Fire engines.
Models of inventions.
Packing bags, packing matting, tea-lead, and ropes for packing goods.
Plants, trees, and shrubs, of all kinds.
Samples in reasonable quantities.
Scientific instruments, as physical, mathematical, meteorological, and surgical instruments and their appliances.
Travellers' baggage.
Types, new and old.

CLASS II.

Import Goods subject to an ad valorem *Duty of 5 per cent.*

Alum.
Anchors and chains.
Bark for tanning.
Bamboo, split or not.
Beans, peas, and pulse, all kinds.
Bones.
Bricks and tiles.
Camphor, crude.
Coal and coke.
Cotton, raw.
Drugs and medicines, all kinds.
Fish, fresh.
Flax, hemp, and jute.
Flints.
Flour and meal, all kinds.
Fruit, fresh, all kinds.
Glue.
Grain and corn, all kinds.
Guano and manures, all kinds.
Hides and skins, raw and undressed.
Horns and hoofs, all kinds not otherwise provided for.
Kerosine and petroleum and other mineral oils.
Lanterns, paper.
Lime.
Matches.
Matting, floor, Chinese and Japanese, coir, &c., common qualities.
Meat, fresh.
Metals, all kinds, in pig, block, ingot, slab, bar, rod, plate, sheet, hoop, strip, band, and flat, T and angle iron, old and scrap iron.
Oil cake.
Oil, wood (*T'ung yu*).
Paper, common qualities.
Pepper, unground.
Pitch and tar.
Rattans, split or not.
Scales and balances.
Seeds, all kinds.
Soap, common qualities.
Soy, Chinese and Japanese.
Twine and thread, all kinds excepting in silk.
Umbrellas, paper.
Vegetables, fresh, dried, and salted.
Wool, sheep's, raw.
Yarns, all kinds, in cotton, wool, hemp, &c.
All unenumerated articles, raw or unmanufactured.

CLASS III.

Import Goods subject to an ad valorem *Duty of 7½ per cent.*

Beverages, such as lemonade, ginger beer, soda and mineral waters.
Blankets and rugs.
Buttons, buckles, hooks and eyes, &c.
Candles.
Canvas.
Carpets of jute, hemp, or felt, patent tapestry.
Charcoal.
Chemicals, all kinds.
Cocoons.
Cement, as Portland and other kinds.
Cordage and rope, all kinds and sizes.
Clothing and wearing apparel of all kinds, hats, boots shoes, &c.
Cotton manufactures, all kinds.
Cotton and woollen mixtures, all kinds.
Cotton and silk mixtures, all kinds.
Dyes, colours, and paints, paint oils, and materials used for mixing paints.
Earthenware.
Fans.
Feathers.
Felt.
Fish, dried and salted.
Floor rugs, all kinds.
Foil, tin, copper, and all other kinds except gold and silver.
Fruits, dried, salted, or preserved.
Gamboge.
Glass, window, plain, and coloured, all qualities.
Grass cloth and all textiles in hemp, jute, &c.
Hair, all kinds except human.
Hides and skins, tanned and dressed.
Isinglass, all kinds.
Lamps, all kinds.
Leather, all ordinary kinds, plain.
Linen, linen and cotton, linen and woollen, linen and silk mixtures, grey, white, or printed.
Matting, superior quality, Japanese, "tatamis," &c.
Meat, dried and salted.
Metals, all kinds in pipe and tube, corrugated or galvanized, wire, steel, tin plates, nickel, platina, quicksilver, German silver, tutenagne, or white copper, yellow metal, unrefined gold and silver.
Metal manufactures, all kinds, as nails, screws, tools, machinery, railway plant, and hardware.
Musquito netting not made of silk.
Needles and pins.
Oils, vegetable, all kinds.
Oil and floor cloth, all kinds.
Paper, all kinds, not otherwise provided for.
Planks, soft wood.
Porcelain, common quality.
Rosin.
Salt.
Sapan wood.
Sea products, as seaweed, bêche de mer, &c.
Silk, raw, reeled, thrown floss or waste.
Silk manufactures not otherwise provided for.
Spectacles.
Spirits in jars.
Stationery and writing materials of all kinds, blank books, &c.
Stones and slate, cut and dressed.
Sugar (brown and white), all qualities, molasses, and syrups.
Sulphur.
Table stores, all kinds, and preserved provisions.
Tallow.
Tea.
Umbrellas, cotton.
Umbrella frames.
Varnish.
Vermicelli.
Wax, bees' or vegetable.
Wax cloth.
Woods and timber, soft.
Woollen manufactures, all kinds.
Woollen and silk mixtures, all kinds.
All unenumerated articles partly manufactured.

CLASS IV.

Import Goods subject to an ad valorem *Duty of 10 per cent.*

Beer, Porter, and Cider.
Camphor, refined.
Carmine.
Carpets, superior qualities, as Brussels, Kidderminister, and other kinds not enumerated.
Clocks, and parts thereof.
Clothing made wholly of silk.
Confectionaries and sweetmeats, all kinds.
Explosives used for mining, &c. (imported under special permit).
Foil, gold and silver.

Furniture of all kinds.
Glass, plate, silvered or unsilvered, framed or unframed.

	Foreign ships, when sold in Corea, will pay a duty of 25 cents per ton on sailing vessels and 50 cents per ton on steamers.	

Prohibited Goods.

Adulterated drugs or medicines.

Arms, munitions, and implements of war, as ordnance or cannon, shot and shell, fire-arms of all kinds, cartridges, side-arms, spears or pikes, saltpetre, gunpowder, guncotton, dynamite, and other explosive substances. The Corean authorities will grant special permits for the importation of arms, fire-arms, and ammunition for purposes of sport or self-defence on satisfactory proof being furnished to them of the *bonâ fide* character of the application.

Counterfeit coins of all kinds.

Opium, except medicinal opium.

Export Tariff.

Class I.—Duty-free export goods:—

Bullion, being gold and silver refined; coins, gold and silver, all kinds; plants, trees and shrubs, all kinds; samples, in reasonable quantity; travellers' baggage.

Class II.—All other native goods or productions not enumerated in Class I will pay an *ad valorem* duty of 5 per cent.

The exportation of red ginseng is prohibited.

Rules.

1. In the case of imported articles the *ad valorem* duties of this Tariff will be calculated on the actual cost of the goods at the place of production or fabrication, with the addition of freight, insurance, &c. In the case of export articles the *ad valorem* duties will be calculated on market values in Corea.

2. Duties may be paid in Mexican dollars or Japanese silver yen.

3. The above Tariff of import and export duties shall be converted, as soon as possible, and as far as may be deemed desirable, into specific rates by agreement between the competent authorities of the two countries.

Corean Plenipotentiary.

Protocol.

The above-named Plenipotentiaries hereby make and append to this Treaty the following three declarations:—

1. With reference to Article III of this Treaty, it is hereby declared that the right of extra-territorial jurisdiction over British subjects in Corea granted by this Treaty shall be relinquished when, in the judgment of the British Government, the laws and legal procedure of Corea shall have been so far modified and reformed as to remove the objections which now exist to British subjects being placed under Corean jurisdiction, and Corean Judges shall have attained similar legal qualifications and a similar independent position to those of British Judges.

2. With reference to Article IV of this Treaty, it is hereby declared that if the Chinese Government shall hereafter surrender the right of opening commercial establishments in the city of Hanyang, which was granted last year to Chinese subjects, the same right shall not be claimed for British subjects, provided that it be not granted by the Corean Government to the subjects of any other power.

3. It is hereby declared that the provisions of this Treaty shall apply to all British Colonies, unless any exception shall be notified by Her Majesty's Government to that of Corea within one year from the date in which the ratifications of this Treaty shall be exchanged.

And it is hereby further stipulated that this Protocol shall be laid before the High Contracting Parties simultaneously with this Treaty, and that the ratification of this Treaty shall include the confirmation of the above three declarations, for which, therefore, no separate act of ratification will be required.

In faith of which the above-named Plenipotentiaries have this day signed this Protocol, and have thereto affixed their seals.

Done at Hanyang this twenty-sixth day of November, in the year eighteen hundred and eighty-three, corresponding to the twenty-seventh day of the tenth month of the four hundred and ninety-second year of the Corean era, being the ninth year of the Chinese reign Kuang Hsü.

No. 60*E*.—The following agreement between the Governments of Great Britain and Egypt, securing the most favored nation treatment to the Commerce and navigation of both countries, signed at Cairo, the 3rd day of March 1884, is published for general information.

AGREEMENT BETWEEN THE GOVERNMENTS OF GREAT BRITAIN AND EGYPT SECURING MOST FAVORED NATION TREATMENT TO THE COMMERCE AND NAVIGATION OF BOTH COUNTRIES.

The undersigned, Sir Evelyn Baring, K.C.S.I., Minister Plenipotentiary, Her Majesty's Agent and Consul-General for Egypt, and His Excellency Nubar Pasha, President of the Council of Ministers, Minister of Foreign Affairs and Minister of Justice to His Highness the Khedive, acting by order of, and under instructions from, their respective Governments, having held a conference this day on the subject of the conclusion of Conventions respecting trade and commerce between the Government of Egypt and foreign Powers, have agreed as follows:—

1. The Government of Her Britannic Majesty agrees that the Egyptian Custom-house Regulations, which, by the Convention made on the 3rd instant between the Egyptian Government and the Government of His Majesty the King of the Hellenes,* are made applicable to Hellenic subjects, ships, commerce, and navigation, shall be applied equally to British subjects, ships, commerce, and navigation.

2. All rights, privileges, or immunities which the Government of Egypt now grants, or may hereafter grant to, or suffer to be enjoyed by, the subjects, ships, commerce, and navigation of other foreign Powers, shall be equally granted to, and exercised and enjoyed by, the subjects, ships, commerce, and navigation of Great Britain.

In witness whereof the undersigned have signed the present Convention and have affixed thereto their seals.

Done at Cairo this 3rd day of March, 1884.

(L.S.) (Signed) EVELYN BARING.

(L.S.) N. NUBAR.

II.

Convention between the Governments of Greece and Egypt. Signed March 3, 1884.

(Translation.)

M. Anasthase Byzantios, Diplomatic Agent and Consul-General of Greece, of the one part, and His Excellency Nubar Pasha, President of the Council of Ministers, Minister for Foreign Affairs of His Highness the Khedive, duly authorized by their respective Governments, have agreed as follows:—

ARTICLE I.

The commerce of Greece in Egypt, and the commerce of Egypt in Greece, shall be treated upon the footing of the most favoured nation as regards customs duties, both of import and export.

ARTICLE II.

No prohibition of importation or exportation can be applied to the reciprocal commerce of both countries unless it be equally applied to all other nations. It is nevertheless understood that this restriction does not extend to the special measures which either of the two countries may take in order to protect itself against cattle plague, phylloxera, or any other plague.

ARTICLE III.

The Egyptian Government engages, with the exceptions hereafter specified in Article VI, not to prohibit the importation into Egypt of any article being the produce of the soil or industry of Greece, whencesoever arriving.

M. Anasthase Byzantios, Agent Diplomatique et Consul-Général Hellénique, d'une part, et son Excellence Nubar Pacha, Président du Conseil des Ministres, Ministre des Affaires Étrangères de Son Altesse le Khédive, dûment autorisés par leurs Gouvernements respectifs, sont convenus de ce qui suit:—

ARTICLE I.

Le Commerce Hellénique en Égypte et le Commerce Égyptien en Grèce seront traités sous le rapport des droits de douane, tant à l'importation qu'à l'exportation, comme le commerce de la nation la plus favorisée.

ARTICLE II.

Aucune mesure de prohibition ne pourra frapper le commerce réciproque d'importation ou d'exportation des deux pays, si elle n'est également étendue à toutes les autres nations. Il est toutefois entendu que cette restriction ne s'applique pas aux mesures spéciales que l'un des deux pays pourrait prendre, afin de se garantir contre l'épizootie, le phylloxéra ou tout autre fléau.

ARTICLE III.

Le Gouvernement Égyptien s'engage, sauf les exceptions mentionnées à l'Article VI ci-après, à ne prohiber l'importation en Égypte d'aucun article, produit du sol et de l'industrie de la Grèce, de quelque lieu qu'arrive cet article.

* See No. II

ARTICLE IV.

The duties to be levied in Egypt upon the produce of the soil or industry of Greece whencesoever arriving, shall be regulated by a Tariff to be fixed by Commissioners appointed *ad hoc* by the two Governments.

The fixed duty of 8 per cent. *ad valorem* shall be adopted as a basis for this Tariff, and shall be calculated on the value of the goods at the landing-stage, but the Egyptian Government reserves the right to raise to a higher rate the duties on distilled drinks, wines, and articles of luxury; these duties shall, however, in no case exceed the rate of 16 per cent. *ad valorem*.

The Egyptian Government further reserves the right to diminish to the rate of 5 per cent., and even to abolish entirely, the duties on articles of prime necessity imported into Egypt.

The customs duties shall be collected without prejudice to the penalties fixed by the regulations in cases of fraud and contraband.

ARTICLE V.

Tobacco of all kinds, tombac (metal), salt, carbonate of soda, hachish, and saltpetre, are excluded from the stipulations of the present Convention.

The Egyptian Government reserves an absolute right with regard to these articles, the regulations in regard to which shall be applied to Hellenic subjects under the same conditions as to natives.

The Egyptian Government may make all immediate searches in shops or dwellings which they may think necessary. A duplicate of the search-warrant shall be sent to the Hellenic Consular authority, who may at once attend if he thinks expedient. This formality shall not, however, delay the search.

ARTICLE VI.

The exceptions to the stipulations of Article III, namely, warlike arms (comprising fire-arms and side-arms) and munitions of war, shall not be admitted to importation into Egypt.

The above restriction does not apply to arms for the chase or arms of luxury ("arms de luxe"), nor to powder for hunting purposes. The importation of these articles shall be regulated by special provisions on the part of the Egyptian Government.

ARTICLE VII.

Goods imported into Egypt and re-exported within a period not exceeding six months, shall be considered as goods in transit, and under that category shall pay only a duty of 1 per cent., calculated on the value at the landing-stage.

After the period of six months they shall be liable to the full import duty.

If the re-exportation takes place at the actual port of disembarkation—by means of a simple transhipment—or after disembarkation and deposit of the goods on land under the surveillance provided by the Customs Regulations, within a period of not more than one month, the goods shall not be subject to any duty, but the transit duty shall be due if, after having been disembarked and temporarily deposited either in the Customs warehouses or in private warehouses, whether floating or not, the goods are re-exported after having been the medium of commercial operation.

ARTICLE IV.

Les droits à percevoir en Égypte sur les produits du sol et de l'industrie de la Grèce, de quelque lieu qu'ils arrivent, seront réglés par un tarif qui sera établi par des Commissaires nommés *ad hoc* par les deux Gouvernements

Comme base de ce tarif l'on prendra le droit fixe de 8 pour cent. *ad valorem* à calculer sur le prix des marchandises à l'échelle de débarquement, mais le Gouvernement Égyptien se réserve la faculté de porter à un taux plus élevé les droits sur les boissons distillées, les vins et les articles de luxe; ces droits ne devront cependant, en aucun cas, excéder le taux de 16 pour cent. *ad valorem*.

Le Gouvernement Égyptien se réserve aussi le droit d'abaisser jusqu'au taux de 5 pour cent., et même de supprimer entièrement, les taxes sur les articles de première nécessité entrant en Égypte.

Les droits de douane seront perçus sans préjudice des pénalités édictées en matière de fraude et de contrebande par les règlements.

ARTICLE V.

Le tabac, sous toutes ses formes, et le tombac, ainsi que le sel, le natron, le hachiche et le salpêtre sont exclus des stipulations de la présente Convention.

Le Gouvernement Égyptien conserve un droit absolu par rapport à ces articles, dont le régime sera applicable aux sujets Hellènes dans les mêmes conditions qu'aux sujets locaux.

Le Gouvernement Égyptien pourra procéder, dans les magasins ou demeures, à toutes perquisitions immédiates qu'il jugera nécessaires. Le double de l'ordre de perquisition sera envoyé à l'autorité Consulaire Hellénique qui pourra aussitôt assister, si elle le juge convenable, sans que cette formalité puisse retarder la perquisition.

ARTICLE VI.

Par exception aux stipulations de l'Article III, les armes de guerre (comprenant les armes à feu et les armes blanches) et les munitions de guerre ne seront pas admises à l'importation en Égypte.

La restriction ci-dessus ne s'applique pas aux armes de chasse et de luxe, ni à la poudre de chasse; l'entrée de ces articles fera l'objet de dispositions particulières de la part du Gouvernement Égyptien.

ARTICLE VII.

Les marchandises importées en Égypte et réexportées dans un délai n'excédant pas six mois, seront considérées comme marchandises de transit et ne payeront à ce titre qu'un droit de transit de 1 pour cent., calculé sur la valeur à l'échelle de débarquement.

Après ce délai de six mois elles seront passibles de l'intégralité du droit d'importation.

Si la réexportation a lieu par le port même du débarquement, à la suite d'un simple transbordement ou bien après débarquement et séjour des marchandises à terre, dans les conditions de surveillance prévues par les règlements douaniers, pendant un délai n'excédant pas un mois, ces marchandises ne seront sujettes à aucun droit; mais le droit de transit sera dû, si, après avoir été débarquées et déposées temporairement, soit dans les magasins de la Douane, soit dans les magasins particuliers, flottants ou non, les marchandises sont ré-exportées, après avoir fait l'objet d'une opération commerciale.

ARTICLE VIII.

If goods, after having paid the import duty in Egypt, shall be sent to another country before the expiration of the period of six months, counting from the day of disembarkation, they shall be treated as goods in transit, and the Egyptian Customs shall refund to the exporter the difference between the duty already paid and the transit duty mentioned in Article VII.

In order to obtain the drawback, the exporter must produce proof that the import duty has been paid on the re-exported goods.

ARTICLE IX.

The produce of the soil and industry of Egypt exported to Greece shall pay an export duty of 1 per cent. *ad valorem*, calculated on the value of the goods at the exporting stage.

In order to provide greater facility, such produce shall be, so far as possible, tariffed periodically by mutual agreement between the representatives of the export trade and the Egyptian Customs Administration.

ARTICLE X.

The following are alone exempt from all examination on entry or departure, as well as from all payment of duty, *viz.*, articles and personal effects belonging to Consuls-General and Commissioned Consuls ("Consuls de Carrière") who do not exercise other functions, are not engaged in commerce or manufacture, and do not possess or make use of landed property in Egypt.

ARTICLE XI.

Within a period not exceeding thirty-six hours after the arrival of a vessel in an Egyptian port or harbour, the captain or agent of the owners must deposit at the Custom-house two copies of the cargo manifest, certified by him to be true copies of the original. In the same manner the captains must before departure from an Egyptian port, present at the Custom-house a copy of the manifest of the goods composing the cargo of their ships. The original manifest, whether on arrival or departure, must be presented at the same time with the copies, to be compared with them.

If a vessel stops in an Egyptian port, for a motive which appears suspicious to the Customs authorities, the latter may require the presentation of the manifest and may immediately make such search as they may deem necessary; the search warrant shall be addressed in such case to the Hellenic Consular authority, as provided in Article V.

Excess or deficit, resulting from the comparison of the manifest with the cargo, will entail the application of the fines specified in the Customs Regulations which shall be promulgated by the Egyptian Government.

ARTICLE XII.

Every customs formality in Egypt, whether on arrival or departure, must be preceded by a declaration signed by the proprietor of the goods or by his representative.

If any question arises the Customs authorities may require the production of all the documents which should accompany a consignment of goods, such as invoices, correspondence, &c.

ARTICLE VIII.

Si des marchandises, après avoir été frappées du droit d'importation en Égypte, sont expédiées à d'autres pays, avant l'expiration du terme de six mois, à dater du jour de leur débarquement, elles seront traités comme marchandises en transit et la Douane Égyptienne restituera à l'exportateur la différence entre le droit payé et celui de transit mentionné à l'Article VII.

Pour obtenir le drawback, l'exportateur devra fournir les preuves que le droit d'importation a été payé sur les marchandises ré-exportées.

ARTICLE IX.

Les produits du sol et de l'industrie de l'Égypte, à destination de la Grèce, paieront un droit d'exportation de 1 pour cent. *ad valorem*, calculé sur la valeur des marchandises à l'échelle d'exportation.

Pour plus de facilité, ces produits seront, autant que possible, tarifés périodiquement, d'un commun accord, entre les représentants du commerce d'exportation et l'Administration des Douanes Égyptiennes.

ARTICLE X.

Sont seuls exemptés de toute vérification à l'entrée et à la sortie, ainsi que du paiement des droits, les objets et effets personnels appartenant aux Consuls-Généraux et Consuls de Carrière, n'exerçant pas d'autres fonctions, ne s'occupant ni de commerce ni d'industrie et ne possédant ou n'exploitant pas des biens-fonds en Égypte.

ARTICLE XI.

Dans un délai maximum de trente-six heures, après l'arrivée d'un navire dans une rade ou un port Égyptien, le capitaine ou l'agent des armateurs doit déposer à la Douane deux copies du manifeste de cargaison, certifiées, par lui, conformes à l'original. De même, les capitaines doivent, avant leur départ d'un port Égyptien, presenter à la Douane une copie du manifeste des marchandises chargées à leur bord. Le manifeste original, soit à l'arrivée, soit au départ, sera présenté en même temps que les copies pour être confronté avec elles

Si un navire s'arrête dans un port Égyptien, pour un motif paraissant suspect à la Douane, celle-ci pourra exiger la présentation du manifeste et faire immédiatement toutes perquisitions qu'elle jugera nécessaires: l'ordre de perquisition sera adressé, dans ce cas, à l'autorité Consulaire Hellénique, ainsi qu'il est dit à l'Article V.

Les excédants ou déficits, résultant du rapprochement du manifeste avec la cargaison, donneront lieu à l'application des amendes prévues par le Réglement Douanier qui sera promulgué par le Gouvernement Égyptien.

ARTICLE XII.

Toute opération de Douane en Égypte, soit à l'arrivée, soit au départ, doit être précédée d'une déclaration signée par le propriétaire de la marchandise ou par son représentant.

La Douane peut, en outre, en cas de contestation, exiger la présentation de tous les documents qui doivent accompagner l'envoi d'une marchandise, tels que: factures, correspondances, &c.

Any refusal to make the declaration, either on arrival or departure, any delay in making the said declaration, any difference less or more, which may exist between the goods and the declaration, shall entail the application of the fines provided by the Egyptian Customs Regulations in each of the specified cases.

ARTICLE XIII.

Custom officers, officers of the vessels belonging to the Egyptian postal service, and officers of vessels belonging to the State, may board any vessel whether sailing or steam of more than 200 tons burden, at anchor or cruizing within 10 kilom. of the shore, without the plea of "force majeure"; may assure themselves of the nature of the cargo, may seize all prohibited goods, and substantiate any other contravention of the Customs Regulations.

ARTICLE XIV.

Any contraband importation of goods shall entail the application of the confiscation and fines provided by the Egyptian Customs Regulations.

Decisions imposing confiscations and fines must be communicated within the legal period to the Hellenic Consular authority.

ARTICLE XV.

It is understood that the present convention shall in no wise infringe the administrative rights which belong to both the contracting Governments, and that they may put in force any regulation which may be useful for the good working of the service and for the repression of fraud.

ARTICLE XVI.

The present Convention shall remain in effect for seven years commencing on the 20th of March, 1884.

On the expiration of that period the present Convention shall remain in force during the following year, and so on from year to year until it is denounced, or until the conclusion, if necessary, of a new agreement.

ADDITIONAL ARTICLE.

The operation of the modification in the existing tariff of duties, contemplated by Article IV, remains suspended until these modifications have been adopted by the other Powers interested.

In witness whereof the undersigned have signed the present Convention.

Done in duplicate at Cairo, the 3rd March, 1884.

(Signed) NUBAR.
BYZANTIOS.

Tout refus de faire la déclaration, à l'arrivée ou au départ, tout retard apporté à la dite déclaration, toute différence en plus ou en moins constatée entre les marchandises et la déclaration donneront lieu à l'application des amendes prévues par le Réglement Douanier Égyptien, pour chacun des cas spécifiés.

ARTICLE XIII.

Les Agents de la Douane, les officiers des bâtiments du service postal Égyptien, et les officiers des navires de l'État, peuvent aborder tout bâtiment à voile ou à vapeur d'une portée au-dessous de 200 tonneaux, à l'ancre, ou louvoyant, dans les 10 kilom. du littoral, sans justification de force majeure; s'assurer de la nature du chargement, saisir toute marchandise prohibée et constater tourte autre contravention aux Règlements Douaniers.

ARTICLE XIV.

Toute introduction de marchandises en contrebande donnera lieu à l'application des confiscations et amendes édictées par le Règlement Douanier Égyptien.

Les décisions qui prononceront les confiscations et amendes devront être communiquées dans les délais légaux à l'autorité Consulaire Helléuique.

ARTICLE XV.

Il est entendu que la présente Convention ne peut en rien porter atteinte aux droits d'administration qui appartiennent aux deux Gouvernements Contractants et qu'ils pourront appliquer toute réglementation utile au bon fonctionnement des services et à la répression des fraudes.

ARTICLE XVI.

La présente Convention aura son effet pendant sept ans à partir du vingt Mars, 1884.

A l'expiration de cette période la présente Convention restera en vigueur pendant l'année suivante et ainsi de suite d'année en année jusqu'à dénonciation ou conclusion d'un nouvel accord s'il y a lieu.

ARTICLE ADDITIONNEL.

L'effet des modifications au tarif actuel des droits, prévues à l'Article IV, demeure suspendu jusqu'à ce que ces modifications aient été adoptées par les autres Puissances intéressées.

En foi de quoi les soussignés ont signé la présente Convention.

Fait en duplicata au Caire, le 3 Mars, 1884.

(Signé) NUBAR.

LEAVE AND APPOINTMENTS.

The 23rd January 1885.

No. 403.—Mr. J. E. O'Conor having returned from privilege leave resumed charge of the duties of Assistant Secretary to the Government of India in the Department of Finance and Commerce from Mr. C. R. Kiernander, before noon, on the 20th January 1885.

PENSIONS AND GRATUITIES.

The 23rd January 1885.

No. 377.

RESOLUTION.—By the Government of India, Department of Finance and Commerce.

Read—

Resolution by the Government of India in the Department of Finance and Commerce, No. 149, dated 18th April 1884.

Read also—

Financial Despatch to Secretary of State, No. 236, dated 25th July 1884.

Financial Despatch from Secretary of State, No. 362, dated 13th November 1884.

RESOLUTION.—With the sanction of the Secretary of State the following improved scale of ordinary pensions has been adopted for those superior officers of the Telegraph Department who are included in the three undermentioned classes:—

I—Officers especially trained, who entered the Department under covenant with the Honorable Court of Directors.

II—Officers under covenant with the Secretary of State.

III—Officers appointed from Cooper's Hill.

No. of years service.	Sixtieth parts of average emoluments	Subject to a maximum of	
10	20	1,000	On medical certificate.
11	21	1,400	
12	22	1,800	
13	23	2,200	
14	24	2,600	
15	25	3,000	
16	26		
17	27		
18	28		
19	29		
20 to 24	30	4,000	Without medical certificate.
25 and upwards		5,000	

2. All officers now in the Department will, at the time of retirement, be allowed the option between the above scale and the pensions allowable under present rules. The new scale of pensions expressed in rupees will be convertable into sterling at the rate of exchange fixed for each year.

3. As regards all other officers who do not come under the three classes above enumerated, the Government of India will be prepared to consider favourably, from time to time, the cases of those who may attain the rank of Directors in the Department.

4. The following special additional pensions are also authorised, as rewards of approved service, for those officers who hold the high and responsible positions of Director General, Deputy Director General, and Directors of Construction and Traffic after they have served in their respective ranks for a period of three years.

Extra pension over and above that allowable under paragraph 1.

Director General, Deputy Director General	₹2,000 per annum.
Director of Construction, Director of Traffic	₹1,000 per annum.

5. These rules have effect from the 1st May 1883.

ORDER.—Ordered, that this Resolution be forwarded to the Public Works Department for information and guidance, and notified in Part I of the *Gazette of India*.

D. BARBOUR,
Secretary to the Government of India.

MILITARY DEPARTMENT.

Fort William, the 23rd January, 1885.

APPOINTMENTS.

No. 42.—PERSONAL STAFF—

The Viceroy and Governor General has been pleased to make the following appointments on His Excellency's personal staff, with effect from the 13th December, 1884:—

To be Extra Aides-de-Camp.

Lieutenant C. R. Burn, 8th Hussars.

Lieutenant L. Gordon, King's Own Borderers.

No. 43.—ORDNANCE DEPARTMENT—

Captain T. F. T. Fowle, R.A., to be Commissary of Ordnance, 3rd class.

No. 44.—VOLUNTEER CORPS—

Rangoon Volunteer Rifle Corps.

C. E. Bernard, Esq., C.S.I., C.S., Chief Commissioner of British Burma, to be Honorary Colonel.

FURLOUGH AND LEAVE.

No. 45.—The undermentioned officers are granted furlough out of India, with the necessary subsidiary leave—

Major J. Hay, Bengal S. C., Commandant, 4th Goorkha Regiment, (p. a.) for one year and 43 days, under rule IX of the regulations of 1868.

Captain G. B. Renny, Bengal S. C., Assistant Military Accountant, (p. a.) for two years, under rule I of the regulations of 1875.

No. 46.—Colonel B. W. D. Morton, Bengal S. C., has been granted an extension of furlough (p. a.) by the Secretary of State for India, for 58 days.

PROMOTIONS.

No. 47.—The Governor General in Council is pleased to notify that the Secretary of State for India in Council has decided that in modification of paragraph 84 of G. G. O. No. 332 of 1861, the period of service required for promotion of Lieutenants of the Staff Corps to the rank of Captain, shall be eleven instead of twelve years.

2. The change to take effect from the 8th January, 1885.

No. 48.—The following promotions are made subject to Her Majesty's approval:—

To be Colonels in the Army.

Lieutenant-Colonel Serinton John Browne, Bengal S. C.,—20th January, 1885.

Lieutenant-Colonel John Watson Macclesfield Anderson, Bombay S. C.,—20th January, 1885.

Lieutenant-Colonel William Jacob, Bombay S. C.,—20th January, 1885.

BENGAL STAFF CORPS.

To be Lieutenant-Colonels.

Major Sir Benjamin Parnell Bromhead, Bart.,—18th January, 1885.

Major James Salisbury Tait,—20th January, 1885.

Lieutenants to be Captains. Dated 8th January, 1885.

Hastings Read.
Charles James Robarts.
William Arthur D'Oyly O'Mealy.
Edward Hogarth Molesworth.
Robert Ramsay Napier Sturt.
Henry Beaufoy Thornhill.
Edward Henry Hopton Montresor.
William Hope Young.

By Order,

W. H. C. WYLLIE,

1st Asst. Agent to the Govr. Genl.

RESIDENT IN MYSORE.

NOTIFICATIONS.

Bangalore, the 15th January 1885.

No. 14.—The provisions of Act XX of 1847 (regarding copy-right of books) and Act XXV of 1867 (for the regulation of Printing Presses and of Periodicals, for the preservation of copies of books printed in British India, and for the registration of such books) having been formally declared, under the authority of the Governor General of India in Council, to apply to the Civil and Military Station of Bangalore, the following subsidiary rules are hereby prescribed by the Officiating Resident in Mysore under the provisions of Section 20 of the latter Act:—

1. Three copies of every work printed or lithographed in the Civil and Military Station of Bangalore shall, under the provisions of section 9 of Act XXV of 1867, be delivered by the printer to the Collector and District Magistrate of the Civil and Military Station of Bangalore, together with a memorandum containing the following particulars:—
   (1) The title of the book and the contents of the title-page, with a translation into English of such title and contents, when the same are not in the English language:
   (2) The language in which the book is written:
   (3) The name of the author, translator, or editor of the book or any part thereof:
   (4) The subject:
   (5) The place of printing and the place of publication:
   (6) The name or firm of the printer and the name or firm of the publisher:
   (7) The date of issue from the press or of the publication:
   (8) The number of sheets, leaves, or pages:
   (9) The size:
   (10) The first, second, or other number of the edition:
   (11) The number of copies of which the edition consists:
   (12) Whether the book is printed or lithographed:
   (13) The price at which the book is sold to the public:
   (14) The name and residence of the proprietor of the copy-right or of any portion of such copy-right: and
   (15) The date on which the copy-right was registered.
2. On receipt of the required number of copies, as well as of the prescribed memorandum, the Collector and District Magistrate shall give a receipt in writing for the copies so received and shall enter the particulars stated in such memorandum in a book to be kept in his office, entitled "Catalogue of books printed in the Civil and Military Station of Bangalore," and shall thereupon pay to the printer, on presentation of the usual bill, the *bonâ fide* sale price of the three copies of the books described in the said memorandum.
3. In order to secure the copy-right of the work delivered, the proprietor may, in accordance with the last clause of section 18 of Act XXV of 1867, pay the sum of two rupees to the Collector and District Magistrate, who will thereupon grant a receipt for the same and remit the amount to the Resident's Treasury.
4. Prosecution for infringement of the provisions of Act XXV of 1867 shall be instituted by such officer as the Resident may appoint in each case upon information received from the Collector and District Magistrate.
5. The Collector and District Magistrate shall at the close of each quarter forward two copies of each work registered by him during such quarter, to the Assistant to the Resident in Mysore, with a true extract from the catalogue of books kept by him under Rule 2 of this notification, giving all the particulars regarding each book as specified in Rule 1 above, a note being made in the column of remarks stating briefly the nature or character of the work referred to. The Collector and District Magistrate shall retain the third copy in his office in a special library.
6. The works registered during the quarter in the said catalogue shall be arranged in the quarterly extract referred to in the preceding rule in strict conformity with the instructions contained in the Resolution of the Government of India, Home Department, No. 1—462, dated 12th September 1882, and forwarded to the Assistant to the Resident in Mysore as soon as possible after the end of such quarter for publication in the *Gazette of India*, in accordance with the provisions of Section 19 of Act XXV of 1867.

By Order,

H. WYLIE, *Major*,

Assistant to the Resident.

HENRY F. BLANFORD,
Meteorological Reporter to the Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co. are distributed by that firm; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows:—

Terms of subscription, payable annually in advance

For the Complete Series, *including postage* . R22

	Without postage.	With postage
For the Calcutta Series . . .	R10 0	R12 8
„ each of the Madras, Bombay and Allahabad Series .	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*)		„ 2 0
„ a part of the Madras, Bombay and Allahabad Series purchased separately *inclusive of postage in India*) . .		„ 1 0

Persons desiring to subscribe for, or purchase, the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.
„ Thacker & Co., Bombay.
„ Higginbotham & Co., Madras.
The Government Central Book Depôt, Bombay.
„ Curator of Government Books, North-Western Provinces and Oudh.
„ Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1885 should be at once remitted.

NOTICE.

Indian Law Reports.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, by the Calcutta Central Press Company, "Limited," 5—1, Council House Street, at the following rates, payable in advance:—

	One page.	*Half page.*	*Quarter page.*

CHAPTER VI.

RULES.

32. Power for Governor General in Council to make rules.
33. Procedure for making and publication of rules.

The Births, Deaths and Marriages Registration Bill, 1885.

(*Chapter II.—General Registry Offices of Births, Deaths and Marriages.—Sections 1-9.*)

A Bill to Provide for the voluntary Registration of certain Births and Deaths, for the establishment of General Registry Offices for keeping Registers of certain Births, Deaths and Marriages, and for certain other purposes.

WHEREAS it is expedient to provide for the voluntary registration of births and deaths among certain classes of persons, for the more effectual registration of those births and deaths and of the marriages registered under Act III of 1872 or the Indian Christian Marriage Act, 1872, and for the establishment of general registry offices for keeping registers of those births, deaths and marriages;

And whereas it is also expedient to provide for the collection and preservation of certain existing registers made otherwise than in the performance of a duty specially enjoined by the law of the country in which the register was kept, and to declare that copies of the entries in those registers shall be admissible in evidence;

It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

Short title and commencement.

1. (*1*) This Act may be called the Births, Deaths and Marriages Registration Act, 1885; and

(*2*) It shall come into force on such day as the Governor General in Council, by notification in the *Gazette of India*, directs.

Local extent.

2. This Act extends to the whole of British India, and, so far only as regards subjects of Her Majesty, to the dominions of Princes and States in India in alliance with Her Majesty.

Definitions.

3. In this Act, unless there is something repugnant in the subject or context,—

"prescribed" means prescribed by a rule made by the Governor General in Council under this Act; and

"Registrar of Births and Deaths" means a Registrar of Births and Deaths appointed under this Act.

Saving of local laws.

4. Nothing in this Act, or in any rule made under this Act, shall affect any law heretofore or hereafter passed providing for the registration of births and deaths within particular local areas.

CHAPTER II.

GENERAL REGISTRY OFFICES OF BIRTHS, DEATHS AND MARRIAGES.

Establishment of general registry offices and appointment of Registrars General.

5. (*1*) Each Local Government—

(*a*) shall establish a general registry office, for keeping such certified copies of registers of births and deaths registered under this Act, or marriages registered under Act III of 1872 (*to provide a form of marriage in certain cases*), or the Indian Christian Marriage Act, 1872, as may be sent to it under this Act, or under either of the two last-mentioned Acts as amended by this Act; and

(*b*) may, from time to time, appoint to the charge of that office an officer, to be called the Registrar General of Births, Deaths and Marriages, for the territories under its administration.

(*2*) Provided that the Governor of Bombay in Council may, with the previous sanction of the Governor General in Council, establish two general registry offices and appoint two Registrars General of Births, Deaths and Marriages for the territories under his administration; one of such general registry offices and of such Registrars General being established and appointed for Sindh and the other for the other territories under the administration of the Governor of Bombay in Council.

Indexes to be kept at general registry office.

6. Each Registrar General of Births, Deaths and Marriages shall cause indexes of all the certified copies of registers sent to his office under this Act, Act III of 1872, or the Indian Christian Marriage Act, 1872, as amended by this Act, to be made and kept in his office in the prescribed form.

Indexes to be open to inspection.

7. Subject to the payment of the prescribed fees, the indexes so made shall be at all reasonable times open to inspection by any person applying to inspect them, and copies of entries in the certified copies of the registers to which they relate shall be given to all persons applying for them.

Copies of entries to be admissible in evidence.

8. A copy of an entry given under the last foregoing section shall be signed by the Registrar General of Births, Deaths and Marriages, and shall be admissible in evidence for the purpose of proving the birth, death or marriage to which the entry relates.

Superintendence of Registrars by Registrar General.

9. Each Registrar General of Births, Deaths and Marriages shall exercise a general superintendence over the Registrars of Births and Deaths in the territories for which he is appointed.

The Births, Deaths and Marriages Registration Bill, 1885.

(Chapter III.—Registration of Births and Deaths.—Sections 10-18.)

CHAPTER III.

REGISTRATION OF BIRTHS AND DEATHS.

A.—Application of this Chapter.

Persons whose births and deaths are registrable.

10. The persons whose births and deaths shall be registrable under this chapter are as follows, namely :—

(*a*) in British India, the members of every race,
865. sect or tribe to which the Indian Succession Act, 1865, applies, and in respect of which an order under section 332 of that Act is not for the time being in force, and all persons professing the Christian religion ;

(*b*) in the dominions of Princes and States in India in alliance with Her Majesty, subjects of Her Majesty being members of a like race, sect or tribe or professing the Christian religion.

B.—Registration Establishment.

Power for Local Government to appoint Registrars for its territories.

11. (*1*) The Local Government may, from time to time, appoint, either by name or by virtue of their office, so many persons as it thinks fit to be Registrars of Births and Deaths for such local areas within the territories under its administration as it may, from time to time, define.

III (*2*) The Local Government may suspend, remove or dismiss any person appointed under this
s. section and appoint another person in his stead.

(*3*) A Registrar of Births and Deaths may resign by notifying in writing to the Local Government his intention to do so, and, on his resignation being accepted by the Local Government, he shall be deemed to have vacated his office.

Power for Governor General in Council to appoint Registrars of Births and Deaths for Native States.

12. The Governor General in Council may, from time to time, by notification in the *Gazette of India*, appoint, either by name or by virtue of their office, so many persons as he thinks fit to be Registrars of Births and Deaths for such local areas within the territories of any Prince or State in India in alliance with Her Majesty as he may, from time to time, define.

38 Office and attendance of Registrar.

9, s. **13.** (*1*) Every Registrar of Births and Deaths shall have an office in the local area for which he is appointed.

(*2*) Every Registrar of Births and Deaths to whom the Local Government may direct this subsection to apply shall attend at his office for the purpose of registering births and deaths on such days and at such hours as the Registrar General of Births, Deaths and Marriages may, from time to time, direct, and shall cause to be placed in some conspicuous place on or near the outer door of his office, his name, with the addition of Registrar of Births and Deaths for the local area for which he is appointed, and the days and hours of his attendance.

Absence of Registrar from his district or vacancy in his office.

[Cf. Act III of 1877, s. 10 also 37 & 38 Vic., c. 88, ss 24 & 25.]

14. (*1*) When any Registrar of Births and Deaths to whom the Local Government may direct this section to apply, not being a Registrar of Births and Deaths for a local area in the town of Calcutta, Madras or Bombay, is absent, or when his office is temporarily vacant, any person whom the Registrar General of Births, Deaths and Marriages appoints in this behalf, or, in default of such appointment, the Judge of the District Court within the local limits of whose jurisdiction the Registrar's office is situate, shall be the Registrar of Births and Deaths during such absence or until the Local Government fills the vacancy.

(*2*) When any such Registrar of Births and Deaths for a local area in the town of Calcutta, Madras or Bombay is absent, or when his office is temporarily vacant, any person whom the Registrar General of Births, Deaths and Marriages appoints in this behalf shall be the Registrar of Births and Deaths during such absence or until the Local Government fills the vacancy.

(*3*) The Registrar General of Births, Deaths and Marriages shall report all appointments made under this section to the Local Government.

Register books to be supplied and preservation of records to be provided for.

[Cf. Act III of 1877, s. 13.]

15. The Local Government shall supply every Registrar of Births and Deaths with a sufficient number of register books of births and of register books of deaths, and shall make suitable provision for the preservation of the records connected with the registration of births and deaths.

C.—Mode of Registration.

Duty of Registrar to enter births and deaths of which notice is given in register.

[Cf. 6 & 7 Wm. IV, c. 86, ss 17 & 18; also Act III of 1877, s. 16.]

16. Every Registrar of Births and Deaths, on receipt of notice of a birth or death within the local area for which he is appointed, shall, if the notice is given within the prescribed time and in the prescribed mode by a person authorized by this Act to give the notice, forthwith make an entry of the birth or death in the proper register book.

Persons authorized to give notice of birth.

[Cf. 37 & 38 Vic., c. 88, s. 10.]

17. The following persons are hereby authorized to give notice of a birth, namely, the father or mother of the child, or, in default of the father or mother, the occupier of the house in which to his knowledge the child is born, or any person present at the birth, or the person having charge of the child.

Persons authorized to give notice of death.

[Cf. 37 & 38 Vic., c. 88, s. 10.]

18. The following persons are hereby authorized to give notice of a death, namely :—

(*a*) In the case of any person dying in a house

The Births, Deaths and Marriages Registration Bill, 1885.

(Chapter III.—Registration of Births and Deaths.—Sections 19-25.)

after the date on which this Act comes into force, the nearest relatives of the deceased present at the death or in attendance during the last illness of the deceased, or, in default of such relatives, any other relative of the deceased dwelling or being in the local area of the Registrar of Births and Deaths within which the deceased was at the time of his death, or, in default of such relatives, any person present at the death, or the occupier of the house in which to his knowledge the death took place, or, in default of the persons hereinbefore in this section mentioned, any inmate of that house; and

[Cf. 37 & 38 Vic., c. 88, s. 11.]

(*b*) in the case of any person dying in a place which is not a house, or of a dead body being found elsewhere than in a house, after the date on which this Act comes into force, any relative of the deceased person having knowledge of any of the particulars required to be registered concerning the death, or, in default of such relative, any person present at the death, or finding, or taking charge of, the body.

Entry of birth or death to be signed by person giving notice.

19. (*1*) When an entry of a birth or death has been made by the Registrar of Births and Deaths as required by section 16, the person giving notice of the birth or death must sign the entry in the register in the presence of the Registrar.

(*2*) Until the entry has been so signed, the birth or death shall not be deemed to be registered under this Act.

[Cf. 37 & 38 Vic., c. 88, s. 30.]

Grant of certificate of registration of birth or death.

20. The Registrar of Births and Deaths shall, on application made at the time of registering any birth or death by the person giving notice of the birth or death, and on payment by him of the prescribed fee, give to the applicant a certificate in the prescribed form, signed by the Registrar, of having registered the birth or death.

[Cf. 6 & 7 Wm IV, c. 86, ss. 32 & 34; also Act III of 1877, s. 56.]

Duty of Registrars as to sending certified copies of entries in register books to Registrar General.

21. (*1*) Every Registrar of Births and Deaths in British India shall send to the Registrar General of Births, Deaths and Marriages for the territories within which the local area for which he is appointed is situate, at the prescribed intervals, a true copy, certified by him under his hand, in the prescribed form, of all the entries of births and deaths in the register book kept by him since the last of those intervals:

Provided that, in the case of Registrars of Births and Deaths who are clergymen of the Churches of England, Rome and Scotland, the Registrar may send the certified copies in the first instance to his ecclesiastical superior, who shall send them to the proper Registrar General of Births, Deaths and Marriages.

In this sub-section, "Church of England" and "Church of Scotland" mean the Church of England and the Church of Scotland as by law established respectively; and "Church of Rome" means the Church which regards the Pope of Rome as its spiritual head.

(*2*) The provisions of sub-section (*1*) shall apply to every Registrar of Births and Deaths in the territories of any Prince or State in India in alliance with Her Majesty, with this modification, that the certified copies referred to in that sub-section shall be sent to such one of the Registrars General of Births, Deaths and Marriages as the Governor General in Council, from time to time, by notification in the *Gazette of India*, appoints in this behalf.

[Act XV of 1872, s. 56.]

Searches and copies of entries in register books.

22. (*1*) Every Registrar of Births and Deaths shall, on payment of the prescribed fees, at all reasonable times allow searches to be made in the register books kept by him, and give a copy of any entry in the same.

[Cf. 6 & 7 Wm IV, c. 8 s. 35; also Act XV 1872, s. 79.]

(*2*) Every copy of an entry in a register book given under this section shall be signed by the Registrar of Births and Deaths, and shall be admissible in evidence for the purpose of proving the birth or death to which the entry relates.

D.—Penalties.

Penalty for wilfully giving false information.

23. If any person wilfully makes, or causes to be made, for the purpose of being inserted in any register of births or deaths, any false statement in connection with any notice of a birth or death under this Act, he shall be punished with imprisonment for a term which may extend to three years and with fine.

[Cf. 6 & 7 Wm. IV, c. 86, s. 11; 37 & 38 Vic c. 88, s. 40; Act XV of 1872, s. 66.]

Penalty for omission to enter birth or death in register, or loss of register.

24. If any Registrar of Births and Deaths refuses, or without reasonable cause omits, to make an entry in the proper register of any birth or death which he ought so to enter under this Act, or if any person having the custody of any register book of births or deaths carelessly loses or injures or allows the injury of the book, he shall be punished with fine which may extend to five hundred rupees.

[37 & 38 V. c. 88, s. 35.]

E.—Correction of Errors.

Correction of entry in register of births and deaths.

25. (*1*) If a Registrar of Births and Deaths discovers any error in the form or substance of any entry of a birth or death in any register kept by him under this Act, he may, in the presence of the persons who gave the notice of the birth or death, or, in case of their death or absence, in the presence of two other credible witnesses, correct the error by entry in the margin, without any alteration of the original entry, and shall sign the marginal entry and add thereto the date of the correction.

[Cf. 6 & 7 Wm IV, c. 86, s. 44; 37 & 38 Vic c. 88, s. 36 See also Act XV of 1872 s. 78.]

(*2*) Every entry made under this section must be attested by the witnesses in whose presence it was made.

(*3*) If a certified copy of the entry has already been sent to the Registrar General of Births, Deaths and Marriages, the Registrar of Births and Deaths shall make and send a separate certified copy of the original erroneous entry and of the marginal correction therein made.

The Births, Deaths and Marriages Registration Bill, 1885.

(Chapter IV.—Amendment of Marriage Acts, 1872. Chapter V.—Special Provisions as to certain existing Registers.—Sections 26-31.)

CHAPTER IV.

AMENDMENT OF MARRIAGE ACTS, 1872.

Addition of new section after section 13, Act III of 1872.

26. After section 13 of Act III of 1872 *(to provide a form of marriage in certain cases)*, the following section shall be inserted:—

Transmission of certified copies of entries in marriage-certificate book to the Registrar General of Births, Deaths and Marriages.

"13A. The Registrar shall send to the Registrar General of Births, Deaths and Marriages for the territories within which his district is situate, at such intervals as the Governor General in Council, from time to time, directs, a true copy certified by him under his hand, in such form as the Governor General in Council, from time to time, prescribes, of all entries made by him in the said marriage-certificate book since the last of such intervals."

Amendment of the Indian Christian Marriage Act, 1872.

27. In the Indian Christian Marriage Act, 1872, the following amendments shall be made, namely:—

(*a*) at the end of section 3 the words "'Registrar General of Births, Deaths and Marriages' means a Registrar General of Births, Deaths and Marriages appointed under the Births, Deaths and Marriages Registration Act, 1885," shall be added;

(*b*) for the words "Secretary to the Local Government", wherever they occur, and for the words "Secretary to a Local Government" in section 79, the words "Registrar General of Births, Deaths and Marriages" shall be substituted;

(*c*) for the words "at such places as the Local Government directs" in section 62, the words "in the office of the Registrar General of Births, Deaths and Marriages for the territories of the Local Government by which the person who keeps the register-book was licensed" shall be substituted;

(*d*) in section 81, after the words "Registrar General of Births, Deaths and Marriages" the words "in England" shall be added.

CHAPTER V.

SPECIAL PROVISIONS AS TO CERTAIN EXISTING REGISTERS.

Permission to persons having custody of certain records to send them within one year to Registrar General.

28. If any person in British India, or in the dominions of any Prince or State in India in alliance with Her Majesty, has for the time being the custody of any register or record of birth, baptism, naming, dedication, death or burial of any persons of the classes specified in section 10, or of any register or record of marrige of persons of the class of those to whom Act III of 1872 or the Indian Christian Marriage Act, 1872, applies, and, if such register or record has been made by him otherwise than in performance of a duty specially enjoined by the law of the country in which the register or record was kept, he may, within one year from the date on which this Act comes into force, send the register or record to the office of the Registrar General of Births, Deaths and Marriages for the territories within which he resides, or, if he resides within the dominions of any such Prince or State as aforesaid, to such one of the Registrars General as aforesaid as the Governor General in Council, by notification in the *Gazette of India*, from time to time, directs in this behalf. XV of 1872.

Appointment of Commissioners to examine registers. [Cf. 3 & 4 Vic., c. 94, s. 2.]

29. (*1*) The Governor General in Council may appoint so many persons as he thinks fit to be Commissioners for examining the registers or records sent to the Registrar General of Births, Deaths and Marriages under the last foregoing section.

(*2*) The Commissioners so appointed shall hold office for such period as the Governor General in Council, by the order of appointment, or any subsequent order, directs.

Duties of Commissioners. [Cf. 3 & 4 Vic., c. 92, ss. 2 and 4.]

30. (*1*) The Commissioners appointed under the last foregoing section shall enquire into the state, custody and authenticity of every such register or record as may be sent to the Registrar General of Births, Deaths and Marriages under section 28,

and shall, from time to time, deliver to the Registrar General a descriptive list or lists of all such registers or records, or portions of registers or records, as they find to be accurate and faithful.

(*2*) The list or lists shall contain the prescribed particulars and refer to the registers or records, or to the portions of the registers or records, in the prescribed manner.

(*3*) The Commissioners shall also certify in writing, upon some part of every separate book or volume containing any such register or record, or portion of a register or record, as is referred to in any list or lists made by the Commissioners, that it is one of the registers or records, or portions of registers or records, referred to in the said list or lists.

Searches of lists prepared by Commissioners and grant of certified copies of entries. [Cf. 3 & 4 Vic., c. 92, s. 5.]

31. (*1*) Subject to the payment of the prescribed fees, the descriptive list or lists of registers or records, or portions of registers or records, delivered by the Commissioners to the Registrar General of Births, Deaths and Marriages shall be, at all reasonable times, open to inspection by any person applying to inspect them, and copies of entries in

The Births, Deaths and Marriages Registration Bill, 1885.

(*Chapter VI.—Rules.—Sections 32-33.*)

those registers or records shall be given to all persons applying for them.

(2) A copy of an entry given under this section shall be signed by the Registrar General of Births, Deaths and Marriages, and shall be admissible in evidence for the purpose of proving the birth, baptism, naming, dedication, death, burial or marriage to which the entry relates.

CHAPTER VI.

RULES.

[Cf. 37 & 38 Vic., c. 88, s. 27; also Act XV of 1872, s. 82.]

Power for Governor General in Council to make rules.

32. The Governor General in Council may, from time to time, make rules—

(*a*) to fix the fees payable under this Act;

(*b*) to prescribe the forms required for the purposes of this Act;

(*c*) to prescribe the time within which, and the mode in which, persons authorized under this Act to give notice of a birth or death to a Registrar of Births and Deaths must give the notice;

(*d*) to prescribe the registers to be kept, and the form and manner in which Registrars of Births and Deaths are to register births and deaths under this Act, and the intervals at which they are to send true copies of the entries of births and deaths in the registers kept by them;

(*e*) to prescribe the particulars which the descriptive list or lists to be prepared by the Commissioners appointed under Chapter V are to contain, and the manner in which they are to refer to the records or registers, or portions of records or registers to which they relate; and

(*f*) generally to carry out the purposes of this Act.

Procedure for making and publication of rules.

33. (1) The Governor General in Council shall, before making rules under the last foregoing section, publish a draft of the proposed rules in such manner as may, in his opinion, be sufficient for the information of persons likely to be affected thereby.

(2) There shall be published with the draft a note specifying a date at or after which the draft will be taken into consideration.

(3) The Governor General in Council shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(4) Every rule made under this section shall be published in the *Gazette of India*, and the publication in the *Gazette of India* of a rule purporting to be made under the last foregoing section shall be conclusive evidence that it has been duly made.

STATEMENT OF OBJECTS AND REASONS.

IT is proposed by this Bill (1) to establish a system of voluntary registration of births and deaths for the benefit of such classes of the community as would be likely to avail themselves of such registration, (2) to establish general registry offices for keeping registers of the births and deaths so registered, and of marriages registered under Act III of 1872 or the Indian Christian Marriage Act, 1872 (XV of 1872), and (3) to provide machinery for giving evidential value to certain existing registers of births, baptisms, deaths, burials and marriages, which have been kept under no law.

2. The subject of the registration of births and deaths among Europeans in India has been long under the consideration of the Government, whose attention has, moreover, been frequently directed to it by memorials from various Christian religious bodies urging very strongly the need for legislation.

3. The Indian Statute-book contains at present no general law for the registration of births and deaths. There are, indeed, enactments which provide for the registration of births and deaths within certain specified areas, principally municipalities and cantonments, but, in the first place, these enactments are strictly local in their nature, leaving the greater portion of the country unprovided for, and, in the next place, their provisions, being directed primarily to statistical purposes, are not of such a nature as to make the registers of births and deaths kept under them of value for purposes of evidence.

4. As to the numerous registers of baptisms and burials which are kept by ministers of religion in all parts of the country, it is doubtful how far they can be relied on for giving accurately the requisite particulars as to births and deaths, and most of them would, moreover, be inadmissible in evidence.

5. This being the state of the law, and considering the importance of the subject generally, and the memorials above referred to, and having regard to the fact that references are frequently made to the Secretary of State for India and to the Government of India for proof of age or of deaths in connection with questions involving large individual interests, such as rights to property, the Government of India is of opinion that it is expedient to enact a permissive law under which full facilities for registering births and deaths should be given to persons valuing unimpeachable evidence of these events.

6. As to the second object of the Bill, it is obvious that no system of registration of births and deaths can be complete or of practical value unless it provides for the establishment, at certain centres, of general offices where the information registered at the various local offices shall be collected and so arranged as to be readily available for public reference.

7. In this connection, the attention of the Government of India has been directed to the unsatisfactory nature of the system of registration of marriages under the Indian Christian Marriage Act, 1872, and Act III of 1872.

Documentary evidence of all marriages under the former Act is, by the provisions of the Act or the orders thereunder, sent to the Secretary to the Local Government, who is also empowered to grant certified copies which are receivable in evidence. It would seem, therefore, at first sight, that nothing further was required. But, as a matter of fact, not only are no arrangements made for maintaining an index to the marriages the records of which are retained in the local Secretariat, but the greater portion of the marriage records which are received in the local Secretariat have, under section 81 of the Act and the orders in force, to be sent on *in original* to the Government of India in the Home Department for transmission to the Secretary of State; so that the greater number of the marriage records which reach the local Secretariat do not remain there for purposes of reference, and such as do remain are, owing to the absence of an index, practically valueless.

As to Act III of 1872, this Act makes no provision for the marriages solemnized under it being reported to any central authority. The marriage-certificate books for which it provides are retained by the Registrar, who is not even required to index them. Their value as records of the marriages to which they refer is accordingly much diminished.

8. The Government of India have, therefore, availed themselves of the opportunity of the proposed legislation for the registration of births and deaths to remove these defects in the marriage-registration law, by providing for general registry offices for keeping registers, not only of the births and deaths which may be registered under the proposed law, but also of marriages which may be registered under Act III of 1872 or the Indian Christian Marriage Act, 1872.

9. The present Bill extends (section 2) to the whole of British India, and, so far as regards subjects of Her Majesty, to the dominions of Princes and States in India in alliance with Her Majesty.

10. As there seems to be no way of utilizing for the special purposes in view the compulsory system of registration of births and deaths which is prescribed by the local laws referred to in paragraph 3 above, or of separating the registration of the limited classes affected by the Bill from that of the general population which is required under those laws, it has been found necessary to save the laws providing for the registration of births and deaths within particular local areas at present in force or which may hereafter be passed; and this is done by section 4. The result of this section will, therefore, be that the persons to whom the provisions of the Bill relating to the registration of births and deaths are applicable will be bound, as heretofore, to satisfy the statistical requirements of such local Acts, and will be at liberty to re-register births and deaths under the Bill for evidential purposes.

11. Chapter II provides (section 5) for the establishment by the Local Governments of general registry offices of births, deaths and marriages, and the appointment of Registrars General of Births, Deaths and Marriages. By section 6 indexes are to be kept at the general registry offices of all the certified copies of registers which may be sent to them under the Bill or under Act III of 1872 or the Indian Christian Marriage Act, 1872. These indexes (section 7) are to be open to public inspection, and copies of the entries in the certified copies of the registers to which they relate are to be given to all persons applying for them; and such copies are (section 8) to be admissible in evidence. By section 9 the Registrar General is given the superintendence of the Registrars of Births and Deaths.

12. Chapter III deals with the subject of registration of births and deaths. Section 10 defines the persons whose births and deaths are registrable as, in British India, the members of every race, sect or tribe to which the Indian Succession Act, 1865, applies and in respect of which an order under section 332 of that Act is not for the time being in force, and all persons professing the Christian religion, and in Native States all like persons who are British subjects. These provisions of the Bill will therefore, generally speaking, apply to East Indians, Jews, Armenians and Pársís as well as to Europeans and Native Christians. These are believed to be the only classes of persons in the country who are likely to avail themselves of the benefits of a law of this nature.

13. The chapter then provides for a registration establishment, empowering (sections 11 and 12) the Local Government in British India and the Governor General in Council in Native States to appoint either by name or by virtue of their office fit persons to be Registrars of Births and Deaths for definite local areas. It is proposed to appoint under the general powers given by these sections persons authorized or licensed to perform marriages under either Act III of 1872 or the Indian Christian Marriage Act, 1872, and, in order to provide for the receipt of notices from persons who may prefer not to resort to the Marriage Registrars, other suitable persons, one of whom it is intended should be appointed for each local area for which a person who is also a Marriage Registrar is appointed. It is to the latter class of Registrars that sections 13 and 14, which lay down certain provisions as to the office of such

Registrars, and for the filling up temporary vacancies in the office of such Registrars, are intended to apply. Section 15 provides for the supply of register books and the preservation of records.

14. The chapter next treats of the mode of registration. It imposes (section 16) a duty on every Registrar of Births and Deaths to make an entry in his register book of all births and deaths of which notice may be given to him within the prescribed time and in the prescribed mode by a person authorized to give him such notice. It then (sections 17 and 18) specifies the persons who shall be authorized to give notice of births and deaths respectively.

Section 19 provides that the entry of the birth or death is to be signed by the person giving notice, and declares that until it is so signed the birth or death shall not be deemed to be registered. By section 20 every Registrar of Births and Deaths is required to give on application made at the time of registering any birth or death by the person giving notice of the same, and on payment by him of the prescribed fee, a certificate of having registered the birth or death.

Section 21 provides for the sending by every Registrar of Births and Deaths at prescribed intervals to the Registrar General of Births, Deaths and Marriages of certified copies of all entries in his register books. In the case of Registrars in British India, the copies are to be sent to the Registrar General within whose jurisdiction the local areas for which the Registrar is appointed is situate, an exception being made in the case of Registrars who are clergymen of the Churches of England, Rome and Scotland, who may send them to their ecclesiastical superiors to be forwarded by them to the Registrar General. In the case of Registrars in Native States, the copies are to be sent to such one of the Registrars General as the Governor General in Council may, by notification in the *Gazette of India*, direct in this behalf. Section 22 provides for searches, and grant of copies of entries in register books which shall be admissible in evidence.

15. Sections 23 and 24 prescribe penalties of imprisonment which may extend to three years and fine for wilfully giving false information to a Registrar of Births and Deaths, and of fine, which may extend to five hundred rupees, for Registrars of Births and Deaths omitting to enter births or deaths in the register or losing or injuring register books.

16. Lastly, section 25 prescribes the procedure by which errors in the form or substance of any entry in a register book of births and deaths may be corrected.

17. Chapter IV (sections 26 and 27) makes the amendments in Act III of 1872 and the Indian Christian Marriage Act, 1872, which are necessary in order to make the provisions of these Acts fit in with the scheme of the Bill, under which certified copies of entries in the registers kept under these Acts are in future to be sent to the Registrar General of Births, Deaths and Marriages.

18. Chapter V deals with the last of the three subjects referred to in the first paragraph of this Statement. As noted above, registers of births or baptisms and deaths or burials are at present kept in all parts of the country by ministers of religion. Registers of marriages were also similarly kept before the marriage-registration law came into force. Most of these registers are, as the law now stands, inadmissible in evidence, and possibly many of them should never be admitted in evidence owing to the irregular manner in which they have been compiled. At the same time, others are probably fit for admission as public registers. Under these circumstances, it seems advisable to follow the analogy of what was done in England (see 3 & 4 Vic., c. 92) and provide a procedure under which such of these registers as are worthy of recognition may be validated and certified copies of entries made in them declared admissible in evidence. This is accordingly done by Chapter V.

19. That chapter first (section 28) declares that any person having custody of any such records may, within one year from the date on which the Bill comes into force, send them to the Registrar General of Births, Deaths and Marriages for the territories within which the person resides, or, if he resides in a Native State, to such one of those Registrars General as the Governor General in Council, by notification, directs. It then (section 29) provides for the appointment by the Governor General in Council of Commissioners to examine the registers so sent to the various Registrars General, and prescribes (section 30) the duties of the Commissioners, which are to inquire into the state, custody and authenticity of every register submitted to them, and to prepare lists of all such registers or portions of registers as they find to be accurate and faithful, and to certify upon some part of every book or volume containing any such register or portion of a register as is referred to in any such list that it is one of the registers referred to in the list. Section 31 permits, on payment of a fee, searches to be made of the lists so prepared, and provides for the grant of certified copies of the entries in the registers which shall be admissible in evidence.

20. Finally, Chapter VI (sections 32 and 33) empowers the Governor General in Council to make rules with regard to certain matters connected with the purposes of the Act, and prescribes the usual procedure for the making and publication of such rules.

C. P. ILBERT.

The 2nd January, 1885.

R. J. CROSTHWAITE,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 16th January 1885:—

No. 2 OF 1885.

A Bill to provide for the temporary appointment from time to time of an Additional Judicial Commissioner for Oudh.

WHEREAS it is expedient to provide for the temporary appointment from time to time of an Additional Judicial Commissioner to assist the Judicial Commissioner of Oudh; It is hereby enacted as follows:—

Short title and commencement.

1. (*1*) This Act may be called the Oudh Additional Judicial Commissioner's Act, 1885; and

(*2*) It shall come into force at once.

Appointment of Additional Judicial Commissioner of Oudh.

2. (*1*) The Local Government may, from time to time, with the previous sanction of the Governor General in Council, by notification in the local official Gazette, appoint such person as it thinks fit to be an Additional Judicial Commissioner, and to sit as such in the Court of the Judicial Commissioner of Oudh.

(*2*) Every person so appointed shall hold his office during the pleasure of the Local Government.

Jurisdiction and powers of Additional Judicial Commissioner.

3. Every Additional Judicial Commissioner shall exercise such jurisdiction and powers of the Judicial Commissioner under the Oudh Civil Courts Act, 1879, as the Local Government may, from time to time, prescribe, but only in such cases as the Judicial Commissioner may direct. XIII 1879.

Law applicable to Additional Judicial Commissioner.

4. Every enactment for the time being applicable to the Judicial Commissioner shall apply to the Additional Judicial Commissioner when exercising any jurisdiction or powers under the last foregoing section as if he were the Judicial Commissioner.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide for the temporary appointment, from time to time, as it may be deemed necessary, of an Additional Judicial Commissioner of Oudh.

The steady increase in the work that falls upon the Judicial Commissioner of Oudh, and the accumulation of arrears, have made it necessary to adopt some plan for assisting him in the discharge of his functions; and the simplest arrangement would seem to be the appointment, as occasion requires, of an Additional Judicial Commissioner.

The Bill (section 2) empowers the Local Government, with the sanction of the Governor General in Council, from time to time, to appoint an Additional Judicial Commissioner, who is to hold office during the pleasure of the Local Government. The Additional Judicial Commissioner so appointed is (section 3) to exercise such jurisdiction and powers of the Judicial Commissioner under the Oudh Civil Courts Act as the Local Government may prescribe, but only in such cases as the Judicial Commissioner directs. The Local Government will thus be able to regulate the jurisdiction and powers of the Additional Judicial Commissioner in such a way as to prevent any conflict between them and those of the Judicial Commissioner, while the latter officer will be able to arrange for the distribution of business as may appear to him to be most convenient. Lastly (section 4), all enactments applicable to the Judicial Commissioner are declared to be applicable to the Additional Judicial Commissioner, so that his legal status generally will be identical with that of the Judicial Commissioner.

J. W. QUINTON.

The 16th January, 1885.

R. J. CROSTHWAITE,
Offg. Secretary to the Government of India.

Returns of Accidents to trains, &c., on the open lines of Railway in India for the quarter ending 30th June 1884.

OBSERVATIONS.—As compared with the corresponding quarter of the previous year, with an increase of 525½ miles, or 5·08 per cent. in the mean mileage open, and a decrease of 767,154 miles, or 6·39 per cent. in the train-mileage, the number of accidents to trains, rolling stock, permanent-way, &c., shows a decrease of 129, or 11·68 per cent. The following are the Railways on which the fluctuations chiefly took place :—

	Increase.	Decrease.
East Indian	...	25
South Indian	...	31
Great Indian Peninsula	...	71
Sind, Punjab, and Delhi	...	29
Punjab Northern	...	34
Indus Valley	...	42
Calcutta and South-Eastern	19	...

2. The decrease on the East Indian Railway was mainly due to the number of accidents resulting from "trains running over cattle on the line" having decreased from 43 to 29, and that from "trains running over obstructions on the line" from 11 to 6.

3. On the South Indian Railway the number of cattle accidents diminished from 71 to 52, and cases of fire in trains from 9 to 1.

4. Of the decrease of 71 accidents on the Great Indian Peninsula Railway, 16 occurred under "goods trains, or parts of goods trains, engines, &c., leaving the rails," 35 under "fire in trains," 6 under "fire at stations, or involving injury to bridges or viaducts," and 13 under "other accidents." Under cattle accidents there was, however, an increase of 12.

5. On the Sind, Punjab, and Delhi Railway, out of a total decrease of 29 accidents, 4 occurred under "goods trains, or parts of goods trains, engines, &c., leaving the rails," 7 under "bursting of boilers or tubes, &c., of engines," and 12 under "failure of couplings."

6. On the Darjeeling-Himalayan Railway, the total number of accidents was 40, of which 12 occurred under "passenger trains, or parts of passenger trains, leaving the rails," 6 under "goods trains, or parts of goods trains, engines, &c., leaving the rails," 7 under "failure of axles," and 7 under "slips in cuttings or embankments."

7. On the Punjab Northern State Railway there was a satisfactory decrease under "fire in trains," the number of cases having been 8 against 32.

8. On the Indus Valley State Railway the number of accidents under "bursting of boilers or tubes, &c., of engines" decreased from 18 to 2, under "failure of machinery, springs, &c., of engines" from 22 to 5, under "fire in trains" from 30 to 25, and under "other accidents" from 14 to 5.

9. On the Rajputana-Malwa Railway the total number of accidents shows a decrease of 7. It appears that while the number of cattle accidents increased from 66 to 101, the cases of "failure of machinery, springs, &c., of engines" decreased from 15 to 4.

10. On the Calcutta and South-Eastern State Railway the increase chiefly occurred under "trains running over cattle on the line," the number of cases having been 29 against 7.

11. The casualties resulting from "accidents to trains, &c.," exhibit a very large increase, being 16 killed and 38 injured against 3 killed and 31 injured in the corresponding quarter of the previous year; those among passengers were 10 against 19 injured, and, among servants, 16 killed and 26 injured against 12 injured. The increase in the number of casualties to servants is accounted for by the fact that in the case of derailment of a ballast train, on the Sind, Punjab, and Delhi Railway, 14 servants of the Company were killed and 14 injured. The Consulting Engineer, Lahore, reports on the accident as follows:—

"The derailment of the train was caused by a loose buffer rod which was broken in the socket and fell out on the rail on the outside of the leading brake-van. The buffer rod was picked up close to the point of derailment and bears distinct trace of a wheel mark over it.

"No special blame can be attached to any one on the above account, because the fracture of the cotter at the end of the buffer rod could not be detected without careful examination, and would only be known by the buffer working itself out, or if the brake-van had been sent to the shops for repair.

"But it is evident that although the buffer might have dropped out, no accident would have happened to the train had it not been *pushed* by the engine, and the question therefore is, whether the persons in charge of the train were justified in so pushing it under Rules 246 and 321 of the general regulations, and in my opinion they were *not* so justified.

"The criminal prosecutions have resulted in all three men placed on trial being convicted, the guard and the driver being sentenced each to three months' rigorous imprisonment and the station master to three months' simple imprisonment."

12. The following table exhibits the number of accidents under the different classes, and the number of persons killed and injured thereby :—

Description of Accidents.	No. of accidents.	Number of Passengers and others.		Number of Servants.		Total.	
		Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Collisions between passenger trains, or parts of passenger trains	4	...	5	...	...	..	5
Collisions between passenger trains and goods or mineral trains, engines and vehicles standing foul of the line	14	...	2	..	...	...	2
Collisions between goods trains, or parts of goods trains	27	...	...	1	2	1	2
Collisions between light engines	2	...	...	...	5	...	5
Passenger trains, or parts of passenger trains leaving the rails	24	...	...	...	...	...	...
Goods trains, or parts of goods trains, engines, &c., leaving the rails	63	...	...	...	...	.	...
Trains or engines travelling in the wrong direction through points	11	...	...	...	1	...	1
Trains running into stations or sidings at too high a speed	3	...	...	...	...	...	...
Ditto over cattle on the line	468	...	...	...	1	...	1
Ditto over obstructions on the line	28	...	(a)1	...	2	...	3
Ditto through gates at level crossings	13	...	...	...	...	...	...
The bursting of boilers or tubes, &c., of engines	15	..	...	...	...	...	...
The failure of machinery, springs, &c., of engines	47	...	...	...	...	...	...
Ditto tyres	3	...	...	...	...	...	...
Ditto wheels	3	...	...	...	...	...	...
Ditto axles	16	...	...	...	...	..	...
Ditto couplings	28	...	3	1	1	1	4
Ditto tunnels, bridges, viaducts, culverts, &c.	1	...	...	...	..	...	...
Broken rails	1	...	...	...	...	...	...
The flooding of portion of permanent-way	7	...	...	...	...	...	...
Slips in cuttings or embankments	14	...	...	...	...	...	...
Fire in trains	101	..	...	...	...	...	...
Fire at stations, or involving injury to bridges or viaducts	14	...	(a)1	...	...	...	(a)1
Other accidents	68	...	...	14	14	14	14
Total	975	...	(b)12	16	26	16	38

13. The number of cattle accidents increased from 413 to 468. It is observed that there were increases of 12, 35, and 22 on the Great Indian Peninsula, Rajputana-Malwa and Calcutta and South-Eastern Railways, whilst there were decreases of 14 and 22 on the East Indian and South Indian Railways, respectively.

(a).—Not a passenger.
(b).—Of these 10 are passengers.

14. Of the 15 cases of "bursting of boilers or tubes, &c., of engines," 7 occurred on the Rajputana-Malwa and 3 on the Sind, Punjab, and Delhi Railway. On the Indus Valley Railway there was a large decrease under this head, the number reported being 2 against 18.

15. The number of cases of "failure of machinery, springs, &c., of engines" decreased from 74 to 47, or by 27, of which 17 occurred on the Indus Valley and 11 on the Rajputana-Malwa Railway.

16. Out of a total of 28 cases of "failure of couplings," 8 were on the Indus Valley and 7 on the Rajputana-Malwa Railway. On the Sind, Punjab, and Delhi Railway there was a large decrease under this head, the number reported being 3 against 15.

17. There was only one case of "broken rails" against 10 in the corresponding quarter of 1883.

18. The cases of "fire in trains" decreased from 158 to 101. As already noticed, the decreases were chiefly on the Great Indian Peninsula, Punjab Northern, and Indus Valley Railways.

19. The casualties to passengers from causes other than accidents to trains, &c., were :—

	Killed.	Injured.
From falling between carriages and platforms	5	...
Falling on to the platform, ballast, &c., when getting into or out of trains	2	1
Falling out of carriages during the travelling of trains	3	22
TOTAL	10	23

20. And the accidents to servants in the employ of Railways, or of contractors, whilst performing duties connected directly with the transit of passengers and goods, from causes other than accidents to trains, &c., were :—

	Killed.	Injured.
During shunting operations	3	9
Falling of engines, vans, wagons, &c.	4	17
Coming in contact with overbridges, &c., during the travelling of trains	...	2
Getting on or off trains, engines, &c.	3	14
Whilst loading, unloading, or sheeting	4	10
Whilst breaking, spragging, or chocking wheels	...	3
Whilst working at cranes or capstans	...	2
Whilst working on the permanent-way or in sidings	1	1

	Killed.	Injured.
Whilst walking along the line on the way home or to work	1	1
Whist walking, crossing, or standing on the line	9	3
Whilst passing between vehicles	1	1
Whilst attending to the machinery of engines, cleaning them, &c.	1	4
Whilst attending to gates at level-crossings	1	1
Falling or being caught between vehicles and platforms	2	2
Falling off ladders, scaffolds, platforms, &c.	...	2
By falling of lamps, wagon doors, timber, weights, &c.	...	2
Whilst coupling or uncoupling wagons	...	8
Miscellaneous	3	18
TOTAL	33	100

21. Of other persons killed and injured by running trains, &c., 2 were killed and 3 injured whilst passing over the line at level-crossings, 33 were killed and 6 injured whilst trespassing on the line; 15 committed suicide, and 7 were killed and 5 injured from miscellaneous causes.

22. The following table shows the total number of persons killed and injured from causes unconnected with the working of trains, as compared with the corresponding quarter of 1883 :—

	2ND QUARTER, 1883.		2ND QUARTER, 1884.	
	Killed.	Injured.	Killed.	Injured.
PASSENGERS.				
From causes beyond their own control	...	22	...	14
From misconduct or want of caution	10	36	10	19
SERVANTS.				
From causes beyond their own control	2	28	17	36
From misconduct or want of caution	32	100	32	90
OTHERS.				
Whilst passing at level-crossings	1	1	2	3
Trespassers, including suicides	38	3	48	6
Other persons	6	2	7	5
TOTAL	89	192	116	173

23. In addition to the above, 12 persons are reported to have been killed, and 67 injured in yards, workshops, &c., and 107 persons to have met death in carriages and at stations from causes unconnected with the working of trains.

RESOLUTION.—The necessary steps in the matter of the unfortunate ballast train accident near Khana Station, Sind, Punjab, and Delhi Railway, on the 30th May 1884, have already been taken by the Government of India, so further reference is not now required.

2. The satisfaction of the Government of India should be communicated to the authorities concerned at the decrease in the number of accidents on the East Indian, South Indian, Great Indian Peninsula, Sind, Punjab, and Delhi, Punjab Northern, and Indus Valley Railways; and especially the decrease under "trains running over cattle" on the South Indian Railway, and "fire in trains" on the Great Indian Peninsula and Punjab Northern Railways. The attention of the Director General of Railways should be invited to the increase in the number of cattle accidents on the Calcutta and South-Eastern Railway, and that of the Government of Bombay to the increase in this class of accident on the Rajputana-Malwa Railway.

ORDER.—Ordered, that this Resolution, together with the Abstract Returns compiled by the Government of India, be communicated to the Governments, Administrations, and Officers noted in the margin, for information.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners of the Central Provinces, Assam, and British Burma.
The Residents, Hyderabad and Mysore.
The Agents to the Governor General for Rajputana, Central India, and Biluchistan.
The Director General of Railways.
The Consulting Engineers to the Government of India for Guaranteed Railways.

Ordered also, that copies be forwarded to the Secretary of State for the information of Her Majesty's Government.

Ordered further, that this Resolution, with the Abstract Returns, be published in the Supplement to the *Gazette of India*.

D. BARBOUR,
Secretary to the Government of India.

SUPPLEMENT TO THE GAZETTE OF INDIA, JANUARY 24, 1885.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House on Friday, the 16th January, 1885.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.P., G.C.B., G.C.M.G., P.C., G.M.S.I., G.M.I.E., *presiding*.
His Honour the Lieutenant-Governor of Bengal, K.C.S.I., C.I.E.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
The Hon'ble J. Gibbs, C.S.I., C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble T. C. Hope, C.S.I., C.I.E.
The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.
The Hon'ble Mahárájá Luchmessur Singh, Bahádur, of Durbhunga.
The Hon'ble J. W. Quinton.
The Hon'ble T. M. Gibbon, C.I.E.
The Hon'ble Amír Alí.
The Hon'ble W. W. Hunter, LL.D., C.S.I., C.I.E.
The Hon'ble H. J. Reynolds.
The Hon'ble Rao Saheb Vishvanath Narayan Mandlik, C.S.I.
The Hon'ble Peári Mohan Mukerji.
The Hon'ble H. St. A. Goodrich.

BIRTHS, DEATHS AND MARRIAGES REGISTRATION BILL.

The Hon'ble MR. ILBERT introduced the Bill to provide for the voluntary Registration of certain Births and Deaths, for the establishment of General Registry Offices for keeping Registers of certain Births, Deaths and Marriages, and for certain other purposes, and moved that it be referred to a Select Committee consisting of the Hon'ble Sir S. Bayley, Messrs. Hunter, Amír Alí and Goodrich and the Mover.

The Hon'ble MR. AMÍR ALÍ said:—"Though I shall have an opportunity of submitting certain proposals which I have informally mentioned to the hon'ble the Law Member for the purpose of extending the operation of this Bill, I think it desirable that I should say a few words in Council to indicate the direction to which my proposals tend, and to draw some degree of public attention towards them. As the Bill stands at present, its operation is confined exclusively to those classes of the community who are subject to the Indian Succession Act. I do not exactly understand the reason for confining the operation of the Bill to those classes, and it has been strongly represented to me to urge upon this legislature the desirability of extending the benefits of such provisions, the want of which is felt almost every day throughout the Mufassal, to all Her Majesty's subjects in India. When it is remembered what an important position the law of intestate succession holds in both the Hindu and Muhammadan systems of jurisprudence, and the difficulties which arise regarding questions of the dates of births and deaths of individuals, I think the demand will not be considered to be unreasonable. Besides, amongst Muhammadans questions relating to the custody of children are connected materially with the question of the age of children; and though amongst Hindus the method of keeping a record of the date of birth is more regular than amongst Muhammadans, still as far as both the

communities are concerned the evidential value of such records as are produced in Courts has been very much questioned, and I may mention that, in the case of candidates going to England to study for the Civil Service, difficulties have frequently arisen regarding their age, which, I submit, would be avoided if Hindus and Muhammadans were allowed to have the benefit of this measure. Questions might arise with reference to the machinery under which such registration can be effected, but, as far as Muhammadans are concerned, there is at present a machinery existing under the Bengal Council Act I of 1876 for the optional registration of marriages which can be very usefully made to serve the purposes of registration of births and deaths also amongst Muhammadans. With reference to Hindus of course it will be a matter for the consideration of the Select Committee what special measures should be enforced in regard to them."

The Hon'ble MR. ILBERT said:—"Our desire is to extend the procedure for the voluntary registration of births and deaths to those classes of the community who are likely to avail themselves of it, and to whom it is likely to prove of material use. If there is any reason to believe that this procedure will be of use to the Muhammadan community, I am sure there will be every disposition on the part of the Government of India to extend it to Muhammadans as well as to the other classes who are named in the Bill. Perhaps the hon'ble member and his friends will bring the subject before the Local Governments, to whom this Bill will be referred, and then we shall be in a position to discuss the question when the Bill comes before the Select Committee for consideration."

The Hon'ble RAO SAHEB VISHVANATH NARAYAN MANDLIK said:—"It strikes me that the Bill as it has been introduced will be better adapted for the purposes for which it is intended than if its scope is extended as has been suggested by the Hon'ble Amír Alí. I am sorry I cannot see my way to support the changes indicated by Mr. Amír Alí, because, to speak nothing of financial considerations, there are other difficulties in the way. Indeed, so far as I know, the feelings of leading Hindu gentlemen all over India (outside Bengal perhaps) would be opposed to any system of registering marriages, births, &c. None but those mentioned by Mr. Ilbert has asked for it. The question of sending candidates for the Civil Service to England may be a very important one to the very few persons who are concerned, and even in their case there is no real difficulty; and it strikes me that, when we consider the number of people whom this Bill will affect, if its provisions are extended to Hindus and Muhammadans, and the cost of the machinery which will be required to bring the Bill into operation, and also the little value which would be set upon it by those classes,—I am now speaking the views of Hindus and Muhammadans of nearly all the provinces in India,—I think it is a matter of serious consideration whether, without a proper reference to the Governments of the various provinces, this Council would think of extending the scope of the Bill in the manner which has been suggested by the hon'ble member."

The Hon'ble MR. ILBERT explained that there was no proposal before the Council to extend the scope of the Bill at the present stage.

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill and Statement of Objects and Reasons be published in the local official Gazettes in English and in such other languages as the Local Governments might think fit.

The Motion was put and agreed to.

OUDH ADDITIONAL JUDICIAL COMMISSIONER'S BILL.

The Hon'ble MR. QUINTON moved for leave to introduce a Bill to provide for the temporary appointment from time to time of an Additional Judicial Commissioner for Oudh. He said:—

"MY LORD,—Under the existing law relating to Civil Courts in Oudh the Court of the Judicial Commissioner consists of a single Judge. When that

law (Act XIII of 1879) was passed, it was considered apparently that no great increase in the work of the Judicial Commissioner's Court was to be expected, and that a Court consisting of a single Judge would be strong enough to dispose of the business imposed by law on the Judicial Commissioner. These expectations have proved to be unfounded. The work of the Judicial Commissioner's Court has increased very materially, and arrears have accumulated in proportion. Civil appeals rose from 271 in 1879 to 566 in 1883, appeals of all descriptions from 765 in the former to 1,194 in the latter year, and the list of appeals of all sorts in arrears has now reached the unprecedented number of 699.

"The Lieutenant-Governor and Chief Commissioner is satisfied that this steady increase of arrears is not attributable to any lack of exertion or to any want of ability on the part of the presiding officer of the Court, but to the fact that the work is augmenting annually to a degree that carries its total quantity beyond the power and capacity of a single Judge to cope with properly. This opinion was shared in by the late Judicial Commissioner, Mr. Sparks, described by His Honour as an officer of remarkable industry and long experience in Oudh, who wrote, shortly before his retirement from the service, about a year ago, that the work that comes before the Judicial Commissioner is more than any one officer can dispose of satisfactorily, and that in the preceding year he began with 476 cases, and that at its close 587 were pending.

"I may also say that the mere number of appeals gives an inadequate indication of the pressure of business in the Court. In Oudh, civil suits deal with interests of greater magnitude, owing to the number of tahsíldárí properties, than elsewhere in Upper India, and frequent appeals go before the Privy Council. In 1882 the Judicial Commissioner was engaged for a whole month in trying one suit of this kind, nor does litigation of this class, involving claims to great estates and difficult questions of succession, appear likely to diminish in the Province.

"Under these circumstances the Council will, I hope, admit that an urgent case has been made out for strengthening the Court of the Judicial Commissioner and assisting that officer in the discharge of his more important functions.

"The Bill which I now move for leave to introduce proposes to effect these objects by empowering the Executive Government to make a temporary appointment from time to time of an Additional Judicial Commissioner for Oudh, and is in substance a revival of provisions to that effect which were legally in force in Oudh before the passing of the present Oudh Civil Courts Act."

The Motion was put and agreed to.

The Hon'ble MR. QUINTON also introduced the Bill.

The Hon'ble MR. QUINTON also moved that the Bill and Statement of Objects and Reasons be published in the *North-Western Provinces and Oudh Government Gazette* in English and in such other languages as the Local Government might think fit.

The Motion was put and agreed to.

LAHORE TRAMWAYS BILL.

The Hon'ble MR. ILBERT moved for leave to introduce a Bill to authorize the making and to regulate the working of Street Tramways in Lahore. He said :—"The object of this Bill is merely to confirm and supplement an agreement entered into for making some tramways in Lahore, and it follows very closely the lines of the Rangoon Tramways Act which was passed last year."

The Motion was put and agreed to.

ACT XXII OF 1881 AMENDMENT BILL.

The Hon'ble MR. QUINTON moved that the Bill to amend Act XXII of 1881 be referred to a Select Committee consisting of the Hon'ble Mr. Ilbert, Sir A. Colvin and the Mover, with instructions to report within a month. He said:—

"MY LORD,—The Act which the Bill proposes to amend extends to the territories administered by the Lieutenant-Governors of the North-Western Provinces and the Panjáb, and the Chief Commissioners of Oudh, the Central Provinces, British Burma, Coorg and Ajmer-Merwára.

"When the Bill was introduced I explained to the Council that it had been prepared at the instance of the Government of the North-Western Provinces and Oudh, and in reply to a question from Your Excellency's predecessor stated that before it passed out of Select Committee and came on finally in Council the views of the other Governments affected by it would be received.

"I may now say that replies have already been sent in by all those Governments and Administrations, except one, and that those who have replied are all in favour of legislation in the direction of the Bill, but make suggestions as to modifications of detail which will be considered and dealt with by the Select Committee.

"As the matter is stated by the Government of the North-Western Provinces and Oudh to be one of some urgency, I propose that the Select Committee be directed to report within a month."

The Motion was put and agreed to.

The Council adjourned to Friday, the 23rd January, 1885.

The 13th January 1885.

C. W. ODLING,

Under-Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

To be substituted for the Resolution bearing the same No. and date.

EXTENSION OF THE SYSTEM OF COMPETITIVE EXAMINATIONS FOR THE ADMISSION OF CLERKS INTO GOVERNMENT OF INDIA OFFICES.

No. $\frac{3}{101}$ $\frac{3}{107}$.

Extract from the Proceedings of the Government of India, in the Home Department (Public),—under date Calcutta, the 16th January 1885.

READ—

Home Department Resolution No. 26—953-63, dated the 19th July 1883.

Home Department Resolution No. 31—1336-45, dated 23rd August 1884.

RESOLUTION.

The Resolution of the 19th July 1883, read in the preamble, lays down revised rules for the admission of clerks into the Secretariat Offices attached to the Government of India by a system of competitive examinations, and contains (paragraph 18) a list of the offices to which the rules are applicable. The Governor General in Council is now pleased to extend these rules to the following offices in addition to those enumerated in paragraph 18 of the Resolution of 19th July 1883:

1. The Director General of the Post Office of India.
2. The Northern India Salt Revenue* Department.

*(The head of this Department is left free to choose any passed candidate on the list, irrespective of the position gained by such candidate at the examination, and, in the event of no suitable passed candidates being available, to fill up vacancies in accordance with the existing practice.)

3. The Consulting Engineer for Guaranteed Railways, Calcutta.
4. Military Account Offices in the Bengal Presidency.

(Power is reserved to the Military Department to appoint, when necessary, military soldier clerks possessing technical and professional knowledge in lieu of passed candidates.)

2. As regards the Ordnance Department, the Office of the Inspector General only was included in the Resolution of 19th July 1883; but the system will also in future apply to—

(*a*) the Office of the Director General of Ordnance in India;

(*b*) the Office establishments of the several Arsenals, Depôts and Factories in Bengal.

(Not more than three appointments in the Office establishment of the Director General of Ordnance, and three in that of the Inspector General of Ordnance, Bengal Circle, will be reserved for soldier clerks possessing technical knowledge of Ordnance duties).

3. In the Office of the Commissary General, Bengal, the Governor General in Council has been pleased to decide that the Commissary General shall have the power to set apart a certain number of appointments to be reserved for soldier clerks possessing the necessary technical knowledge of Commissariat duties.

4. With regard to the Office of the Director General of Railways, included in the Resolution of the 19th July 1883, and the Office of the Consulting Engineer for Guaranteed Railways, Calcutta, the Governor General in Council is pleased to decide that the rules shall only apply to the first admission of clerks to the lower division of those offices.

ORDER.—Ordered that a copy of this Resolution be forwarded to all Departments of the Government of India, and that it be published in the Supplement to the *Gazette of India*.

(True Extract.)

D. FITZPATRICK,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 21st JANUARY 1885.

GENERAL REMARKS.—Rain has fallen in Sind and in some districts in the North-Western Provinces and Oudh, Punjab, and in the Central Provinces. There has been slight rain also in the Central India and Rajputana States. Rain fell in some districts of Bengal.

Agricultural prospects continue generally unchanged since last week. In Madras general prospects are fair except in Bellary and Anantapur where the standing crops are still in poor condition. In Mysore, except in the Tumkur district, standing crops are in fair condition. In Coorg the paddy crop has been nearly harvested and coffee-picking is approaching completion; the outturn is short and generally lower than the estimate.

In Bombay the prospects of the *rabi* are good except in one or two places. Drinking-water and fodder are scarce in parts.

In the Berars, Hyderabad, the Cental India and Rajputana States agricultural prospects continue favourable.

In the North-Western Provinces and Oudh and Punjab the standing crops are in good condition and prospects are generally very good.

Seasonable weather prevails in the Central Provinces and prospects continue favourable.

In Bengal the rain of the past week has been beneficial to the *rabi* crops which are generally doing well. Harvesting of *amun* paddy and cutting of sugarcane continue, and mustard and *kalai* are being gathered in some places. In Assam crop prospects are good and in British Burma fair.

Cholera is abating in Coimbatore, but in Tanjore, Madura, and Malabar the mortality is still high. Elsewhere in the country the public health is generally fair or good.

Prices are falling in the North-Western Provinces and Oudh and in the Punjab.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(Jan. 21st)		
Bellary	*Nil*	Standing crops dry and wet withering from want of rain; harvest paddy and dry grains, yield below average.
Kurnool	,,	Standing crops good except in one division and in parts of 3 taluks where they are withering from want of rain; harvest pulses, outturn three-fourths of average; smallpox in 3 taluks.
Ganjam	,,	Smallpox, cholera, and cattle-disease prevalent.
Kistna	,,	Standing crops generally good; harvest paddy; river 2·1 feet over anicut; fever and smallpox prevalent.
Chingleput (Madras)	,,	Standing crops good in parts but affected by insects in 2 taluks; harvest paddy, outturn below half the average. Smallpox and cattle-disease exist; 104 deaths from cholera.
Coimbatore	,,	Standing wet crops generally good; dry crops affected by insects and disease; harvest paddy, outturn average; dry grains below average; fever exists; cholera abating, 336 deaths.
Tanjore	,,	Rivers 1 to 4 feet; standing crops good except where damaged by late heavy rain and floods; harvest wet and dry crops, outturn below average; 474 deaths from cholera.
Madura	,,	Fever prevails; 128 deaths from cholera.
Malabar	,,	Harvest of second crop paddy nearly over, outturn about average; fever in 2 taluks; smallpox and cattle-disease slight; 115 deaths from cholera.
Travancore	,,	Harvest second crop paddy; fever and cholera exist.
		General Remarks.—General prospects fair, except in parts of Bellary and Anantapur.
Bombay—(Jan. 21st)		
Karachi	In Karachi ·45, average of twelve other stations ·17.	River at Kotri on 17th 8 feet 9 inches against 3 feet 10 inches on corresponding date last year; cholera cases during week in Shahbandar 9, deaths 9, in Ghorabari 2, in Sehwan 12, one case only remaining in Sehwan taluka; fever generally prevalent; smallpox in 22 villages in the district, 30 fresh cases, 2 deaths, 27 remaining sick; cattle-disease in 6 talukas, loss of 35 bullocks and 35 buffaloes; *rabi* crops in Sehwan taluka affected by cold; prices—wheat, red rice, and *bajri* in Karachi 26, 28, and 40, in Manjhand 32, 36, and 40, in Tatta 28, 40, and 36, and in Juli 26, 40, and 42 lbs. per rupee respectively.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Hyderabad . . .	Rain good. In Hyderabad ·28 on 15th and ·12 on 17th; in Dera Mohabat ·42 on 14th; in Mirpur khas ·28 on 15th; in Guni, ·39 on 15th and ·20 on 17th.	Cotton crops slightly injured by rain and frost in Hyderabad taluka. River at Kotri on 17th 8 feet 9 inches against 3 feet 2 inches on same date last year. Fever in 5, smallpox in 2, and cattle-disease in 2 talukas; wheat 32, *bajri* 42, *jowari* 42, red rice 28, and white rice 20 lbs. per rupee.
Ahmedabad . . .	. . . .	*Rabi* crops in Modasa and Gogo slightly affected by cloudy weather. Fever in Dholka. Wheat 32 and *bajri* 35 lbs. per rupee
Baroda . . .	. . . .	Public health good; crops in good condition; prices—*bajri* 32 and *jowari* 24 lbs. per rupee.
Surat	. . . .	Standing crops healthy. Fever in 3 talukas; *jowari* 37 and *nagli* 47 lbs. per rupee.
Násik	. . . .	*Rabi* crops good; public health generally good; wheat 37, *bajri* 34, and rice 21 lbs. per rupee.
Colaba (Bombay) . .	. . . .	Abnormal temperature fell from 1° cool on 14th to 2° cool on 15th, rose to *nil* by the 17th and remained *nil* till 20th; vapour in air excessive on 18th and 19th; wind normal.
Poona . . .	. . . .	*Rabi* crops good; cattle-disease in one village in Khed taluka; slight smallpox in a village in Purandhar taluka; *bajri* 32 and *jowari* 38 lbs. per rupee, in Poona *bajri* 32 and *jowari* 35 pounds per rupee.
Ahmednagar . .	. . . .	*Rabi* crops generally good except where damaged by recent rains; fever and cough in Jamkhed; rates in Koparg on and Sangamner—*bajri* 36 to 14 and *jowari* 36 to 60 lbs. per rupee.
Sholapore . . .	*Nil*	Condition of young *rabi* crops unchanged; cotton crops inferior in Barsi taluka; *jowari* 37 lbs. 6 tolas and *bajri* 35 lbs. 21 tolas per rupee.
Dharwar . . .	. . . .	Harvesting of rice completed, that of early *jowari* in progress; exotic cotton blighted in some villages of 3 talukas; scarcity of fodder in Navalgund, Mundargi, Karajgi, and Ron, that of drinking water in Nargund and Bankapur; rice 20 to 32 and *jowari* 35 to 51 lbs. per rupee.
Kanara . . .	. . . .	Common rice in Karwar and in district 14 seers per rupee; weeding second crop in Karwar; smallpox, 2 deaths in Sirsi taluka and Lupa Petha; fever in Honavar and Ghat talukas; cholera, 1 death in Haliyal taluka, no new cases; weather fair.
Rajkot . . .	. . .	General health good; fever still prevalent in some talukas; smallpox among cattle appeared in Dedan; Bajri 33 and *jawri* 44 lbs. per rupee.
		General Remarks.—Rain in parts of Sindh; cotton in parts of Hyderabad and other crops in parts of Shikarpur injured by rain and frost; *rabi* prospects good except in parts of Kaladgi and Belgaum; cotton suffering from blight in parts of Dharwar; scarcity of fodder in four talukas of Dharwar and two of Kaladgi and of drinking water in two talukas of Dharwar; cholera in parts of six districts; fever, smallpox, and cattle-disease continue in parts of several districts.
Bengal—**(Jan. 20th)**		
Chittagong . . .	*Nil*	Weather bright and cool; prospects of crops good; harvesting of *amun* paddy finished with a twelve-anna outturn; prices of food grains stationary; sporadic cases of cholera are still reported.
Dacca	,,	Prospects of standing crops good; cutting of sugarcane continues, *mung*, *maskalai* and mustard are being gathered; *boro* paddy is being sown; public health good.
24-Pergunnahs . .	,,	Prospects of crops continue satisfactory; the yield of the *amun* paddy is above the average; harvesting of paddy on low lands is still going on; price of common rice varies from 14 to 17½ seers per rupee; public heath fair, though some cases of cholera are reported from the Sudder, Diamond Harbour, and Bussirhat sub-divisions state of river normal.
Moorshedabad . .	·11	Weather mild, rather warm for this time of the year; *rabi* crops are still doing well, but more rain is wanted; price of rice ranges from 16 to 17½ seers per rupee; public health very good.
Burdwan . . .	*Nil*	Harvesting of *amun* paddy finished with an average outturn from 3 to 1 annas; *rabi* crops are promising; public heatth good, except a few cases of smallpox here and there.
Rungpore . . .	,,	Weather seasonable; harvesting of *amun* paddy still continues in some places, mustard is being gathered, other crops are doing well; prices of food grains stationary; public health good.
Bhagalpore . . .	,,	Prospects of standing crops good; harvesting of *amun* paddy is over, outturn varies from 6 to 10 annas; price of new rice ranges from 14 to 20 seers per rupee.
Purneah . . .	,,	*Rabi* crops are doing well, but they would be much benefited by rain; mustard is being reaped; common rice is 16 seers per rupee; fever prevalent.
Patna . . .	·05	More rain is required for *rabi* crops; mustard is being reaped in some places; poppy crop is flowering; the recent rain has done some good; public health good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*contd.*		
Darbhanga	*Nil*	Prospects of *rabi* crops generally satisfactory; poppy and tobacco are doing well; prices are slightly rising; public health good.
Hazaribagh		Weather cold; good shower of rain with hailstones fell in the northern part of the district; prospects of *rabi* crops generally good; poppy plants are coming into flower, the hailstones have caused some damage to the crop; cases of smallpox are still reported from the interior, otherwise general health good.
Cuttack	*Nil*	Weather seasonably warm; reaping of *sarad* nearly completed: *dalua* and wheat are growing well; price of rice stationary; public health generally good.
Midnapore	,,	Weather warm for the time of the year; the yield of the *amun* paddy is excellent; prospects of standing crops good; prices normal; cases of cholera are still reported from many parts of the district.
Khulna		Weather dry and fair; *amun* paddy gathered in, except in very low lands, good outturn is expected; no other crops are much grown; prices of food-grains normal; public health fair, but cholera is somewhat prevalent.
Dinagepore	,,	Weather seasonable; outturn of *amun* paddy is 12 annas; prospects of winter crops fair; price of rice ranges from 11 to 20 seers per rupee; a few sporadic cases of cholera are reported, otherwise public health good.
Gya	·85	Weather cool with west winds; harvesting of *amun* paddy nearly completed, outturn varies from 2 to 10 annas; prospects of *rabi* crops everywhere good; sugarcane-planting has commenced; poppy crop is doing well everywhere; health of people and cattle good; *marua* is selling at 26 seers per rupee in Nowada; 900 people are engaged on relief works and 31 on gratuitous relief; rivers nearly all dry, the Sone canal and wells supply water.
Chumparun		Harvesting of paddy nearly over; prospects of *rabi* and poppy crops favourable; public health fair.
Shahabad		Cloudy weather and easterly winds have affected prospects of poppy crop, which is generally not so promising as it was before, but on the whole fair.
Mozufferpore		Prospects of poppy crop continue favourable.
Sarun		The general appearance of poppy crop excellent, but weather is not favourable owing to easterly winds and fog.
Monghyr		Poppy crop is in flower and is doing well.
		General Remarks.—Some rain fell, benefiting the *rabi* crops which are generally doing well; mustard and *kalai* are being gathered in some places; harvesting of *amun* paddy on low lands are still going on in many districts; cutting of sugarcane continues; prices of food-grains are almost stationary; cases of cholera are still reported from many districts and smallpox from several, otherwise public health good.
N-W Provinces and Oudh—(Jan. 22nd)		
Benares (Jan. 20th)	1·0	The rain has improved the crops; opium prospects good; though blight has appeared in places; prices falling except barley; no sickness.
Gorakhpur (,, 19th)		Prospects of *rabi* and poppy continues good; poppy on *kewat* land requires rain; weather clear; health good; prices stationary.
Fyzabad (,, 20th)		*Rabi* promising well; opium prospects much improved by fall of rain; no sickness of men or cattle; prices falling; bazars well supplied.
Lucknow (,,) 20th		Weather occasionally cloudy; crops save those affected by the late hailstorm are doing well; irrigation and weeding in progress; condition both of men and cattle good; markets well supplied; prices steady.
Rai Barelli (,, 19th)		Weather cold and cloudy; prospects of *rabi* and poppy crops good; general health good; prices easy.
Partabgarh (,, 20th)	·30 with slight hail at tahsil Kunda on 16th.	Weather cloudy with variable winds; irrigation going on; prospects of *rabi* and poppy crops continue favourable; health of men and cattle good; prices almost stationary.
Allahabad (,, ,,)		Slight rain during week; hail in some places, but not much damage done; crops flourishing and prospects excellent; health good; prices stationary.
Cawnpore (,, 10th)	Slight rain during week in 2 parganas.	Weather variable and cold; *rabi* prospects good; but rain wanted for crops in unirrigated tracts; poppy crops healthy and vigorous; rain however wanted for backward cultivation; health of people good; slight cattle disease reported from two perganas; prices falling.
Banda (,, 21st)	·50	*Rabi* prospects excellent; no distress.
Ballia (,, 19th)	Slight rain on 16th	Weather cloudy; prospects of *rabi* and poppy crops continue favourable; condition of people and cattle good; market well supplied.
Farakhabad (,, 20th)		Slight hail in one tahsil which has damaged tobacco, potatoes, and *rabi* crops, but not to a serious extent; weather cloudy and clear alternately, with sharp north-west wind.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
N.-W. P. & Oudh *contd.*		
Sitapur . (Jan. 21st)	. . . .	Westerly winds have prevailed for the most part during the week; prospects continue favourable, but *channa* has suffered damages from the caterpillars; and rust and blight have in places attacked the wheat and *sarson*; poppy prospects good.
Bareilly . („ 19th)	. . . .	Condition of crops including poppy excellent; market steady; health good.
Kumaon . („ „)	Some rain	Weather fine since rain; crops doing very well; cholera has almost disappeared in the Bhabur; a few cases of smallpox and fever in interior; cattle-disease continues; prices stationary.
Agra . („ 20th)	No rain	Prospects good; recent rain beneficial to crops; irrigation going on; general health good; prices steady.
Jhansi . („ „)	„	*Rabi* prospects excellent; poppy crops flourishing; supplies sufficient; prices falling; health of people and cattle good.
Meerut . („ 19th)	Slight rain during week.	Prospects of *rabi* excellent; supplies ample; prices steady; health good.
		General Remarks.—There was slight rain but beneficial during the week; hail in some places with inconsiderable damage; crops are flourishing, and prospects excellent; the poppy crop promises well; markets are well supplied and prices tend to fall.
Punjab— (Jan. 21st)		
Delhi . . .	·30	Health fair; *rabi* crops promising; prices slightly falling.
Hissar . . .	. . . .	Health fair; *rabi* prospects good; prices slighly falling.
Umballa . . .	. . . .	Fever nearly disappeared; *rabi* prospects much improved by recent rains; prices gradually falling.
Jullundur . . .	*Nil*	Health and prospects of coming crops good; prices steady.
Amritsar . . .	„	Health and crop prospects good; prices almost stationary.
Siálkot . . .	. . . .	Health and crop prospects good; prices falling.
Ferozepore . . .	·90 at Muktsar and ·10 at Tira.	Health and state of crops good; prices slightly falling.
Lahore . . .	*Nil*	Health good; crops fair; prices stationary.
Rawalpindi . . .	3·30	Health and *rabi* prospects good; prices falling.
Mooltan . . .	·10 at Sadr.	Health good; *rabi* prospects favourable; prices stationary.
Dera Ismail Khan . .	·17	Health and crop prospects good.
Peshawar . . .	·30	Health and *rabi* prospects good; prices falling generally.
		General Remarks.—Fever nearly disappeared in the Umballa district; health and crop prospects of the rest of the province good.
Central Provinces— (Jan. 21st)		
Nagpur . . .	. . . .	Weather cloudy more or less; prospects of *rabi* continue favourable; fever in Ramtek; smallpox and cattle-disease in Umrer tahsil; prices stationary.
Jubbulpore . . .	1·31	Weather cloudy; rain beneficial to *rabi* which is in excellent condition; health good; prices stationary.
Sangor (Jan. 20th)	·49, with slight hail	Crops progressing favourably; health good; prices easy.
Seoni	·26	Weather occasionally cloudy; *rabi* crops promise well; health good; cattle-disease continues; prices stationary.
Hoshangabad . .	·54	Weather seasonable; prospects of crops fair; cotton-picking completed; fever in Hoshungabad tahsil; prices steady.
Khandwa . . .	. . . .	Weather occasionally cloudy; *rabi* prospects good; health good; prices stationary.
Raipur . . .	. . . .	Weather clear and getting warm; *rabi* prospects favourable; health good; 191 deaths among cattle in Drug tahsil; prices steady.
Sambalpur (Jan. 17th)	. . . .	Weather clear but not so cold; prospects unchanged; health good; common rice 33 seers per rupee.
		General Remarks.—Weather seasonable; rain reported from northern districts; prospects continue favourable; health generally good; but cattle-disease again reported from Raipur; prices steady.
British Burma— (Jan. 21st)		
Akyab (Jan. 17th)	*Nil*	Cholera severe in district.
Bassein („ „)	„	Public health good in town; slight cholera in district.
Rangoon („ „)	„	Public health good.
Amherst („ „) (Moulmein).	„	Public health good.
Tavoy („ „)	„	Slight cholera and smallpox, otherwise public health good; harvesting in progress.
Pegu („ „)	„	Public health good; reaping nearly over, outturn good.
Henzada („ „)	„	Slight cholera and smallpox, otherwise public health good; prospects of outturn fair.
Prome („ „)	„	Cholera severe in town and district; crops in good condition everywhere; reaping in progress.
Toungoo („ „)	„	Slight small-pox in district, otherwise public health good; reaping progressing.
Thayetmyo („ „)	„	Public health good; reaping completed.
		General Remarks.—Cholera severe in Akyab and Prome, slight in Bassein, Tavoy, Henzada, Kyoukpyu, Sandoway, and Thongwa, elsewhere public health and health of cattle good; crop prospects fair.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Assam—		
(Jan. 21st)		
Gauhati . . .	No rain during the week ending the 20th instant.	Weather seasonable, mornings and nights cool; mustard being harvested; land being prepared for *aus* crop; public health fair.
Sylhet . . .	*Nil*	State and prospects of crops good; cholera and smallpox reported from the several subdivisions.
Cachar . . .	„	Weather cold; reaping of *sail* crop finished, outturn about ¼ less than last year owing to flood of September; common rice 17 seers per rupee; no cholera reported.
Dibrugarh .(Jan. 22nd)	·62	Weather wet; prospects of sugarcane and mustard good; *salidhan* nearly harvested; district healthy.
Mysore and Coorg—		
(Jan. 21st)		
Bangalore		Standing crops in Bangalore and Kolar in fair condition, not so good in Tumkur district; public health good generally, but cholera continues in the Shimoga district; prices rising.
Mercara		Paddy crop nearly harvested; a little coffee remains to be picked, outturn short and in most cases below estimate; food grains show a tendency to rise, the market being affected by that of Mysore.

SAVINGS BANKS.

Calcutta, the 29th January 1885.

No. 462.

ORDER—By the Government of India, Department of Finance and Commerce.

Read the following :—

No. 136, dated 31st December 1884.

From—J. WESTLAND, Esq., Comptroller and Auditor General,

To—The Secretary to the Government of India, DEPARTMENT OF FINANCE AND COMMERCE.

I have the honour to submit my report on District and Railway Savings Banks for the year 1883-84. I have included in it, as usual, some particulars respecting the Savings Banks in Madras and Bombay, the Presidency Savings Bank, Calcutta, and the Military Savings Banks, but I have not received any information respecting the Post Office Banks. This report is therefore incomplete, and does not show all that the Government is doing for the promotion of provident habits in the people of the country. I think this is a defect which should be remedied, and I propose, with the sanction of Government, to ask the Director General of the Post Office to furnish me with the necessary particulars in future.

2. The great feature of the year's operations has been the large purchases of Government securities by Savings Bank depositors. In the Presidency Savings Bank, Calcutta, the balance fell from Rs. 33,24,668 on the 31st March 1883 to Rs. 29,13,921 on the 31st March 1884, the excessive withdrawals being caused chiefly by investment of deposits in Government Promissory Notes which were at a discount for eleven months of the year. The investments by depositors in District Savings Banks, in the Railway Provident Institutions, and in the Post Office Savings Banks amounted to Rs. 2,15,390, Rs. 23,800, and Rs. 1,78,800 respectively. Owing probably to the same cause and to the establishment of Post Office Savings Banks, the balances in the Madras and Bombay Banks diminished during the year by Rs. 1,07,802 and Rs. 2,96,705 respectively.

3. Four additions were made during the year to the number of regimental banks and one to the number of district banks. The new district bank was established at Khulna on the recommendation of the Commissioner of the division, who wrote as follows :—"There is already at Khulna a Postal Savings Bank, but as security deposits tendered by Government officers cannot be lodged in it, nor such deposits made in other districts, where there are Government Savings Banks, can be transferred to its account, there appears to be a necessity for a Government Savings Bank." The following accounts remained in the bank at the close of the year :—

		Rs.	A.	P.
3	Security Deposits	777	7	2
6	Female Depositors	1,882	13	7
7	Minors' Deposits	1,647	6	11
5	Non-official Depositors	1,336	9	0
38	Depositors holding official appointments	4,612	12	6
59	TOTAL	10,287	1	2

4. The District and Railway Banks have been efficiently managed by the local officers in immediate charge of them, except in Assam where the over-payments amounted to Rs. 302-4-10, out of Rs. 321-6-0 which was the total over-payments in all the banks throughout the year. The sums so paid in excess have been recovered, with the exception of a few small amounts aggregating Rs. 2-11-4 which are in course of realisation.

5. I have checked my Savings Bank accounts with those of the Provincial Accountants General and Public Works Department, and have settled the differences with the following exceptions which are in course of adjustment. Five pies in Burma, Rs. 22-11-4 in Assam, one pie in Bengal, and one anna and one pie in the Punjab.

6. The following balances were transferred from the District to the Post Office Savings Banks during the year under review :—

	In 1882-83. Rs.	In 1883-4. Rs.
India	1,126	1,974
Central Provinces	4,081	3,878
British Burma	*Nil*	1,938
Assam	278	1,014
Bengal	19,448	38,925
North-Western Provinces and Oudh	13,357	15,676
Punjab	2,884	26,641
Berar	1,993	7,366
TOTAL	43,167	97,412

7. I enclose statements marked I to VII affording the particulars usually given in my annual reports. They do not call for special remark, except that the deposits in District Savings Banks are falling so steadily that I cannot attribute the reduction to any other cause than the competition of Post Office Banks.

Statements I to VII.

BENGAL-NAGPUR STATE RAILWAY.

NOTIFICATION.

Raipur, the 18th January 1885.

Mr. W. Giles, Assistant Engineer, having been posted to this Railway by the Director General of Railways, see Notification No. 2, dated 2nd January 1885, reported his arrival on 30th December 1884, forenoon.

A. C. CREGEEN,
Engineer-in-Chief,
Bengal-Nagpur State Railway.

BENGAL-NAGPUR STATE RAILWAY.

Tenders are invited, and will be received up to noon of Saturday, 28th February 1885, for the supply of one hundred thousand (100,000) sleepers measuring 10′ 0″ by 10″ by 5″. Separate rates should be quoted for each sleeper of the following descriptions of wood :—

Sal.
Bejar Sar.
Teak.

Delivery of sleepers may be made at approved depôts at Amgaon, Dara-Kassa, Raj-Nandgaon, and Raipur, but at the latter depôt only 25,000 sleepers will be received. The whole of the sleepers must be delivered by 15th October 1885. The Engineer-in-Chief does not bind himself to accept the lowest or any tender.

Further information can be had on application to the Engineer-in-Chief, Camp Raipur, Central Provinces.

HENRY F. BLANFORD,

Meteorological Reporter to the Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co. are distributed by that firm; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows:—

Terms of subscription, payable annually in advance

For the Complete Series, *including postage* . R22 8

	Without postage.	With postage.
For the Calcutta Series	R10 0	R12 8
„ each of the Madras, Bombay and Allahabad Series	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*)		„ 2 0
„ a part of the Madras, Bombay and Allahabad Series purchased separately: *inclusive of postage in India*)		„ 1 0

Persons desiring to subscribe for, or purchase, the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.
„ Thacker & Co., Bombay.
„ Higginbotham & Co., Madras.
The Government Central Book Depôt, Bombay.
„ Curator of Government Books, North-Western Provinces and Oudh.
„ Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1885 should be at once remitted.

NOTICE.

Indian Law Reports.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, by the Calcutta Central Press Company, "Limited," 5—1, Council House Street, at the following rates, payable in advance:—

	One page.	*Half page.*	*Quarter page.*
For one issue	R 15	R10	R 6
„ three issues	„ 40	„ 25	„ 14
„ six „	„ 70	„ 40	„ 25
„ twelve „	„ 110	„ 70	„ 45

At these rates the advertisers will have the option of changing their advertisements in each issue.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First Publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 30th January, 1885, and is hereby promulgated for general information :—

ACT NO. II OF 1885.

An Act to amend the Negotiable Instruments Act, 1881.

WHEREAS it is expedient to amend the Negotiable Instruments Act, 1881, in manner hereinafter appearing; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Negotiable Instruments Act, 1885.

Amendment of section 7, Act XXVI of 1881.

2. In the fourth paragraph of section 7 of the Negotiable Instruments Act, 1881, for the words "When acceptance is refused and the bill is protested for non-acceptance" the following shall be substituted, namely :—"When a bill of exchange has been noted or protested for non-acceptance or for better security".

New section inserted after section 45 of the same Act.

3. After section 45 of the same Act the following shall be inserted :—

Holder's right to duplicate of lost bill.

"45A. Where a bill of exchange has been lost before it is over-due, the person who was the holder of it may apply to the drawer to give him another bill of the same tenor, giving security to the drawer, if required, to indemnify him against all persons whatever in case the bill alleged to have been lost shall be found again.

"If the drawer on request as aforesaid refuses to give such duplicate bill, he may be compelled to do so."

Addition to sections 61 and 64 of the same Act.

4. To section 61, and the first paragraph of section 64, of the same Act, the following shall be added :—

"Where authorised by agreement or usage, a presentment through the post office by means of a registered letter is sufficient."

Addition to section 101 of the same Act.

5. To section 101 of the same Act the following shall be added :—

"A notary public may make the demand mentioned in clause (*c*) of this section either in person or by his clerk or, where authorised by agreement or usage, by registered letter."

Section inserted after section 104 of the same Act.

6. After section 104 of the same Act the following shall be inserted :—

When noting equivalent to protest.

"104A. For the purposes of this Act, where a bill or note is required to be protested within a specified time or before some further proceeding is taken, it is sufficient that the bill has been noted for protest before the expiration of the specified time or the taking of the proceeding; and the formal protest may be extended at any time thereafter as of the date of the noting."

Section 108 of the same Act, in part, repealed.

7. In the same Act, section 108, the second sentence is repealed.

Amendment of section 109 of same Act.

8. In the same Act, section 109,

(*a*) for the words "in the presence of a notary public subscribe the bill with his own hand and" the following shall be substituted, namely :—"by writing on the bill under his hand"; and

(*b*) the last twelve words are repealed.

Amendment of section 113 of same Act.

9. In the same Act, section 113, after the words "the person so paying" the words "or his agent in that behalf" shall be inserted.

New chapter added to same Act.

10. After Chapter XVI of the same Act, the following shall be inserted :—

"CHAPTER XVII.

"NOTARIES PUBLIC.

Power to appoint notaries public.

"138. The Governor General in Council may, from time to time, by notification in the official Gazette, appoint any person, by name or by virtue of his office, to be a notary public under this Act and to exercise his functions as such within any local area, and may, by like notification, remove from office any notary public appointed under this Act.

Power to make rules for notaries public.

"139. The Governor General in Council may, from time to time, by notification in the official Gazette, make rules consistent with this Act for the guidance and control of notaries public appointed under this Act, and may, by such rules, (among other matters) fix the fees payable to such notaries."

R. J. CROSTHWAITE,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First Publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 30th January, 1885, and is hereby promulgated for general information:—

ACT No. III OF 1885.

An Act to amend the Transfer of Property Act, 1882.

WHEREAS it is expedient to amend the Transfer of Property Act, 1882; It is hereby enacted as follows:— 1882.

Amendment of section 1 of Act IV of 1882.

1. For the fifth clause of section 1 of the said Act the following shall be substituted, namely:—

"And any Local Government may, with the previous sanction of the Governor General in Council, from time to time, by notification in the local official Gazette, exempt, either retrospectively or prospectively, any part of the territories administered by such Local Government from all or any of the following provisions, namely:—

"Sections fifty-four, paragraphs two and three, fifty-nine, one hundred and seven and one hundred and twenty-three."

Addition to same section.

2. The following clause shall be deemed to have been added to the first section of the said Act from the date on which it came into force, namely:—

"Notwithstanding anything in the foregoing part of this section, sections fifty-four, paragraphs two and three, fifty-nine, one hundred and seven and one hundred and twenty-three shall not extend or be extended to any district or tract of country for the time being excluded from the operation of the Indian Registration Act, 1877, under the power conferred by the first section of that Act or otherwise." III of 187

Addition to section 4 of same Act.

3. To section 4 of the said Act the following shall be added, namely:—

"And sections fifty-four, paragraphs two and three, fifty-nine, one hundred and seven and one hundred and twenty-three shall be read as supplemental to the Indian Registration Act, 1877." III of 187

Addition to section 6 of same Act.

4. To section 6 of the said Act the following clause shall be added:—

"(*i*) Nothing in this section shall be deemed to authorize a tenant having an untransferable right of occupancy, the farmer of an estate in respect of which default has been made in paying revenue or the lessee of an estate under the management of a Court of Wards to assign his interest as such tenant, farmer or lessee."

Amendment of section 69 of same Act.

5. In section 69 of the said Act—

(*a*) after the words "is valid in the following cases" the words "and in no others" shall be inserted; and

(*b*) after the words "Hindu, Muhammadan or Buddhist," in both places where they occur, there shall be inserted the words "or a member of any other race, sect, tribe or class from time to time specified in this behalf by the Local Government, with the previous sanction of the Governor General in Council, in the local official Gazette."

R. J. CROSTHWAITE,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First Publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 30th January, 1885, and is hereby promulgated for general information :—

ACT No. IV OF 1885.

An Act to provide for the temporary appointment from time to time of an Additional Judicial Commissioner for Oudh.

WHEREAS it is expedient to provide for the temporary appointment from time to time of an Additional Judicial Commissioner to assist the Judicial Commissioner of Oudh ; It is hereby enacted as follows :—

1. (*1*) This Act may be called the Oudh Additional Judicial Commissioner's Act, 1885 ; and

Short title and commencement.

(*2*) It shall come into force at once.

2. (*1*) The Local Government may, from time to time, with the previous sanction of the Governor General in Council, by notification in the local official Gazette, appoint such person as it thinks fit to be an Additional Judicial Commissioner, and to sit as such in the Court of the Judicial Commissioner of Oudh.

Appointment of Additional Judicial Commissioner of Oudh.

(*2*) Every person so appointed shall hold his office during the pleasure of the Local Government.

3. Every Additional Judicial Commissioner shall exercise such jurisdiction and powers of the Judicial Commissioner under any enactment for the time being in force as the Local Government may, from time to time, prescribe, but only in such cases as the Judicial Commissioner may direct.

Jurisdiction and powers of Additional Judicial Commissioner.

4. Every enactment for the time being applicable to the Judicial Commissioner shall apply to the Additional Judicial Commissioner when exercising any jurisdiction or powers under the last foregoing section, as if he were the Judicial Commissioner.

Law applicable to Additional Judicial Commissioner.

R. J. CROSTHWAITE,

Offg. Secretary to the Government of India.

AMENDMENT OF MARRIAGE ACTS, 1872.

26. Addition of new section after section 13, Act III of 1872.
27. Amendment of the Indian Christian Marriage Act, 1872.

CHAPTER V.

SPECIAL PROVISIONS AS TO CERTAIN EXISTING REGISTERS.

28. Permission to persons having custody of certain records to send them within one year to Registrar General.
29. Appointment of Commissioners to examine registers.
30. Duties of Commissioners.
31. Searches of lists prepared by Commissioners and grant of certified copies of entries.

CHAPTER VI.

RULES.

32. Power for Governor General in Council to make rules.
33. Procedure for making and publication of rules.

The Births, Deaths and Marriages Registration Bill, 1885.

(*Chapter II.—General Registry Offices of Births, Deaths and Marriages.—Sections 1-9.*)

A Bill to Provide for the voluntary Registration of certain Births and Deaths, for the establishment of General Registry Offices for keeping Registers of certain Births, Deaths and Marriages, and for certain other purposes.

WHEREAS it is expedient to provide for the voluntary registration of births and deaths among certain classes of persons, for the more effectual registration of those births and deaths and of the marriages registered under Act III of 1872 or the Indian Christian Marriage Act, 1872, and for the establishment of general registry offices for keeping registers of those births, deaths and marriages;

r of 72.

And whereas it is also expedient to provide for the collection and preservation of certain existing registers made otherwise than in the performance of a duty specially enjoined by the law of the country in which the register was kept, and to declare that copies of the entries in those registers shall be admissible in evidence;

It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

Short title and commencement.

1. (*1*) This Act may be called the Births, Deaths and Marriages Registration Act, 1885; and

XV of , s 1.]

(*2*) It shall come into force on such day as the Governor General in Council, by notification in the *Gazette of India*, directs.

Local extent.

2. This Act extends to the whole of British India, and, so far only as regards subjects of Her Majesty, to the dominions of Princes and States in India in alliance with Her Majesty.

Definitions.

3. In this Act, unless there is something repugnant in the subject or context,—

"prescribed" means prescribed by a rule made by the Governor General in Council under this Act; and

"Registrar of Births and Deaths" means a Registrar of Births and Deaths appointed under this Act.

Saving of local laws.

4. Nothing in this Act, or in any rule made under this Act, shall affect any law heretofore or hereafter passed providing for the registration of births and deaths within particular local areas.

CHAPTER II.

GENERAL REGISTRY OFFICES OF BIRTHS, DEATHS AND MARRIAGES.

& 7 V, c. 2.]

Establishment of general registry offices and appointment of Registrars General.

5. (*1*) Each Local Government—

(*a*) shall establish a general registry office keeping such certified copies of registers of b and deaths registered under this Act, or marr registered under Act III of 1872 (*to provi form of marriage in certain cases*), or the In Christian Marriage Act, 1872, as may be sent under this Act, or under either of the two mentioned Acts as amended by this Act; and

(*b*) may, from time to time, appoint to charge of that office an officer, to be called Registrar General of Births, Deaths and riages, for the territories under its administrat

(*2*) Provided that the Governor of Bomba Council may, with the previous sanction of Governor General in Council, establish two ge registry offices and appoint two Registrars Ge of Births, Deaths and Marriages for the territ under his administration; one of such ge registry offices and of such Registrars Ge being established and appointed for Sindh and other for the other territories under the adm tration of the Governor of Bombay in Council.

Indexes to be kept at general registry office.

6. Each Registrar General of Births, Deaths Marriages shall cause ind of all the certified copie registers sent to his o under this Act, Act III of 1872, or the In Christian Marriage Act, 1872, as amended this Act, to be made and kept in his office in prescribed form.

Indexes to be open to inspection.

7. Subject to the payment of the prescribed f the indexes so made shal at all reasonable times o to inspection by any pe applying to inspect them, and copies of entrie the certified copies of the registers to which t relate shall be given to all persons applying them.

Copies of entries to be admissible in evidence.

8. A copy of an entry given under the foregoing section shall signed by the Regis General of Births, De and Marriages, and shall be admissible in evide for the purpose of proving the birth, death or m riage to which the entry relates.

Superintendence of Registrars by Registrar General.

9. Each Registrar General of Births, Dea and Marriages shall exer a general superintende over the Registrars of Bir and Deaths in the territories for which he is pointed.

The Births, Deaths and Marriages Registration Bill, 1885.

(Chapter III.—Registration of Births and Deaths.—Sections 10-18.)

CHAPTER III.

REGISTRATION OF BIRTHS AND DEATHS.

A.—Application of this Chapter.

Persons whose births and deaths are registrable.

10. The persons whose births and deaths shall be registrable under this chapter are as follows, namely :—

(*a*) in British India, the members of every race, sect or tribe to which the Indian Succession Act, 1865. 1865, applies, and in respect of which an order under section 332 of that Act is not for the time being in force, and all persons professing the Christian religion ;

(*b*) in the dominions of Princes and States in India in alliance with Her Majesty, subjects of Her Majesty being members of a like race, sect or tribe or professing the Christian religion.

B.—Registration Establishment.

Power for Local Government to appoint Registrars for its territories.

11. (*1*) The Local Government may, from time to time, appoint, either by name or by virtue of their office, so many persons as it thinks fit to be Registrars of Births and Deaths for such local areas within the territories under its administration as it may, from time to time, define.

ct III of 1865, s.

(*2*) The Local Government may suspend, remove or dismiss any person appointed under this section and appoint another person in his stead.

(*3*) A Registrar of Births and Deaths may resign by notifying in writing to the Local Government his intention to do so, and, on his resignation being accepted by the Local Government, he shall be deemed to have vacated his office.

Power for Governor General in Council to appoint Registrars of Births and Deaths for Native States.

12. The Governor General in Council may, from time to time, by notification in the *Gazette of India*, appoint, either by name or by virtue of their office, so many persons as he thinks fit to be Registrars of Births and Deaths for such local areas within the territories of any Prince or State in India in alliance with Her Majesty as he may, from time to time, define.

& 38 88, s.

Office and attendance of Registrar.

13. (*1*) Every Registrar of Births and Deaths shall have an office in the local area for which he is appointed.

(*2*) Every Registrar of Births and Deaths to whom the Local Government may direct this subsection to apply shall attend at his office for the purpose of registering births and deaths on such days and at such hours as the Registrar General of Births, Deaths and Marriages may, from time to time, direct, and shall cause to be placed in some conspicuous place on or near the outer door of his office, his name, with the addition of Registrar of Births and Deaths for the local area for which he is appointed, and the days and hours of his attendance.

Absence of Registrar from his district or vacancy in his office.

14. (*1*) When any Registrar of Births and Deaths to whom the Local Government may direct this section to apply, not being a Registrar of Births and Deaths for a local area in the town of Calcutta, Madras or Bombay, is absent, or when his office is temporarily vacant, any person whom the Registrar General of Births, Deaths and Marriages appoints in this behalf, or, in default of such appointment, the Judge of the District Court within the local limits of whose jurisdiction the Registrar's office is situate, shall be the Registrar of Births and Deaths during such absence or until the Local Government fills the vacancy. [Cf. Act II of 1877, s. also 37 & 3 Vic., c. 88, 24 & 25.]

(*2*) When any such Registrar of Births and Deaths for a local area in the town of Calcutta, Madras or Bombay is absent, or when his office is temporarily vacant, any person whom the Registrar General of Births, Deaths and Marriages appoints in this behalf shall be the Registrar of Births and Deaths during such absence or until the Local Government fills the vacancy.

(*3*) The Registrar General of Births, Deaths and Marriages shall report all appointments made under this section to the Local Government.

Register books to be supplied and preservation of records to be provided for.

15. The Local Government shall supply every Registrar of Births and Deaths with a sufficient number of register books of births and of register books of deaths, and shall make suitable provision for the preservation of the records connected with the registration of births and deaths. [Cf. Act II of 1877, s. 13.]

C.—Mode of Registration.

Duty of Registrar to enter births and deaths of which notice is given in register.

16. Every Registrar of Births and Deaths, on receipt of notice of a birth or death within the local area for which he is appointed, shall, if the notice is given within the prescribed time and in the prescribed mode by a person authorized by this Act to give the notice, forthwith make an entry of the birth or death in the proper register book. [Cf. 6 & 7 Wm. IV, c. 86, ss 17 & 18; also Ac III of 1877, 16.]

Persons authorized to give notice of birth.

17. The following persons are hereby authorized to give notice of a birth, namely, the father or mother of the child, or, in default of the father or mother, the occupier of the house in which to his knowledge the child is born, or any person present at the birth, or the person having charge of the child. [Cf. 37 & 38 Vic., c. 88, s. 10.]

Persons authorized to give notice of death.

18. The following persons are hereby authorized to give notice of a death, namely :— [Cf. 37 & 38 Vic., c. 88, s. 10.]

(*a*) In the case of any person dying in a house

The Births, Deaths and Marriages Registration Bill, 1885.

(Chapter III.—Registration of Births and Deaths.—Sections 19-25.)

after the date on which this Act comes into force, the nearest relatives of the deceased present at the death or in attendance during the last illness of the deceased, or, in default of such relatives, any other relative of the deceased dwelling or being in the local area of the Registrar of Births and Deaths within which the deceased was at the time of his death, or, in default of such relatives, any person present at the death, or the occupier of the house in which to his knowledge the death took place, or, in default of the persons hereinbefore in this section mentioned, any inmate of that house; and

7 & 38 . 88,]

(*b*) in the case of any person dying in a place which is not a house, or of a dead body being found elsewhere than in a house, after the date on which this Act comes into force, any relative of the deceased person having knowledge of any of the particulars required to be registered concerning the death, or, in default of such relative, any person present at the death, or finding, or taking charge of, the body.

Entry of birth or death to be signed by person giving notice.

19. (*1*) When an entry of a birth or death has been made by the Registrar of Births and Deaths as required by section 16, the person giving notice of the birth or death must sign the entry in the register in the presence of the Registrar.

(*2*) Until the entry has been so signed, the birth or death shall not be deemed to be registered under this Act.

37 & 38 c. 88,]

Grant of certificate of registration of birth or death.

20. The Registrar of Births and Deaths shall, on application made at the time of registering any birth or death by the person giving notice of the birth or death, and on payment by him of the prescribed fee, give to the applicant a certificate in the prescribed form, signed by the Registrar, of having registered the birth or death.

3 & 7 IV, c. 86, & 34; Act III of , s. 56.]

Duty of Registrars as to sending certified copies of entries in register books to Registrar General.

21. (*1*) Every Registrar of Births and Deaths in British India shall send to the Registrar General of Births, Deaths and Marriages for the territories within which the local area for which he is appointed is situate, at the prescribed intervals, a true copy, certified by him under his hand, in the prescribed form, of all the entries of births and deaths in the register book kept by him since the last of those intervals:

Provided that, in the case of Registrars of Births and Deaths who are clergymen of the Churches of England, Rome and Scotland, the Registrar may send the certified copies in the first instance to his ecclesiastical superior, who shall send them to the proper Registrar General of Births, Deaths and Marriages.

In this sub-section, "Church of England" and "Church of Scotland" mean the Church of England and the Church of Scotland as by law established respectively; and "Church of Rome" means the Church which regards the Pope of Rome as its spiritual head.

(*2*) The provisions of sub-section (*1*) shall apply to every Registrar of Births and Deaths in the territories of any Prince or State in India in alliance with Her Majesty, with this modification, that the certified copies referred to in that sub-section shall be sent to such one of the Registrars General of Births, Deaths and Marriages as the Governor General in Council, from time to time, by notification in the *Gazette of India*, appoints in this behalf. [Act XV of 1872, s. 56.]

Searches and copies of entries in register books.

22. (*1*) Every Registrar of Births and Deaths shall, on payment of the prescribed fees, at all reasonable times allow searches to be made in the register books kept by him, and give a copy of any entry in the same. [Cf. 6 & 7 Wm. IV, c. s. 35; also Act XV 1872, s. 79.]

(*2*) Every copy of an entry in a register book given under this section shall be signed by the Registrar of Births and Deaths, and shall be admissible in evidence for the purpose of proving the birth or death to which the entry relates.

D.—Penalties.

Penalty for wilfully giving false information.

23. If any person wilfully makes, or causes to be made, for the purpose of being inserted in any register of births or deaths, any false statement in connection with any notice of a birth or death under this Act, he shall be punished with imprisonment for a term which may extend to three years and with fine. [Cf. 6 & 7 Wm. IV, c. 86, s. 41 37 & 38 Vi c. 88, s. 40 Act XV of 1872, s. 66.

Penalty for omission to enter birth or death in register, or loss of register.

24. If any Registrar of Births and Deaths refuses, or without reasonable cause omits, to make an entry in the proper register of any birth or death which he ought so to enter under this Act, or if any person having the custody of any register book of births or deaths carelessly loses or injures or allows the injury of the book, he shall be punished with fine which may extend to five hundred rupees. [37 & 38 V c. 88, s. 35.

E.—Correction of Errors.

Correction of entry in register of births and deaths.

25. (*1*) If a Registrar of Births and Deaths discovers any error in the form or substance of any entry of a birth or death in any register kept by him under this Act, he may, in the presence of the persons who gave the notice of the birth or death, or, in case of their death or absence, in the presence of two other credible witnesses, correct the error by entry in the margin, without any alteration of the original entry, and shall sign the marginal entry and add thereto the date of the correction. [Cf. 6 & 7 Wm. IV, c. 86, s. 44 37 & 38 V c. 88, s. 36 See also Ac XV of 187 s. 78.]

(*2*) Every entry made under this section must be attested by the witnesses in whose presence it was made.

(*3*) If a certified copy of the entry has already been sent to the Registrar General of Births, Deaths and Marriages, the Registrar of Births and Deaths shall make and send a separate certified copy of the original erroneous entry and of the marginal correction therein made.

The Births, Deaths and Marriages Registration Bill, 1885.

(Chapter IV.—Amendment of Marriage Acts, 1872. Chapter V.—Special Provisions as to certain existing Registers.—Sections 26-31.)

CHAPTER IV.

AMENDMENT OF MARRIAGE ACTS, 1872.

Addition of new section after section 13, Act III of 1872.

26. After section 13 of Act III of 1872 *(to provide a form of marriage in certain cases)*, the following section shall be inserted :—

Transmission of certified copies of entries in marriage-certificate book to the Registrar General of Births, Deaths and Marriages.

"13A. The Registrar shall send to the Registrar General of Births, Deaths and Marriages for the territories within which his district is situate, at such intervals as the Governor General in Council, from time to time, directs, a true copy certified by him under his hand, in such form as the Governor General in Council, from time to time, prescribes, of all entries made by him in the said marriage-certificate book since the last of such intervals."

Amendment of the Indian Christian Marriage Act, 1872.

27. In the Indian Christian Marriage Act, 1872, the following amendments shall be made, namely :—

(*a*) at the end of section 3 the words "'Registrar General of Births, Deaths and Marriages' means a Registrar General of Births, Deaths and Marriages appointed under the Births, Deaths and Marriages Registration Act, 1885," shall be added ;

(*b*) for the words "Secretary to the Local Government", wherever they occur, and for the words "Secretary to a Local Government" in section 79, the words "Registrar General of Births, Deaths and Marriages" shall be substituted ;

(*c*) for the words "at such places as the Local Government directs" in section 62, the words "in the office of the Registrar General of Births, Deaths and Marriages for the territories of the Local Government by which the person who keeps the register-book was licensed" shall be substituted ;

(*d*) in section 81, after the words "Registrar General of Births, Deaths and Marriages" the words "in England" shall be added.

CHAPTER V.

SPECIAL PROVISIONS AS TO CERTAIN EXISTING REGISTERS.

Permission to persons having custody of certain records to send them within one year to Registrar General.

28. If any person in British India, or in the dominions of any Prince or State in India in alliance with Her Majesty, has for the time being the custody of any register or record of birth, baptism, naming, dedication, death or burial of any persons of the classes specified in section 10, or of any register or record of marriage of persons of the class of those to whom Act III of 1872 or the Indian Christian Marriage Act, 1872, applies, and, if such register or record has been made by him otherwise than in performance of a duty specially enjoined by the law of the country in which the register or record was kept, he may, within one year from the date on which this Act comes into force, send the register or record to the office of the Registrar General of Births, Deaths and Marriages for the territories within which he resides, or, if he resides within the dominions of any such Prince or State as aforesaid, to such one of the Registrars General as aforesaid as the Governor General in Council, by notification in the *Gazette of India*, from time to time, directs in this behalf. XV of 1872.

Appointment of Commissioners to examine registers.

29. (*1*) The Governor General in Council may appoint so many persons as he thinks fit to be Commissioners for examining the registers or records sent to the Registrar General of Births, Deaths and Marriages under the last foregoing section. [Cf. 3 & 4 Vic., c. 94, s. 2.]

(*2*) The Commissioners so appointed shall hold office for such period as the Governor General in Council, by the order of appointment, or any subsequent order, directs.

Duties of Commissioners.

30. (*1*) The Commissioners appointed under the last foregoing section shall enquire into the state, custody and authenticity of every such register or record as may be sent to the Registrar General of Births, Deaths and Marriages under section 28, [Cf. 3 & 4 Vic., c. 92, ss. 2 and 4.]

and shall, from time to time, deliver to the Registrar General a descriptive list or lists of all such registers or records, or portions of registers or records, as they find to be accurate and faithful.

(*2*) The list or lists shall contain the prescribed particulars and refer to the registers or records, or to the portions of the registers or records, in the prescribed manner.

(*3*) The Commissioners shall also certify in writing, upon some part of every separate book or volume containing any such register or record, or portion of a register or record, as is referred to in any list or lists made by the Commissioners, that it is one of the registers or records, or portions of registers or records, referred to in the said list or lists.

Searches of lists prepared by Commissioners and grant of certified copies of entries.

31. (*1*) Subject to the payment of the prescribed fees, the descriptive list or lists of registers or records, or portions of registers or records, delivered by the Commissioners to the Registrar General of Births, Deaths and Marriages shall be, at all reasonable times, open to inspection by any person applying to inspect them, and copies of entries in [Cf. 3 & 4 Vic., c. 92, s. 5.]

The Births, Deaths and Marriages Registration Bill, 1885.

(Chapter VI.—Rules.—Sections 32-33.)

those registers or records shall be given to all persons applying for them.

(2) A copy of an entry given under this section shall be signed by the Registrar General of Births, Deaths and Marriages, and shall be admissible in evidence for the purpose of proving the birth, baptism, naming, dedication, death, burial or marriage to which the entry relates.

CHAPTER VI.

RULES.

[cf. 37 & 38 Vic., c. 88, s. 27; also Act XV of 1872, s. 82.]

Power for Governor General in Council to make rules.

32. The Governor General in Council may, from time to time, make rules—

(*a*) to fix the fees payable under this Act;

(*b*) to prescribe the forms required for the purposes of this Act;

(*c*) to prescribe the time within which, and the mode in which, persons authorized under this Act to give notice of a birth or death to a Registrar of Births and Deaths must give the notice;

(*d*) to prescribe the registers to be kept, and the form and manner in which Registrars of Births and Deaths are to register births and deaths under this Act, and the intervals at which they are to send true copies of the entries of births and deaths in the registers kept by them;

(*e*) to prescribe the particulars which the descriptive list or lists to be prepared by the Commissioners appointed under Chapter V are to contain, and the manner in which they are to refer to the records or registers, or portions of records or registers to which they relate; and

(*f*) generally to carry out the purposes of this Act.

Procedure for making and publication of rules.

33. (*1*) The Governor General in Council shall, before making rules under the last foregoing section, publish a draft of the proposed rules in such manner as may, in his opinion, be sufficient for the information of persons likely to be affected thereby.

(*2*) There shall be published with the draft a note specifying a date at or after which the draft will be taken into consideration.

(*3*) The Governor General in Council shall receive and consider any objection or suggestion which may be made by any person with respect to the draft before the date so specified.

(*4*) Every rule made under this section shall be published in the *Gazette of India*, and the publication in the *Gazette of India* of a rule purporting to be made under the last foregoing section shall be conclusive evidence that it has been duly made.

STATEMENT OF OBJECTS AND REASONS.

IT is proposed by this Bill (1) to establish a system of voluntary registration of births and deaths for the benefit of such classes of the community as would be likely to avail themselves of such registration, (2) to establish general registry offices for keeping registers of the births and deaths so registered, and of marriages registered under Act III of 1872 or the Indian Christian Marriage Act, 1872 (XV of 1872), and (3) to provide machinery for giving evidential value to certain existing registers of births, baptisms, deaths, burials and marriages, which have been kept under no law.

2. The subject of the registration of births and deaths among Europeans in India has been long under the consideration of the Government, whose attention has, moreover, been frequently directed to it by memorials from various Christian religious bodies urging very strongly the need for legislation.

3. The Indian Statute-book contains at present no general law for the registration of births and deaths. There are, indeed, enactments which provide for the registration of births and deaths within certain specified areas, principally municipalities and cantonments, but, in the first place, these enactments are strictly local in their nature, leaving the greater portion of the country unprovided for, and, in the next place, their provisions, being directed primarily to statistical purposes, are not of such a nature as to make the registers of births and deaths kept under them of value for purposes of evidence.

4. As to the numerous registers of baptisms and burials which are kept by ministers of religion in all parts of the country, it is doubtful how far they can be relied on for giving accurately the requisite particulars as to births and deaths, and most of them would, moreover, be inadmissible in evidence.

5. This being the state of the law, and considering the importance of the subject generally, and the memorials above referred to, and having regard to the fact that references are frequently made to the Secretary of State for India and to the Government of India for proof of age or of deaths in connection with questions involving large individual interests, such as rights to property, the Government of India is of opinion that it is expedient to enact a permissive law under which full facilities for registering births and deaths should be given to persons valuing unimpeachable evidence of these events.

6. As to the second object of the Bill, it is obvious that no system of registration of births and deaths can be complete or of practical value unless it provides for the establishment, at certain centres, of general offices where the information registered at the various local offices shall be collected and so arranged as to be readily available for public reference.

7. In this connection, the attention of the Government of India has been directed to the unsatisfactory nature of the system of registration of marriages under the Indian Christian Marriage Act, 1872, and Act III of 1872.

Documentary evidence of all marriages under the former Act is, by the provisions of the Act or the orders thereunder, sent to the Secretary to the Local Government, who is also empowered to grant certified copies which are receivable in evidence. It would seem, therefore, at first sight, that nothing further was required. But, as a matter of fact, not only are no arrangements made for maintaining an index to the marriages the records of which are retained in the local Secretariat, but the greater portion of the marriage records which are received in the local Secretariat have, under section 81 of the Act and the orders in force, to be sent on *in original* to the Government of India in the Home Department for transmission to the Secretary of State; so that the greater number of the marriage records which reach the local Secretariat do not remain there for purposes of reference, and such as do remain are, owing to the absence of an index, practically valueless.

As to Act III of 1872, this Act makes no provision for the marriages solemnized under it being reported to any central authority. The marriage-certificate books for which it provides are retained by the Registrar, who is not even required to index them. Their value as records of the marriages to which they refer is accordingly much diminished.

8. The Government of India have, therefore, availed themselves of the opportunity of the proposed legislation for the registration of births and deaths to remove these defects in the marriage-registration law, by providing for general registry offices for keeping registers, not only of the births and deaths which may be registered under the proposed law, but also of marriages which may be registered under Act III of 1872 or the Indian Christian Marriage Act, 1872.

9. The present Bill extends (section 2) to the whole of British India, and, so far as regards subjects of Her Majesty, to the dominions of Princes and States in India in alliance with Her Majesty.

10. As there seems to be no way of utilizing for the special purposes in view the compulsory system of registration of births and deaths which is prescribed by the local laws referred to in paragraph 3 above, or of separating the registration of the limited classes affected by the Bill from that of the general population which is required under those laws, it has been found necessary to save the laws providing for the registration of births and deaths within particular local areas at present in force or which may hereafter be passed; and this is done by section 4. The result of this section will, therefore, be that the persons to whom the provisions of the Bill relating to the registration of births and deaths are applicable will be bound, as heretofore, to satisfy the statistical requirements of such local Acts, and will be at liberty to re-register births and deaths under the Bill for evidential purposes.

11. Chapter II provides (section 5) for the establishment by the Local Governments of general registry offices of births, deaths and marriages, and the appointment of Registrars General of Births, Deaths and Marriages. By section 6 indexes are to be kept at the general registry offices of all the certified copies of registers which may be sent to them under the Bill or under Act III of 1872 or the Indian Christian Marriage Act, 1872. These indexes (section 7) are to be open to public inspection, and copies of the entries in the certified copies of the registers to which they relate are to be given to all persons applying for them; and such copies are (section 8) to be admissible in evidence. By section 9 the Registrar General is given the superintendence of the Registrars of Births and Deaths.

12. Chapter III deals with the subject of registration of births and deaths. Section 10 defines the persons whose births and deaths are registrable as, in British India, the members of every race, sect or tribe to which the Indian Succession Act, 1865, applies and in respect of which an order under section 332 of that Act is not for the time being in force, and all persons professing the Christian religion, and in Native States all like persons who are British subjects. These provisions of the Bill will therefore, generally speaking, apply to East Indians, Jews, Armenians and Pársís as well as to Europeans and Native Christians. These are believed to be the only classes of persons in the country who are likely to avail themselves of the benefits of a law of this nature.

13. The chapter then provides for a registration establishment, empowering (sections 11 and 12) the Local Government in British India and the Governor General in Council in Native States to appoint either by name or by virtue of their office fit persons to be Registrars of Births and Deaths for definite local areas. It is proposed to appoint under the general powers given by these sections persons authorized or licensed to perform marriages under either Act III of 1872 or the Indian Christian Marriage Act, 1872, and, in order to provide for the receipt of notices from persons who may prefer not to resort to the Marriage Registrars, other suitable persons, one of whom it is intended should be appointed for each local area for which a person who is also a Marriage Registrar is appointed. It is to the latter class of Registrars that sections 13 and 14, which lay down certain provisions as to the office of such

Registrars, and for the filling up temporary vacancies in the office of such Registrars, are intended to apply. Section 15 provides for the supply of register books and the preservation of records.

14. The chapter next treats of the mode of registration. It imposes (section 16) a duty on every Registrar of Births and Deaths to make an entry in his register book of all births and deaths of which notice may be given to him within the prescribed time and in the prescribed mode by a person authorized to give him such notice. It then (sections 17 and 18) specifies the persons who shall be authorized to give notice of births and deaths respectively.

Section 19 provides that the entry of the birth or death is to be signed by the person giving notice, and declares that until it is so signed the birth or death shall not be deemed to be registered. By section 20 every Registrar of Births and Deaths is required to give on application made at the time of registering any birth or death by the person giving notice of the same, and on payment by him of the prescribed fee, a certificate of having registered the birth or death.

Section 21 provides for the sending by every Registrar of Births and Deaths at prescribed intervals to the Registrar General of Births, Deaths and Marriages of certified copies of all entries in his register books. In the case of Registrars in British India, the copies are to be sent to the Registrar General within whose jurisdiction the local areas for which the Registrar is appointed is situate, an exception being made in the case of Registrars who are clergymen of the Churches of England, Rome and Scotland, who may send them to their ecclesiastical superiors to be forwarded by them to the Registrar General. In the case of Registrars in Native States, the copies are to be sent to such one of the Registrars General as the Governor General in Council may, by notification in the *Gazette of India*, direct in this behalf. Section 22 provides for searches, and grant of copies of entries in register books which shall be admissible in evidence.

15. Sections 23 and 24 prescribe penalties of imprisonment which may extend to three years and fine for wilfully giving false information to a Registrar of Births and Deaths, and of fine, which may extend to five hundred rupees, for Registrars of Births and Deaths omitting to enter births or deaths in the register or losing or injuring register books.

16. Lastly, section 25 prescribes the procedure by which errors in the form or substance of any entry in a register book of births and deaths may be corrected.

17. Chapter IV (sections 26 and 27) makes the amendments in Act III of 1872 and the Indian Christian Marriage Act, 1872, which are necessary in order to make the provisions of these Acts fit in with the scheme of the Bill, under which certified copies of entries in the registers kept under these Acts are in future to be sent to the Registrar General of Births, Deaths and Marriages.

18. Chapter V deals with the last of the three subjects referred to in the first paragraph of this Statement. As noted above, registers of births or baptisms and deaths or burials are at present kept in all parts of the country by ministers of religion. Registers of marriages were also similarly kept before the marriage-registration law came into force. Most of these registers are, as the law now stands, inadmissible in evidence, and possibly many of them should never be admitted in evidence owing to the irregular manner in which they have been compiled. At the same time, others are probably fit for admission as public registers. Under these circumstances, it seems advisable to follow the analogy of what was done in England (see 3 & 4 Vic., c. 92) and provide a procedure under which such of these registers as are worthy of recognition may be validated and certified copies of entries made in them declared admissible in evidence. This is accordingly done by Chapter V.

19. That chapter first (section 28) declares that any person having custody of any such records may, within one year from the date on which the Bill comes into force, send them to the Registrar General of Births, Deaths and Marriages for the territories within which the person resides, or, if he resides in a Native State, to such one of those Registrars General as the Governor General in Council, by notification, directs. It then (section 29) provides for the appointment by the Governor General in Council of Commissioners to examine the registers so sent to the various Registrars General, and prescribes (section 30) the duties of the Commissioners, which are to inquire into the state, custody and authenticity of every register submitted to them, and to prepare lists of all such registers or portions of registers as they find to be accurate and faithful, and to certify upon some part of every book or volume containing any such register or portion of a register as is referred to in any such list that it is one of the registers referred to in the list. Section 31 permits, on payment of a fee, searches to be made of the lists so prepared, and provides for the grant of certified copies of the entries in the registers which shall be admissible in evidence.

20. Finally, Chapter VI (sections 32 and 33) empowers the Governor General in Council to make rules with regard to certain matters connected with the purposes of the Act, and prescribes the usual procedure for the making and publication of such rules.

[Third Publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 16th January 1885:—

No. 2 OF 1885.

A Bill to provide for the temporary appointment from time to time of an Additional Judicial Commissioner for Oudh.

WHEREAS it is expedient to provide for the temporary appointment from time to time of an Additional Judicial Commissioner to assist the Judicial Commissioner of Oudh; It is hereby enacted as follows:—

1. (*1*) This Act may be called the Oudh Additional Judicial Commissioner's Act, 1885; and

Short title and commencement.

(*2*) It shall come into force at once.

2. (*1*) The Local Government may, from time to time, with the previous sanction of the Governor General in Council, by notification in the local official Gazette, appoint such person as it thinks fit to be an Additional Judicial Commissioner, and to sit as such in the Court of the Judicial Commissioner of Oudh.

Appointment of Additional Judicial Commissioner of Oudh.

(*2*) Every person so appointed shall hold his office during the pleasure of the Local Government.

3. Every Additional Judicial Commissioner shall exercise such jurisdiction and powers of the Judicial Commissioner under the Oudh Civil Courts Act, 1879, as the Local Government may, from time to time, prescribe, but only in such cases as the Judicial Commissioner may direct.

Jurisdiction and powers of Additional Judicial Commissioner.

XIII of 1879.

4. Every enactment for the time being applicable to the Judicial Commissioner shall apply to the Additional Judicial Commissioner when exercising any jurisdiction or powers under the last foregoing section as if he were the Judicial Commissioner.

Law applicable to Additional Judicial Commissioner.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to provide for the temporary appointment, from time to time, as it may be deemed necessary, of an Additional Judicial Commissioner of Oudh.

The steady increase in the work that falls upon the Judicial Commissioner of Oudh, and the accumulation of arrears, have made it necessary to adopt some plan for assisting him in the discharge of his functions; and the simplest arrangement would seem to be the appointment, as occasion requires, of an Additional Judicial Commissioner.

The Bill (section 2) empowers the Local Government, with the sanction of the Governor General in Council, from time to time, to appoint an Additional Judicial Commissioner, who is to hold office during the pleasure of the Local Government. The Additional Judicial Commissioner so appointed is (section 3) to exercise such jurisdiction and powers of the Judicial Commissioner under the Oudh Civil Courts Act as the Local Government may prescribe, but only in such cases as the Judicial Commissioner directs. The Local Government will thus be able to regulate the jurisdiction and powers of the Additional Judicial Commissioner in such a way as to prevent any conflict between them and those of the Judicial Commissioner, while the latter officer will be able to arrange for the distribution of business as may appear to him to be most convenient. Lastly (section 4), all enactments applicable to the Judicial Commissioner are declared to be applicable to the Additional Judicial Commissioner, so that his legal status generally will be identical with that of the Judicial Commissioner.

The following Report of the Select Committee on the Bill to amend the Transfer of Property Act, 1882, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd January, 1885:—

WE, the undersigned Members of the Select Committee to which the Bill to amend the Transfer of Property Act, 1882, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Officiating Registrar, High Court, Calcutta, No. 2596, dated 15th September, 1884 [Paper No. 1].
From Secretary to Chief Commissioner, Coorg, No. 813—114, dated 13th September, 1884 [Paper No. 2].
Endorsement by Officiating Under-Secretary to Government of India, Home Department, No. 1252, dated 24th September, 1884, and enclosures [Papers No. 3].
From Officiating Secretary to Chief Commissioner, British Burma, No. 125—16L., dated 9th October, 1884, and enclosures [Papers No. 4].
From Chief Commissioner, Ajmer-Merwára, No. 880, dated 17th October, 1884 [Paper No. 5].
From Secretary for Berar to Resident, Hyderabad, No. 3766., dated 21st October, 1884, and enclosures [Papers No. 6].
From Chief Secretary to Government, Madras, No. 2681, dated 18th October, 1884, and enclosures [Papers No. 7].
From Under-Secretary to Government, Bombay, No. 7599, dated 31st October, 1884, and enclosures [Papers No. 8].
From Officiating Secretary to Government, Panjáb, No. 987, dated 11th November, 1884, and enclosures [Papers No. 9].
From Officiating Assistant Secretary to Chief Commissioner, Central Provinces, No. 5321—245, dated 14th November, 1884, and enclosure [Paper No. 10].
From Secretary to Government, North-Western Provinces and Oudh, No. 1147—VII-279-19, dated 5th November, 1884, and enclosures [Papers No. 11].
From Bábú Charu Chandra Mookerjee, dated 2nd November, 1884 [Paper No. 12].
Extract, paragraph 111, from Proceedings of the Meerut Association, No. 13, dated 16th November, 1884 [Paper No. 13].
From Under-Secretary to Government, North-Western Provinces and Oudh, No. 1326—VII-277-23, dated 13th December, 1884, and enclosure [Papers No. 14].
From Officiating Secretary to Government, Bengal, No. 3001 J., dated 19th December, 1884, and enclosures [Papers No. 15].
From Secretary to Government, North-Western Provinces and Oudh, No. 1375—VII-277-26, dated 23rd December, 1884, and enclosures [Papers No. 16].
Memorandum by Bábú Gridhar Dás, Honorary Magistrate, and Vice-Chairman, Municipal Fund, and Member of the District Board, Zila Etawah, No. 1, dated 20th December, 1884 [Paper No. 17].
From the Hon'ble Mr. Justice S. Mahmúd, Allahabad, dated 13th January, 1885 [Paper No. 18].

2. It is generally admitted that the provisions of section 1 (*a*) of the Bill will amend the Act satisfactorily, but there are differences of opinion as to clause (*b*) of that section. The Government of Bombay, Mr. Justice West and others are strongly in favour of making the exemption from the provisions of section 41 of the Act local and not personal. It has also been urged, especially by Mr. Justice Mahmúd, that power should not be given to exempt from the provisions of section 41. Mr. Mahmúd says, "As I understand the law, the provisions of section 41 of the Transfer of Property Act are nothing more or less than the repetition of the rule of natural equity which belongs to almost every department of law connected with the dealings of one human being with another. The rule of equitable estoppel is so important that, irrespective of section 41 of the Transfer of Property Act, I, speaking for my own part, would, regardless of the nationality of parties, apply it to all transactions which came before me and which furnished circumstances for its application."

3. After considering the matter we are of opinion that, if section 41 of the Act contains, as we believe it does, a rule of equity which our Courts should follow, the section should be in force wherever the Act is in force. If that section were excluded from the Act, the Courts would probably, on general principles of equity, follow the rule which it contains. We think, therefore, that it is unnecessary to give any power to exempt from the provisions of section 41, and have struck out clause (*b*), section 1 of the Bill.

4. With regard to some questions raised as to the effect of section 3 of the Bill, we may mention that the Transfer of Property Act in requiring that certain transfers shall be made

by a registered instrument does not conflict with the Indian Registration Act. That Act requires that certain documents shall be registered in order to render them capable of affecting certain property and admissible in evidence of any transaction affecting such property. The Transfer of Property Act, on the other hand, provides that certain transfers can only be effected by a registered instrument.

5. With reference to section 4 of the Bill, it has been suggested that section 69 of the Act should be restored to the form proposed by the Indian Law Commission. The question whether a power of sale should be valid in all cases where the property secured by the mortgage was of a certain value was fully discussed at the time the Act was passed. It was then decided that the valuation test should not be adopted, and we consider that it is inexpedient to re-open the question now.

6. Objections have been raised relating to the chapter on leases of immoveable property. These are sufficiently met by section 117 of the Act, which exempts leases for agricultural purposes from the provisions of the chapter.

7. We have taken the opportunity of adding to section 6 of the Act a clause (*i*) containing a proviso like that of sub-section (*j*), section 108. If the chapter on leases does not apply to leases for agricultural purposes, then the proviso to sub-section (*j*) will not be in force. It might therefore happen that an untransferable right of occupancy, the farm of an estate in respect of which default had been made in paying revenue or the lease of an estate under the Court of Wards might be held to be transferable by virtue of the general power of transfer conferred by section 6.

The following Report of the Select Committee on the Bill to amend the Negotiable Instruments Act, 1881, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd January, 1885 :—

WE, the undersigned Members of the Select Committee to which the Bill to amend the Negotiable Instruments Act, 1881, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our report.

From Officiating Secretary to Chief Commissioner, Assam, No. 393, dated 3rd April, 1884, and enclosure [Papers No. 1].
From Secretary for Berar to Resident, Hyderabad, No. 1150., dated 7th April, 1884, and enclosures [Papers No. 2].
From Secretary to Chief Commissioner, Central Provinces, No. 2635—120, dated 3rd June, 1884 [Paper No. 3].
From Secretary to Chief Commissioner, Coorg, No. 288—I. 41, dated 2nd June, 1884 [Paper No. 4].
Office memorandum by Home Department, No. 829, dated 18th June, 1884, and enclosures [Papers No. 5].
From Chief Commissioner, Ajmer-Merwára, No. 486, dated 23rd June, 1884, and enclosures [Papers No. 6].
From Under-Secretary to Government, Bombay, No. 4659, dated 30th June, 1884, and enclosures [Papers No. 7].
From Secretary to Government, North-Western Provinces and Oudh, No. 527—VII-27-10, dated 2nd July, 1884, and enclosure [Papers No. 8].
From Chief Secretary to Government, Madras, No. 1579, dated 26th June, 1884, and enclosure [Papers No. 9].
From Officiating Secretary to Chief Commissioner, British Burma, No. 106—7L., dated 4th July, 1884, and enclosure [Papers No. 10].
From Officiating Secretary to Government, Punjab, No. 661, dated 23rd July, 1884, and enclosures [Papers No. 11].
From Officiating Registrar, High Court, Calcutta, No. 1872, dated 30th July, 1884 [Paper No. 12].
From Officiating Secretary to Government, Bengal, No. 1339T.—R., dated 31st July, 1884 [Paper No. 13].

2. With regard to lost bills it has been pointed out that the Act provides no machinery whereby the owner of a lost bill or note can get a duplicate from the drawer or maker. We think that this omission should be supplied, and have accordingly inserted in the Bill a section (2) taken from section 69 of the English Statute. Actions on lost bills are sufficiently provided for by section 61 of the Code of Civil Procedure.

3. With reference to the remarks forwarded by the Government of Madras, we think that clause (*c*), section 101 of the Act, does seem to imply that to render a protest valid the demand must be made by the notary public in person. If the law be so understood, it will cause inconvenience, and to remove all doubts we consider that the section should be amended so that it may be clear that a demand may be made by a notary public's clerk in person. The Act might also, we think, be still further amended so as to afford greater facilities for presenting bills and demanding acceptance or payment. The English Act [section 41 (1) (*c*) and section 45 (8)] provides that a bill is duly presented for acceptance or payment when presented through the post office in cases where such presentment is authorised by agreement or usage. We think that it is desirable to extend to this country similar facilities for presenting bills, but we consider that when presentment through the post office is allowed it should be made by means of a registered letter. We have accordingly, in section 3 of the Bill, made additions to the Act which will validate a presentment through the post office by means of a registered letter when such a presentment is authorised by agreement or usage. We have also, in section 4 of the Bill, added to section 101 a clause to the effect that the demand mentioned in clause (*c*) may be made by the notary public in person or by his clerk in person or, where authorised by agreement or usage, by a registered letter.

4. It has been pointed out that while section 108 implies that acceptance for honour may take place when a bill has been noted or protested, the definition of "acceptor for honour" (section 7) shows that an acceptance for honour is made after a bill is protested. It might be held therefore that there could be no acceptance for honour until a bill had been

protested as well as noted. To meet this difficulty we have inserted in the Bill a section (6) taken from section 93 of the English Statute, and have slightly amended the definition in section 7 of the Act so as to make it agree with section 108.

5. The Chambers of Commerce of Bombay and Rangoon have suggested an amendment of section 113 of the Act which would have the effect of rendering a declaration before a notary public unnecessary in the case of a payment for honour. We have considered this suggestion and we think that some formality is desirable. We are of opinion that it would not be safe to relax these formalities regarding payments for honour further than they are relaxed by English law.

6. It has also been suggested that power should be taken to make rules for the control of those notaries public who have not been appointed under the Act. We think that it is not desirable to make rules for the control of notaries not appointed by the Government of India.

7. We have been asked to make a provision for cases in which the services of a notary public are not available, by adopting section 94 of the English Act which provides that in such cases a protest may be made by means of a certificate signed by a householder or substantial resident. Having regard to the power given to Government of appointing notaries public, the number of appointments that have been made and the possible abuses that might arise if a householder or substantial resident were substituted for a notary, we think that it would be unwise to adopt this provision of the Statute.

8. It is said that the proposed amendment of section 113 will raise doubts whether the words "acceptor," "acceptor for honour," "payee" and "drawee" are intended to include an agent of an acceptor, payee or drawee. We think that section 27 of the Act, which provides that a person may bind himself by a duly authorized agent, will answer all questions of this nature that may arise.

9. The Chief Commissioner, British Burma, suggests that the Local Government should be authorized to appoint notaries public. This question has already been considered, and we would not re-open it.

10. With regard to the question whether section 45 of the Contract Act unduly limits the negotiation of bills, we are not disposed to think that it does. We are not aware that that section has given rise to any difficulties in this respect, and the saving in the Contract Act of all usages or customs of trade will probably meet such difficulties if they do arise. If any amendment in this respect is necessary, it should take the form of an amendment of section 45 in the Contract Act, as such an amendment would perhaps be required for other cases besides those under the Negotiable Instruments Act.

[First Publication.]

The following Report of the Select Committee on the Bill to amend Act XXII of 1881, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 30th January, 1885 :—

WE, the undersigned Members of the Select Committee to which the Bill to amend Act XXII of 1881 was referred, have considered the Bill and papers noted in the margin, and have now the honour to submit this our Report.

From Chief Commissioner, Coorg, No. 53, dated 17th November, 1884 [Paper No. 1].
From Chief Commissioner, Ajmer-Merwára, No. 969, dated 4th December, 1884 [Paper No. 2].
Extract, paragraph VI, from Proceedings of the Meerut Association, No. 15, dated 29th November, 1884 [Paper No. 3].
From Officiating Junior Secretary to Government, Punjab, No. 3148, dated 12th December, 1884, and enclosures [Papers No. 4].
From Officiating Secretary to Chief Commissioner, British Burma, No. 279-41 E., dated 12th December, 1884, and enclosures [Papers No. 5].
From Secretary to Government, North Western Provinces and Oudh, No. 74—VII-305-13, dated 17th January, 1885, and enclosures [Papers No. 6].
From Assistant Secretary to Chief Commissioner, Central Provinces, No. 143-284, dated 16th January, 1885, and enclosures [Papers No. 7].

2. At the suggestion of the Chief Commissioner of British Burma, we have added to the Bill sections (1 and 2) which will enable a Thugyi, when appointed an Excise-officer, to exercise the powers of arrest, seizure and search conferred by sections 28 and 29 of the Act. The Thugyi, who is a collector of revenue and also assists generally in the administration, does not receive a monthly salary. He cannot, therefore, on a strict construction of those sections, be held to be an officer in receipt of a monthly salary of not less than ten rupees.

3. We have also in section 2 of the Bill made a further slight amendment of section 29 of the Act, by providing that, where the Excise-officer making a search is himself an officer of Police in the receipt of a monthly salary of not less than ten rupees, the presence of another Police-officer is not required.

4. We have at the suggestion of several of the Local Governments amended the original section of the Bill (now section 3). We have given the Local Government power to invest any Police-officer with powers under section 27 of the Act, as we consider that these powers may be safely entrusted to any Police-officer. The more extensive powers conferred on certain Excise-officers by sections 28 and 29 of the Act should not, we think, be exercised by Police-officers unless they are in charge of a station or of or above the grade of head constable or sergeant. We have provided accordingly.

5. The use of the word "complaint" in section 47 of the Act, a section providing certain restrictions on prosecutions, has given rise to doubts, and we have, therefore, at the suggestion of the Government of the North-Western Provinces, altered the wording of that section.

6. The publication ordered by the Council has been made as follows :—

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First Publication.]

The following Report of the Select Committee on the Bill to amend the Indian Ports Act, 1875, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 30th January, 1885 :—

WE, the undersigned Members of the Select Committee to which the Bill to amend the Indian Ports Act, 1875, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Officiating Secretary to Chief Commissioner, British Burma, No. 213-49 P. D., dated 15th November, 1883 [Paper No. 1].
From Chief Secretary to Government, Madras, No. 549, dated 16th November, 1883, and enclosure [Papers No. 2].
From Officiating Secretary to Government, Bengal, No. 2479, dated 26th November, 1883, and enclosures [Papers No. 3].
Endorsement by Officiating Under-Secretary to Government of India, Department of Finance and Commerce, No. 5, dated 4th January, 1884, and enclosures [Papers No. 4].
Office Memorandum by Department of Finance and Commerce, No. 885, dated 10th May, 1884, and enclosures [Papers No. 5].
Endorsement by Acting Secretary to Government, Bombay, No. 270, dated 4th July, 1884, and enclosure [Papers No. 6].
From Secretary to Government, Bengal, No. 35, dated 9th January, 1885, and enclosure [Papers No. 7].
Endorsement by Officiating Under-Secretary to Government, Bengal, No. 111, dated 14th January, 1885, and enclosures [Papers No. 8].

2. At the suggestion of the Government of Madras we have inserted in the Bill a section (1) amending section 42 of the Act. That section directs that the orders of a Local Government made in pursuance of the Act shall be, in addition to other modes of publication, fixed up in the custom-house, if any, of every port subject to this Act. A difficulty is experienced in carrying out this direction, and we consider that it will be sufficient to provide that the order shall be fixed up in some conspicuous place in the office of the Conservator, and at the custom-house, if any, of every port to which the order relates.

3. We have amended section 1 of the Bill (now section 2) so as to provide for cases where the service of a person entitled to pension has been partly at the port and partly elsewhere.

4. At the request of the Bombay Government we have provided in section 3 of the Bill that money may be spent from the Port Fund Account for the support of hospitals for seamen or for providing sanitary superintendence and medical aid for the shipping and seamen belonging to ships in the ports.

5. We have altered the rate of port-dues prescribed in the first schedule of the Act for the Cuttack ports, as the Government of Bengal finds that the present rate does not yield an income sufficient to meet the necessary expenses of the ports.

6. The publication ordered by the Council has been made as follows :—

In English.

Irrigation.

ADMINISTRATION REPORT OF IRRIGATION WORKS IN THE MADRAS PRESIDENCY FOR 1883-84.

No. 22 I., dated Fort William, 28th January 1885.

RESOLUTION—By the Government of India, Public Works Department.

Read—

Administration Report of Irrigation Works in the Madras Presidency for 1883-84.

OBSERVATIONS.—The number of schemes classed as Productive Works was increased during the year under review by the addition of the Barur Tank. There are now eight schemes under this head. The Barur Tank Project was originally undertaken in 1877-78 as a famine work. The total expenditure up to date on the works, which are still under construction, has been ₹1,22,992.

There has been no change in the number of "Works for which Capital and Revenue Accounts are kept."

2. The direct Capital outlay and allotments for 1883-84 are compared below:—

CLASS.	No. in each class.	Grant for 1883-84.	Expenditure.
		₹	₹
Productive Public Works	8	17,55,353	16,17,994
Works for which Capital and Revenue Accounts are kept	5	1,87,182	1,60,469

It is explained that of the unspent balance, ₹1,21,967 was due to an oversight; when the budget estimates were prepared, no allowance was made for crediting to Capital Account the revenue realized from the Kurnool Canal previous to its transfer to Government. The total balance of ₹95,908 that remains after deducting the above sum, is small, and sufficient explanation is given in the reports on the various projects.

3. The total Capital outlay on Productive Public Works at the close of the year under review amounted to R4,17,15,269; the gross revenue assessed, both direct and indirect, after deducting that portion of it which is due to old irrigation, was R38,02,043; the maintenance charges, including the cost of collection in the Revenue Department, were R12,30,650. The net revenue was, therefore, R25,71,363, or 6·16 per cent. on the Capital outlay. In 1882-83 the net revenue was R25,28,658, and the percentage on Capital outlay 6·34.

Of the Capital outlay, R15,42,046, expended on works under construction was unproductive, and there was a loss from the operations of the year under review of R1,44,066 in the working of the Kurnool Canal, which represents a capital of R1,76,31,712.

There was an increase in the maintenance charges for the year 1883-84, on the Godavery Delta and Penner Anicut Systems where the anicuts and Head Works required extensive repairs; and on the Kurnool Canal, for strengthening the anicut and repairing an aqueduct and the Tangadumcherla Tank.

4. The Capital outlay and revenue income and charges, with the resulting percentage of net income derived from Irrigation and Navigation Works for which Capital and Revenue Accounts are kept, are shown in the following table:—

Head of charge.	No. of Works.	Capital outlay to end of 1883-84.	Gross revenue.	Maintenance charges.	Net revenue.	Per cent. on Capital.
		R	R	R	R	R
Imperial . .	3	28,07,767	1,82,311	86,349	95,962	3·42
Provincial . .	2	72,53,127	69,085	1,81,919	—1,12,834	—1·55
Total .	5	1,00,60,894	2,51,396	2,68,268	—16,872	—0·17

The receipts from all the Imperial works have improved, and it is explained that the decrease in revenue from the Provincial works is due to abnormal credits in the previous year to the Madras Water-supply Project and to reduction in Navigation rates on the Buckingham Canal.

5. The area watered by the works classed as Productive was 1,814,844 acres in 1883-84 and 1,757,579 in 1882-83.

The areas irrigated by the other irrigation works were for 1883-84 2,751,175 acres, and for the previous year 2,615,590 acres.

The seasons are reported to have been generally favourable to irrigation and to this may be attributed the satisfactory increase in the areas irrigated by all classes of works.

6. The following figures give in detail the more important items of information for the Productive Public Works in operation:—

Systems.	Areas irrigated.	Revenue from all sources.	Charges including that of collection.	Net Revenue.	Capital outlay.	Percentage net Revenue on Capital.
	Acres.	R	R	R	R	
Godavari Delta .	521,387	17,27,131	5,24,553	12,02,578	1,14,70,132	10·5
Kistna „ .	298,097	10,56,509	3,65,798	6,90,706	67,34,505	10·25
Cauvery „ .	891,903	7,32,518	95,308	6,37,210	12,83,516	49·6
Pennner Anicut .	62,832	1,30,401	36,986	94,415	16,65,159	5·67
Srivaikuntham Anicut .	20,951	1,07,701	17,181	90,520	13,88,199	6·5
Kurnool Canal .	19,674	47,788	1,91,854	—1,44,066	1,76,31,712	—0·82

The figures for the Kurnool Canal are, as in the case of the other systems based on the assessments of the year under review.

The results of the Navigation operations are detailed below for this and the previous year :—

Systems.	1883-84.			1882-83.		
	Miles Navigable.	Tons carried.	Receipts.	Miles Navigable.	Tons carried.	Receipts.
			₹			₹
Godavari Delta .	460	262,530	46,613	458	231,564	62,955
Kistna . .	278	114,710	24,608	278	110,202	39,559
Kurnool Canal .	190	3,232	4,592	190	2,773	10,683

The rates of license fees and of charges for rafting were again altered; the new rates which came into force from 1st July 1883 were as follows :—

	Rates per ton of 50 cubic feet.
Cargo boats	R2-5
Passenger boats { 1st class	„ 5-0
Passenger boats { 2nd „	„ 3-0
Logs of timber	„ 0-8 per 100 square feet.
Bamboos	„ 0-4 „ „

7. At the Godavari the water was above the crest of the anicut from the 16th June 1883 to the 26th March 1884. A flood of 14·2 feet measured on the crest of the anicut, lasted from the 3rd to the 6th September 1883. This height has only once been exceeded, *viz.*, in July 1861, when the gauge read 15 25 feet.

Portions of the banks on the left side of the Gowtami-Godavari River were injured by the flood, but no serious breaches occurred. Some damage was done to crops by the water backing up the Torrigedda hill stream and Nakkola drain.

8. The greatest height on the Kistna anicut during the year under review was reached on the 15th July 1883, when 13 feet was recorded. The maximum flood on record is 20·04 feet in July 1882. The freshes were good throughout the whole of the irrigating season, and the supply was maintained to an unusually late date. The rainfall was good; a particularly heavy fall was recorded at Masulipatam of 19·80 inches between the 30th October and 1st November 1883.

9. The water-supply at the Cauvery canals was good throughout the season. On the 27th July 1883 the water rose to 10·70 feet above the sill of the Cauvery dam, the greatest height previously recorded was 13·25 feet in November 1858.

10. The rainfall was above the average at the Penner delta. There were good freshes from June till the end of August, but water was scarce in September. The highest flood of the year was 10 feet on the 17th October 1883. The maximum height on record is 19·3 feet on 30th November 1882.

11. There was no great flood in the Tambrapani River which supplies the Srivaikuntham system. The rainfall was moderate, and the season being favourable for irrigation, there was an increase both in the area watered and in the revenue assessed.

12. There was an increase of 1,840 acres in the area watered by the Kurnool Canal, and of R8,690 in the irrigation revenue assessed for the year 1883-84. Some progress was made in repairing and strengthening the Sunkesala anicut, for which work an estimate was under preparation. Owing to a serious breach in the embankment of the Tangadumcharla Tank which occurred on the 13th August 1883, the upper part of the canal was closed to navigation for two months. Arrangements for providing distributaries to extend irrigation are in progress. The rainfall in the tract watered by this canal was above the average.

13. The progress of construction of the Sangam Anicut Project was delayed by floods in the Penner River and by an outbreak of cholera. The direct outlay during the year amounted to R5,93,152, and the total direct outlay to date was R13,50,306. Progress, under the circumstances explained, may be considered to have been good.

14. A temporary division was formed in February 1884 for the construction of the Barur Tank Project. Work was commenced on the anicut and head sluices, but owing to the failure of the contractors employed to carry out these works, the direct expenditure during 1883-84 was very small. Up to date R1,12,855 represents the direct expenditure on the scheme. Arrangements have now been made for carrying out the works departmentally.

15. The area irrigated by the Chembrambakam Tank system was greater than in the previous year, but the net income gave a return of only 3·33 per cent. on Capital outlay; in the previous year the figure had been 4·52. The decrease in income was due to special repairs to the Kesavaram anicut which had been breached by floods in 1882.

16. The income from the Palar anicut system gave a return of 5·31 per cent. on the Capital outlay as compared with 4·22 per cent. in the previous year. The area irrigated was practically the same as in the year 1882-83.

17. There was a considerable improvement in the area irrigated, and in the financial results of the working of the Pelaadorai anicut system. The acres irrigated increased from 3,386 to 5,087, and the balance of charge was R17,807 as compared with R42,491 in 1882-83.

18. There was no increase in the area irrigated by the Madras Water-supply and Irrigation Scheme. As before stated, the income of the previous year derived from the water-supply to Madras city was abnormal. Consequently, the percentage of net income on outlay has decreased from 2·05 in 1882-83 to 0·68 in the year under review.

19. The alteration in the navigation rates mentioned in para. 6 has seriously affected the returns from the Buckingham Canal. The loss in the present year was R1,24,748 as compared with R58,861 in 1882-83, whilst the charges of 1883-84 were only slightly in excess of those of the previous year. The difficulties experienced in working the canal still continue, but strenuous efforts were made to keep the canal open for traffic. The tonnage and number of passengers were about half of that recorded for 1882-83, but a hope is expressed that the traffic will gradually increase when the new rules are more widely known.

20. The expenditure on works for which neither Capital nor Revenue Accounts are kept amounted, in 1883-84, to R16,99,859; of this sum R3,44,397 was due to old maintenance charges and to a proportion of the cost of establishments employed on systems for which Capital and Revenue Accounts are kept. The total grant under this head was R17,68,741; it is explained that the whole of the grant could not be spent owing to heavy rainfall and the presence of water in some of the tanks during the working season.

The total irrigation and miscellaneous revenue derived from these works was R89,34,876, the outlay, direct and indirect, including collection charges, was R20,29,098; and the net revenue, R69,05,778. There was an increase in the area irrigated of 118,627 acres.

21. Under the head of Agricultural works, the expenditure during 1883-84 amounted to R4,32,902, of which R1,62,390 was spent on original works, and the balance on repairs; the works consist mainly of embankments and masonry sluices to regulate the rivers, and the maintenance of drainage lines. The total expenditure in 1882-83 was R5,67,993.

22. ₹1,78,600 was spent on Protective Works, of which ₹1,33,000 was allotted by the Government of India as a grant-in-aid towards the completion of the Buckingham Canal. The balance was spent in investigating irrigation projects. A temporary division was formed for carrying out the Rushikulya Project, but work had not actually been commenced at the close of the year.

23. The average rainfall for all districts of the Province was 35·83 inches, which was 0·86 inches more than in the previous year. No damage worthy of note occurred to any of the Irrigation works.

24. A special division was formed under the control of a Superintending Engineer for the systematic investigation of the requirements of tanks and to frame estimates for such improvements as might be found necessary.

The work done by this Division during the year consisted in commencing preliminary investigations in the District of Madura, investigating and estimating for the requirements of the basins of Periyakulam and Buttagarutta, and commencing work in the former basin; the wants of the Suralayar basin were also under investigation.

25. A River Conservancy Bill was passed by the Local Legislative Council, and submitted for the sanction of the Supreme Government. The opinions of other Governments were obtained on certain points connected with the proposed Bill for enforcing the maintenance of private tanks and preventing mischief to irrigation works, and these were referred to a Select Committee.

ORDER.—Ordered, that a copy of the Resolution be forwarded to the Government of Madras for information.

Also, that a copy of the Resolution be forwarded to the Local Governments and Administrations marginally noted for information.

The Governments of Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab, in the Public Works Department.
The Chief Commissioner, Central Provinces.
The Agent to the Governor General for Rajputana.

Also, that a copy be forwarded to the Publisher of the *Gazette of India* for publication in the Supplement to the *Gazette*.

C. S. BAYLEY,

Offg. Under-Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 28th JANUARY 1885.

GENERAL REMARKS.—There has been some rain in parts of Sindh, and in places in the Central Provinces and in the Central India States, and in Bengal. Rain has also fallen in most districts of the North-Western Provinces and Oudh, and in many places in the Punjab.

In Madras prospects continue to be unfavourable in parts of Bellary and Anantapur, elsewhere standing crops are generally in good condition. In Mysore the crops are in fair condition, except in the Kolar and Tumkur districts, where prospects are not encouraging. The rice harvest has been completed in Coorg, and threshing has commenced. Coffee-picking still continues on European estates, but there is no demand in the local market for native produce.

Rabi prospects continue good in Bombay. In parts of Hyderabad and on the Upper Sindh Frontier, the standing crops have been injured by frosts. Scarcity of fodder continues in several talukas of Dharwar, Belgaum, and Kaladgi, and of drinking water in parts of Dharwar and Belgaum.

In the Berars, the Central India and Rajputana States prospects are generally very favourable.

The *rabi* crops are flourishing in the Central Provinces and in the Punjab, and are generally in good condition in the North-Western Provinces and Oudh.

In Bengal mustard, *mug*, and *kalai* are being gathered, and harvesting of paddy is finished, except on very low lands. The outturn generally has been below the average. Lands are being prepared for *boro* paddy and *aus* crops. More rain is required for the *rabi* crops.

In Assam the *sali dhan* has been nearly harvested, and lands are being prepared for the winter crops. The rice harvest has been gathered in the majority of districts in British Burma, and threshing is in progress.

The mortality from cholera has again increased in Coimbatore and Tanjore. In other provinces the public health is generally good.

Prices generally are stationary, except in the Punjab where they are fluctuating.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(Jan. 28th)		
Bellary	*Nil*	Standing crops dry and wet withering in parts from want of rain; harvest paddy and dry grains, yield below average.
Kurnool	,,	Standing crops good except in one division and in parts of 3 taluks where they are withering from want of rain; harvest, dry grains, yield below average; smallpox in 3 taluks.
Ganjam	,,	Smallpox, cholera, and cattle-disease prevalent.
Kistna	,,	Standing crops generally good; harvest, paddy; river 1·75 feet over anicut; fever and smallpox exist.
Chingleput (Madras)	,,	Standing crops in part of one taluk affected by insects, harvest paddy, outturn below half the average; smallpox and cattle-disease exist, 193 deaths from cholera.
Coimbatore	,,	Standing crops—wet, generally good; dry crops, indifferent; harvest paddy, outturn about average; dry grains below average; fever exists; cholera again increasing, 521 deaths.
Tanjore	,,	Rivers 1 to 4 feet; standing crops generally good; harvest wet and dry crops, outturn below average; 524 deaths from cholera.
Madura	,,	Fever prevails; 157 deaths from cholera.
Malabar	,,	Harvest of 2nd crop paddy nearly over, outturn generally fair; fever exists; smallpox and cattle-disease slight; 84 deaths from cholera.
Travancore	,,	Harvest 2nd crop paddy, yield good; cholera prevalent, 13 deaths at Trevandrum; smallpox exists.
		General Remarks.—General prospects fair, except in parts of Bellary and Anantapur.
Bombay—(Jan. 28th)		
Karachi	Good shower of rain on 27th. Fall last week in Karachi 1·29; average of 16 other stations ·34.	River on 25th 6 feet 8 inches against 3 feet 2 inches on same date last year; fever generally prevalent; cattle-disease in 5 talukas, loss of 128 buffaloes and 28 cows and bullocks; no fresh case of cholera; one case of smallpox in Karachi terminated fatally on 24th; disease prevalent in 30 villages in the districts, 42 fresh cases, 6 deaths, 45 remaining sick; prices—wheat, red rice, and *bajri* in Karachi 26, 28, and 40; in Kotri 32, 38, and 40, in Sakro 18, 34, and 44, and in Shahbandar 22, 56, and 48 lbs. per rupee respectively.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay —*contd.*		
Hyderabad . . .	Rain in 8 talukas, average ·24.	*Rabi* good ; oil seed, cotton, and tobacco crops slightly injured by frost in a few talukas ; weather unsettled ; river at Kotri on 23rd 7 feet 2 inches against 3 feet 2 inches last year ; fever in 8, smallpox in 3, and cattle-disease in 5 talukas ; wheat 32, *bajri* 40, *jowari* 44, red rice 28, and white rice 20 lbs. per rupee.
Ahmedabad . . .	*Nil*	Crops doing well ; wheat 31 and *bajri* 33 lbs. per rupee.
Baroda . . .	,,	Standing crops in good condition ; health fair, cattle-disease in Belgaum taluka ; prices—*bajri* 33 and rice 24 lbs per rupee.
Surat	,,	Standing crops healthy ; fever in two talukas ; *jowari* 39 and *nagli* 43 lbs. per rupee.
Násik	,,	*Rabi* crops generally good ; slight injury to crops in Yella taluka by rats ; public health good ; wheat 37, *bajri* 37, and rice 21 lbs. per rupee.
Colaba (Bombay) . .	,,	Abnormal temperature rose from 1° cool on 21st to 3° warm on 23rd and then gradually fell to 2° cool by the 27th ; vapour in air excessive from 22nd to 26th, abnormal wind southerly on 23rd and 24th.
Poona . . .	,,	*Rabi* crops good ; cattle-disease in some villages in Khed ; one fatal cholera case in a village in Junnar ; slight smallpox in Bhimthadi taluka ; *bajri* 33 and *jowari* 37 lbs., in Poona *bajri* 32 and *jowari* 35 lbs. per rupee.
Ahmednagar . .	,,	Prospects unchanged ; *bajri* 36 to 45 and *jowari* 36 to 51 lbs. per rupee.
Sholapore . . .	,,	Young *rabi* crops doing well in all talukas ; *jowari* 38 lbs. 28 tolas and *bajri* 37 lbs. 6 tolas per rupee.
Dharwar . . .	,,	Harvesting of early *jowari* nearly completed, that of wheat commenced ; exotic cotton blighted in some villages of 3 talukas ; scarcity of fodder in Navalgund, Mindurgi, Karajgi, and Ron, that of drinking water in Nargund, Bankapur, and some villages of Hangal ; rice 20 to 32 and *jowari* 35 to 51 lbs. per rupee
Kanara . . .	,,	Common rice in Karwar and in district 14 seers per rupee; second crop in ear in Karwar ; sowing completed in Yellapur taluka ; smallpox, two deaths in Kumta ; fever in Honore, Siddapur, Sirsi, Haliyal and Yellapur ; no cholera in Haliyal ; weather fair.
Rajkot . . .	,,	General health good ; fever still prevalent in some talukas ; smallpox among cattle continues in Dedar ; *bajri* 34 and *jowari* 40 lbs. per rupee.
		General Remarks.—Rain in parts of Sindh ; *rabi* prospects unchanged ; standing crops slightly injured by frost in parts of Hyderabad and Upper Sindh Frontier, and by rats in one taluka of Nasik ; scarcity of fodder continues in several talukas of Dharwar, Belgaum, and Kaladgi, and of drinking water in parts of Dharwar and Belgaum ; cholera in parts of four districts ; cattle-disease in parts of eight, and fever and smallpox in parts of twelve districts.
Bengal—(Jan. 27th)		
Chittagong . . .	*Nil*	Weather seasonable ; prospects of winter crops fair ; rain is wanted ; prices of food-grains steady ; cholera still continues ; otherwise general health good.
Dacca	,,	Cutting of sugarcane continues ; *mug* and mustard are being gathered ; *boro* paddy is being sown ; prospects of crops favourable ; public health generally good ; some cases of fever are reported from parts of the district.
24-Pergunnahs . .	·6	Prospects of standing crops continue satisfactory and the yield is above the average ; harvesting of *amun* paddy is nearly finished ; *rabi* crops are doing well ; price of common rice varies from 14 to 17½ seers per rupee ; public health generally good, fever and cholera are abating ; state of river normal.
Moorshedabad . .	*Nil*	Weather bright and cold ; all winter crops are doing well ; but a little rain is wanted everywhere ; price of rice ranges from 16 seers at the sudder station to 17¾ seers in the Jungipore sub-division ; public health generally good.
Burdwan . . .	,,	Outturn of *amun* paddy is on an average 3 to 4 annas ; *rabi* crops are promising, gathering of which has commenced ; sugarcane is being cut ; public health good.
Rungpore . . .	,,	Weather seasonable ; harvesting of *amun* paddy is almost completed ; yield is much below the average ; a good outturn of mustard, sugarcane, and other *rabi* crops is expected ; prices of food-grains stationary ; general health good.
Bhagalpore . . .	,,	Prospects of *rabi* crops good ; some damage has been done to them by blight in certain parts of the district, a shower of rain would benefit them immensely ; rice is selling on an average at 14 seers 13 chittacks per rupee.
Purneah . . .	,,	Prospects of *rabi* crops generally good ; some rain is wanted for oat, wheat, and other later *rabi* crops ; mustard is being reaped ; common rice is 16 seers per rupee ; public health indifferent.
Patna . . .	,,	Prospects of *rabi* crops still good ; rain is much wanted everywhere ; poppy crop is promising ; public health good.
Durbhanga . . .	,,	*Rabi* crops are coming on well ; mustard is being gathered ; poppy is beginning to flower ; prices rising ; public health good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*contd.*		
Hazaribagh . .	*Nil*	Weather seasonable; the rain which fell in the northern part of the district will considerably benefit the standing *rabi* crops; mustard and other oilseeds are being gathered; sporadic cases of smallpox are still reported from most part of the district, otherwise health good.
Cuttack . . .	„	Weather warm; mornings foggy; outturn of *sarad* and *rabi* crops fair; *dalua* and wheat are progressing well; price of rice stationary; public health good; though cases of smallpox are reported from parts of the district.
Midnapore . . .	. . .	Weather warm with occasional fog and clouds; prospects of standing crops good; price of common rice varies from 18 to 20 seers per rupee in the sudder station; public health fair; though cholera and smallpox prevail in places.
Khulna . . .	*Nil*	Weather warm; late paddy has been gathered in, except that on very low lands, good outturn is expected; no other crops are much grown; public health good; cholera abated.
Dinagepore . . .	„	Weather seasonable; prospects of winter crops fair, a little rain is wanted; ploughing for *aus* crops has commenced; rice is selling at from 11 to 23 seers per rupee; public health generally good.
Gya	„	Weather somewhat cloudy; harvesting of paddy is almost completed with an outturn varying from 2 to 10 annas; prospects of *rabi* crops everywhere good; prices of food-grains have slightly risen in Nowada; some damage done to poppy crop in Gya and Wazirgunge by hail; the rain of the last week, however, has done good to late sowings and backward plants of poppy.
Chumparun . . .	. . .	Prospects of *rabi* and poppy crops favourable; common rice is selling at from 18 to 30 seers per rupee; public health good.
Shahabad . . .	. . . .	Blight has appeared in parts of the district; damage to poppy crop is apprehended.
Mozufferpore . .	. . . .	Prospects of poppy crop continue favourable.
Sarun . . .	. . . .	In the Alligunge Sub-Agency prospects of poppy crop continue good, but signs of blight have appeared on tight lands in the Chuprah Sub-Agency; prospects not good; blight in two *kottees* due to unfavourable weather.
Monghyr . . .	. . . .	Prospects of poppy crop continue favourable and collection of opium has commenced in many places.
		General Remarks.—Rain fell in some districts; more rain is still wanted for later *rabi* crops; mustard, *mug*, and *kalai* are being gathered; harvesting of paddy, except that on very low lands, is finished with an outturn generally below the average; lands are being prepared for *boro* paddy and *aus* crops; price of common rice is generally stationary; public health on the whole is good, though some cases of smallpox and cholera are still reported.
N.-W. Provinces and Oudh— (Jan. 29th)		
Benares (Jan. 27th)	No rain during the week.	Weather cold; prospects of *rabi* and opium crops good; bazars well supplied; prices falling; no sickness of men or cattle.
Gorakhpur („ 26th)	„	Fine weather and high winds followed by some clouds and slight rain; crops good, including poppy; prices stationary; health good.
Fyzabad („ 27th)	Slight rain on 26th instant.	Prospects of *rabi* and opium crops continue good; sugarcane being pressed; bazars well supplied; prices stationary; no sickness of men or cattle.
Lucknow („ 26th)	A slight fall of rain on the night of the 25th.	Variable wind; crops good, except those injured by hail; blight is said to be doing injury to wheat and *sarson* crops in some places; supplies sufficient; prices steady; health of people and condition of cattle good.
Rai Barelli („ „)	*Nil*	Weather cloudy; *rabi* prospects good; supplies ample; prices easy; some cases of smallpox reported from tahsil Salon.
Partabgarh („ 27th)	Showers in parts of the district.	Slight damage from hail to peas, barley, and wheat in Patti tahsil.
Allahabad („ „)	No rain	Weather seasonable; crops flourishing; general health good; prices falling generally.
Cawnpore („ 26th)	Slight rain fell during the week in four parganas.	Weather cloudy off and on; *rabi* prospects continue good, but rain is much needed for unirrigated crops; poppy plants are strong and healthy; general health good; slight cattle-disease in 2 parganas; prices falling.

No. 246 *G.*—The services of Surgeon H. C Hudson, Indian Medical Service, lately on duty with the Camp of the Governor-General's Agent in Central India, are replaced at the disposal of the Military Department.

INTERNAL.

The 4th February, 1885.

No. 402 *I.*—Whereas the Governor-General in Council has power and jurisdiction within the Military Cantonment of Deesa in the Pálanpur State;

and whereas it is expedient to make provision for the due and effectual exercise of such power and jurisdiction;

It is hereby notified in exercise of such power and jurisdiction and of the powers conferred by Sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, 1879, as follows:—

1. The Governor of Bombay in Council shall exercise within the said Cantonment, subject to the provisions of the enactments from time to time in force therein, the same executive powers which he may lawfully exercise in the Presidency of Bombay.

2. There shall be a Court for the trial of all original civil suits of whatever amount or value, and of all other matters within the cognizance of a Court of original civil jurisdiction, arising within the limits of the said Cantonment, except such suits or matters as are within the cognizance of the Court of Small Causes already established in the said Cantonment. The Cantonment Magistrate appointed from time to time under the provisions of the Cantonments Act, 1880, shall be the Judge of the said Court.

3. An appeal shall lie, subject to the provisions of the enactments from time to time in force in the said Cantonment, against the decrees and orders of the said Court, to the Political Superintendent of Pálanpur, and subject to the provisions of the said enactments, a second appeal shall lie against the decrees and orders of the said Political Superintendent to the Governor in Council of Bombay.

4. There shall be a Court of Session for the trial of sessions cases and of Criminal appeals under the provisions of the Code of Criminal Procedure within the limits of the said Cantonment. The Political Superintendent of Pálanpur shall be the Judge of the said Court, and shall have all such authority and jurisdiction within the limits aforesaid as shall from time to time lawfully appertain to a Sessions Judge under the provisions of the enactments in force in the said Cantonment. Subject to the provisions of the Code of Criminal Procedure, an appeal shall lie against the decisions and orders of the said Court of Session to the Governor of Bombay in Council.

5. The Governor of Bombay in Council shall have all such authority and jurisdiction in the said Cantonment in matters both civil and criminal as Her Majesty's High Court of Bombay has in any part of the Presidency of Bombay other than the local limits of its ordinary original civil jurisdiction: Provided that nothing herein contained shall be deemed to affect the exercise by the Political Superintendent of Pálanpur of certain of the powers of a Sadr Court with which he was invested by the Governor General in Council's Notification No. 115, dated 23rd April, 1868, published at page 823 of the *Gazette of India* of the 25th of April, 1868.

No. 403 *I.*—In supersession of all previous Notifications extending enactments to the Cantonment of Deesa, the Governor-General in Council is pleased to declare that the following enactments apply to the said Cantonment to the extent and subject to the modifications hereinafter mentioned:—

Number, year, and subject.	Extent of applicability.	Modifications.
	I.—Acts of the Governor-General of India in Council.	
XXXII of 1839, The Allowance of Interest.	The whole Act	For "the East India Company" read "India."

No. 43.—The following is published for general information :—

No. 195 G , dated 4th February 1885.

RESOLUTION —By the Government of India, Public Works Department.

Civil Engineers' Prorident Fund.

Read again :—

Public Works Department Resolution No. 1216 G., dated 15th October 1884.

Read also—

Despatch from the Secretary of State, No. 71, dated 13th November 1884.

RESOLUTION.—Since the publication of the Resolution now read again, the Secretary of State has ruled that contributions to the Civil Engineers' Provident Fund may be made compulsory on all Civil Engineers who may hereafter enter the Public Works Department. The Government of India has also authorized certain changes in regard to the accounts of the Fund. It has been found necessary therefore to issue a revised set of rules, which is appended to this Resolution.

2. The Secretary of State has also ruled that Officers now in the Department, who wish to join he Fund, may pay up arrears, within the authorized limits, from the commencement of service, or for ny shorter time, in one sum, interest on which will be allowed from the date of payment.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab, in the Public Works Department.
The Chief Commissioners, Central Provinces, British Burma, Assam and Coorg.
The Resident at Hyderabad.
The Agents to the Governor General for Central India, Rajputana, and Beluchistan.
The Accountant General, Public Works Department.
The Inspector General of Military Works.
The Director General of Railways.
The Consulting Engineers to the Government of India for Guaranteed Railways, Calcutta, Lahore, and Lucknow.
The Superintendent of Works, Simla Imperial Circle.

ORDER.—Ordered, that this Resolution be forwarded to the Local Governments and Administrations and Officers noted in the margin, and to the Department of Finance and Commerce, also that it be published in the *Gazette of India* and in all Local Gazettes.

CIVIL ENGINEERS' PROVIDENT FUND.

Character of the Fund.

1. Civil Engineers on the effective list of the Public Works Department.
2. Civil Engineers transferred to the Accounts Branch, or the Superior Railway Revenue Establishment, or to foreign service under Chapter III of the Civil Pension Code.
3. All civil members of the Superior Accounts Establishment who are not Civil Engineers.

I.—The institution of a Provident Fund on the following basis is sanctioned for the officers of the Public Works Department indicated in the margin :—

(1) The monthly deposit may be not less than 5 per cent. and not more than 10 per cent. on the salary (as defined in the Financial Codes) of each depositor for that month.

(2) In the case of officers now in the Department, the deposits will be voluntary, and may be discontinued and renewed at the option of the depositor. But officers joining the Department hereafter must contribute 5 per cent. of their salary to the Fund, and may contribute up to 10 per cent. of salary. Apprentices may contribute to the Fund, but will not be compelled to do so.

(3) Compound interest at 4 per cent. on such payments will be annually credited by Government to each officer subscribing.

(4) The sum which will thus accumulate to the credit of an officer to be his absolute property, to be handed over to him unconditionally on quitting the service, or, in the event of his death before retirement, to his legal representatives.

II.—The deposits received under the foregoing resolution will be placed in a Government Savings Bank named "Civil Engineers' Provident Fund." The administration of the Fund will rest with the Government of India in the Public Works Department.

Administration of the Fund.

III.—Deposits will be received by the various Examiners of Public Works Accounts throughout India. They will be recovered by deduction from the pay bills, or may be made in cash. Deposits cannot, except in the cases provided for in the next rule, be made otherwise than through an Examiner of Public Works Accounts or an Executive Engineer who is in account with an Examiner.

Receipts of Deposits.

IV.—An officer who is not on the books of any Examiner, but receives his allowances either from the Civil Department or from a local fund or a foreign State, may, if he has already been admitted as a depositor, pay his contributions either in cash into the nearest treasury, or, if he is paid by the Civil Department, by deduction from his salary bill. He must in either case specify the number of his account. His contributions will be passed on, by the Civil Accountant General, to the Examiner, Public Works Accounts, of the Province, who will exercise the responsibility mentioned in Rule VIII.

An officer of this class who has not already been admitted, must apply for admission (and assignment of number) to the Accountant General, Public Works Department.

For the purposes of this rule, the Examiner for the Province is, in the case of Indian Treasuries, the Examiner of Military Works Accounts.

V.—No withdrawal will ordinarily be allowed from the deposit until the depositor quits the service or dies. But on Local Governments or Administrations being satisfied that the pecuniary circumstances of a depositor are such, that the indulgence is absolutely necessary, a deposit may be temporarily withdrawn under orders issued by the respective Local Governments and Administrations—

Withdrawals.

(*i*) to pay for the passage of the depositor going on leave out of India on medical certificate, or returning after such absence;

(*ii*) to pay for the passage of any member of the depositor's family coming from beyond the sea to join him, or going beyond the sea, sick, or from some urgent cause.

A withdrawal thus sanctioned will be made after reference to the Comptroller General to ascertain that it is covered by the amount at credit.

VI.—Withdrawals under Rule V will be recovered in 20 equal monthly instalments compulsorily deducted from salary in addition to contributions under Rule I, whenever full salary is drawn, until the whole is refunded. Such instalments may be paid in advance.

VII.—The balances of deceased depositors will be paid according to Rules 58 and 59, Chapter 19, of the Civil Account Code, edition 1883, and Act V of 1873.

Deceased depositors.

VIII.—For the proper admission of depositors, the correct realization of the receipts, and the admission and payment of the withdrawals, the Examiners, as Audit Officers, will be entirely responsible. The functions of the Comptroller General are purely those of keeping the account of the receipts and withdrawals as reported by the Examiners.

Responsibility of Examiners.

IX.—All sums received from depositors will be credited, and all sums withdrawn will be charged by the Examiners under the head "Civil Engineers' Provident Fund."

Examiner's account of deposit.

X.—The Examiner will, at the end of each month, forward to the Comptroller General, Savings Bank Department, a statement of the sums he may receive on account of the Fund. This statement will contain (1) the dates of receipt; (2) the numbers of the depositors' accounts; (3) name and official designation of the depositors; and (4) amounts of deposits. The total of this statement must agree with the corresponding credit in the Examiner's account as rendered to the Accountant-General. For number of depositors' account, see below, Rule XIII.

XI.—The Examiner will similarly forward a monthly statement of withdrawals. This statement will give the following particulars, and the total of it must agree with the corresponding debit in the Examiner's monthly account as rendered to the Accountant General:—(1) dates of payments; (2) numbers of depositors' accounts; (3) names and official designations; (4) amounts paid; (5) number and date of the orders of the Local Government or Administration for payment as prescribed in Rule V. For number of account, see below, Rule XIII.

Examiner's account of withdrawals.

The Accountant General will, together with his monthly account, send to the Comptroller General a complete statement, by Examiners, of the total receipts and withdrawals on account of Provident Fund

XII.—The yearly receipts and charges on account of the Civil Engineers' Provident Fund will be cleared from the books of the various Examiners by transfer to those of the Examiner of Accounts, Military Works, in whose books consequently the transactions of the whole Fund will be recorded.

Accounts of Fund to be transferred annually to the books of Examiner, Military Works Accounts.

XIII.—The account of each depositor will be posted in a ledger, to be kept by the Comptroller General, Savings Bank Branch. The ledger will be closed as soon as possible after 31st March of each year.

Depositor's ledger.

XIV.—Every account in this ledger will receive a distinct number. The numbers so given to the depositors' accounts will be consecutive. When a new depositor is admitted, the Comptroller General will, on reference, notify to the Examiner concerned the number to be given to his account, and this number will be quoted against all further deposits, and all withdrawals in the statements prescribed in Rules X and XI. A depositor's number will not be altered, nor will the numbers of closed accounts be given to new depositors. In the event of the depositor's transfer, the number will be noted on his last-pay certificate, in order that the next Examiner may be able to quote it in his deposit statements.

Numbers of depositors' accounts.

Interest.

XV.—Interest will be allowed for each calendar month upon the minimum balance of the depositor's account between the close of the fourth day and the end of the month. In calculating interest under this rule, the deposits received by deduction from salary will be considered as paid into the Fund on the 1st of the month succeeding that for which the salaries from which the deductions are made are due. The interest will be calculated monthly as provided for in the form of ledger, but will not be added to principal until the end of the official year, except when the account is to be finally closed, in which case the interest will be paid, after reference, as prescribed in the next section.

Closing of account.

XVI.—When an account is to be closed, the Examiner who at the time is charged with the receipt of the deposits will submit to the Comptroller General a statement of the transactions of the past six months, certifying them to agree with the debits and credits in his accounts (or submitting such certificate of any other Examiner in whose accounts they were included), and will apply for an order for payment of interest and principal up to date. The account will be made up in advance, by the Comptroller General, and issued in the Form A attached, with an order directing the debit.

Addition of interest.

XVII.—The amount of interest to be added to the balance of the fund will be calculated each year by the Comptroller General, who will issue a direction to the Accountant General, Public Works Department, to credit the amount to the Fund by debit to Civil Department in the Exchange account between the Comptroller, Indian Treasuries, and the Examiner of Accounts, Military Works. This transaction must include the debits on account of interest paid during the year on closed accounts, which during the currency of the year is debited to the Fund itself.

Yearly advice to depositors.

XVIII.—As soon as possible after receiving the March accounts of the Accountant General, Public Works Department, the Comptroller General will make up each depositor's account, with interest, till March 31st, and will send him, through the Examiner in whose account his last subscription was received, a statement of his account in Form A annexed, or in some similar form. Depositors are required to satisfy themselves as to the correctness of these statements; and unless errors in them are brought to the notice of the Comptroller General within one month from the date of their receipt, Government will not be responsible for any sums not thus acknowledged.

XIX.—Any depositor may, once in the official year but not oftener, receive, on application to the Comptroller General, a copy of his account for the last official year, and for so many months of the current year as may have been posted and agreed with the accounts of the Department.

By Order,
W. H. C. WYLLIE,
1st Asst. to the Chief Commr.

CHIEF COMMISSIONER OF AJMERE-MERWARA IN THE P. W. D.

NOTIFICATION.

Camp Nusseerabad, the 27th January 1885.

No. 277 S.—Under Section 15 of Act XV of 1873, the Chief Commissioner of Ajmere-Merwara is pleased to sanction the levy of the following additional taxes proposed by the Ajmere Municipal Committee as shown in italics in the subjoined schedule, from 1st January 1885:—

I.—Wheel tax on all vehicles plying within municipal limits, except those in halt transit at a recognized encamping ground for less than three nights.

Carriages,—4 annas per wheel per month.
Ekkas,—2 annas per wheel per month.
Bullock carts,—1 anna per wheel per month.

II.—Conservancy cess on European houses and officers outside the city, other than such as belong to the Railway, or are cleansed by Birut sweepers, at 5 per cent. on the rental of all private houses, with a maximum charge of R5 per house per mensem; all public officers being specially assessed.

III.—Increased Octroi taxation as shown in italics in list annexed. Where no change is shown the old rate will continue to be levied:—

J. J. McLEOD INNES, *Colonel, R.E.,*
Inspr. Genl. of Military Works.

DIRECTOR GENERAL OF RAILWAYS.

NOTIFICATIONS.—ESTABLISHMENT.

Calcutta, the 30th January 1885.

No. 10.—With reference to Public Works Department Notification No. 35, dated the 28th January 1885, Captain R. Gardiner, R.E., Class II, of the Superior Revenue Establishment of State Railways, is posted to the Office of the Director General of Railways.

The 2nd February 1885.

No. 11.—Mr. P. W. Dangerfield, Executive Engineer, 3rd Grade, has been granted by Her Majesty's Secretary of State for India, an extension of leave on sick certificate for three months in continuation of the leave previously granted him.

No. 12.—Mr. C. E. Cardew, Class III of the Superior Revenue Establishment of State Railways, Locomotive Department, has been granted by Her Majesty's Secretary of State for India, leave on sick certificate for six months in further extension of the furlough previously granted him.

No. 13.—With reference to Public Works Department Notification No. 26 of the 23rd January 1885, the undermentioned Officers of Royal Engineers are posted to the Sind-Pishin State Railway, Northern Section :—

Lieutenant E. W. Walton.
„ J. R. L. Macdonald.
„ S. L. Craster.

The 3rd February 1885.

No. 14.—With reference to Public Works Department Notification No. 23, dated the 21st January 1885, Major W. Shepherd, R.E., Executive Engineer, 1st Grade, is posted to the Sind-Pishin State Railway, Northern Section.

The 4th February 1885.

No. 15.—With reference to Public Works Department Notification No. 36, dated the 28th January 1885, Mr. F. G. Brook-Fox, Executive Engineer, 3rd Grade, British Burma, is posted to the Bellary-Kistna State Railway.

F. S. STANTON, *Colonel, R.E.,*
Director General of Railways.

BENGAL-NAGPUR STATE RAILWAY.

Tenders are invited, and will be received up to noon of Saturday, 28th February 1885, for the supply of one hundred thousand (100,000) sleepers measuring 10′ 0″ by 10″ by 5″. Separate rates should be quoted for each sleeper of the following descriptions of wood :—

Sal.
Bejar Sar.
Teak.

Delivery of sleepers may be made at approved depôts at Amgaon, Dara-Kassa, Raj-Nandgaon, and Raipur, but at the latter depôt only 25,000 sleepers will be received. The whole of the sleepers must be delivered by 15th October 1885. The Engineer in-Chief does not bind himself to accept the lowest or any tender.

Further information can be had on application to the Engineer-in-Chief, Camp Raipur, Central Provinces.

Descriptive Return of a Deserter from the 2nd Battalion, Liverpool Regiment, dated at Fort William, this 30th day of January 1885.

Number, Rank, and Name,—No. 2634, Private Joseph Murphy.
Age,—22 years 3 months, appears much younger, having no appearance of beard, and being of a very florid complexion.
Height,—5 feet 5½ inches.
Chest measurement,—35 inches.
Complexion,—Fresh.
Eyes,—Hazel.
Hair,—Brown, thick, with tendency to curl.
Religion,—Roman Catholic.
General appearance,—Much younger than age, with a slouching walk which in civilian clothing would prevent his being recognized as having served in the army.

A. A. LEMESURIER, *Colonel,*
Comdg. 2nd Battn., Liverpool Regt.

TREASURE TROVE.

It is hereby notified, under Section 5 of the Indian Treasure Trove Act (VI of 1878), that about the end of July 1882, the treasure described below was found from a land mound falling in accidentally in Dhand Lakori Taluka, Tando Allahayar, of the Hyderabad District :—

HENRY F. BLANFORD,
Meteorological Reporter to the Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co. are distributed by that firm; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows:—

Terms of subscription, payable annually in advance

For the Complete Series, *including postage* . R22 8

	Without postage.	With postage
For the Calcutta Series	₹10 0	₹12 8
,, each of the Madras, Bombay and Allahabad Series	,, 6 0	,, 7 0
,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*)		
,, a part of the Madras, Bombay and Allahabad Series purchased separately (*inclusive of postage in India*)		,, 1 0

Persons desiring to subscribe for, or purchase, the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.
,, Thacker & Co., Bombay.
,, Higginbotham & Co., Madras.
The Government Central Book Depot, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh.
,, Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1885 should be at once remitted.

NOTICE.

Indian Law Reports.

Advertisements will be received for publication on the wrappers of the Indian Law Reports, Calcutta Series, by the Calcutta Central Press Company, "Limited," 5—1, Council House Street, at the following rates, payable in advance :—

	One page.	*Half page.*	*Quarter page.*
For one issue	R 15	R10	R 6
,, three issues	,, 40	,, 25	,, 14
,, six ,,	,, 70	,, 40	,, 25
,, twelve ,,	,, 110	,, 70	,, 45

At these rates the advertisers will have the option of changing their advertisements in each issue.

THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Report (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at R375 a set.

Complete set R20 0 R22 8

A part of any series purchased separately, R1.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 30th January, 1885, and is hereby promulgated for general information :—

ACT No. II OF 1885.

An Act to amend the Negotiable Instruments Act, 1881.

WHEREAS it is expedient to amend the Negotiable Instruments Act, 1881, in manner hereinafter appearing; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Negotiable Instruments Act, 1885.

Amendment of section 7, Act XXVI of 1881.

2. In the fourth paragraph of section 7 of the Negotiable Instruments Act, 1881, for the words "When acceptance is refused and the bill is protested for non-acceptance" the following shall be substituted, namely :—"When a bill of exchange has been noted or protested for non-acceptance or for better security".

New section inserted after section 45 of the same Act.

3. After section 45 of the same Act the following shall be inserted :—

Holder's right to duplicate of lost bill.

"45A. Where a bill of exchange has been lost before it is over-due, the person who was the holder of it may apply to the drawer to give him another bill of the same tenor, giving security to the drawer, if required, to indemnify him against all persons whatever in case the bill alleged to have been lost shall be found again.

"If the drawer on request as aforesaid refuses to give such duplicate bill, he may be compelled to do so."

Addition to sections 61 and 64 of the same Act.

4. To section 61, and the first paragraph of section 64, of the same Act, the following shall be added :—

"Where authorised by agreement or usage, a presentment through the post office by means of a registered letter is sufficient."

Addition to section 101 of the same Act.

5. To section 101 of the same Act the following shall be added :—

"A notary public may make the demand mentioned in clause (*c*) of this section either in person or by his clerk or, where authorised by agreement or usage, by registered letter."

Section inserted after section 104 of the same Act.

6. After section 104 of the same Act the following shall be inserted :—

When noting equivalent to protest.

"104A. For the purposes of this Act, where a bill or note is required to be protested within a specified time or before some further proceeding is taken, it is sufficient that the bill has been noted for protest before the expiration of the specified time or the taking of the proceeding; and the formal protest may be extended at any time thereafter as of the date of the noting."

Section 108 of the same Act, in part, repealed.

7. In the same Act, section 108, the second sentence is repealed.

Amendment of section 109 of same Act.

8. In the same Act, section 109,

(*a*) for the words "in the presence of a notary public subscribe the bill with his own hand and" the following shall be substituted, namely :—"by writing on the bill under his hand"; and

(*b*) the last twelve words are repealed.

Amendment of section 113 of same Act.

9. In the same Act, section 113, after the words "the person so paying" the words "or his agent in that behalf" shall be inserted.

New chapter added to same Act.

10. After Chapter XVI of the same Act, the following shall be inserted :—

"CHAPTER XVII.

"NOTARIES PUBLIC.

Power to appoint notaries public.

"138. The Governor General in Council may, from time to time, by notification in the official Gazette, appoint any person, by name or by virtue of his office, to be a notary public under this Act and to exercise his functions as such within any local area, and may, by like notification, remove from office any notary public appointed under this Act.

Power to make rules for notaries public.

"139. The Governor General in Council may, from time to time, by notification in the official Gazette, make rules consistent with this Act for the guidance and control of notaries public appointed under this Act, and may, by such rules, (among other matters) fix the fees payable to such notaries."

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 30th January, 1885, and is hereby promulgated for general information :—

ACT No. III OF 1885.

An Act to amend the Transfer of Property Act, 1882.

WHEREAS it is expedient to amend the Transfer of Property Act, 1882; It is hereby enacted as follows :— IV of 1882.

Amendment of section 1 of Act IV of 1882.

1. For the fifth clause of section 1 of the said Act the following shall be substituted, namely :—

"And any Local Government may, with the previous sanction of the Governor General in Council, from time to time, by notification in the local official Gazette, exempt, either retrospectively or prospectively, any part of the territories administered by such Local Government from all or any of the following provisions, namely :—

"Sections fifty-four, paragraphs two and three, fifty-nine, one hundred and seven and one hundred and twenty-three."

Addition to same section.

2. The following clause shall be deemed to have been added to the first section of the said Act from the date on which it came into force, namely :—

"Notwithstanding anything in the foregoing part of this section, sections fifty-four, paragraphs two and three, fifty-nine, one hundred and seven and one hundred and twenty-three shall not extend or be extended to any district or tract of country for the time being excluded from the operation of the Indian Registration Act, 1877, under the power conferred by the first section of that Act or otherwise." III of 1877.

Addition to section 4 of same Act.

3. To section 4 of the said Act the following shall be added, namely :—

"And sections fifty-four, paragraphs two and three, fifty-nine, one hundred and seven and one hundred and twenty-three shall be read as supplemental to the Indian Registration Act, 1877." III of 1877.

Addition to section 6 of same Act.

4. To section 6 of the said Act the following clause shall be added :—

"(*i*) Nothing in this section shall be deemed to authorize a tenant having an untransferable right of occupancy, the farmer of an estate in respect of which default has been made in paying revenue or the lessee of an estate under the management of a Court of Wards to assign his interest as such tenant, farmer or lessee."

Amendment of section 69 of same Act.

5. In section 69 of the said Act—

(*a*) after the words "is valid in the following cases" the words "and in no others" shall be inserted; and

(*b*) after the words "Hindu, Muhammadan or Buddhist," in both places where they occur, there shall be inserted the words "or a member of any other race, sect, tribe or class from time to time specified in this behalf by the Local Government, with the previous sanction of the Governor General in Council, in the local official Gazette."

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 30th January, 1885, and is hereby promulgated for general information :—

ACT No. IV OF 1885.

An Act to provide for the temporary appointment from time to time of an Additional Judicial Commissioner for Oudh.

WHEREAS it is expedient to provide for the temporary appointment from time to time of an Additional Judicial Commissioner to assist the Judicial Commissioner of Oudh ; It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Oudh Additional Judicial Commissioner's Act, 1885 ; and

(*2*) It shall come into force at once.

Appointment of Additional Judicial Commissioner of Oudh.

2. (*1*) The Local Government may, from time to time, with the previous sanction of the Governor General in Council, by notification in the local official Gazette, appoint such person as it thinks fit to be an Additional Judicial Commissioner, and to sit as such in the Court of the Judicial Commissioner of Oudh.

(*2*) Every person so appointed shall hold his office during the pleasure of the Local Government.

Jurisdiction and powers of Additional Judicial Commissioner.

3. Every Additional Judicial Commissioner shall exercise such jurisdiction and powers of the Judicial Commissioner under any enactment for the time being in force as the Local Government may, from time to time, prescribe, but only in such cases as the Judicial Commissioner may direct.

Law applicable to Additional Judicial Commissioner.

4. Every enactment for the time being applicable to the Judicial Commissioner shall apply to the Additional Judicial Commissioner when exercising any jurisdiction or powers under the last foregoing section, as if he were the Judicial Commissioner.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 6th February, 1885, and is hereby promulgated for general information:—

ACT NO V OF 1885.

An Act to amend the Indian Ports Act, 1875.

WHEREAS it is expedient to amend the Indian Ports Act, 1875, in manner hereinafter appearing; It is hereby enacted as follows:—

Amendment of section 42 of the Indian Ports Act, 1875.

1. In section 42 of the said Act, for the words "Conservator of every port to which such order relates, and in the custom-house, if any, of every port subject to this Act" the following shall be substituted, namely:—"Conservator, and at the custom-house, if any, of every port to which such order relates".

Addition to section 47 of the same Act.

2. To the fourth paragraph of section 47 of the said Act the following shall be added, namely:—

"The expenses aforesaid shall also include the pensions, allowances and gratuities of persons who have been employed under this Act in the port, or such portion of those pensions, allowances and gratuities as the Local Government may by rule determine."

Further addition to the same section.

3. After the fifth paragraph of the same section the following shall be inserted and shall be deemed to have been inserted from the date on which the said Act came into force, namely:— "With the previous sanction of the Local Government the authorities of any port may, from time to time, contribute a sum from the Port Fund Account of that port for all or any of the purposes mentioned in section sixty.

"The sum so contributed shall, if, and so long as, the Local Government so directs, be in substitution of any Hospital Port-dues imposed under section fifty-nine at that port."

Addition to paragraph 3, section 59, of the same Act.

4. To the third paragraph of section 59 of the same Act the following shall be added, namely:—

"The Local Government may, from time to time, by notification in the official Gazette, cancel any such order."

Amendment of Schedule I, Part II, of the same Act.

5. In the entry relating to the Cuttack ports in Part II of the First Schedule of the same Act, for the words "not exceeding six annas per hundred maunds" the following shall be substituted, namely:—"Not exceeding four annas per ton".

R. J. CROSTHWAITE,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First Publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 6th February, 1885, and is hereby promulgated for general information :—

ACT No. VI OF 1885.

An Act to amend Act XXII of 1881.

WHEREAS it is expedient to amend the Excise Act, 1881 ; It is hereby enacted as follows :— 1881.

Amendment of section 28 of said Act.

1. In section 28 of the said Act, after the words "ten rupees" the words "or who receives an annual remuneration equivalent to such salary" shall be inserted.

Amendment of section 29 of same Act.

2. In the first paragraph of section 29 of the same Act, after the word "salary" the words "or annual remuneration" shall be inserted ; and in the second paragraph of the same section, after the word "rupees" the words "unless the Excise-officer is himself such an officer of police" shall be inserted.

New section inserted after section 34 of same Act.

3. In the same Act, after section 34, the following section shall be inserted :—

Power to invest police-officers with powers of Excise-officers.

"34A. The Local Government may, from time to time, invest either by name or in virtue of his office—

"(*a*) any police-officer with the powers conferred on Excise-officers by section 27 of this Act ;

"(*b*) any police-officer in charge of a station or any police-officer of or above the grade of head-constable or sergeant with the powers conferred on Excise-officers by sections 28 and 29 of this Act.

"Every officer so invested shall, for all purposes connected with the exercise of these powers, be deemed to be an Excise-officer within the meaning of this Act."

New section substituted for section 47.

4. For section 47 of the same Act the following shall be substituted, namely :—

Prosecutions restricted.

"47. A Court shall not take cognizance of an offence punishable under any one of the following sections, namely, thirty-five, thirty-six, thirty-seven, thirty-eight, thirty-nine, forty-one, forty-two and forty-three, except on the complaint or report of the Collector or an Excise-officer ; and a Court shall not take cognizance of any offence punishable under this Act unless the prosecution is instituted before the expiry of six months next after the commission of such offence."

PART V.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

The following Report of the Select Committee on the Bill to amend the Transfer of Property Act, 1882, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd January, 1885 :—

WE, the undersigned Members of the Select Committee to which the Bill to amend the Transfer of Property Act, 1882, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Officiating Registrar, High Court, Calcutta, No. 2596, dated 15th September, 1884 [Paper No. 1].
From Secretary to Chief Commissioner, Coorg, No. 813—114, dated 13th September, 1884 [Paper No. 2].
Endorsement by Officiating Under-Secretary to Government of India, Home Department, No. 1252, dated 24th September, 1884, and enclosures [Papers No. 3].
From Officiating Secretary to Chief Commissioner, British Burma, No. 125—16L., dated 9th October, 1884, and enclosures [Papers No. 4].
From Chief Commissioner, Ajmer-Merwára, No. 880, dated 17th October, 1884 [Paper No. 5].
From Secretary for Berar to Resident, Hyderabad, No. 3766., dated 21st October, 1884, and enclosures [Papers No. 6].
From Chief Secretary to Government, Madras, No. 2681, dated 18th October, 1884, and enclosures [Papers No. 7].
From Under-Secretary to Government, Bombay, No. 7599, dated 31st October, 1884, and enclosures [Papers No. 8].
From Officiating Secretary to Government, Panjáb, No. 987, dated 14th November, 1884, and enclosures [Papers No. 9].
From Officiating Assistant Secretary to Chief Commissioner, Central Provinces, No. 5321—245, dated 14th November, 1884, and enclosure [Paper No. 10].
From Secretary to Government, North-Western Provinces and Oudh, No. 1147—VII-279-19, dated 5th November, 1884, and enclosures [Papers No. 11].
From Bábú Charu Chandra Mookerjee, dated 2nd November, 1884 [Paper No. 12].
Extract, paragraph III, from Proceedings of the Meerut Association, No. 13, dated 16th November, 1884 [Paper No. 13].
From Under-Secretary to Government, North-Western Provinces and Oudh, No. 1326—VII-277-23, dated 13th December, 1884, and enclosure [Papers No. 14].
From Officiating Secretary to Government, Bengal, No. 3001 J., dated 19th December, 1884, and enclosures [Papers No. 15].
From Secretary to Government, North-Western Provinces and Oudh, No. 1375—VII-277-26, dated 23rd December, 1884, and enclosures [Papers No. 16].
Memorandum by Bábú Gridhar Dás, Honorary Magistrate, and Vice-Chairman, Municipal Fund, and Member of the District Board, Zila Etawah, No. 1, dated 20th December, 1884 [Paper No. 17].
From the Hon'ble Mr. Justice S. Mahmúd, Allahabad, dated 13th January, 1885 [Paper No. 18].

2. It is generally admitted that the provisions of section 1 (*a*) of the Bill will amend the Act satisfactorily, but there are differences of opinion as to clause (*b*) of that section. The Government of Bombay, Mr. Justice West and others are strongly in favour of making the exemption from the provisions of section 41 of the Act local and not personal. It has also been urged, especially by Mr. Justice Mahmúd, that power should not be given to exempt from the provisions of section 41. Mr. Mahmúd says, "As I understand the law, the provisions of section 41 of the Transfer of Property Act are nothing more or less than the repetition of the rule of natural equity which belongs to almost every department of law connected with the dealings of one human being with another. The rule of equitable estoppel is so important that, irrespective of section 41 of the Transfer of Property Act, I, speaking for my own part, would, regardless of the nationality of parties, apply it to all transactions which came before me and which furnished circumstances for its application."

3. After considering the matter we are of opinion that, if section 41 of the Act contains, as we believe it does, a rule of equity which our Courts should follow, the section should be in

force wherever the Act is in force. If that section were excluded from the Act, the Courts would probably, on general principles of equity, follow the rule which it contains. We think, therefore, that it is unnecessary to give any power to exempt from the provisions of section 41, and have struck out clause (*b*), section 1 of the Bill.

4. With regard to some questions raised as to the effect of section 3 of the Bill, we may mention that the Transfer of Property Act in requiring that certain transfers shall be made by a registered instrument does not conflict with the Indian Registration Act. That Act requires that certain documents shall be registered in order to render them capable of affecting certain property and admissible in evidence of any transaction affecting such property. The Transfer of Property Act, on the other hand, provides that certain transfers can only be effected by a registered instrument.

5. With reference to section 4 of the Bill, it has been suggested that section 69 of the Act should be restored to the form proposed by the Indian Law Commission. The question whether a power of sale should be valid in all cases where the property secured by the mortgage was of a certain value was fully discussed at the time the Act was passed. It was then decided that the valuation test should not be adopted, and we consider that it is inexpedient to re-open the question now.

6. Objections have been raised relating to the chapter on leases of immoveable property. These are sufficiently met by section 117 of the Act, which exempts leases for agricultural purposes from the provisions of the chapter.

7. We have taken the opportunity of adding to section 6 of the Act a clause (*i*) containing a proviso like that of sub-section (*j*), section 108. If the chapter on leases does not apply to leases for agricultural purposes, then the proviso to sub-section (*j*) will not be in force. It might therefore happen that an untransferable right of occupancy, the farm of an estate in respect of which default had been made in paying revenue or the lease of an estate under the Court of Wards might be held to be transferable by virtue of the general power of transfer conferred by section 6.

8. The publication ordered by the Council has been made as follows :—

The following Report of the Select Committee on the Bill to amend the Negotiable Instruments Act, 1881, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 23rd January, 1885 :—

WE, the undersigned Members of the Select Committee to which the Bill to amend the Negotiable Instruments Act, 1881, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our report.

From Officiating Secretary to Chief Commissioner, Assam, No. 393, dated 3rd April, 1884, and enclosure [Papers No. 1].
From Secretary for Berar to Resident, Hyderabad, No 1156., dated 7th April, 1884, and enclosures [Papers No. 2].
From Secretary to Chief Commissioner, Central Provinces, No. 2635 120, dated 3rd June, 1884 [Paper No. 3].
From Secretary to Chief Commissioner, Coorg, No. 288—I. 41, dated 2nd June, 1884 [Paper No. 4].
Office memorandum by Home Department, No. 829, dated 18th June, 1884, and enclosures [Papers No. 5].
From Chief Commissioner, Ajmer-Merwára, No. 486, dated 23rd June, 1884, and enclosures [Papers No. 6].
From Under-Secretary to Government, Bombay, No. 4659, dated 30th June, 1884, and enclosures [Papers No. 7].
From Secretary to Government, North-Western Provinces and Oudh, No. 527—VII-27-10, dated 2nd July, 1884, and enclosure [Papers No. 8].
From Chief Secretary to Government, Madras, No. 1579, dated 26th June, 1884, and enclosure [Papers No. 9].
From Officiating Secretary to Chief Commissioner, British Burma, No. 106—7L., dated 4th July, 1884, and enclosure [Papers No. 10].
From Officiating Secretary to Government, Punjab, No. 661, dated 23rd July, 1884, and enclosures [Papers No. 11].
From Officiating Registrar, High Court, Calcutta, No. 1872, dated 30th July, 1884 [Paper No. 12].
From Officiating Secretary to Government, Bengal, No. 1339T.—R., dated 31st July, 1884 [Paper No. 13].

2 With regard to lost bills it has been pointed out that the Act provides no machinery whereby the owner of a lost bill or note can get a duplicate from the drawer or maker. We think that this omission should be supplied, and have accordingly inserted in the Bill a section (2) taken from section 69 of the English Statute. Actions on lost bills are sufficiently provided for by section 61 of the Code of Civil Procedure.

3. With reference to the remarks forwarded by the Government of Madras, we think that clause (*c*), section 101 of the Act, does seem to imply that to render a protest valid the demand must be made by the notary public in person. If the law be so understood, it will cause inconvenience, and to remove all doubts we consider that the section should be amended so that it may be clear that a demand may be made by a notary public's clerk in person. The Act might also, we think, be still further amended so as to afford greater facilities for presenting bills and demanding acceptance or payment. The English Act [section 41 (1) (*e*) and section 45 (8)] provides that a bill is duly presented for acceptance or payment when presented through the post office in cases where such presentment is authorised by agreement or usage. We think that it is desirable to extend to this country similar facilities for presenting bills, but we consider that when presentment through the post office is allowed it should be made by means of a registered letter. We have accordingly, in section 3 of the Bill, made additions to the Act which will validate a presentment through the post office by means of a registered letter when such a presentment is authorised by agreement or usage. We have also, in section 4 of the Bill, added to section 101 a clause to the effect that the demand mentioned in clause (*c*) may be made by the notary public in person or by his clerk in person or, where authorised by agreement or usage, by a registered letter.

4. It has been pointed out that while section 108 implies that acceptance for honour may take place when a bill has been noted or protested, the definition of "acceptor for honour" (section 7) shows that an acceptance for honour is made after a bill is protested. It might be held therefore that there could be no acceptance for honour until a bill had been

protested as well as noted. To meet this difficulty we have inserted in the Bill a section (6) taken from section 93 of the English Statute, and have slightly amended the definition in section 7 of the Act so as to make it agree with section 108.

5. The Chambers of Commerce of Bombay and Rangoon have suggested an amendment of section 113 of the Act which would have the effect of rendering a declaration before a notary public unnecessary in the case of a payment for honour. We have considered this suggestion and we think that some formality is desirable. We are of opinion that it would not be safe to relax these formalities regarding payments for honour further than they are relaxed by English law.

6. It has also been suggested that power should be taken to make rules for the control of those notaries public who have not been appointed under the Act. We think that it is not desirable to make rules for the control of notaries not appointed by the Government of India.

7. We have been asked to make a provision for cases in which the services of a notary public are not available, by adopting section 94 of the English Act which provides that in such cases a protest may be made by means of a certificate signed by a householder or substantial resident. Having regard to the power given to Government of appointing notaries public, the number of appointments that have been made and the possible abuses that might arise if a householder or substantial resident were substituted for a notary, we think that it would be unwise to adopt this provision of the Statute.

8. It is said that the proposed amendment of section 113 will raise doubts whether the words "acceptor," "acceptor for honour," "payee" and "drawee" are intended to include an agent of an acceptor, payee or drawee. We think that section 27 of the Act, which provides that a person may bind himself by a duly authorized agent, will answer all questions of this nature that may arise.

9. The Chief Commissioner, British Burma, suggests that the Local Government should be authorized to appoint notaries public. This question has already been considered, and we would not re-open it.

10. With regard to the question whether section 45 of the Contract Act unduly limits the negotiation of bills, we are not disposed to think that it does. We are not aware that that section has given rise to any difficulties in this respect, and the saving in the Contract Act of all usages or customs of trade will probably meet such difficulties if they do arise. If any amendment in this respect is necessary, it should take the form of an amendment of section 45 in the Contract Act, as such an amendment would perhaps be required for other cases besides those under the Negotiable Instruments Act.

The following Report of the Select Committee on the Bill to amend Act XXII of 1881, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 30th January, 1885 :—

WE, the undersigned Members of the Select Committee to which the Bill to amend Act XXII of 1881 was referred, have considered the Bill and papers noted in the margin, and have now the honour to submit this our Report.

From Chief Commissioner, Coorg, No. 53, dated 17th November, 1884 [Paper No. 1].
From Chief Commissioner, Ajmer-Merwára, No. 969, dated 4th December, 1884 [Paper No. 2].
Extract, paragraph VI, from Proceedings of the Meerut Association, No. 15, dated 29th November, 1884 [Paper No. 3].
From Officiating Junior Secretary to Government, Punjab, No. 3148, dated 12th December, 1884, and enclosures [Papers No. 4].
From Officiating Secretary to Chief Commissioner, British Burma, No. 279-41 E., dated 12th December, 1884, and enclosures [Papers No. 5].
From Secretary to Government, North-Western Provinces and Oudh, No. 74—VII-305-13, dated 17th January, 1885, and enclosures [Papers No. 6].
From Assistant Secretary to Chief Commissioner, Central Provinces, No. 143-284, dated 16th January, 1885, and enclosures [Papers No. 7].

2. At the suggestion of the Chief Commissioner of British Burma, we have added to the Bill sections (1 and 2) which will enable a Thugyi, when appointed an Excise-officer, to exercise the powers of arrest, seizure and search conferred by sections 28 and 29 of the Act. The Thugyi, who is a collector of revenue and also assists generally in the administration, does not receive a monthly salary. He cannot, therefore, on a strict construction of those sections, be held to be an officer in receipt of a monthly salary of not less than ten rupees.

3. We have also in section 2 of the Bill made a further slight amendment of section 29 of the Act, by providing that, where the Excise-officer making a search is himself an officer of Police in the receipt of a monthly salary of not less than ten rupees, the presence of another Police-officer is not required.

4. We have at the suggestion of several of the Local Governments amended the original section of the Bill (now section 3). We have given the Local Government power to invest any Police-officer with powers under section 27 of the Act, as we consider that these powers may be safely entrusted to any Police-officer. The more extensive powers conferred on certain Excise-officers by sections 28 and 29 of the Act should not, we think, be exercised by Police-officers unless they are in charge of a station or of or above the grade of head constable or sergeant. We have provided accordingly.

5. The use of the word "complaint" in section 47 of the Act, a section providing certain restrictions on prosecutions, has given rise to doubts, and we have, therefore, at the suggestion of the Government of the North-Western Provinces, altered the wording of that section.

[Second Publication.]

The following Report of the Select Committee on the Bill to amend the Indian Ports Act, 1875, was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 30th January, 1885 :—

WE, the undersigned Members of the Select Committee to which the Bill to amend the Indian Ports Act, 1875, was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report.

From Officiating Secretary to Chief Commissioner, British Burma, No. 243-49 P. D., dated 15th November, 1883 [Paper No. 1].
From Chief Secretary to Government, Madras, No. 549, dated 16th November, 1883, and enclosure [Papers No. 2].
From Officiating Secretary to Government, Bengal, No. 2479, dated 26th November, 1883, and enclosures [Papers No. 3].
Endorsement by Officiating Under-Secretary to Government of India, Department of Finance and Commerce, No. 5, dated 4th January, 1884, and enclosures [Papers No. 4].
Office Memorandum by Department of Finance and Commerce, No. 885, dated 10th May, 1884, and enclosures [Papers No. 5].
Endorsement by Acting Secretary to Government, Bombay, No. 270, dated 4th July, 1884, and enclosure [Papers No. 6].
From Secretary to Government, Bengal, No. 35, dated 9th January, 1885, and enclosure [Papers No. 7].
Endorsement by Officiating Under-Secretary to Government, Bengal, No. 111, dated 14th January, 1885, and enclosures [Papers No. 8].

2. At the suggestion of the Government of Madras we have inserted in the Bill a section (1) amending section 42 of the Act. That section directs that the orders of a Local Government made in pursuance of the Act shall be, in addition to other modes of publication, fixed up in the custom-house, if any, of every port subject to this Act. A difficulty is experienced in carrying out this direction, and we consider that it will be sufficient to provide that the order shall be fixed up in some conspicuous place in the office of the Conservator, and at the custom-house, if any, of every port to which the order relates.

3. We have amended section 1 of the Bill (now section 2) so as to provide for cases where the service of a person entitled to pension has been partly at the port and partly elsewhere.

4. At the request of the Bombay Government we have provided in section 3 of the Bill that money may be spent from the Port Fund Account for the support of hospitals for seamen or for providing sanitary superintendence and medical aid for the shipping and seamen belonging to ships in ports.

5. We have altered the rate of port-dues prescribed in the first schedule of the Act for the Cuttack ports, as the Government of Bengal finds that the present rate does not yield an income sufficient to meet the necessary expenses of the ports.

6. The publication ordered by the Council has been made as follows :—

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

CIVIL WORKS.

Irrigation.

No. 25 I., dated 30th January 1885.

RESOLUTION—By the Government of India, Public Works Department.

Read—

The Revenue Report of Irrigation Works in Bengal for 1883-84, and the Resolution thereon by the Government of Bengal, No. 1901 I. A., dated 29th December 1884.

OBSERVATIONS.—The Capital outlay on Irrigation Works in Bengal at the close of the year 1883-84 was as follows:—

	₹
Productive Public Works	5,67,68,405
Imperial Ordinary Works	9,20,112
Provincial Works	83,43,776
TOTAL .	6,60,32,293

The addition to the similar figure given in the previous year's Report amounts to ₹73,65,128, the details of which are thus explained:—

	₹
Capital expenditure during the year 1883-84 . .	22,69,128
Previous expenditure on the Circular and Eastern Canals now classed as an Irrigation and Navigation Work for which Capital and Revenue Accounts are kept . .	50,96,000
TOTAL .	73,65,128

The Capital expenditure during 1883-84 includes a sum of ₹3,00,000 contributed by the Government of India from Protective Funds towards the completion of the Orissa Coast Canal, which as yet earns no revenue.

2. The result of the operations of the year under review from the four systems which are classed as Productive Public Works was a loss of ₹21,10,285 calculated on the basis of actual receipts, and of ₹18,75,860 from assessments. The interest charge for the year was ₹21,60,758. The value of the crops irrigated by these canals was ₹1,14,66,195.

3. The gross revenue assessed on the canals in operation in Bengal during 1883-84 and three previous years was—

Canals.	Assessments.			
	1883-84.	1882-83.	1881-82.	1880-81.
	₹	₹	₹	₹
Orissa	1,97,213	3,38,323	3,02,874	2,65,777
Midnapur	2,81,554	3,20,900	2,92,009	2,64,205
Hidgellee	63,590	45,032	46,184	55,207
Sone	8,61,909	6,20,354	7,62,294	6,33,752
Sarun	23,041	18,027	4,317	...
Total	14,27,307	13,42,636	14,07,978	12,18,941

The increase in the total for the present year is nearly entirely due to the large area assessed to Revenue on the Sone Canals.

It is stated that estimates are under preparation for the improvement of the Hidgellee Tidal Canal, to bring it up to the standard of the Orissa Coast Canal, of which it will eventually form a part, and that until these improvements have been carried out, no material increase in the revenue of the Hidgellee Canal can be expected. There was a slight falling off in the area irrigated and in the tolls assessed on the Midnapur Canal. The considerable increase in the revenue assessed to the Sarun Canal was due to a deficiency of rainfall in September and October 1883. The large decrease in the revenue of the Orissa Canals will be referred to in a subsequent paragraph.

4. The working expenses, including indirect charges, are detailed for each canal in the following table:—

Canals.	Working Expenses.			
	1883-84.	1882-83.	1881-82.	1880-81.
	₹	₹	₹	₹
Orissa	3,05,530	3,55,280	3,45,067	3,21,955
Midnapur	2,23,586	2,46,502	2,38,590	1,98,043
Hidgellee	48,093	41,897	29,984	26,520
Sone	5,42,159	5,49,774	4,90,193	5,04,208
Sarun	24,066	34,948	45,799	...
Total	11,43,434	12,28,401	11,49,633	10,50,726

There is a satisfactory decrease in the working expenses of all the canals, except the Hidgellee. In the case of the Orissa Canals, there was less expenditure on the maintenance of the head works. On the Midnapur Canal the decrease was due to less cost of repairs and of Revenue establishment. There was an increase under every head of expenditure on the Hidgellee Canal. On the Sone Canals there was a small decrease in the cost of maintenance and of Executive establishment; and on the Sarun Canal the decrease in expenditure is shown under the same heads of charge.

5 The net assessed revenue, which is the difference between the gross revenue and working expenses, was therefore as below :—

Canals.	Net assessed revenue.			
	1883-84.	1882-83.	1881-82.	1880-81.
	₹	₹	₹	₹
Orissa	—1,08,317	—16,957	—42,193	—56,178
Midnapur	57,968	74,398	53,419	66,162
Hidgellee	15,497	3,135	16,500	28,687
Sone	3,19,750	70,780	2,72,101	1,29,544
Sarun	—1,025	—16,921	—11,482	...
Total	2,83,873	1,14,235	2,58,345	1,68,215

From the records of previous years it appeared that the revenue of the Orissa Canals was gradually overtaking the working expenses; but when the five-year leases expired in November 1882, there was a general disinclination on the part of the cultivators to renew them, and up to the end of the season the percentage of area leased to that commanded by distributaries of the canals had fallen from 63¼ in 1882-83 to 22 in 1883-84. The causes that have led to this great decrease in the area leased are fully discussed in the Report, and as the whole subject is now under enquiry by a Committee of Civil and Canal Officers, any comment at the present time would be out of place. On the Midnapur Canal, owing to favorable fainfall in the early part of the season, applications for water were delayed until such a late date that the supply in the canal was insufficient to overtake the sudden demand which came in the latter part of September.

Owing to a breach in the Western Canal, which occurred on the 23rd August, and the consequent damage to crops from stoppage of the supply, the whole of the magnificent revenue assessed on the Sone Canals will not be realized. Steps have been taken to prevent such great loss as has befallen in the present year in the case of a similar accident occurring in future.

The net revenue of the Sarun Canal appears to increase steadily year by year, but it is said that further improvements to the works are in abeyance owing to the tendency of the Gunduck River to desert the branch from which these canals are supplied.

6. The areas watered by the principal irrigation canals during this and previous years were as follows :—

Canals.	Acres irrigated.			
	1883-84.	1882-83.	1881-82.	1880-81.
Orissa	48,760	133,028	132,278	117,221
Midnapur	97,919	101,939	101,434	103,862
Sone — Kharif	244,578	142,550	119,389	134,208
Sone — Rubbee	99,304	15,999	36,795	50,290
Sone — Perennial	6,732	15,275	21,891	23,127
Total Sone	350,614	173,824	178,075	207,625
Grand Total	497,293	408,791	414,787	428,708

The great extension of irrigation on the Sone Canal was due to the deficiency of rainfall in the months of August and October, at which time the demand was so great that the area irrigated was only limited by the power of the canal to meet it. It is very satisfactory to note that the area under

five-years' lease has increased from 76,305 acres in 1882-83 to 102,220 acres in 1883-84: the rate of charge for the five-year leases is not much more than two-thirds of those for annual leases, but there is a great advantage from the former in the assurance of a steady revenue which is independent of the varying nature of the seasons. In the table above the areas under five-years' lease are included in the figures for kharif.

7. A comparative statement of navigation receipts is given in the following table:—

Canals.	Navigation receipts.			
	1883-84.	1882-83.	1881-82.	1880-81.
	₹	₹	₹	₹
Orissa	1,10,152	1,08,473	83,206	71,462
Midnapur	1,20,580	1,46,922	1,20,706	93,099
Hidgelee	63,317	43,694	45,818	53,338
Sone	85,193	71,205	93,116	61,145
Total	3,79,242	3,70,294	3,42,876	2,78,984

The increase in receipts from navigation is steadily maintained, notwithstanding the interruption to traffic from yearly silt clearances. It should be noted that the decrease in gross receipts from traffic on the Midnapur Canal is due to the transfer of the transport service to a private Company, and that there is a corresponding reduction in the working expenses. On the Orissa Canals, also, arrangements were being made to transfer the traffic on the Cuttack-Chandbally line to a private firm, and the service on the Patna Canal of the Sone series was successfully worked during the year under review by a contractor.

8. In connection with the above remarks on the navigation returns of the Bengal canals, it may be mentioned that the Capital Account of the Calcutta and Eastern Navigation Canals has been included in the figures for the present year, but the results of their working have not been shown in the statements of financial results which are appended to the Chief Engineer's Report. It would be more satisfactory if they were included in the statements which show the results of the administration of the Bengal canals as a whole, in future years.

9. The Calcutta and Eastern Canals are managed by the Board of Revenue, Lower Provinces, and have proved to be a most profitable undertaking; their Capital cost has been ₹52,51,534, of which ₹1,55,534 was expended during 1883-84, and further expenditure on improvements is contemplated.

The receipts and working expences, including indirect charges, of these canals for the past two years were—

Year.	Calcutta and Eastern Canals.		
	Gross receipt.	Working expenses.	Net revenue.
	₹	₹	₹
1883-84	5,64,101	2,32,031	3,32,070
1882-83	5,64,194	3,26,897	2,37,297

The decrease in gross receipts was due to the partial failure of the jute and rice crops in the districts served by the canal, and the decrease in working expenses to the absence of expenditure on extensions and improvements.

10. The balances of irrigation revenue outstanding at the end of the year under review on the Orissa, Midnapur and Sone canals are detailed in the margin; the uncollected balance at the close of the previous year amounted to R5,75,788.

	R
Orissa	52,203
Midnapur	1,44,691
Sone	4,23,793
TOTAL	6,20,687

There was an increase in the amount collected on the Midnapur Canal; and it is mentioned that of the total sum of R1,43,228 realized on this canal, R1,12,182 was paid voluntarily, and that this result was due to the introduction of a system of enlisting the services of the leading ryots, who are paid a small commission for collecting the revenue. It is hoped that this procedure may eventually prove equally successful on the other canal systems to which it has been applied.

In Orissa an idea prevailed among the cultivators that water-rates would be reduced, with retrospective effect, when the new leases were given out, and with this expectation they employed every means of obstruction to postpone payment. The recovery of demands for irrigation revenue is one of the points which will be discussed by the Special Committee which is now enquiring into the administration of the Orissa Canals.

The collections on the Sone Canals were rendered more difficult by the proceedings that were necessitated by the failure of supply owing to the breach in the Western Canal which has been before alluded to. When the orders of the Local Government were promulgated promising remissions in certain cases, voluntary payments ceased, and the irrigators generally began to file statements of losses to their crops in the hope of evading payment altogether. It is mentioned that a special enquiry is now in progress under orders contained in Government of India letter No. 1831,, dated 11th July 1884, which forwarded a Despatch No. 26 P. W., dated 15th May 1884, from the Secretary of State for India, and that the collection of arrears on these canals will be one of the subjects discussed.

11. In the following statement the cost of measuring and assessing the irrigated areas and of collecting canal revenue is compared:—

CANALS	PERCENTAGE OF EXPENDITURE ON AMOUNTS COLLECTED.			
	1883-84.	1882-83.	1881-82.	1880-81.
Orissa	21·30	15·80	22·40	17·20
Midnapur	12·97	16·51	13·36	11·96
Sone	23·54	18·69	18·92	27·09

The causes that have led to the increased cost of collection on the Orissa and Sone Canals have been explained in the previous paragraphs.

12. New rules for the working of the Midnapur Canal were framed under Act III of 1876, and promulgated in the course of the year under review.

13. There was a general failure of rainfall in the months of September and October, with the result of a sudden demand for water on all the canals. The capacities of the channels being limited, the demand exceeded the supply, and it is mentioned that in one case the Canal Establishment had to call in the assistance of the police to maintain the system of distribution. Such sudden demands occur in all provinces, but the system of yearly leases, with the necessarily cumbrous procedure for obtaining permits to irrigate, must render it more difficult to arrange for such a sudden expansion of irrigation in Bengal than elsewere. This, together with other matters which have

been noticed in this Review, are receiving attention from the Bengal Government.

ORDER.—Ordered, that copies of this Resolution and of the Report and its accompaniments be forwarded to the Secretary of State, and to the Finance and Commerce and the Revenue and Agricultural Departments for information.

Also, that a copy of this Resolution be forwarded to the Government of Bengal for information and guidance.

Also, that copies of this Resolution and of the Report be forwarded to the Local Governments and Administrations noted in the margin, in the Public Works Department, for information.

The Governments of Madras, Bombay, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners, Central Provinces and British Burma.
The Resident, Hyderabad.
The Agents to the Governor General, Central India and Rajputana.

Also, to the Foreign Department, for communication to the Resident at Mysore and Chief Commissioner of Coorg.

Also, that this Resolution, the Resolution of the Government of Bengal, and the Chief Engineer's Report, with a few selected statements, be published in the Supplement to the *Gazette of India*.

R. HOME, *Colonel, R.E.*,
Offg. Deputy Secy. to the Govt. of India.

Resolution on the Canal Revenue Report for 1883-84 and the Chief Engineer's note on the same, No. 1901. A., dated Calcutta, the 29th December 1884.

Read—

The Canal Revenue Reports for 1883-84, and the Chief Engineer's note on the same.

The total capital outlay (direct charges) invested, up to the end of the year 1883-84, on irrigation works in Bengal, of which capital and revenue accounts are kept, has amounted to R6,37,51,362, divided as follows :—

	₹
Productive Public Works	5,47,20,704
Famine relief protective works	3,00,000
Imperial ordinary works	8,26,524
Provincial works	79,04,134
TOTAL	6,37,51,362

The expenditure coming under the head Imperial ordinary was on preliminary expenses for projects which have since been abandoned or are in abeyance. The large increase in the amount at the debit of Provincial works is due to the expenditure to date on the Calcutta Canals (R51,92,444) being now for the first time shown under this head A capital and revenue account for these canals was opened on the 1st of April 1883.

The receipts from the canals classed as productive public works for the last three years are shown in the table following :—

	Receipts, 1881-82.	Receipts, 1882-83.	Receipts, 1883-84.
Orissa Canals.	₹	₹	₹
Water-rates	1,24,290	1,80,325	1,11,856

Sone Canals.			
Water-rates	6,03,930	5,66,165	5,84,209
Navigation	93,116	71,205	85,193
Miscellaneous	39,246	47,007	34,405
TOTAL	736,292	6,84,677	6,03,807
GRAND TOTAL	12,56,811	13,17,729	11,69,841

The balances of water-rates outstanding on the 1st April 1884 and at the close of the two preceding years are shown in the table below :—

	1st April 1882.	1st April 1883.	1st April 1884.
	₹	₹	₹
Orissa Canals	1,14,112	1,21,617	52,203
Midnapur Canal	1,31,701	1,42,476	1,44,691
Sone Canals	4,36,849	3,11,665	4,23,793
TOTAL	6,82,692	5,75,788	6,20,687

The receipts from all sources during the year amounted to ₹11,69,841 and the working expenses (direct charges) to ₹10,69,394,* so that the net revenue realized was ₹1,00,447 against ₹1,67,701 in 1882-83. Including interest, ₹21,60,755 payable to the Imperial treasury, and indirect charges debitable to revenue, the deficit of the year amounts to ₹21,10,285. The financial results of the year's operations have been disappointing, the receipts being nearly 1½ lakhs of rupees less than those of the previous year, and the arrear balances, in which there was a considerable decline in 1882-83 showing a considerable increase. Under the head "Navigation" there was a slight increase in the revenue of the year, so that the falling off was entirely in water-rates and miscellaneous receipts. The decrease in the latter was due to less work having been carried out at the Dehree workshops, and to there having been no receipts in England from the leasehold property which belonged to the late East India Irrigation and Canal Company.

* Exclusive of ₹427, expenditure in England on account of the houses acquired from the East India Irrigation and Canal Company—*vide* Accountant-General, Public Works Department, No. 691., dated 16th September 1884.

The main decrease has occurred in the item water-rates, the receipts from which were ₹1,23,785 less than in 1882-83, whilst the assessments were ₹1,27,227 in excess. The demand statements for a large proportion of this amount were, however, only made out in the last two months of the year. In Midnapur there was an increase of ₹26,940 in the water-rate collections as compared with the preceding year, so that the falling off occurred wholly in

the receipts from the Sone and Orissa Projects, which showed a decline of R82,256 and R68,169 respectively. The decrease would have been even greater but for the reduction of R69,444 in the amount of arrear balances of water-rates in Orissa. The collections in Behar have improved during the current year, and the indifferent results of 1883-84 are due to the short irrigation of former years.

The areas irrigated during the last three years are shown below:—

		1881-82. Acres.	1882-83. Acres.	1883-84. Acres.
ORISSA	Khureef	1,26,611	1,28,530	47,035
	Rubbee	5,403	4,100	1,381
	Perennial	264	398	344
	TOTAL	1,32,278	1,33,028	48,760*
MIDNAPUR	Khureef	1,04,434	1,04,939	97,919
SONE	Khureef	55,355	65,514	1,34,732
	Rubbee	36,795	15,939	99,304
	Perennial	21,891	15,275	6,732
	Hot weather irrigation	20,794	2,481	8,524
	Five years' lease	43,240	74,550	1,01,322
	TOTAL	1,78,075	1,73,824	3,50,614
GRAND TOTAL		4,14,787	4,08,791	4,97,293

* Inclusive of 26,661 acres irrigated in an unauthorized manner.

There was, it will be noticed, a large increase in the area under irrigation from the Sone Canals, whilst in Orissa the leases for two-thirds of the area formerly irrigated were not renewed. A Commission has lately been appointed to enquire into the causes of the disinclination of the Orissa ryots to irrigate, and the Lieutenant-Governor awaits their report before passing any orders on the various proposals which have been submitted for consideration. As regards the Midnapur and Sone Canals, the area irrigated was measured by the powers of the canals to carry water, the demand far exceeding the supply available. The rains in September in both places were deficient, and in October almost entirely absent, the result being that the crops beyond the limits of the canal-water-supply were in many places a total failure and in others seriously deficient. It unfortunately happens in seasons like the one described, that the anxiety of the cultivators to obtain water leads them to set at defiance the water distribution arrangements of the Engineers. In Midnapur, with crops dying wherever not irrigated, the Superintending Engineer describes the cultivators as cross-damming the distributaries, regardless of authority and even after they had obtained sufficient water for their fields, keeping the outlets open for fishing purposes. This feature of the year's irrigation deserves serious consideration, as the chief value of the Bengal Canals is in seasons of drought, and it is imperative that the most should be made of the water-supply available.

The receipts credited under the head navigation amounted to R3,78,242, which is R7,948 in excess of the previous year's collections. This small increase, however, by no means measures the actual progress made, as the returns of the boats which passed through the canals showed a total of 821,934 tons in 1883-84 against 715,009 tons in 1882-83. Very considerable reductions in the tolls charged on the Orissa Canals were made with effect from the 1st of December 1883, and a surcharge of one-fourth of a pie per head per mile formerly levied on passengers was abolished both for the Orissa and Midnapur Canals from the same date. These reductions will, it is feared, check for the time, the steady growth in the navigation revenue of the canals which has from the first distinguished the canals in the province. The surcharge was, however, found to be an irritating impost which offered opportunities for peculation, and the tolls during certain months of the year in Orissa were higher than those imposed elsewhere.

The Midnapur transport service continues to be managed by the Calcutta Steam Navigation Company, Limited, and the traffic arrangements are reported to be satisfactory to the public. The transport service on the Patna Canal has been made over to a contractor, and it is intended to withdraw the Government service from all canals so soon as private firms or companies are in a position to afford the requisite facilities for transport.

The tollage collections since 1876-77 are shown below :—

	Orissa.	Midnapore.	Hidgellee.	Sone.	Total.
	₹	₹	₹	₹	₹
1876-77 . .	22,881	67,651	44,572	4,852	1,39,956
1877-78 . .	33,844	1,06,917	60,971	26,774	2,28,506
1878-79 . .	57,042	77,340	59,723	29,332	2,23,437
1879-80 . .	62,389	91,861	44,918	27,604	2,26,772
1880-81 . .	41,297	77,143	53,338	39,819	2,11,597
1881-82 . .	53,219	98,060	45,848	54,143	2,51,270
1882 83 . .	66,736	1,06,157	43,694	39,304	2,55,891
1883-84 . .	61,602	1,08,931	62,317	48,032	2,80,882

The Lieutenant-Governor cannot regard the results of the year in a financial point of view as satisfactory. The cost of the canals, 21 lakhs of rupees yearly, is borne by the whole province, whilst the advantages are reaped by a few favoured districts. The Commission lately appointed to enquire into the administration of the Orissa Canals has been instructed to report on the actual profits derived from the works, independent of the share received by Government, and their enquiries will afford grounds for coming to a conclusion as to the propriety of endeavouring to secure for the State a larger share of the benefits reaped.

Mr. H. C. Levinge, Chief Engineer and Secretary to Government in the Public Works Department, retired on the 1st of January 1884. A public notification acknowledging his services appeared in the *Calcutta Gazette* for the 9th January 1884. But His Honor takes the present opportunity of again recording his appreciation of Mr. Levinge's administration of the Irrigation Branch of the Public Works Department for the five years during which he was in charge.

ORDER.—Ordered that a copy of this Resolution and of the note and its accompaniments, be submitted to the Government of India in the Public Works Department, for information; also that copies be forwarded to the Appointment, Revenue and Financial Departments of this Government; the Board of Revenue Lower Provinces; the Commissioners of the Presidency, Burdwan, Patna, and Orissa Divisions; the Collectors of 24-Pergunnahs, Hooghly, Midnapur, Burdwan, Patna, Shahabad, Gya, Cuttack, and Balasore; Superintending Engineers of the Orissa, South-Western, and Sone Circles, and the Examiner of Public Works Accounts, for information.

By order of the Lieutenant-Governor of Bengal,

J. M. McNEILE, *Lieut.-Col.*, R.E.,

Joint-Secy. to the Govt. of Bengal.

P. W. Dept.

REVENUE REPORT.

Note by LIEUTENANT-COLONEL J. M. MCNEILE, R.E., *Chief Engineer, on the Canal Revenue Reports for the year 1883-84.*

THE capital outlay (direct charges) on irrigation works in Bengal, during the year 1883-84, amounted to R22,04,808, made up as follows :—

	R
Productive Public Works	14,03,439
Famine relief protective works	3,00,000
Imperial ordinary works	(—)1,200
Provincial works	5,02,569
TOTAL	22,04,808

2. The total capital (direct charges) invested up to the end of the year 1883-84 was R6,37,51,362 as follows :—

	R
Productive Public Works	5,47,20,704
Famine relief protective works	3,00,000
Imperial ordinary works	8,26,524
Provincial works	79,04,134
TOTAL	6,37,51,362

3. The particulars of the above outlay are given below :—

CAPITAL OUTLAY (DIRECT CHARGES).	Outlay. During the year.	Outlay. To end of the year.
PRODUCTIVE PUBLIC WORKS	R	R
Orissa canals	6,39,152	2,05,63,644
Midnapore canal	1,74,072	81,28,171
Hidgellee tidal canal	.....	17,72,699
Sone canals	5,90,215	2,42,56,190
TOTAL	14,03,439	5,47,20,704
IRRIGATION AND NAVIGATION WORKS.		
Canals in abeyance or abandoned—		
Tirhoot project	.....	5,31,425
Damoodur ,,	(—)1,200	1,52,673
Hooghly ,,	.....	1,42,426
Canals under construction—		
Sarun project	(—)4,004	6,64,019
Orissa coast canal	6,54,276	23,47,671
Circular and Eastern canals	1,52,297	51,92,444
TOTAL	8,01,369	90,30,658
GRAND TOTAL	22,04,808	6,37,51,362

4. The amount of R30,00,000 charged against the head "Famine Relief Protective Works" is the contribution sanctioned by the Government of India for the Orissa coast canal during the year under review, and is included in the outlay on that canal.

5. The Circular and Eastern canals have been classed as a project for which capital and revenue accounts are kept, with effect from 1st April 1883, and the capital outlay incurred previous to that date, R50,40,147, is for the first time included in the column "To end of the year," thereby altering its total from what it should be according to the corresponding statement given in the report of the previous year.

6. The indirect charges other than interest, *viz.* (1) capitalized abatement of land revenue, (2) loss by exchange on payments in England, and (3) charges for

leave and pension allowance debitable to capital, for and up to the year 1883-84, are shewn below :—

CAPITAL OUTLAY (INDIRECT CHARGES).	Indirect charges other than interest.	
	During the year.	To end of the year.
Productive Public Works.	₹	₹
Orissa canals	15,068	7,64,582
Midnapore canal	12,325	2,62,895
Hidgelee tidal canal	.....	65,378
Sone canals	14,206	9,54,846
Total	41,599	20,47,701
IRRIGATION AND NAVIGATION WORKS.		
Canals in abeyance or abandoned—		
Tirhoot project	.....	74,650
Damoodur „	.....	16,122
Hooghly „	.....	2,816
Canals under construction—		
Sarun project	116	27,087
Orissa coast canal	19,368	53,465
Circular and Eastern canals	3,237	(*a*) 59,090
Total	22,721	2,33,230
GRAND TOTAL	64,320	22,80,931

(*a*) Inclusive of R55,853 on account of indirect charges of the previous years, not shown in the corresponding statement of the Revenue Report for 1882-83.

7. The total capital invested on irrigation works in Bengal, inclusive of indirect charges other than interest, amounted, up to the end of the year 1883-84, to R6,60,32,293 as follows :—

	₹
Productive Public Works	5,67,68,405
Irrigation and Navigation works—	
Canals in abeyance or abandoned	9,20,112
Canals under construction	83,13,776
Total	6,60,32,293

8. The following statement shows the total receipts, working expenses, and charges for interest, in respect of productive public works, for the year 1883-84, as compared with the previous five years :—

Particulars.	1883-84.	1882-83.	1881-82.	1880-81.	1879-80.	1878-79.
	₹	₹	₹	₹	₹	₹
Receipts from *all* sources	11,69,841	13,17,729	12,56,811	10,19,375	11,03,781	8,59,071
Working expenses (direct charges)	(*a*)10,69,394	11,50,028	10,43,134	9,93,448	9,21,763	8,05,610
Net revenue	1,00,447	1,67,701	2,13,677	25,927	1,82,018	53,461
Charge for interest	21,60,758	21,15,505	20,75,188	22,74,758	22,04,767	21,20,416
Deficit	20,60,311	19,47,804	18,61,511	22,48,831	20,22,749	20,66,955
Indirect charges debitable to revenue	49,974	43,426	60,700	57,280	53,966	44,529
Total deficit	21,10,285	19,91,230	19,22,211	23,06,111	20,76,715	21,11,484
Rate per cent. on capital outlay	3·71	3·59	3·53	4·33	4·01	4·26

(*a*) Exclusive of R427. Expenditure in England on account of the houses acquired from the E. I. I. C. Co., *vide* A. G. Public Works Department, No. 691., dated 16th September 1884.

9. The accumulated charges of interest on the capital outlay in irrigation and navigation works not classed as productive, having, in accordance with the Government of India, Public Works Department, Circular No. IV P. W., dated 1st May 1884, been eliminated from the Administrative Accounts of the Irrigation Branch for the year 1883-84, prepared by the Examiner of Public Works Accounts, Bengal, are not shown in this note.

The amount of interest for Productive Public Works for the year under review is R21,60,758. This is payable by the Local Government to the Imperial Treasury.

10. The following statement shows the particulars of the total accumulated debt on account of interest and unpaid working expenses amounting, up to the end of the year 1883-84, to R1,48,10,401, inclusive of indirect charges debitable to revenue:—

Particulars.	Productive Public Works.	Irrigation and Navigation Works.		Total.

Direct expenditure in England	(a) ...	6,518	Deficit	54,822	13,79,917
Total expenditure	2,92,690	34,18,177	Total	2,92,690	34,18,177

(a) A sum of R427 was paid in England on account of the houses acquired from the E. I. I. C. Co., during the year 1883-84 as advised in A. G., Public Works Department, No. 691, dated 16th September 1884.

15. The total debt, exclusive of indirect charges, on account of interest and unpaid working expenses was ₹8,61,581 for the year under review, and ₹1,14,67,840 up to date.

16. The expenditure and earnings for the year 1883-84 are given below :—

Expenditure.	₹	Earnings.	₹
Repairs and maintenance	1,89,564	Water-rates	74,266
Establishment	91,713	Navigation	1,07,147
Tools and plant	11,292	Miscellaneous	15,860
Refunds of revenue and compensation	121	Direct revenue realized in England	...
Direct expenditure in England	...	Total earnings	1,97,213
		Deficit	95,477
Total expenditure	(a)2,92,690	Total	2,92,690

(a) Exclusive of R427 as noted before.

17. The statement below shews the total lengths of canals and distributaries which were open at the close of the year, and the areas commanded and irrigated by each canal :—

Name of Canal.	Length open. For irrigation and navigation	Length open. For irrigation only.	Length of distributaries and village channels.	Area protected from flood.	Area under command	Area provided with distributaries	Assessed Areas. 1882-83.	Assessed Areas. 1883-84.
	Miles.	Miles.	Miles.	Acres.	Acres.	Acres.	Acres.	Acres.
Kendrapara	39	...	330	129,121	101,110	87,300	56,066	17,840
Gobree	15	..	...	27,251	21,200	...	4,308	392
Pattamsondee	..	47	...	65,600	51,250	.	12,094	5,453
Kendrapara Extension	15	..	...	8,960	7,000			...
Taldundah	27		71½	19,520	15,250	15,250	10,719	1,319
Machgong	4	15	120½	44,928	71,600	35,100	34,012	8,981
High Level, 1st range	33	..	117½	62,483	62,600	44,730	13,955	11,937
Ditto. 2nd	12½	..	..	...	120,000	...	289	323
Ditto. 3rd	19		..	...	57,500	...	1,585	2,515
Total	164½	62	639½	358,163	507,600	182,380	133,028	48,760

The lengths of main canal are the same as those in operation at the close of the year preceding, but 13·75 miles of distributary were opened during the year. In addition to the areas regularly assessed 26,661 acres are reported to have been irrigated in an unauthorised manner. The very marked decrease in the irrigated area will be adverted to further on; here it may be noted, that the percentage of area leased to that commanded by distributaries has fallen from 63½ per cent. in 1882-83 to 22 per cent. in 1883-84.

18. The areas irrigated and the rainfall yearly for the last ten years are shown in the table following:—

Year.	Khareef.	Rubbee.	Perennial.	Total.	Rainfall.
	Acres.	Acres.	Acres.	Acres.	Inches.
1874-75 . . .	19,740	2,454	267	22,459	64·00*
1875-76 . . .	13,991	4,102	314	18,409	70·00*

* Mean of observations in Cuttack and Marsaghai.
† Ditto at 13 stations.

19. The whole of the five-years' leases expired in November 1882; and, as was anticipated, there was an inclination on the part of the ryots to see if better terms could not be obtained by delaying to renew them. This course was favoured by the rainfall in June and July (29½ inches) being sufficient for the needs of cultivation, and it was not until late in September and October that water was much required. Up to the 1st of October only 14,758 acres had been leased; so soon however as real need of water was generally felt, there was a rush to lease, and by the end of the season engagements for 47,595 acres had been entered into. There was also a large amount of unauthorised irrigation reported by the Superintending Engineer at 21,801 (*a*) acres, and shown in Statement VIII of the Deputy Superintendent's report as 26,661 acres. It is in years when there is an early cessation of the rains that water is of most value, and the incentive to misappropriate it strongest, especially as, should rain subsequently fall, evidence to substantiate the fact of irrigation is most difficult to procure.

A native association, the head-quarters of which is at Balasore, deputed an agent to visit the irrigated area, and to ascertain what grievances the cultivators suffered; an account of this gentleman's investigations has since been received and will be considered by the Commission which the Lieutenant-Governor has appointed to enquire into the administration of these canals. Meanwhile the area under lease has, up to the 1st of November 1884, reached 56,121 acres, and the circumstances of the year under review and that now current have been such that only lands which really needed canal-water to save their crops have been irrigated.

20. As regards the policy of keeping the drainage lines of the country open, which is specially alluded to in the Commissioners' report, expenditure on such improvements adds nothing directly to the canal revenue, and they were undertaken mainly in consequence of representations made by every civil officer who has been concerned with canal management previous to Mr. Larminie. It is possible that in some seasons a small percentage of lands immediately adjacent to the natural drainage lines of the country would be more

(*a*) It has since been reported that the Deputy Superintendent's figures are correct.

productive, if no special provision for drainage was made; in years of heavy rainfall this, however, is not the case, and the greater part of the country always benefits.

The matter will be thoroughly discussed with the Superintnding Engineer and civil officers in December, so that any real remediable causes of complaint may be removed. If it was a question of policy of keeping the drainage channels open when it is for the benefit of the cultivators, generally, to have them closed, there could be no doubt in the matter; but the real point is that the interests of the large majority of the cultivators would always suffer by the closing of these channels, and that the injury, where there is any, can only affect an exceedingly small minority.

The impolicy of allowing the natural drainage channels of the country to be blocked up has been very forcibly brought to notice in almost every district of Bengal by this Department being called on to undertake remedial measures so soon as the consequences of the stoppage become fully apparent.

21. The total demand for the year on account of revenue recoverable by the Deputy Superintendent, including arrears of previous years, was R1,94,071; of this amount, R1,24,161 was realised, R8,763 remitted or written off as irrecoverable, and R61,147 remained due at the end of the year, of which R52,203 is the balance due on account of water-rates, and the remainder under the head "Miscellaneous."

The Deputy Superintendent remarks that the visit of the agent of the Orissa Association produced a general impression that the current year's water-rates would be reduced, and that the reduction would have retrospective effect. This impression had the effect of inducing the cultivators to postpone payment as long as possible, and rendered the process of recovery slow and tedious. The number of certificates filed under Act VII of 1880 during the year was only about one-fourth of those issued in 1882-83, but a large number of objections were disposed of under the Certificate Act, which are apparently referred to in paragraph 6 of the Commissioner's report, the full meaning of which is not quite clear.

Objections to the correctness of the assessment should be decided under the Irrigation Act under section 91 of which the Commissioner is vested with revisional jurisdiction. The proper procedure is laid down in Revenue Department letter No. 2779—1054L. R., of date the 9th December 1882, from which the following extract descriptive of the procedure prevailing in the districts watered by the Sone canals is taken:—

"On application to the canal authorities a ryot obtains a license to irrigate. The irrigated land is afterwards measured, and a *khatyan*, or statement of demand, is made out in the canal officer's *sharista*. One copy of this *khatyan* is sent to the Collector; another is served on the ryot by the canal authorities. Any objection on the part of the ryot is heard by the canal officer, from whose decision an appeal lies to the Collector under Section 91 of Act III of 1876, the Collector's order being final. So far the canal officer, whose chief duties are those of assessment, assists the collecting staff. If the ryot makes no objection under Act III, or if having objected, his objection is overruled, the canal officer's functions cease, and the process of realization begins. A notice of demand is issued by the Collector, and the usual procedure under the Public Demands Recovery Act is followed; shortened, however, by the fact that the ryots' objections having already been determined under Act III, 1876, cannot be revived under the Certificate Act. This method of deciding objections under Act III, if introduced into Orissa, would obviate all necessity for enquiries under the Public Demands Recovery Act, and would render it unnecessary to vest the Canal Superintendent with the power of a Deputy Collector."

The recovery of demands for water-rates under the Certificate Act, regarding which there have been some complaints, is one of the points which has been referred to the Commission, alluded to in paragraph 19.

22. Owing to the small area of land leased, the duty of the water utilized is considerably less than in previous years. The usual table is given below, but

the results are vitiated by the large amount of unauthorized irrigation which is not taken credit for:—

Name of Canal.	Effective average discharge in cubic feet.	Total for each main canal.	Area of kharif leased.	Total area for each main canal, including branches.	Average duty of each cubic foot of water.	Average duty of water for each main canal, including branches.
	C. ft.	C. ft.	Acres.	Acres.	Acres.	Acres.
Kendrapara . .	151	..	17,060	...	112·98	...
Patamoondee .	33	...	5,436	...	164·73	...
Gobree . .	29	213	392	22,888	13·52	107·45
High Level, 1st range . .	177	177	11,915	11,915	67·31	67·31
Taldundah . .	29	...	1,054	...	36·34	...
Machgong . .	74	103	8,636	9,690	116·70	94·07
Total .	493	493	44,493	44,493	90·25	90·25

Water escaping is not included in the above discharges, and a better calculation would probably be to take the total discharges of the Kendrapara High Level and Taldundah canals (the other canals are branches) and to include in the area under irrigation the 26,661 acres irrigated without authority; calculated in this way the duty becomes $\frac{71154}{724}$ = 98·28 acres per cubic foot.

23. The usual crop experiments were carried out during the year and details giving the results will be found in paragraphs 34 to 36 of the Superintending Engineer's report; the difference in favour of irrigation is more considerable than in 1882-83, and the produce of irrigated lands is valued at an average of R1·16 per acre in the Mahanuddy Division and R4·75 per acre in the Brahmini-Byturnee Division, above that from lands not irrigated.

24. The revenue credited during the year under the head "Navigation" amounted to R1,10,152. Of this sum, R61,602 was received from tolls on boats, and R48,550 was earned by the transport service.

The receipts since 1874-75 under this head are given below:—

	Tolls.	Transport service.	Total.
	R	R	R
1874-75	21,412	Nil	21,412
1875-76	16,377	„	16,377
1876-77	22,881	„	22,881
1877-78	33,844	„	33,844
1878-79	57,012	„	57,012
1879-80	62,389	35,686	98,075
1880-81	41,297	30,105	71,402
1881-82	53,219	29,987	83,206
1882-83	66,736	41,737	1,08,473
1883-84	61,602	48,550	1,10,152

25. The length of navigable canals open (164½ miles) has remained the same as in the previous year, whilst there has been a decrease of R5,134 in the amount of tolls. This diminution is not, however, due to any falling off in the traffic, which it will be presently shown has slightly increased, but to a material reduction in the rate of tolls levied, which took effect from the 1st of December 1883. Up to that date a surcharge of quarter of a pie per head per mile was made on all passengers carried, and the rate of tolls during the eight dry months from November to June was double of that levied during the rest of the year. From the date mentioned the surcharge was abolished, and the lower rate only charged throughout the year.

The earnings of the year under this head were R1,07,147, compared with R1,10,129 in 1882-83.

26. Particulars regarding the tollage assessed compared with the previous year's results will be found in the table below :—

Name of Canal.	Miles Open.	Tollage.		Number of boats.		Tonnage.		Value of cargo.		Tollage per mile of canal.	
		1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.
		R	R	No.	No.	Tons.	Tons.	R	R	R	R
Taldundah	27	3,902	2,837	1,935	1,302	33,102	20,510	1,54,318	67,265	125·87	91·51
Machgong	4										
Kendrapara	39	54,263	44,224	7,433	8,387	79,284	84,744	35,29,270	38,25,850	786·42	640·92
Ditto Extension	15										
Gobree	15										
High Level, 1st range	33	6,766	6,727	2,552	3,362	14,457	18,066	5,58,855	6,52,400	205·03	203·84
Ditto 2nd ,,	12½	3,458	3,800	1,118	1,862	11,228	17,723	1,41,355	1,70,140	276·64	304·00
Ditto 3rd ,,	19	1,170	943	387	594	4,022	4,642	14,960	44,000	61·58	49·63
Total	164½	69,559	58,531	13,425	15,507	1,42,093	1,45,685	43,98,758	47,59,655	422·85	355·81

27. From the statement following it will be seen that as regards private traffic there has been an increase under all heads except that of tollage, in which there has been a decrease consequent on the reduction in rate previously mentioned :—

Sub-head.		Government traffic.	Private traffic.	Total traffic.
Tollage	Rs.	—785	—10,243	—11,028
Number of boats	No.	—340	+ 2,422	+ 2,082
Tonnage	Tons	—6,262	+ 9,854	+ 3,592
Value of cargo	Rs.	—45,301	+ 1,06,198	+ 3,60,897
Tollage per mile of canal	Rs.	—4·78	62·27	—67 05

The total decrease of tollage has amounted to 15·85 per cent. during the year, of which 14·72 per cent. is due to the private traffic upon the canals.

28. Classified according to the description of goods carried, the private traffic is shown in table following :—

	Tonnage.			
	1882-82.	1883-83.	Increase.	Decrease.
	Tons.	Tons.	Tons.	Tons.
Articles of food	39,094	48,703	9,609	...
Stimulants	23	29	6	...
Clothing	13	5	...	8
Staples of manufacture	1,950	2,803	853	...
Fuel	434	1,003	569	...
Building materials	3,289	3,357	68	...
Cooking utensils	89	177	88	...
Miscellaneous	9,252	9,578	326	...
Passengers	16,558	10,575	...	5,983
Empty boats	15,791	19,413	3,622	...
Total	86,493	95,643	15,141	5,991
Increase	...	9,150	...	...

The increased traffic has been mainly in goods coming under the heads of "articles of food" and "staples of manufacture," and has been general through-

out the canal system, omitting the Taldundah and Machgong canals. The reduction of tolls amounts to 43 per cent. on that previously charged and it is feared that it will be some years before the increased traffic will be sufficient to allow of the former earnings being again reached.

The present rate of toll is equivalent to a charge of 7·11 pie per 100 mds. per mile, calculated on the displacement caused by the boat.

29. The cost of the establishment employed to work the locks was ₹8,603 against ₹8,329 expended under that head in 1882-83. In the accounts a sum of ₹6,078, properly debitable to the transport service, is shown under the head "Navigation," which includes both the lock establishment and the permanent staff of the transport service.

30. The total receipts, as credited in the accounts, from the Government transport service amounted to ₹48,550, or ₹6,513 more than in the preceding year; whilst the working expenses, inclusive of the cost of the permanent establishment, aggregated ₹29,883, leaving a profit of ₹18,667 against ₹3,267 realized in 1882-83. The profit was almost entirely due to the Cuttack-Chandbally line, as the steamer *Pioneer* employed between Cuttack and Bhuddruk did little more than cover her working expenses, though no tolls were charged. Details regarding the traffic are given in the table below :—

	Traffic, 1882-83.									Traffic, 1883-84.

31. Government has for some time past been desirous of leaving the transport service to private enterprise; and it has only been kept up so long, as a state undertaking, in the absence of competition providing for the public wants by private companies.

Since the close of the year the steamer *Aurora* has been withdrawn from the Cuttack-Chandbally line, a private firm having taken up the work. It is understood that a large company interested in the coasting trade are building steamers with the view of extending their operations to Cuttack.

32. The miscellaneous revenue realized during 1883-84 amounted to ₹15,860 against ₹31,212, the receipts of the previous year. Of this sum ₹14,483 was, however, the proceeds of leasehold property in England belonging to the late East India Irrigation and Canal Company, so that in reality there was a falling off in this branch of revenue of ₹869 only.

The various sub-heads on account of which money was received are shewn in the table following, which also gives the corresponding figures for 1882-83 :—

Source of Revenue.	Year in which received.		Difference.	
	1882-83.	1883-84.	Increase.	Decrease.
	₹	₹	₹	₹
Plantations	776	811	35	...

(a) Exclusive of ₹427 paid in England.

In addition, R12,840 has been debited to the project on account of indirect charges, so that for the year there has been a loss of R67,662 against R35,271 in 1882-83.

35. In 1882-83 there was, compared with 1881-82, a reduction in the maintenance charge of R7,449, and there has been a further decrease of R22,972 in the expenditure under this head during the year under review. The table below gives the details by main heads of works :—

Head.	1882-83.	1883-84.	Increase.	Decrease.
	R	R	R	R
Head works	73,094	49 949	...	23,145
Main canals	85.841	86,525	684	...
Distributaries	26,554	25,799	...	755
Drainage	3,721	3,965	244	...
Total .	1,89,210	1,66,238	928	23,900
Decrease .	...	22,972	...	22,972

36. The head works suffered less damage than usual, the total expenditure on the seven weirs and works connected therewith having been R49,949 against R73,094, the cost of maintenance in 1882-83. Their total length being 18,474 feet, the rate per foot run has fallen from R3·95 to R2·70. On the nain canals there has been a slight increase in the cost of maintenance. The table below shews the cost for each canal separately :—

Name of Canal.	1882-83.		1883-84.		Average cost per mile.	
	Miles.	Cost.	Miles.	Cost.	1882-83.	1883-84.

37. The expenditure on maintaining the 639¼ miles of distributaries in operation amounted to R25,799, being at the rate of R42 per mile against R40, the rate for the previous year. A further sum of R3,965 was expended on drainage channels and on 79½ miles of embankment, the repairs of which are debitable to the revenue account of the canals.

MIDNAPORE CANAL.

40. The usual table giving the areas irrigated during 1883-84 and year preceding is given below :—

Particulars.	Total as provided for in the revised estimate.	Midnapore Weir, ranges Nos. IV and V.		Panchcoorah Weir, range No. III.		Tidal reaches, ranges Nos. I and II.		Total.		Remarks.
		1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	
Length of distributaries and branch canals	209·12 miles	228·74	224·38	35·25	34·25	18·00	18·00	281·99	277·63	*Superintending Engineer's figures shown by the Deputy Superintendent as 101,939 acres.
Area commanded .	125,000 acres	100,000	100,000	23,000	23,000	2,000	2,000	125,000	125,000	
Area irrigated . .	Acres	88,573	86,805	12,159	10,721	905	393	101,637*	97,919	
Percentage of area irrigated on area commanded . . .	...	88·57	86·89	52·86	45·60	46·25	19·6	81·30	78·33	

There has, it will be noticed, been, compared with the preceding year, a decrease in the irrigated area of 3,718 acres.

41. The rainfall for the years 1882-83 and 1883-84 is shown in the table below, in which the average fall is also noted :—

Station.	Rainfall, 1883-84.	Rainfall, 1882-83.	Remarks.
Midnapore	43·61	66·04	Average of 15 previous years, 55·24.
Pancheoorah	51·92	51·59	Average of 14 previous years, 51·00.
Contai	60·31	61·01	

42. The season was peculiar, there were copious falls of rain during the months of July and August and in the early part of September, and it was not until about the 20th of that month that there was any pressing demand for canal water. From that time to the end of the season it became a question of

the ability of the canal to supply water, which was eagerly clamoured for every where. New leases had to be refused, and the efforts of the establishment were directed to making the most of the water supply available; eventually the cultivators got quite out of hand and police constables were placed at the disposal of the Executive Engineer to assist in maintaining some kind of order. The area watered may, perhaps, be looked on as the most the canal is capable of irrigating in seasons, when late in the year there is a sudden rush for water for lands, the irrigation of which has been postponed until the last moment. The Deputy Revenue Superintendent has been vested with the powers of a Magistrate, so as to admit of his dealing more promptly with the cases of the misappropriation of canal water. It is possible that some good may result from the measure, but when the crops are in danger of dying, the ordinary ryot will incur almost any risk to save them. Unfortunately water taken in defiance of authority is wasted as well as utilized, with the result that crops, which might be preserved if the water was carefully and economically used, perish.

It has several times been proposed, as the areas regularly leased have the first right to the water-supply available, not to grant permits after a fixed date, say the 1st of July, but this plan has the demerit of forcing the cultivators who have not made applications to use water without authority, if at all, and consequently to remove all restraints on the way it is applied. A considerable concession in the matter of water-rates is made to persons who lease for five years, and under present circumstances this appears to be the only method in which pressure can be brought on the ryots to irrigate their lands before the crops are in actual danger. The Superintending Engineer observes that—

"The lesson to be learnt from the experience of the season under report appears to be that the cultivators must be advised to complete their watering early and arrange to have their fields well filled before the end of September, and they must be made to understand that in October the supply is liable to fail, and water can only be given after long intervals in such cases. Unless timely precautions are taken to secure the fields before October, we cannot be responsible for subsequent failure of supply, and the remedy is entirely in their hands."

43. The duty of the water used, calculated on the average daily discharge for the whole irrigation season, was 208 acres per cubic foot per second for the area commanded by the Midnapore weir, and 81 acres for the area commanded by the Pancheoorah weir. In 1882-83 the respective duties similarly calculated were 141 and 85 acres per cubic foot.

44. The Superintending Engineer, at page 11 of his report, has given an interesting account of the irrigation from No. 4 or the Authra distributary, which commands 28,528 acres, and was designed to discharge 211 cubic feet per second.

The following summary is taken from the Superintending Engineer's report:—

"The total area irrigated was only 22,195 acres. The total area leased was 23,980 acres.

The total of the daily discharges for the season was 10,086 cubic feet per second, and the total of the areas irrigated amounted to 55,359 acres.

Each acre, therefore, received on the average $\frac{55359}{22195} = 2\frac{1}{2}$ waterings of 4·3 inches in depth for this season.

The average daily discharge for the season was $\frac{10086}{161} = 62$ cubic feet per second, which gives a duty of 358 acres per cubic foot of discharge.

The progress of the irrigation month by month may be thus stated:—

To end of month.	Areas leased.	Areas irrigated in acres.					Total discharge of month.	Average daily discharge.	Duty per cubic foot.
		First Watering.	Second Watering.	Third Watering.	Fourth Watering.	Total.			
							Cubic feet per second.	Cubic feet per second.	Acres.
August	18,977	18,530	2,525	...	...	21,055	...	...	...
September	18,825	506	8,811	2,588	...	11,905	2,914	104	114
October	21,169	2,942	6,495	6,829	26	16,292	2,664	95	171
November	23,980	217	1,567	1,352	2,981	6,107	769	22	279
Total	...	22,195	19,388	10,769	3,007	55,359	...	...	...

45. The results show how dependent this system of canals is on assistance from rainfall. As pointed out by Colonel Gulliver, when the Sone Canal distributaries were being designed, it was never intended that the water supply of a distributary should suffice to irrigate the area commanded independent of rainfall, in all years some assistance is certain, and the duty of the water is to secure a full crop by supplementing the natural irrigation so obtained with water from the river. The duty obtained must consequently vary, and will be the greatest in those years in which there is a moderate rainfall only, combined with a demand for water in excess of the fall.

46. The arrears at the commencement of the year under the head water-rates amounted to R1,42,476, the current demand was R1,47,992, making a total of R2,90,468. Of this sum, R1,31,000 was collected, R14,777 remitted, and R1,44,691 remained as the balance unrealized on the 1st of April 1884. In addition, R12,228 were credited as miscellaneous revenue. The demand and recoveries for five years are shown in table below, which includes miscellaneous revenue collected by civil officers :—

Year.	Amounts earned as water-rate during the year.	Total demand under all heads.	Cash received under all heads.	Remission.	Total.	Balance.	Cost of collection.	Percentage of cost on total demand.	Percentage of cost on recoveries.
	R	R	R	R	R	R	R		
1879-80 .	1,51,587	1,99,854	1,11,632	638	1,42,270	57,584	15,015	7·51	10·60
1880-81 .	1,55,730	2,31,116	1,22,489	6,823	1,29,312	1,01,804	14,650	6·33	11·96
1881-82 .	1,56,590	2,71,001	1,28 529	3,668	1,32,197	1,38,804	17,172	6·33	13 36
1882-83 .	1,55,246	3,01,486	1,13,150	42,536	1,55,686	1,48,800	18,683	6·13	16 51
1883-84 .	1,16,941	3,10,573	1,43,228	14,934	1,58,162	1,52,411	18,587	5 98	12 97

47. It is satisfactory to note that out of the R1,43,228 realized during the year by the Deputy Superintendent, R1,12,182 was paid in voluntarily, and R31,046 only recovered after legal proceedings had been commenced. A commencement has been made in enlisting the co-operation of the leading ryots in the matter by appointing them as headmen and remunerating them by a small commission. The Collector has been given the widest discretion in the matter, subject to a maximum charge of half-an-anna in the rupee on the total amounts realized during the year, and it is hoped that this system will gradually spread.

The amount collected as water-rates is in excess of any year to date, but it is not satisfactory to find that the arrear balance is constantly increasing. The matter is now having the attention of the Collector, and it is hoped that when once the irrecoverable balances of former years have been ascertained and remitted, the improvements which have been lately effected in the organization of the revenue establishment will bear fruits, and future years show a marked decline in these balances. The Commissioner states that—

"The tehsildars' offices are reported to be in order, and when the kabulyat registers are completed, and they are reported to be all but complete, there is hardly any information which will not be available at a moment's notice. Much, however, will depend on the amount of intelligent supervision exercised by the Deputy Superintendent over the proceedings of the tehsildars, and I hope Mr. Ghose will continue to show the zeal which characterized his administration during the year under report."

This testimony is valuable as showing that a vigorous effort to correct previous deficiencies is being made, and as pointing out how much the work depends on the energy and industry of the responsible officers.

48. The new rules under Act III (B.C.) of 1876, which were adverted to in paragraph 41 of last year's report, were under discussion throughout the year, but have been passed since its close; they are reprinted as an appendix to this report. They were very fully considered, and it is thought that they will help towards reducing the number of disputes and facilitate the work in various ways.

49. The usual crop experiments were carried out in 1,075 places, the results being very favourable to the irrigated crops, the produce of which was on an average 15·54 maunds more paddy and 20·42 maunds more straw per acre than those grown on unirrigated lands. The Commissioner remarks on this large difference, which he states is not explained either by the Executive Engineer or the Deputy Revenue Superintendent. There was, however, little or no rain during the month of October, and it is notorious that the crops which did not receive water suffered severely; this is probably a sufficient reason for the exceptionally great differences between the yield of paddy from irrigated and unirrigated lands. The experiments were conducted in the manner usual since 1873, and have frequently, notably in 1876 and 1881, showed little or no difference in favour of irrigation.

50. The total income credited during the year under the head "Navigation" amounted to R1,20,580, of which R1,08,931 was received from tolls on boats, R11,649, being the amount paid by the Calcutta Steam Navigation Company, "Limited," as hire of steamers and compounded tolls.

51. The following tables which embrace ten years give some particulars regarding the traffic:—

CANAL TRAFFIC.

Description.		1874-75.	1875-76.	1876-77	1877-78.	1878-79.	1879-80.	1880-81.	1881-82.	1882-83.	1883-84.

52. The first reach of the Midnapore canal and the Narainghur navigable distributary were closed for silt clearance from the 14th of February to the 6th of March. The Baramullah and Goalsumah locks were closed from the 25th February to the 7th of March, and from the 15th to the 25th of that month to allow of the valves being repaired, thus interrupting the through traffic. A set of diving apparatus have been procured, and it is hoped that small repairs will in future be carried out without closing the canal. A project for supplying the Ooloberiah reach with water from the Eden canal is under consideration, and, if carried out, may perhaps admit of all silt clearance being effected by dredgers. At present this cannot be done.

53. The steamer service between Calcutta and Midnapore, formerly worked by Government, was in the hands of a private company, and the Superintending Engineer states that it has given general satisfaction, any suggestions towards securing the safety of the passengers being willingly adopted. There were two lines of steamers belonging to different owners plying on the canal, and it is noted that nine steamers and flats are being built for the service.

54. The table below shows the number of passengers and weight of goods carried monthly by the Calcutta Steam Navigation Company, "Limited," to whom the steamers belonging to Government have been hired :—

Months.	Passengers.				Goods.	
	First Class.	Second class.	Third class.	Total number.		
					Mds.	Srs.
1883.

Total for 1882-83	441	1,507	145,841	14,778	374	5½

55. Generally there has been a slight increase in the traffic on the Midnapore canal during the year, resulting in the tolls received being R2,990 in excess of the previous year's receipts, notwithstanding a slight reduction in the tolls levied the surcharge of quarter pie per head per mile formerly levied on passengers having been abolished from the 1st December 1883.

56. The realizations under the head "miscellaneous" amounted to R12,996, of which R768 was received by the Executive Engineer, and the balance collected by the Deputy Revenue Superintendent.

57. The following tables show the receipts on revenue account and working expenses for the last ten years :—

REVENUE RECEIPTS.

Year.	Water-rates.	Navigation.	Miscellaneous.	Total.
	R	R	R	R
1874-75	67,015	44,886	4,316	1,16,217
1875-76	52,791	51,810	6,508	1,11,109
1876-77	61,460	67,651	7,876	1,36,987
1877-78	53,183	1,06,917	9,693	1,69,093
1878-79	85,011	77,340	8,356	1,70,710
1879-80	1,30,140	1,05,518	11,567	2,17,225
1880-81	1,12,960	93,099	10,407	2,16,466
1881-82	1,18,588	1,20,706	10,780	2,50,074
1882-83	1,04,060	1,16,922	17,028	2,68,010
1883-84	1,31,000	1,20,580	12,996	2,64,576

Total Maintenance .	1,12,324	1,43,787	1,46,885	1,80,474	1,50,807	1,30,686	1,65,682	2,02,581	2,03,639	1,88,273
Irrigation Establishment .	11,006	16,493	17,245	16,189	14,802	16,377	16,101	18,371	20,337	19,862
Navigation Establishment .	7,097	7,119	7,140	7,151	7,227	7,340	7,437	7,519	14,101	7,511
Total Revenue Management .	18,103	23,612	24,394	23,340	22,029	23,717	23,538	25,890	34,438	27,373
Total Working Expenses .	1,30,427	1,67,399	1,71,279	2,03,811	1,72,836	1,54,403	1,89,220	2,28,471	2,38,077	2,15,646

The above table does not include indirect charges, which for the year amounted to R7,910, the net revenue derived from the canal being R40,990 against R21,508, received in the year preceding. It will be noticed that the decrease in the gross receipts is due to the transport service being no longer maintained by Government, and there is a corresponding reduction in the working expenses.

58. The cost of maintaining the canal and distributaries for the last five years is given in the table below :—

Year.	Main canal.			Distributaries.		
	Length of canal.	Total cost of works.	Rate per mile.	Length of distributary channels.	Total cost of works.	Rate per mile.
		R	R		R	R
1879-80 . .	18	56,913	1,186	254	16,159	63
1880-81 . .	48	80,993	1,687	267	20,140	70
1881-82 . .	48	1,03,910	2,164	277	11,851	42
1882-83 . .	48	1,01,821	2,121	277	20,407	73
1883-84 . .	48	1,06,425	2,216	277	21,195	76

The tendency to increase shown in these charges is unsatisfactory; so far as the main canal is concerned the reason given, the greater quantity of silt dredged, is fairly adequate; but it should be possible to maintain the distributaries at nearly the same rate as is found to be sufficient in Orissa. This was pointed out last year, and the absolute necessity of exercising greater economy in the matter will again be impressed on the local officers.

59. The question of dredging on this canal is yearly increasing in importance. There is a daily service of steamers between Midnapore and Calcutta and *vice versâ*, by which the mails are conveyed, and daily or bi-weekly steamers to other places; any closure of the canal causes accordingly much public inconvenience and numerous complaints. Great attention has accordingly been directed towards improving the outturn from the dredgers and to keeping them constantly employed. The results have been satisfactory. The work done during the year has increased from 26 to 44 lacs, and the cost per thousand cubic feet has been reduced from R13·7 per 1,000 cubic feet to R10·57 per 1,000 cubic feet. The number of days working has been 1,593 against 1,405 in 1882-83.

60. The following table extracted from the Superintending Engineer's report gives particulars regarding the working of each dredger during the year :—

Names of dredgers.	Number of days at work.		Quantity of work done.				Cost of working dredger during the year.		Rate per 1,000 cubic feet.	
			Per day.		During the year.

63. This canal is wholly intended for navigation, and its revenues are entirely dependent on the tolls levied on boats, the receipts from which during the year amounted to ₹62,317, or ₹18,623 more than in 1882-83. The canal was re-opened on the 15th of April 1883, after a closure extending over three months for silt clearance.

64. Particulars regarding the traffic for the last ten years are given in the tables following:—

COMPARISON OF TRAFFIC.

Particulars.	1874-75.	1875-76.	1876-77.	1877-78.	1878-79.	1879-80.	1880-81.	1881-82.	1882-83.	1883-84.

65. There has, it will be noted, been an improvement in most of the items enumerated in the above table. The greater part of the traffic is at present

towards Calcutta, the Superintending Engineer stating that out of a gross tonnage of 196,767 of all kinds of goods carried, 130,286 tons were consigned towards that place and the remainder 66,481, about one-third, took the opposite direction.

66. No material increase in the receipts from this canal is likely to occur until considerable improvements are carried out. An estimate providing for a new lock at Kalinuggur, dredging plant, and for deepening the canal so far as to provide a minimum depth of 6½ feet of water at low tides has been received, but returned to the Superintending Engineer for revision. The matter is of considerable importance at present, as it is probable that this canal, which has for many years yielded a small surplus over working expenses, would pay interest on capital if the long and frequent closures for silt clearance could be avoided. When the Orissa coast canal, of which the Hidgelee tidal canal forms the first part, is opened, the need for its remodelling so as to bring it up to the standard of the remainder will become urgent. As last year remarked, the present Kalinugger lock is 100 feet long, whilst all the remaining locks on this as well as those on the Orissa coast canal are 150 feet in length.

67. The tables below show the receipts and working expenses of this canal for the last ten years :—

REVENUE RECEIPTS.

Year.	Water-rates.	Navigation.	Miscellaneous.	Total.

68. The net revenue of the canal was R15,497 against R3,135 in 1882-83; it was really considerably more, as R23,706 of the charge for maintenance was on account of silt clearance actually carried out in the previous year.

SONE CANALS.

69. The capital, interest, and revenue accounts of these canals are given below :—

71. The lengths of canal and distributaries open and areas commanded, and which can be irrigated are shown in the table below:—

Name of Canal	Navigable canal.	Branch canal.	Distributaries.	Area under command.	Area which can be irrigated.		Total area which can be irrigated.
					Khureef.	Rubbee.	
	Miles.	Miles.	Miles.	Acres.	Acres.	Acres.	Acres.
Eastern main and Patna canal	86½	...	311	406,155	112,640	151,200	263,840
Arrah canal	74	71½	466	618,354	132,800	178,200	311,000
Western main and Buxar canal	58¾	77½	305	704,000	135,840	210,600	346,440
Total	219	148¾	1,082	1,728,509	381,280	540,000	921,280

72. The area shown as commanded is the full extent over which water could be led from the canals, no deductions being made for village sites or waste land. Assuming that only 500 acres per square mile is cultivated, the area given will be reduced to 1,361,151 acres. The figures in the column "area which can be irrigated" are obtained by multiplying the full supply of the canals by 80, for the area which can be irrigated during the khureef season, and 3,000 cubic feet which is taken as the supply available in average years during the rubbee season by 180 for the area then irrigable. Colonel Heywood considers that the duty on the khurreef season should be reduced to 70 acres per cubic foot, and he also says that on the 16th February 1884 the supply in the Sone river was 1,868 cubic feet per second only, which at the high duty of 180 acres per foot would suffice for the irrigation of 336,240 acres only. In dry years the area which could be irrigated reduced as suggested would be 792,240 acres.

The increase in length of distributaries during the year was 6½ miles, the fractional differences in the lengths of canals compared with last year are due to errors in former returns, 53 miles of new distributaries were in progress, but had not been completed at the close of the year.

73. The state of the circle as regards village channels is shewn in the table following:—

	Total length of village channels completed.	Area commanded.	Total number of outlets.	Number of permanent outlets.
	Miles.	Acres.	No.	No.
Arrah Division	173	1,23,016	1,860	12.
Buxar Division	733	1,31,418	2,623	303
Eastern Sone Division	455	84,767	1,342	92
TOTAL 1883-84	1,361	3,42,231	5,825	407
TOTAL 1882-83	1,186	2,45,308	4,950	248

Of these channels 134 miles were constructed by Government officers on applications made under Act III (B.C.) of 1876, and at the close of the year 34 miles were in progress.

74. The areas assessed with water-rates during the year and that preceding are given in the table below:—

CROP.	1882-83.	1883-84.	Increase.	Decrease.
	Acres.	Acres.	Acres.	Acres.
Khureef	65,514	134,732	69,218	.....
Rubbee	15,999	99,304	83,305	.....
Sugarcane	15,275	6,732	.....	8,543
Hot-weather irrigation	2,481	8,524	6,043	.....
Five years' lease	74,555	101,322	26,767	.....
TOTAL	173,824	350,614	185,333	8,543
TOTAL INCREASE	.....	176,790	.....	.....

75. The area irrigated was more than double that watered in 1882-83, and in excess of any year to date. Dividing the area under five years' lease as suggested by the Superintending Engineer, the figures below show the acreage compared with the maximum areas irrigated in previous years—

	1883-84. Acres.	Acres.
Khureeff	215,790	134,208 in 1877-78.
Rubbee	109,436	124,818 in 1880-81.
Sugarcane and hot-weather crops	25,388	46,909 in 1881-82.

76. By divisions the areas irrigated in each of the last three years is shewn in the table below:—

YEAR.	EASTERN SONE DIVISION.					ARRAH DIVISION.					BUXAR DIVISION.					TOTAL FOR ALL DIVISIONS.					
	Khareef.	Rubbee.	Sugarcane.	Five years' leases.	Hot-weather.	Khareef.	Rubbee.	Sugarcane.	Five years' leases.	Hot-weather.	Khareef.	Rubbee.	Sugarcane.	Five years' leases.	Hot-weather.	Khareef.	Rubbee.	Sugarcane.	Five years' leases.	Hot-weather.	GRAND TOTAL.

77. The extension of irrigation was due to a serious deficiency in the rainfall of August and October. The following table of rainfall and extract from the Superintending Engineer's report comparing the year 1883 with the years 1873, 1875, and 1877, shows the extreme value of canal irrigation in such seasons :—

Month.	1873.			1875.			1877.			1883.		
	Patna.	Arrah.	Buxar.	Patna.	Arrah.	Buxar.	Patna.	Arrah.	Buxar.	Patna.	Arrah.	Buxar.
	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.	Inches.
August .	11·78	10·76	8·10	8·37	12·32	17·07	7·20	3·74	3·05	7·53	4·43	5·40
September .	0·94	2·42	1·60	5·36	2·89	4·51	2·79	1·78	1·56	5·01	4·06	6·47
October .	0·00	0·00	0·00	0·03	0·00	0·62	0·13	2·70	3·92	0·40	0·55	1·03
Total .	12·72	13·18	9·70	13·76	15·21	22·20	10·12	8·22	8·53	12·94	10·04	12·90

In 1873, the whole rice crop died off in Shahabad ;
„ 1875, the appearance of the crops was nearly as bad as in 1873 ;
„ 1877, the transplanting of the late rice was never effected over large areas, and
„ 1883, the rice crop died extensively where irrigation either from canals or ahurs was not available.

It is quite clear, taking the following averages of the four years :—

12·36 inches at . . . . . Patna
11·66 „ . . . . . Arrah
15·33 „ . . . . . Buxar

that the rainfall in 1883 was not sufficient by itself, as was found to be the case, to allow of the maturing of the late rice."

78. The statements below give the rainfall for each division separately for both the khariff and rubbee seasons, the figures are the average of observations at the head-quarters of each canal sub-division :—

KHUREEF SEASON.

Months.	Eastern Sone Division.				Arrah Division.				Buxar Division.

79. The area irrigated during the khureef season was measured by the powers of the canal to supply water, and unfortunately this difficulty was intensified by the occurrence of a breach in the main western canal on the 23rd August, which caused a complete stoppage of supply for nine days. The consequence was that the crops towards the tails of the distributaries suffered severely for want of water. The cause of the breach has never been satisfactorily ascertained, but a regulator has since been built at the bifurcation of the Arrah and main western canals, and the whole system can never again be paralyzed by a breach in one canal.

The effect of the breach on the revenues of the year was disastrous, wholesale applications for remission being made, which will be further adverted on under that head.

80. The usual statement showing the crops irrigated follows:—

Name of Crop.	Eastern Sone Division.		Arrah Division.		Buxar Division.		Total.	
	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
Rice	15,691	28,361	27,456	52,786	21,482	52,094	64,629	133,541

Gardens	7	8	1	7	6	30	14	45
Opium	552	786	389	519	124	102	1,065	1,407
Five years' leases	11,136	18,620	53,030	56,372	10,389	26,330	74,555	101,322
Total	32,770	54,800	97,130	163,938	43,924	131,876	173,821	350,614

Five years' leases { Rice 81,058; Rubbee 10,182; Sugarcane 10,132 } Approximately.

The area leased was 260,187 acres, the excess being areas either irrigated in excess of, or without permit.

From the table below it will seen that the leases are only a rough guide as to the areas actually watered, except in the case of five years leases:—

	Acres in 1879-80.		Acres in 1880-81.		Acres in 1881-82.		Acres in 1882-83.		Acres in 1883-84.	
	Irrigated.	Leased.	Irrigated.	Leased.	Irrigated.	Leased.	Irrigated.	Leased.	Irrigated.	Leased.
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
Annual khureef	41,132	53,105	134,208	105,750	55,355	43,916	65,514	49,249	134,732	93,478
,, rubbee	62,266	34,581	50,290	28,699	36,795	19,970	15,999	13,479	99,304	53,425
,, sugarcane	27,158	18,668	23,127	13,395	21,891	13,848	15,275	8,157	6,732	3,968
Five-year leases	.....	.....	.....	.....	43,240	42,810	74,555	76,305	101,322	102,220
Hot-weather ,,	.....	.....	.....	.....	20,794	.....	2,481	1,343	8,524	7,096
Total	130,556	106,354	207,625	147,844	178,075	120,544	173,824	148,533	350,614	260,187

The most satisfactory feature of the large increase in irrigation is the extension of the area under agreement for five years.

The proportion of flow to lift irrigation was 90 to 10, as against 95 to 5 in 1882-83.

81. The Superintending Engineer gives the duty of the water *utilized* as follows:—

	Khureef.	Rubbee.
Eastern Sone division	60	53
Arrah division	94	78
Buxar ,,	97	91

The whole area under irrigation during the year was 350,614 acres. Of this 8,524 acres were hot-weather crops, and must be eliminated, taking $\frac{4}{5}$ths of the five-year leases as khureef and the remainder $\frac{1}{5}$th as rubbee and the 6,732 acres sugarcane in both crops, the area under irrigation in the khureef season was 222,522 acres and in the rubbee season 126,300 acres. The average discharge entering the two main canals for the four months July to October, was 3,031 cubic feet per second, and in the five months, November to March, 1,924 cubic feet per second; the duty taking the figures on the water *entering*

the canals was therefore 73½ acres per cubic foot in the khureef and 65½ acres per cubic foot in rubbee season. In one selected distributary, the Bhojepore, the duty is given as 88 acres per cubic foot in the khureef and 103 acres per cubic foot in the rubbee season.

82. At the commencement of the year there was a balance R3,11,665 due on account of water rates, and the assessments of the year amounted to R7,42,311, making a total of R10,53,976. Of this sum R4,84,209 was collected, and R1,45,974 remitted, a balance of R4,23,793 remaining due at the end of the year. The heavy remissions were mainly owing to irrecoverable balances of former years being written off, but the breach on the canal, mentioned in paragraph 80, also necessitated heavy remissions, and the increase on the arrear balance is chiefly owing to attempts to avoid payment on the ground of the non-supply of water during the 9 days on which the canal was wholly closed. The accident was most unfortunate: there was a heavy demand for water at the time, and there is no doubt that the crops on lands supplied from the tails of the distributaries suffered severely, as they had not received any share in the watering in progress, and before the water again became available the crops had been damaged. The area so affected was, however, limited compared with that injured by the want of rain in October.

83. Of the remissions R83,946 were on account of the assessments of the year 1883-84, and the balance R62,028 from the demand of former years. The amount remitted is further divisible into R52,392 written off as irrecoverable by orders of the civil officers, and R 93,582 remitted for causes affecting the assessment.

The amounts written off as irrecoverable are mostly balances of years anterior to 1882-83, which it was found for various reasons to be impossible to collect. The remissions ma de by the Engineers were very largely due to the breach in the main western canal, and do not include the whole loss caused by that accident, R16,226 having, in the Arrah division alone, been struck out of the demand statement before their despatch to the Collector.

84. The Superintending Engineer at page 3 of his report gives a full account of the proceedings of the local officers in consequence of the temporary failure of supply; but, as before observed, this was scarcely the main cause of the short crops, which was the late leasing of large areas already injured by drought, which could not be supplied with water in time to more than partially save the crops. As an illustration of this it may be noted that out of 78,116 acres of annual leases in the khureef season, no less than 47,853 acres were leased in the months of September and October after the occurrence of the breach.

The matter was personally investigated by Mr. Levinge, Chief Engineer, the result being that it was determined not to press for water-rates where the supply of water had not succeeded in saving the crops, and eventually the following orders were passed by the Lieutenant-Governor:—

"I.—No hot-weather water-rates will be charged.

"II—The rate to be charged in villages where there ars generally indifferent crops on rice will be for khureef R1-4 instead of R1-14 per bigha.

"The fact of there being indifferent crops to be determined on a consideration of—

1stly.—The water-supply available during the time when there was the greatest demand.

2ndly.—On the actual produce as stored in the threshing floors.

3rdly.—On the khusrahs showing that in the village there are many fields in which the rice died.

"III.—No water-rates are to be charged on fields shown in the khusrahs as dead or (where the information has been noted) as unlikely to yield a crop exceeding 3 maunds per bigha.

"IV.—Where it can be shown that the rice crops in a village have been very bad, say not exceeding 3 maunds per bigha, generally no water-rates are to be charged."

85. As already mentioned, effective measures to prevent an accident, such as occurred in 1883-84, have been taken, but the gradual substitution of khureef for rubbee crops has rendered the canals unable to irrigate more than a proportion of the area for which water is required in seasons of drought.

86. A statement giving particulars of the demands and collections in the last five years follows :—

YEAR.	DEMAND.			Remission.	Net demand.	Collection.	Balance.	Percentage of collection to current demand.
	Arrears.	Current.	Total.					
	₹	₹	₹	₹	₹	₹	₹	₹
1879-80 .	3,04,411	4,69,200	7,73,611	10,517	7,63,094	4,44,716	3,18,378	94·7
1880-81 .	3,18,378	5,34,874	8,53,252	10,725	8,42,527	3,78,266	4,64,261	70·7
1881-82 .	4,61,261	6,29,739	10,91,000	53,221	10,40,779	6,03,930	4,36,849	95·9
1882-83 .	4,36,849	462,301	8,99,150	21,020	8,78,130	5,66,465	3,11,665	122·5
1883-84 .	3,11,665	7,42,311	10,53,976	1,45,974	9,08,002	4,84,209	4,23,793	65·2

87. The increase in the arrear balances is to be viewed with regret; but as remarked by the Collector of Shahabad, "the circumstances attending the work of collection were of an unusually unfavourable nature, for which allowances have to be made." The Superintending Engineer agrees that the difficulties experienced were exceptional, as will be seen from the following extract from his report :—

"Notwithstanding these extensive remissions, a very large number of complaints of failure of crop were and are still being filed.

I am informed by the Special Deputy Collector that at the time of the promulgation of the Government order as to remission, and when the ryots began to understand what those orders were, they very generally in this division at once stopped voluntary payments, and the collections which were going on satisfactorily received a sudden check.

The ryots received the impression that they would all get off any payment for khureef. They proceeded to file petitions, are still withholding payments, and in many instances are lodging appeals to the Collector against the decisions of the canal officers.

This withholding of payments and general filing of complaints is the most prominent in the Ageaon sub-division, where there appears to be a combination of villagers against Government. While remaining silent at the time of measurement, many villages have now come forward in a body, and declare that not only did their annual lease crops die, but even those under five years' lease for which it is always the first care of the irrigation officers to secure a supply when demanded.

So far as investigation of these complaints has gone at present, the allegations of the ryots as to a general destruction of their irrigated crops are not borne out by the facts elicited.

But there are numerous appeals, the ryots employing clever mooktyars in Arrah who take every advantage afforded them by the law."

88. The balances in the various districts on the 1st of April 1883 and 1st April 1884 are shown below :—

	1st April 1883.	1st April 1884.
	₹	₹
Shahabad	2,55,552	3,16,806
Patna	28,872	66,524
Gya	27,741	40,463
TOTAL .	3,11,665	4,23,793

A special enquiry into the administration of the Sone canals partly with reference to these arrears is now in progress under orders contained in the Government of India's letter No. 1831, of date the 11th July 1884, forwarding a despatch on the subject.

89. The collections of the present year are up to the 1st of October ₹2,53,164 against ₹1,46,400 in 1882-83, so that the effect of the increase in irrigation on the receipts is now being felt.

90. The cost of the revenue establishment employed during the year and that preceding is shown in the table below :—

	1882-83.		1883-84.	
	Amount.	Percentage on collections.	Amount.	Percentage on collections.
	₹		₹	
Permanent and temporary establishments, such as zilladars, ameens, &c.	35,034	6·19	42,106	8·69
Establishment employed under Collectors	41,971	7·40	41,724	8·62
Headmen's fees	28,878	5·10	30,175	6·23
TOTAL	1,05,883	18·69	1,14,005	23·54

The figures for 1882-83 differ from those given in the revenue account for that year, as the headmen's fees paid by civil officers are now included in the item "establishment employed under Collectors." The higher cost of establishment is due to the increased area assessed, the water-rates on which are now in course of collection: on the area irrigated the cost of establishment was $\frac{105883}{178824}$ = annas 9·75 per acre in 1882-83 and $\frac{114005}{350614}$ = annas 5·20 per acre in 1883-84.

91. The usual tables giving the cost of measuring the crop and preparing the demand statement are appended, and it will be found on reference to last year's report that there has been a considerable reduction in the cost per acre :—

Cost of measuring crops.

DIVISION.	FIVE YEARS' LEASE.			SUGARCANE.			KHURREEF.			RUBBEE.

92. The attendance of the patwaris at the measurements is still unsatisfactory, but since the close of the year canal officers have been vested with the powers of a Collector under section 35 of Regulation VII of 1882, and it is hoped that this will prove of considerable assistance in securing their attendance. The Collector of Shahabad, nevertheless, still considers that a change in the law will be necessary, observing that "the difficulty of making them do the work assigned to them by the Irrigation Act remains the same as before." It is clear, however, that much can be done by good personal management, as the percentage of attendance on the villages measured was 97·7 per cent. in the Ramnuggur sub-division, and 86·0 per cent. in the Nasrigunge sub-division, against a general average of 71 per cent.

93. The number of complaints is a subject that is now engaging attention. No less than 9,364 applications for remission were disposed of during the year. The point which gives most trouble is the tendency to delay in making objections, until all trace of irrigation has passed away, and then to allege that no intimation that water-rates were due had been received. Revised instructions for canal officers have lately been issued, which give increased facilities for disposing of such claims at the time of measurement, and an effort will be made to insist more strictly on the observance of the rule requiring that complaint shall be made within a month of the demand being made. But it has been held that the demand alluded to in the rule is that made by the Collector, probably months after the irrigation is over, and the date of which is quite unknown to the canal officer who disposes of the objection. On the other hand, the demand statements for various causes, disputes about irrigation, difficulties in ascertaining the names of cultivators, &c., are themselves frequently late, and the Collector cannot make the demand as promptly as he otherwise would. The khureef demand statements are due in the Collector's office on the 15th of December, whilst in October not only is new irrigation in progress, but in seasons of scarcity the canal officer's unceasing attention is devoted to the regulation of the water-supply, so that the most may be made of what is available, and that it may not be run to waste or be used in filling *aharas*. The increase from 74,555 acres to 101,322 acres in the five years' leases will do something towards improving matters, as the difficulties mentioned above, with the exception of changes of names, disappear in respect to lands so leased.

94. The orders regarding crop experiments have not been completely carried out during the year, none being returned from two of the sub-divisions of the Arrah division: the average of the rice experiments gives $3\frac{3}{4}$ maunds of rice and $6\frac{3}{4}$ maunds of straw as the excess produce of lands irrigated by the canal.

95. The revenue under the head "Navigation," since the opening of the canals, is shown below:—

Year.	Eastern Main Series.		Western Main Series.			Total.	Total tollage only.
	Number of miles open.	Tollage receipts.	Transport Service receipts.	Number of miles open.	Tollage receipts.	Transport Service receipts.		
		₹	₹		₹	₹	₹	₹
1876-77	...	...	...	86¾	4,852	...	4,852	4,852

97. The small decrease in the tolls received on account of boats using the Eastern Main and Patna canals is due to the long closure, which extended from the 11th of April to the 30th of June, whilst the increase on the Western Main series is owing to there having been only a short closure, from the 6th to the 16th of April.

98. Further particulars comparing the traffic for the last five years and the description of goods carried, are given in the tables below :—

	1879-80.	1880-81.	1881-82.	1882-83.	1883-84.

100. The cost of the establishment for working the locks and collecting tolls was R13,051 for the year, against R13,133 expended in that preceding and R13,174 in 1881-82.

101. The receipts from the transport service during the year 1883-84 were R37,161, being an increase of R5,260 over the amount received in the year previous; the expenses were, however, R32,475, or R6,185 in excess, so that the net profits were R4,686 only compared with R5,911 for 1882-83.

102. An endeavour was made to dispose of the steamers to a private company, but no acceptable offer was received; the service on the Patna Canal was, however, transferred to a contractor, from the 21st of January 1884, on his paying the usual tolls and R150 per month as hire of the steamer *Umpire*. No complaints have been received as to the manner in which this steamer was managed by him, and a fresh arrangement has been entered into since the 20th October 1884, under which he has taken charge of the entire service.

103. The miscellaneous receipts during 1883-84 amounted to R34,405, being a falling off, compared with the previous year, of R12,602. The decrease is wholly in the item "Miscellaneous," which includes the profits on the manufacturing operations of the Dehree workshops, from which R3,550 was received against R19,359 in 1882-83.

104. The statement below gives the receipts and working expenses of the Sone canals for the last three years:—

	1881-82.	1882-83.	1883-84.
	R	R	R
Receipts—			
Water-rates	6,03,930	5,66,465	4,84,209
Navigation receipts	93,116	71,905	85,193
Miscellaneous	39,246	47,007	34,405
TOTAL	7,36,292	6,84,677	6,03,807
Working expenses—			
Maintenance	3,28,032	4,02,841	3,74,795
Irrigation establishment	1,14,283	1,05,883	1,14,005
Navigation ditto	13,678	19,880	20,248
Refunds	1,329	1,237	5,429
	4,57,322	5,29,841	5,14,477
NET PROFIT	2,78,970	1,54,836	89,330

Notwithstanding a decrease in the working expenses, there has been a falling off of R65,506 in the net revenue derived from these canals.

105. The causes of this unsatisfactory result have already been commented on, but it may be well to again state that so far as water-rates are concerned, in which the receipts have fallen off by R82,256 as compared with 1882-83, the cause is not a falling off in the area under irrigation, on which there has, in fact, been a large increase, the assessments on which are now being collected.

106. The cost per mile of maintaining the canals and distributaries comprised in the system is given in the statement below :—

Name of Canal.	Name of division.	1881-82.		1882-83.		1883-84.	
		Number of miles.	Cost per mile.	Number of miles.	Cost per mile.	Number of miles.	Cost per mile.
		No.	₹	No.	₹	No.	₹
Eastern Main	Eastern Sone ...	7¼	2,323·0	7¼	2,655·0	7¼	4,367·3
Western Main	Arrah	9	4,014·0	9	9,968·0	9	3,841·8
	Buxar	12¼	219·0	12¼	322·0	12¾	162·0
Buxar	Do.	44	173·0	45	316·0	45¼	210·0
Patna	Eastern Sone ...	79	377·0	79	378·0	79	492·2

Gurra Chowbey Branch	Do.	...	...	38	49·0	38	123·0
Distributaries	Arrah	445	51·0	459½	57·6	466	41·6
	Buxar	86¼	69·0	243¼	57·0	300¼	55·1
	Eastern Sone ...	...	...	311	43·4	311	48·1

107. The increased expenditure on the Main Eastern Canal is owing to the closure of that canal from the 11th of April to the 30th of June for the purpose of clearing the silt which had accumulated in its bed. This was effected by hand, 44¼ lakhs of cubic feet of silt having been removed; at the same time 56¼ lakhs were taken out of the Patna Canal. The Main Western Canal was not closed during the year, and the decreased costs of maintenance is due to no expenditure being incurred on silt clearance by hand.

108. The Superintending Engineer gives the amounts entered in the table below as the average cost of maintaining the canals and distributaries in the circle :—

	₹	
The Eastern Main Canal costs to maintain . .	3,128	per mile.
„ Western Main Canal (Arrah division) . .	5,828	ditto.
„ Ditto (Buxar do.) . .	234	ditto.
„ Other main canals—		
Arrah and Patna divisions	407 to 413	ditto.
Buxar division	243	ditto.
„ Branch canals	86 to 183	ditto.
„ Distributary channels	44 to 74	ditto.

109. The total quantity of silt removed from the canals by dredgers was 61,35,619 cubic feet. Details shewing the quantity excavated and cost for each canal are appended :—

	Cubic feet.	Cost.	Rate.
		₹	₹ a. p.
Eastern Main Canal . . .	11,77,214	4,052	3 7 0
Patna Canal	56,24,979	14,575	2 9 5
Sone river bed	9,48,470	1,842	1 13 6
Western Main Canal . . .	33,79,219	24,560	8 15 10
Head lock, Dehree	72,073	213	2 15 6
Arrah Canal	5,58,643	3,603	8 11 5

The rate in the case of the Main Western Canal is high, as it includes the cost of removing the silt from the barges, carrying it over a high spoil bank, and depositing it on the berm beyond.

110. The cost of weed clearance during the year was ₹8,965 only against ₹14,377 in 1882-83, and ₹21,163 in 1881-82.

SARUN CANALS.

111. The capital and Revenue accounts of these canals, which have bee constructed from provincial funds, are given below :—

I.—CAPITAL ACCOUNT.

Particulars.	Outlay during 1883-84.	Outlay to end o 1883-84.
Direct Charges.	₹	₹
Works	3,586	4,75,786

Grand Total	24,066	1,04,813	Grand Total	24,066	1,04,813

Note.—The account showing the accumulated charges for interest is not included in accordance with the Government of India, Public Works Department, Circular No. IV, P. W., dated 1st May 1884.

112. The receipts from these canals for the year were R5,014 in excess of that previous, and the working expenses R10,882 less, the result being a deficit in the year's operation of R1,025, against R16,921 in 1882-83. The income earned by these canals is entirely derived from a guarantee amounting to R23,000 given by the landholders interested, who manage the irrigation within the limits of their own *dehats*, receiving water-rates not exceeding one rupee per acre from the cultivators.

113. The area irrigated during the year is returned by the Collector of Sarun as 21,121 acres, and ₹5,030 is noted in the guarantors' returns as the amount recovered by them.

114. The rainfall table below, extracted from the Superintending Engineer's report, shows that in September and October the rainfall was deficient, and canal water accordingly valuable:—

Rainfall Table.

115. The operations of the year are described by the Executive Engineer' Mr. Faulkner, as follows:—

"Grave fears were entertained that the rice and rubbee crops would fail, as there was not the usual rainfall in September and the early part of October. Early in October applications came in fast from the ryots for water from the canals. As usual, the ryots held off till the last moment expecting the rain would come daily. To irrigate the country thoroughly, is necessary to throw the water from the Rupan Chap Sota into the canals by stopping off the discharge in the Sota. Great efforts were made in October to effect this object, but the discharge in the Sota was greater than could be carried off by the canals, and it was not until the 27th of the month, after four previous unsuccessful attempts, that a band was thrown across. By this time it was too late for the rice crops on the lower canals, *i.e.*, the Gandaki, Dhanai, and the Gangni. It was possible, however, to irrigate from the Daha through the Sota in October, and later from the head cut, and a large tract was irrigated in a rough-and-ready way by constructing dams with escape channels at every two miles or so, which threw the water over the country. A small area of rubbee was damaged by this means, but the rice crops received water and were saved."

116. These canals are not provided with distributaries, and when water is required temporary dams are thrown across the *Sota*, an old river channel. There is a disposition on the part of the guarantors to arrange for the construction of permanent weirs and distributaries, but the branch of the river Gunduck, on which the head sluice is situated, shows signs of closing up, and it is not considered advisable to incur further expenditure until the course which the main steam will take is more fully apparent.

CALCUTTA AND EASTERN CANALS.

117. These canals are managed by the Board of Revenue, Lower Provinces, who submit a separate yearly report on their administration, that for 1883-84 was reviewed in this Department Resolution of date the 25th November 1884.

Capital and revenue accounts were opened on the 1st of April 1883, and the following is an abstract of these accounts up to the 1st April 1884:—

	₹
Capital cost—	
Direct charges	51,92,444
Indirect charges	59,090
GRAND TOTAL	52,51,534
Receipts to the 1st April 1884	1,75,62,487
Working expenses—	
Direct charges	63,70,953
Indirect charges	1,34,007
	65,04,960
Charges for interest	(a)65,61,871
	1,30,66,831
Balance net revenue	44,95,656

(a) Interest is calculated *pro formâ*. It is not exhibited in the Administrative account under Government of India Public Works Department Circular No. 41—W, dated 1st May 1884.

These accounts have not yet been finally approved: there has been considerable difficulty in determining the distribution of the capital and revenue charges, and it is only since 1861-62 that the accounts have been kept in this Department.

118. The canals have so far been a very profitable undertaking, and it is proposed to extend their usefulness by carrying out several urgently required improvements, partly in connection with the new Kidderpore Docks. About 65 lakhs of rupees will be required, and some arrangement by which the cost of these works can be met from funds obtained by loan will be necessary, as during the last six years the canals have, after crediting receipts, cost the province ₹7,75,777, whilst really earning ₹2,38,701 besides working expenses and interest charges.

119. The gross revenue of the year shows a slight decrease of ₹93 compared with that preceding; this is attributable to the partial failure of the jute and rice crops of 1883 in the districts served by the canal; in the remaining items of traffic there has been an increase due to the great improvements, which have recently been made in the canals: the tollage in the two articles mentioned above was ₹76,157 less than that received in 1882-83.

The revenue accounts for the two years are contrasted below:—

	Receipts.	Working expenses, direct and indirect.	Interest charges.	Net revenue.
	₹	₹	₹	₹
1882-83	5,64,194	3,26,897	3,26,897	2,37,297
1883-84	5,64,101	2,32,031	2,32,031	3,32,070

The diminution in working expenses is due to the maintenance charges being confined mostly to repairs; in 1882-83 several improvements, notably widening the canal between Dhappa and the railway bridge, and replacing the suspension by girder bridges, were carried out and charged to the revenue account of the canals.

120. The table following gives detailed information regarding the traffic passed through the canals during 1882-83, and the year now under review.

Month.	Number of boats.		Weight of cargo.		Value of cargo.		Tonnage of boats. Tons.		Tonnage of boats. Maunds.		Tollage.

General Remarks.

121. The net income received during the year from the canals in Bengal, which have been constructed by Imperial Funds, *viz.*, those classed as Productive Public Works, amounted to ₹1,00,447, against a budget estimate of ₹1,16,000. The actual receipts and working expenses (direct charges) amounted respectively to ₹11,69,841 and ₹10,69,394, against the budget estimate of ₹12,00,000 and ₹10,84,000.

122. The following statement shows the financial results calculated by earnings :—

	₹
Orissa canals	(—)95,477
Midnapore canal	65,908
Hidgelee tidal canal	17,009
Sone canals	3,47,432
Total .	3,34,872

The approximate value of the crops irrigated was as follows :—

	Area irrigated. Acres.	Value of crop. ₹
Orissa Canals—		
Khureef	47,035	5,64,408
Rubbee	1,381	80,607
Perennial	344	86,817

...NT OF FINANCE AND COMMERCE,

D. BARBOUR.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

SUMMARY OF THE WEATHER REPORTS FOR NOVEMBER AND DECEMBER 1884.

No. 18 Met., dated Calcutta, the 6th February 1885.

RESOLUTION—By the Government of India, Revenue and Agricultural Department.

Read the following:—

Summary of the Weather Reports for November and December 1884.

The north to north-east winds and fine weather, characteristic of the winter monsoon, which set in this year over Northern and Central India as early as the 15th of October, continued during November, over the whole of that region with even more than the normal steadiness. Slight showers certainly prevailed over North-Western India on the 1st, and in Bengal on the 2nd of November, but these indications of unsettled conditions proved to be very short lived, and the weather throughout the whole month was characterized by exceptionally high pressure, low temperature, and fine settled weather. At Sialkot the mean temperature of the month was 5° below the average, at Lucknow the defect was 4°, at Allahabad 7°, at Benares and Ajmere 4½°, and in Bengal and the Central Provinces between 2° and 5°. While, however, fine settled weather was prevailing over the northern and central parts of the country, the contrary was the case over the Carnatic and the south of the peninsula. Here, also, the north-east monsoon was blowing with unusual persistence, but, instead of fine weather, was bringing up much cloud and rain from the Bay of Bengal. Showers, more or less heavy, fell on every day of the first half of the month, and during the 7th and 8th a small cyclonic depression passed across the south of the peninsula bringing 6 inches of rain to Colombo, 6½ inches to Madras, and 11 inches to Tuticorin. During the first fortnight the rainfall of Madras was four times, and of Negapatam twice, as great as the normal amount. For a few days subsequent to the 15th, Southern India participated in the fine weather prevailing in the north, but on the 19th a decided barometric fall occurred, and on the 21st another small cyclonic storm passed across the Coromandel coast, causing heavy rain and a strong wind at the stations of Madras and Cuddapah. At the former station the rain was exceptionally heavy and resulted in considerable floods and the bursting of the Red Hills Tank. After the passage of this depression little improvement occurred in the weather, which continued showery and unsettled.

The temperature returns shew that as in the north the weather over the whole of the peninsula was colder than usual, while the percentage of humidity in the atmosphere shewed an excess in the Carnatic and irregular differences elsewhere.

The weather of the month of December was, with some slight modifications, practically a continuation of that of November. In the north the barometer was, however, less steady, and the oscillations, which are characteristic of the pressure movements of this season in Upper India, were as numerous as usual. In consequence the state of the sky in the Punjab and neighbouring parts of the North-Western Provinces and Rajputana underwent considerable changes, becoming cloudy and clear according as pressure fell or rose. On the 23rd and 24th this cloudiness became more than usually dense, and snow fell at Simla and Murree and rain over the plains of the Punjab and Central and North-Western Provinces. Over the Carnatic the weather though less unsettled than in November, yet continued very showery, and on the 17th a very decided barometric decrease occurred over the south of the peninsula, and a small cyclonic disturbance was formed over the south-west corner of the Bay, whence

it advanced to the coast on the 18th, occasioning very heavy rain in Southern India. On the Bombay side a slight barometric disturbance appeared about the 22nd, and rain fell at several stations in Bombay, the Berars, and the Deccan.

The circulation of the wind was about the normal. The axis of high pressure extending from North-Western India—generally from the Punjab or Rajputana—eastwards to Behar and Chutia Nagpur, held uninterruptedly during a large part of the month, while the lowest pressures were found equally constantly over Travancore, so that north-west winds were the prevailing current down the Gangetic plain, north winds over Bengal and north-east to east winds elsewhere. The returns at the close of the month shewed that the barometer had been above the average everywhere—most in the Punjab and the North-Western Provinces—while the depression of temperature noticed in the preceding month was just as general in December, though the amount of the deficiency was somewhat less. The variations of humidity from the average were slight and unimportant.

The following table gives the normal rainfall of November and December and the departure of the rainfall of the months of November and December of the present year from the average. It will be seen that over Northern India, from the Punjab and Sind to Bengal, there was less than the average amount, but that in Assam and over the Central Provinces, the Berars, and southern parts of the country there was an excess, which varied from a small and insignificant departure in Assam to a very large excess in the Carnatic and Ceylon :—

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House on Friday, the 30th January, 1885.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.P., G.C.B., G.C.M.G., P.C., G.M.S.I., G.M.I.E., *presiding*.
His Honour the Lieutenant-Governor of Bengal, K.C.S.I., C.I.E.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
The Hon'ble J. Gibbs, C.S.I., C.I.E.
Lieutenant-General the Hon'ble T. F. Wilson, C.B, C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble T. C. Hope, C.S.I., C.I.E.
The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.
The Hon'ble Mahárájá Luchmessur Singh, Bahádur, of Durbhunga.
The Hon'ble J. W. Quinton.
The Hon'ble T. M. Gibbon, C.I.E.
The Hon'ble W. W. Hunter, LL.D., C.S.I., C.I.E.
The Hon'ble H. J. Reynolds.
The Hon'ble Rao Saheb Vishvanath Narayan Mandlik, C.S.I.
The Hon'ble Peári Mohan Mukerji.
The Hon'ble H. St. A. Goodrich.

NEGOTIABLE INSTRUMENTS ACT, 1881, AMENDMENT BILL.

The Hon'ble MR. ILBERT moved that the Report of the Select Committee on the Bill to amend the Negotiable Instruments Act, 1881, be taken into consideration. He said:—

"This Bill proposes to amend in certain matters of detail one of the important codifying measures which were passed into law by my learned predecessor Mr. Whitley Stokes. It was introduced at the suggestion of some leading bankers, who pointed out that the Indian Negotiable Instruments Act imposed on persons dealing with bills of exchange the observance of certain formalities which, though they survive in text-books, have become obsolete in modern mercantile practice, and are not required by the recent English Statute on the same subject.

"Accordingly, we proposed so to amend the Indian Act as to assimilate it in those points with the English Statute, which may be regarded as a later and revised edition of the law.

"The papers which have been submitted to us since the Bill was introduced have brought to our notice certain other provisions of the English Statute which may, in our opinion, be advantageously inserted in the Indian Act.

"We propose, in accordance with suggestions which have been made in these papers, to provide machinery whereby the owner of a lost bill or note can get a duplicate from the drawer or maker; to declare that presentment of a bill through the post office, when such presentment is authorised by agreement or usage, shall be sufficient; to make it clear that the demand which is required to be made by a notary public for the purpose of rendering a protest valid need not be made by the notary in person; and to provide, as in the English Statute, that in certain cases noting shall be deemed equivalent to protest.

"In dealing with these matters the view on which we have proceeded is that we can, as a general rule, with safety and propriety go as far as the English legislature has thought fit to go in the direction of relaxing formalities, but that we ought not to go further. With respect to one provision we have not thought it advisable to go quite so far. Having regard to the difference between the postal arrangements in England and in India, we think that when presentment of an instrument is made by post it should in this country be made by registered letter.

"In the clauses of the Bill relating to notaries public we have made no alteration. Perhaps I ought to explain to the Council how it is that we come to be dealing with notaries public under this Bill. The office of notary public, as the Council are doubtless aware, is one of great antiquity. In France and other Continental countries the notary public plays a very important part, and his intervention is constantly required in the legal transactions of everyday life. In countries under the English law his functions are of a much more limited character, and the most important branch of his practice is connected with certain formalities relating to bills of exchange and promissory notes. Nevertheless, the English notary public enjoys all the prestige attaching to the membership of an ancient and venerable profession; he derives his authority from no less a personage than the Archbishop of Canterbury, and he is supposed to act under the control of a mysterious body known as the Court of Faculties. In India, as might be expected, the members of this profession are scarce. In Calcutta you may entertain a notary public unawares, but throughout British India these archiepiscopal emissaries are few and far between. Under these circumstances the Government of India thought it might be, for the convenience of the mercantile public if it established what may be called a local manufacture of notaries public. Accordingly, we have appointed persons to be notaries public under the Negotiable Instruments Act, and, having appointed them, we have laid down rules for their guidance and fixed the fees which they are to take. As these persons are our own officers, we can, of course, regulate their proceedings as we please, but we think it advisable to give express legislative recognition to the executive arrangements which we have made; and that is what we propose to do by the Bill. It has been suggested that we ought to go further and take power to regulate the proceedings of notaries public appointed in England but exercising their functions in India. It may be that if I proposed to take this power I should be charged with infringing the prerogatives of the Archbishop of Canterbury or of the Court of Faculties. This is a charge which I should be most unwilling to incur, and which it is not at all necessary that I should incur, because I feel sure that the procedure and fees of the two classes of notaries—those appointed in England and those appointed in India—will in practice assimilate themselves to each other.

"On the other hand, it has been suggested that we might dispense with the intervention of notaries public in any cases under this Act, and might adopt a provision of the recent English Statute, which says that where the services of a notary public cannot be obtained 'any householder or substantial resident of the place' may act in his stead. If we had not established a liberal supply of local notaries public under the power to which I have referred, some such provision would be doubtless very useful. As it is, I think it would be desirable to avoid the use of a phrase so pregnant of litigation as the phrase 'substantial householder.' I believe that there is a reported case in which the question whether a village tailor was or was not a substantial householder within the meaning of an Indian Regulation was fought up to the Privy Council. I have not refreshed my memory of the case by looking up the report, and therefore I am not in a position to say how far the argument turned on the question whether the tailor represented only a fractional part of a householder. But, however that may be, the case is sufficient to show that the use of any such phrase might provide an inconveniently wide scope for the exercise of forensic ingenuity.

"These are the only points in connexion with the amended Bill to which I need direct the attention of the Council, except perhaps a suggestion, which has

proceeded from the Bank of Bengal, that we ought to declare a particular section of the Contract Act as applicable to negotiable instruments. This is the section (45) which enacts that—

'When a person has made a promise to two or more persons jointly, then, unless a contrary intention appears from the contract, the right to claim performance rests, as between him and them, with them during their joint lives, and, after the death of any of them, with the representative of such deceased person jointly with the survivor or survivors, and, after the death of the last survivor, with the representatives of all jointly.'

"It has been suggested that this section might have an inconvenient effect if applied to joint promissory notes and bills of exchange. I am not aware of any case in which it has been held to be so applicable, and, if the question were to be argued, I am disposed to think that the application of the section would be held to be sufficiently limited by the express saving of any usage or custom of trade, and by the provisions of the law with respect to partners, trustees and executors. But, however this may be, I think that, if any amendment of the law in the direction suggested by the Bank of Bengal is necessary, it might be more appropriately embodied in a Bill for amending the Contract Act, since there may well be other cases besides those of negotiable instruments from which the applicability of this section ought to be excluded."

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

TRANSFER OF PROPERTY ACT, 1882, AMENDMENT BILL.

The Hon'ble MR. ILBERT also moved that the Report of the Select Committee on the Bill to amend the Transfer of Property Act, 1882, be taken into consideration. He said:—

"This is another Bill for amending one of the codifying Acts, and its main object is to give a more workable form to the power of exemption which is contained in one of the introductory sections of the Transfer of Property Act.

"I explained so fully on the occasion of obtaining leave to introduce this Bill the reasons which made some amendment of this section necessary, that I need not recapitulate them now, and I will content myself with stating the conclusions to which the Select Committee have come as to the form which the amendment should assume.

"With regard to the exemption from those sections which require certain instruments to be registered, we are clearly of opinion that the exemption should be local, as proposed by the Bill.

"Then comes the power to exempt from section 41, which deals with transfers by ostensible owners. With regard to this section, there is much difference of opinion among those whom we have consulted, first, as to whether there should be any exemption from this section at all, and then as to the form which the exemption, if any, should assume. The conclusion to which we have come is that the section merely embodies a rule of equity which the Courts should follow, and which they probably would follow, even if it were not expressly enacted by the Act. We think, therefore, that it should be in force wherever the Act is in force, and that no power to exempt from it is necessary or desirable.

"The last clause of the Bill as introduced related to a section which declares in what cases a power of sale or a mortgage is to be valid—a section which was the subject of much discussion at the time when the Transfer of Property Bill was being framed, and with respect to which the views of the Law Commission, to whom the Bill was referred at an early stage, were not identical with those which ultimately prevailed in the Select Committee of this Council and in the Council itself. The conclusion of the Committee and the Council was that such powers of sale should be declared valid only to the extent to which they were previously valid in accordance with general usage. And to give effect to

that view the Bill made the power of sale valid in cases where the mortgage was a mortgage in the English form and neither the mortgagor nor the mortgagee was a Hindu, a Muhammadan or a Buddhist, and also in cases where the mortgaged property was situate within the towns of Calcutta, Madras, Bombay, Karáchí or Rangoon. Whether the particular conclusion at which the Committee and the Council then arrived was right or not I do not propose to discuss. There is a great deal to be said on both sides of the question, but the Select Committee on the present Bill thought they ought not to re-open the discussion or to alter the general lines on which the section is framed. We think it will be sufficient so to amend it as to make its meaning clear and its provisions more logically complete.

"In the course of the discussions on the Bill it was suggested to us that one of the sections of the Act might possibly be so construed as to impress the character of transferability on those occupancy-rights and other similar interests in land which by existing law or custom are not transferable. It was certainly not the intention of the framers of the Act to make by it any change in the law on this point, and we have added to the amending Bill a clause for the purpose of removing any doubts on this head."

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

INDIAN CONTRACT ACT, 1872, AMENDMENT BILL.

The Hon'ble MR. ILBERT also moved for leave to introduce a Bill to amend section 265 of the Indian Contract Act, 1872. He said:—This section provides as follows:—

'In the absence of any contract to the contrary, after the termination of a partnership, each partner or his representatives may apply to the Court to wind up the business of the firm' to provide for the payment of its debts, and to distribute the surplus according to the shares of the partners respectively.

'*Explanation*.—The Court in this section means a Court not inferior to the Court of a District Judge within the local limits of whose jurisdiction the place or principal place of business of the firm is situated.'

"The section has been the subject of various decisions by the Calcutta and other High Courts, but, whatever interpretation is correct, it is clear that its effect is to bring on the files of District Judges a number of unimportant suits which can be equally well adjudicated by the subordinate Courts. The Calcutta High Court has brought to notice that the section has caused the District Judges' Courts to be swamped with a number of petty cases, and has suggested that it should be so amended as to give jurisdiction in this class of cases to some of the subordinate Courts; and it is with the object of making this amendment in the law that the Bill I am now asking leave to introduce has been prepared."

The Motion was put and agreed to.

INDIAN PORTS ACT, 1875, AMENDMENT BILL.

The Hon'ble MR. ILBERT also presented the Report of the Select Committee on the Bill to amend the Indian Ports Act, 1875.

ACT XXII OF 1881 AMENDMENT BILL.

The Hon'ble MR. QUINTON presented the Report of the Select Committee on the Bill to amend Act XXII of 1881.

OUDH ADDITIONAL JUDICIAL COMMISSIONER'S BILL.

The Hon'ble MR. QUINTON also moved that the Bill to provide for the temporary appointment from time to time of an Additional Judicial Commissioner for Oudh be taken into consideration. He said:—

"When introducing this Bill a fortnight ago, I explained to the Council the circumstances which called for legislation on the subject, and the urgent necessity which at present exists for strengthening, at least temporarily, the Court of the Judicial Commissioner of Oudh. Since then I have received a telegram from the Lieutenant-Governor and Chief Commissioner, in which His Honour expresses an opinion that the state of judicial business in the province renders it both urgent and important, in the public interest, that the appointment of an Additional Judicial Commissioner should be legalised without delay.

"I therefore feel it incumbent on me to ask the Council to take the Bill into immediate consideration with a view to passing it to-day.

"It is very short, consisting only of four sections.

"Section 1 is introductory, and brings the Act into operation at once. Section 2 enables the Local Government, from time to time, with the previous sanction of the Governor General in Council, to appoint any person it thinks fit to be an Additional Judicial Commissioner, and fixes the term of office at the pleasure of the Local Government. Section 3 empowers the same Government to prescribe the jurisdiction and powers of the Court of the Judicial Commissioner to be exercised by the Additional Judicial Commissioner, and the Judicial Commissioner to divide the work of the Court in accordance with such general directions. And, lastly, section 4 makes applicable to the Additional Judicial Commissioner, while exercising such jurisdiction and powers, all enactments applicable to the Judicial Commissioner.

"The effect of the amendment to section 3 which I shall in the next Motion ask the Council to accept is to enable the Additional Judicial Commissioner to give assistance to the Judicial Commissioner, not merely in the trial of civil appeals as provided by the Bill, but also in the disposal of revenue and criminal cases.

"The reasons for the alteration will be found in a letter from the Lieutenant-Governor, printed as paper No. 1 relating to the Bill, in which Sir A. Lyall points out that it is very desirable that the Additional Judicial Commissioner should be able to assist the Judicial Commissioner in any branch of the work of the Court which the Judicial Commissioner may find convenient. For instance, if the latter officer be engaged in trying a protracted civil suit, it would be to the advantage of public business if his colleague could deal with criminal references which require punctual attention."

The Motion was put and agreed to.

The Hon'ble MR. QUINTON also moved that, in section 3 of the Bill, for the words "the Oudh Civil Courts Act, 1879," the words "any enactment for the time being in force" be substituted.

The Motion was put and agreed to.

The Hon'ble MR. QUINTON also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

The Council adjourned to Friday, the 6th February, 1885.

R. J. CROSTHWAITE,
Offg. Secy. to the Government of India,
Legislative Department.

FORT WILLIAM;
The 5th February, 1885.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 4th FEBRUARY 1885.

GENERAL REMARKS.—Rain has fallen throughout the Punjab and the North-Western Provinces and Oudh, and in many districts in Bengal and in Assam. Slight rain has also fallen in places in the Central Provinces, in the Central India and Rajputana States, and in Chingleput and Hyderabad, and in Tavoy in British Burma.

Harvest operations continue in several districts in Madras, the outturn is generally below the average. More rain is still wanted in Bellary, Anantapur, and parts of Karnul, elsewhere prospects are reported to be fair. In Mysore the crops are in fair condition, but future prospects depend upon early rains. In Coorg the situation is the same as last week.

In Bombay the *rabi* harvest has commenced in places, and the condition of the standing crops is generally good. Scarcity of fodder and drinking water continues in parts of the Southern Mahratta districts.

The recent rain in the North-Western Provinces and Oudh and in the Punjab has been beneficial to the crops, and agricultural prospects are generally very favourable. In the Berars *rabi* prospects are good, and standing crops are progressing in the Nizam's Territories. In the Central Provinces, the Central India and Rajputana States, standing crops promise well.

The rain which fell in Bengal during the past week has improved the *rabi* crops generally, but has injured the prospects of the poppy crop in Shahabad and Saran. *Amun* paddy has been nearly harvested and the cultivation of early paddy has commenced in places. Gathering of the early *rabi* crops continues. Seasonable weather prevails in Assam, and lands are being prepared for the *aus* crop. Harvest operations have been nearly completed in British Burma.

Cholera is abating in Coimbatore and Tanjore and is prevalent in Prome and a part of the Amherst district of British Burma. In other Provinces the public health is generally good.

Prices are generally stationary.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(Feb. 4th)		
Bellary . . .	*Nil*	Standing crops, wet crops in parts, withering from want of rain; harvest paddy and dry grains, yield below average.
Kurnool . . .	„	Standing crops good, except in one division and in parts of 3 taluks, where they are withering from want of rain; harvest dry grains and pulses, yield below average; smallpox in 3 taluks.
Ganjam . . .	„	Cholera slight; cattle-disease prevalent.
Kistna . . .	„	Standing crops generally good; harvest paddy; river one foot over anicut; fever and smallpox exist; 8 deaths from cholera.
Chingleput (Madras) .	Average ·03	Standing crops in parts of two taluks affected by insects; harvest, paddy, outturn below half the average; smallpox and cattle-disease exist; 83 deaths from cholera.
Coimbatore . . .	*Nil*	Standing crops, wet good; dry very indifferent; harvest wet and dry crops, outturn wet about average, dry below average; fever exists; cholera abating, 228 deaths.
Tanjore . . .	„	Rivers 1 to 4 feet; standing crops generally good; harvest wet and dry crops, outturn below average; cholera abating; 340 deaths.
Madura . . .	„	Fever prevails; 110 deaths from cholera.
Malabar . . .	„	Harvest of second crop paddy over in 5 taluks and continues in others; fever exists; smallpox and cattle-disease slight; 87 deaths from cholera.
Travancore . .	„	Harvest second crop paddy, yield good; smallpox exists; cholera prevalent; 8 deaths at Trevandrum. *General Remarks.*—General prospects fair, except in parts of Bellary and Anantapur.
Bombay—(Feb. 4th)		
Karachi . . .	*Nil*	Weather cloudy; river at Kotri on 1st 6 feet 7 inches against 2 feet 11 inches on same date last year; fever in 7 talukas; cattle-disease in 4 talukas, loss of 43 buffaloes and 33 cows and bullocks; cholera in Ghorabari and Jati talukas; 14 fresh cases, 7 deaths, 6 remaining sick; smallpox in 31 villages, 22 fresh cases; deaths; 52 remaining; *rabi* crops coming on; prices—wheat, red rice, and *bajri* in Karachi 26, 28, and 45, in Dadu 36, 44, and 41; in Ghorabari 22, 40, and 36 and in Mirpur Batoro 26, 46, and 40 lbs. per rupee respectively.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Hyderabad . . .
